

2023 Summer Photo Contest Winner- William Lee (Seoul, South Korea)

Message from the Director

Dear Students,

I hope this message finds you well. For this newsletter, I want to highlight our [summer 2024 faculty-led programs and internships](#) to students. Both are wonderful ways to spend part of your summer abroad. I encourage all students to review our [program offerings](#) and apply by February 5, 2024. Summer programs are a great opportunity for students looking to supplement junior year study abroad, for STEM students, athletes, or anyone hoping to complete degree requirements abroad but not able to spend extended time away from BC during the academic year; there is no GPA requirement for summer programs.

Students who applied for a semester or academic year program will be notified in early to mid February of their program and their status. Students should carefully review their notifications and be prepared to move forward with any instructions, particularly in regard to fall or full-year programs.

For first-year students and students who missed this year's [semester study abroad deadline](#), our office will begin advising for semester abroad programs again in April. Please stay tuned for more information later this semester.

Regards,

Summer Study Abroad 2024 Deadline

Final call for summer 2024 applications. Some classes are already filled and have waitlists. However many courses are still accepting applications. The application deadline for BC summer faculty-led programs and internships abroad is Feb. 5, 2024. Students are accepted on a rolling basis until spots are filled. You can find more summer information on the OGE website.

What's next? Admitted students will need to confirm their participation by February 20. This saves your place in the program. In early March OGE will confirm or "green-light" the programs. You can purchase your airline ticket after receiving the program confirmation email in early March. Pre-departure meetings will be held in April.

Summer Program Highlights Faculty-led programs fulfill major/minor requirements in addition to some of the core requirements. Here is a list of programs that are accepting students or who have an open waitlist:

Fulfill Major/Minor Requirements

Art Studio

[Imagination and Creativity in the Irish Landscape](#)
