Spring 2022  
Not open to students who have completed their Mathematics Core Curriculum Requirement without permission of the Department Chairperson (except for Psychology majors completing their second mathematics corequisite).. This course, for students in the humanities, the social sciences, School of Education, and School of Nursing, is an introduction to finite combinatorics and probability, emphasizing applications. Topics include finite sets and partitions, enumeration, probability, expectation, and random variables.  
Credits: 3  
Room and Schedule: Stokes Hall 1055 MWF 11:00AM-11:50AM Satisfies Core Requirement: Mathematics  
Prerequisites: Permission of Department Corequisites: None  
Cross-listed with: None Frequency: Every Fall, Every Spring Student Level: Undergraduate  
Comments: None  
Status: Offered

MATH100405  
Finite Probability and Applications Binns, Fraser Malcolm Watt  
Spring 2022  
Not open to students who have completed their Mathematics Core Curriculum Requirement without permission of the Department Chairperson (except for Psychology majors completing their second mathematics corequisite).. This course, for students in the humanities, the social sciences, School of Education, and School of Nursing, is an introduction to finite combinatorics and probability, emphasizing applications. Topics include finite sets and partitions, enumeration, probability, expectation, and random variables.  
Credits: 3  
Room and Schedule: Fulton Hall 310 MWF 10:00AM-10:50AM Satisfies Core Requirement: Mathematics  
Prerequisites: Permission of Department Corequisites: None  
Cross-listed with: None Frequency: Every Fall, Every Spring Student Level: Undergraduate

MATH100701  
Ideas in Mathematics Petit, Nicolas  
Spring 2022  
Not open to students who have completed their Mathematics Core Curriculum Requirement without permission of the Department Chairperson (except for Psychology majors completing their second mathematics corequisite).. This course is designed to introduce the student to the spirit, beauty, and vitality of mathematics. The emphasis is on development of ideas rather than problem solving skills. Topics vary, but are typically chosen from diverse areas such as geometry, number theory, computation, and graph theory.  
Credits: 3  
Room and Schedule: Gasson Hall 203 MWF 09:00AM-09:50AM Satisfies Core Requirement: Mathematics  
Prerequisites: Permission of Department Corequisites: None  
Cross-listed with: None Frequency: Every Fall, Every Spring Student Level: Undergraduate

MATH110101  
Calculus II Belding, Juliana V Spring 2022  
MATH1101 is not open to students who have completed MATH1103 or MATH1105. Students contemplating majors in Chemistry, Computer Science/B.S., Environmental Geosciences, Geological Sciences, Mathematics or Physics should enroll in either MATH1103 (Spring) or MATH1105 (Fall). For further information about selecting your Math courses given your background, please see this link to the BC Math Department. MATH1101 is a second course in the calculus of one variable intended for biology, computer science, economics, management, and premedical students. It is open to others who are qualified and desire a more rigorous mathematics course at the core level. Topics include an overview of integration, basic techniques for integration, a variety of applications of integration, and an introduction to (systems of) differential equations.  
Credits: 4  
Room and Schedule: Champion Hall 231 MWF 12:00 Noon-12:50PM;M 06:00PM-07:30PM Satisfies Core Requirement: Mathematics  
Prerequisites: None Corequisites: None Cross-listed with: None

MATH119101  
Fundamentals of Mathematics II Farber, Ethan  
Spring 2022

Restricted to Lynch School of Education students.. As in MATH1190, this course emphasizes building conceptual understanding of the mathematics present in the emerging K-8 curriculum and on deepening the content knowledge. Topics drawn from geometry and measurement, data analysis, statistics, and probability will be developed. Problem solving and reasoning, applications, and making connections will be featured.

MATH170201  
The Making of the Moral Mind: Mathematics Ash, Avner D  
Spring 2022

How were the mathematical and scientific developments of the seventeenth century related to its philosophical and religious concepts, and how do these mathematical and philosophical innovations continue to shape the ways in which we think and act today? The world we live in today has been profoundly shaped by specific mathematical, technological and philosophical innovations that came at a crucial point in our history. But what were the most important of these, and are we better or worse off for them? Boston College students will engage these questions by going back to the origin of the modern world in the seventeenth century to study firsthand the birth of both modern algebra and calculus as well as modern moral philosophy via close study of three of the intellectual giants of the age: Descartes, Pascal and Leibniz.

Credits: 3  
Room and Schedule: Integrated Science Building 204 TuTh 03:00PM-04:15PM Satisfies Core Requirement: Mathematics

MATH220208  
Multivariable Calculus DEPT  
Spring 2022

This course is for students majoring in Chemistry, Computer Science/B.S., Geology, Geophysics, Mathematics and Physics, as well as other students who have completed Calculus II.. Topics in this course include vectors in two and three dimensions, analytic geometry of three dimensions, parametric curves, partial derivatives, the gradient, optimization in several variables, multiple integration with change of variables across different coordinate systems, line integrals, and Green's Theorem.

Credits: 0

MATH229001  
Number Theory for Teachers Belding, Juliana V  
Spring 2022  
This course is intended to focus on the wealth of topics that relate specifically to the natural numbers. These will be treated as motivational problems to be used in an activity-oriented approach to mathematics in grades K-9. The course will demonstrate effective ways to use the calculator and computer in mathematics education. Topics include prime number facts and conjectures, magic squares, Pascal's triangle, Fibonacci numbers, modular arithmetic, and mathematical art.

MATH331001  
Introduction to Abstract Algebra Howard, Benjamin V  
Spring 2022  
Students may not take both MATH3310 and MATH3311. This course studies four fundamental algebraic structures: groups, including subgroups, cyclic groups, permutation groups, symmetry groups, and Lagrange's Theorem; rings, including sub-rings, integral domains, and

unique factorization domains; polynomials, including a discussion of unique factorization and methods for finding roots; and fields, introducing the basic ideas of field extensions and ruler and compass constructions.  
Credits: 3  
Room and Schedule: Campion Hall 200 MWF 02:00PM-02:50PM Satisfies Core Requirement: None

MATH445501  
Mathematical Problem Solving Cheung, Chi-Keung  
Spring 2022

This course is designed to deepen students' mathematical knowledge through solving, explaining and extending challenging and interesting problems. Students will work both individually and in groups on problems chosen from polynomials, trigonometry, analytic geometry, pre-calculus, one-variable calculus, probability and numerical algorithms. The course will emphasize explanations and generalizations rather than formal proofs and abstract properties. Some pedagogical issues, such as composing good problems and expected points

of confusion in explaining various topics, will come up, but the primary goal is mathematical insight. The course will be of particular use to future secondary math teachers.

Credits: 3  
Room and Schedule: Gasson Hall 309 MWF 02:00PM-02:50PM Satisfies Core Requirement: None

Prerequisites: MATH2210/ADMT2210 and MATH2216 and MATH2202 or Permission of the instructor required for students outside the Lynch School of Education.

MATH446001  
Complex Variables Madapusi Pera, Keerthi S Spring 2022

This course gives an introduction to the theory of functions of a complex variable, a fundamental and central area of mathematics. It is intended for mathematics majors and well-prepared science majors. Topics covered include complex numbers and their properties, analytic functions and the Cauchy-Riemann equations, the logarithm and other elementary functions of a complex variable, integration of complex functions, the Cauchy integral theorem and its consequences, power series representation of analytic functions, and the residue theorem and applications to definite integrals.

Credits: 3  
Room and Schedule: Gasson Hall 301 MWF 03:00PM-03:50PM Satisfies Core Requirement: None

MATH447001  
Mathematical Modeling Garvey, Paul R  
Spring 2022

This course introduces students to methods of mathematical modeling. The emphasis is on ways to analytically represent and study today's complex modeling problems, with cases from the natural and social sciences. Topics include the model building process, mathematical models of systems, and modeling data to discover properties and hidden characteristics. The calculus of finite differences and solutions to classes of difference equations will serve as the core mathematical theory taught in this course. The dynamics of certain linear and nonlinear models will be explored from various domains (e.g., population models, economic models, Markov models). The course will conclude with an introduction to mathematical graph theory and its application to modeling interacting and interdependent systems and networks.

# Music Academic

## Music Academic Courses: Summer 2021

No records found

## Music Academic Courses: Fall 2021

MUSA109001

Ear Training/Sight-Singing Lab Burgo, Michael

Fall 2021

For music majors. In meetings twice a week students learn to sing melodies by sight through a solfege system of drilling scales and intervals (sight-singing) and learn to notate melodic, rhythmic, and harmonic patterns (ear-training). The course principally helps students pass the Ear Training/Sight Singing requirement for the major but can benefit individuals in singing groups or those who wish to improve their practical musical skills. Preference given to majors & minors. Usually taken concurrently with MUSA 2100 Harmony or MUSA 3100 Chromatic Harmony.

MUSA110001

Fundamentals of Music Theory Gawlick, Barbara S

Fall 2021

An introductory music theory course designed for students with a strong interest in music. As a Core course it includes speculations on how musical discourse informs our perception and understanding of the world around us. Students learn to acquire skills in music notation and transcription. The following theoretical concepts will be extensively covered: notation of pitch and rhythm, scales, intervals, chords, and harmonic progression. Students leave the course prepared for upper level study in music theory and will begin to question broader issues concerning the meaning and use of music. Training in Keyboard Skills is required in the accompanying Lab

#### MUSA130001

History of Popular Music James, Donald J

Fall 2021

From the blues to country, jazz to rock, our nation's political, social, and economic history has been mirrored and influenced by the styles of popular music developed in our cultural melting pot. This course will provide an overall history of popular music in America, with emphasis upon mainstream popular music since 1954. Its focus will be on the independence and interdependence of black and white musical cultures in America. Students will learn stylistic developments in popular music and acquire interpretive strategies, including methods of aural analysis that will view popular songs as historical texts and as autonomous works of art.

#### MUSA132001

Introduction to Musics of the World Lucas, Ann E

Fall 2021

This course provides an introduction to selected musical traditions from around the world, in their cultural contexts. Our main goals are to study the connections between music and other cultural features and institutions, to become familiar with the features of major musical styles from the cultures studied, and with basic concepts in ethnomusicology and comparative

musicology. Case studies include Native North and South American; Western, Central, and Southern African; Arabic; Persian; Hindusthani; Karnatak; Javanese; and Japanese musics.

Musical training and background are not required and are not presumed. Fulfills World Music requirement in Major; fulfills x-cultural requirement in Minor

#### MUSA170101

Aesthetic Exercises: Engagement, Empathy, Ethics Callahan, Daniel

Fall 2021

In this course you will hone your perceptual and critical faculties on a range of artworks and performances traversing media and frames, from ancient sculpture to contemporary sports. You will explore how differences between media and art forms affect representation, meaning, and reception. You will define and redefine art. You will read aesthetic theorists from Plato to YouTube users. Most importantly, you will lavish attention on your own embodied experience to understand what constitutes aesthetic engagement, with whom or what you empathize in aesthetic experience, and how, if at all, aesthetic exercises better your life and the lives of others.

MUSA220501  
Music of the Classic Period McGrann, Jeremiah W  
Fall 2021  
This course will consider the musical trends of the eighteenth and early nineteenth centuries (c. 1750-c. 1815) that are characterized by the movement towards simplicity in melody and a clarification of harmonic language. While music that served as a transitional style from the Baroque period will be the starting point for this course, in large measure, the focus of the course will be on the music of the two great composers who lived and worked in or around Vienna in the period 1780-1800: Haydn and Mozart. Fulfills Music Period course in Major and Minor.

MUSA220901  
Music of the Modern Era Callahan, Daniel  
Fall 2021  
This is a study of the music of the twentieth century, including concepts, ideas, techniques, compositional materials, and analytical principles of the music, as well as a historical, chronological survey of the composers and compositions of the modern era. The course will include a study of the twentieth-century masters, including: Debussy, Ravel, Stravinsky, and Schoenberg; nationalist composers like Bartok, Britten, and Copland; and the flowering of avant-garde music since 1945, including electronic music. A discussion of the development of Jazz and American Popular Song will be included. Required in the Music Major; fulfills Music Period course in Minor.

MUSA230701  
Musics of Asia Dineen, Douglass Fall 2021  
This course offers an approach to Asian culture focusing on music and the performing arts. Case studies from India, Tibet, China, Japan, Korea, and Indonesia highlight the profound richness of musical experience seen throughout Asia while providing the foundation for a broader analysis of music-as-culture. Examining how music is deployed--in religious expression, political and social strategies, identity formation, and entertainment--reveals both continuities in musical uses/meanings and diversity in its cultural, social, and personal dimensions. This course locates contemporary Asian performing arts in their historical contexts, considers the transformations that take place as music flows across borders, and examines the interplay between global information networks and local forms and representations.

MUSA230901  
Music and Culture in the Middle East Lucas, Ann E  
Fall 2021  
This course explores the relationship between different music traditions of the Middle East and their respective cultural contexts. It addresses issues of music's structure and content vis-à-vis its role in social, political, and religious situations in the region; the ways that these forces influence musical aesthetics, while also addressing the role of music in the Middle East historically. The cultural areas covered in this class include the Arab World, Iran, Turkey, and Afghanistan.

MUSA241001  
The Music Industry James, Donald J Fall 2021  
This course examines the music industry -broadly considered- from song publishing in the eighteenth century through the streaming era today. Taking a historical approach, we will place special emphasis on creative and cultural labor and the ways in which those who create and produce music have negotiated transformation in media, technology, and business. While our focus will be primarily on the US popular music industry, we'll periodically consider industry in the Western classical tradition and world musics. Topics will include song publishing, copyright, performance rights, labor unions, the record industry, social networks, and streaming platforms.

Chromatic Harmony Gawlick, Ralf Y  
Fall 2021  
This course covers the basic principles of chromatic progression. The proper use of secondary dominants, diminished seventh chords, and augmented triads precedes an in-depth study of the harmonization of Bach chorales, the concept of modulation using modal exchange, and the introduction of Neapolitan sixth and augmented sixth chords. We will study via harmonic and form analysis the works of great composers including Bach, Haydn, Mozart, Beethoven, Schubert, Schumann, Chopin, Brahms, Wolf, Mahler, and Wagner. Training in Keyboard Skills is required in the accompanying Lab.

MUSA310601  
Counterpoint I Park, Benjamin M Fall 2021  
In this course we will study the fundamentals of two- and three- part polyphonic styles. Using the principles of species counterpoint, we will acquire a dependable contrapuntal technique to write short compositions, first in two parts and eventually in three. Assignments will include short works in free imitation, strict canon, and invertible counterpoint. Our studies will include a brief survey of the historical origins of Western polyphony and analysis of contrapuntal compositions of the Baroque period.

MUSA311401  
Jazz Harmony and Improvisation Lee, Thomas O  
Fall 2021  
This music theory course will focus on the study of chord structures, chord substitutions, chord scales, composition, and improvisation as they have been codified by contemporary jazz musicians. The technical innovations in the music of Sonny Rollins, Thelonious Monk, Charlie Parker, and Miles Davis will be analyzed and discussed. Special attention will be placed on learning how to improvise on the great standards of the jazz repertoire. Additional studies will include the following: piano lead sheet arrangements; ii-V-I keyboard harmony, re-harmonization, and composing original tunes based on chord structures of standards by Berlin, Kern, Gershwin; rhythm changes; and the blues.

Seminar in Composition Gawlick, Ralf Y  
Fall 2021  
The course will be conducted in two parts. One: class will meet once a month. Works in both tonal and twentieth century idioms will be discussed and used as models for student compositions. Two: each student will meet once a week with the instructor for a private studio composition lesson. The student will complete, by the end of the semester, three original compositions: theme and variations, a movement for string quartet, and a song cycle for voice and piano. The purchase of Finale music software, created by Coda Music Technology, Mac or PC version, is required for this course.

Senior Seminar Noone, Michael J Fall 2021  
For music majors in their senior year (exception only by special permission). Through supervised reading, research, writing, discussion, and performance, this seminar will help majors develop a framework for synthesizing their various courses into a coherent whole, with special emphasis in the area of strongest interest (theory, composition, history, cross-cultural studies, or performance). It will also help prepare students for examinations in listening repertoire and ear- training (see major requirements).

## Music Academic Courses: Spring 2022

MUSA109001  
Ear Training/Sight-Singing Lab Burgo, Michael  
Spring 2022  
For music majors. In meetings twice a week students learn to sing melodies by sight through a solfege system of drilling scales and intervals (sight-singing) and learn to notate melodic, rhythmic, and harmonic patterns (ear-training). The course principally helps students pass the Ear Training/Sight Singing requirement for the major but can benefit individuals in singing groups or those who wish to improve their practical musical skills. Preference given to majors & minors. Usually taken concurrently with MUSA 2100 Harmony or MUSA 3100 Chromatic Harmony.

MUSA110001  
Fundamentals of Music Theory Park, Benjamin M  
Spring 2022  
An introductory music theory course designed for students with a strong interest in music. As a Core course it includes speculations on how musical discourse informs our perception and understanding of the world around us. Students learn to acquire skills in music notation and transcription. The following theoretical concepts will be extensively covered: notation of pitch and rhythm, scales, intervals, chords, and harmonic progression. Students leave the course prepared for upper level study in music theory and will begin to question broader issues concerning the meaning and use of music. Training in Keyboard Skills is required in the accompanying Lab

History of Popular Music McCool, Jason

Spring 2022

From the blues to country, jazz to rock, our nation's political, social, and economic history has been mirrored and influenced by the styles of popular music developed in our cultural melting pot. This course will provide an overall history of popular music in America, with emphasis upon mainstream popular music since 1954. Its focus will be on the independence and interdependence of black and white musical cultures in America. Students will learn stylistic developments in popular music and acquire interpretive strategies, including methods of aural analysis that will view popular songs as historical texts and as autonomous works of art.

Introduction to Musics of the World Dineen, Douglass

Spring 2022

This course provides an introduction to selected musical traditions from around the world, in their cultural contexts. Our main goals are to study the connections between music and other cultural features and institutions, to become familiar with the features of major musical styles from the cultures studied, and with basic concepts in ethnomusicology and comparative musicology. Case studies include Native North and South American; Western, Central, and Southern African; Arabic; Persian; Hindusthani; Karnatak; Javanese; and Japanese musics.

Musical training and background are not required and are not presumed. Fulfills World Music requirement in Major; fulfills x-cultural requirement in Minor

MUSA213001  
Education Through Music Gawlick, Barbara S Spring 2022  
This is a course in general education, especially appropriate for majors and minors in education and music. The objectives of this course are to equip prospective teachers with strategies and methods of teaching and integrating music within the PreK -12 curriculum and to develop basic music competencies and understanding to engage a student's artistic, emotional, cognitive, physical, and psychological faculties. These objectives will be addressed through a variety of experiences: assigned readings, writings and research projects on topics of music philosophy and aesthetics, theories of children's musical development/learning, teaching methodologies and materials, hands-on activities, and in-class teaching opportunities.

MUSA230301  
Afro-Brazilian Musical Worlds Dineen, Douglass  
Spring 2022  
This course will take students on a deep dive into the rich worlds of Afro-Brazilian music and culture. Unpacking quintessentially Brazilian forms, such as samba and bossa nova, we will discover a complex (and sometimes uncomfortable) combination of African- and European/American-derived elements. Next, we will home in on the music of Candomblé. In this Afro-Brazilian religious form, students will discover direct sonic and cultural connections to African practices and trace close links to other communities in the African diaspora. We will also focus on capoeira, a Brazilian art combining music, dance, and martial arts, and on the musics of carnival in Bahia--the source and center of Afro-Brazilian culture. Throughout the semester, we will consider music's roles in identity formation, in the making of national stories, and in social and cultural resistance to those narratives. Students will experience Afro-Brazilian music culture through listening, study, and embodied engagement (i.e., music making and moving to it). There are no academic or music-skills prerequisites for this course.

MUSA230801  
Music in the Medieval Islamic World Lucas, Ann E  
Spring 2022  
This course examines the nature of music in the medieval Islamic world and its relationships with cultural factors that shaped the history of the Arabic, Persian, and Turkish speaking worlds after the rise of Islam. The course will cover a period of history from the rise of the Umayyad Caliphate (c. 660), through the Perso-Islamic empires of the thirteenth, fourteenth, and fifteenth centuries. Some aspects of music under the Safavid and Moghul Empires during the sixteenth century will also be addressed. Topics covered in this course include: the place of music in the context of Islamic philosophy, the function of music within the Islamic Caliphate, the use of music in Islamic mysticism and musical changes that occurred in response to the changing nature of Islamic Empire.

Seminar in Composition Lee, Thomas O

Spring 2022

The course will be conducted in two parts. One: class will meet once a month. Works in both tonal and twentieth century idioms will be discussed and used as models for student compositions. Two: each student will meet once a week with the instructor for a private studio composition lesson. The student will complete, by the end of the semester, three original compositions: theme and variations, a movement for string quartet, and a song cycle for voice and piano. The purchase of Finale music software, created by Coda Music Technology, Mac or PC version, is required for this course.

Dance to the Music: Choreomusicality from the Baroque Court to YouTube Callahan, Daniel

Spring 2022

This course will explore the changing relationships between music and dance on street, stage, and screen from the seventeenth century up to the present. We will consider a range of interrelated topics such as music and dance as text (score, orchesography, choreography) versus as performance and/or improvisation, the performance of power and of identity (race, gender, sexuality, class), spectacle and the gaze, audiovisual synchronicity, film, modernism and the avant-garde, and popular culture. Case studies will be drawn from Baroque dance, ballet, tap, modern dance, hip-hop, and the contemporary music video. Students will share

weekly responses with their peers, write a paper on a live performance they attend together, and complete a final research paper and presentation.

Beethoven

McGrann, Jeremiah W Spring 2022

An introduction to Ludwig van Beethoven (1770-1827), tracing his intellectual development within the culture and society of the Rhenish Enlightenment, his musical enrichment of the High Classicism of Mozart and Haydn (among others), and the heroic style of his best known works to his feelings and expressions of musical and social isolation in his last years, and his problematic identity with the burgeoning romantic movement in Germany. Emphasis will be on the music itself, concentrating on compositions from three genres: piano sonata, string quartet, and symphony. Also covered will be the concerto, his opera Fidelio, and the Missa Solemnis.

The Beatles: From "Yesterday" to "Tomorrow Never Knows" James, Donald J

Spring 2022

Restricted to Music Majors and Minors only.. Everyone loves the Beatles. In this class, we explore why that is the case. We will chart the rapidly changing idiom of popular music in the 1960s and outline its interaction with various social, political, and cultural movements, such as "Beatlemania" and psychedelia. The primary source material for this class is the established canon of Beatles songs, albums, and films, which we will supplement with secondary articles, reviews, and interviews. This course will challenge you to listen critically to, and think deeply about, one of the most influential bands in the twentieth century.

## Music Performance Courses: Fall 2021

MUSP161501

Irish Fiddle/Experienced Beginner Falls Keohane, Sheila E  
Fall 2021

Performance course. For students who have at least one year's experience playing the violin, this class will help students continue in the development of violin technique. Students will learn more advanced Irish dance tunes with some beginning ornamentation (bowing and fingering). Students may take the experienced beginner class for more than one semester until they feel ready to move to the intermediate level. Violin rentals are possible. Fall participants may continue in spring semester, but new students may not enroll in spring semester.

MUSP162001

Traditional Irish Dance Haggan, Caitlin M  
Fall 2021

This course will introduce students to the traditional dances of Ireland, including solo step dance footwork and group set and cil dances. The class will include warm-ups, technique, and choreography, as well as occasional short readings, video viewings, and music listening exercises. Students will gain an understanding of Irish traditional musical rhythms, while physically embodying their intrinsic connection to the dance patterns. An uplifting and invigorating class. All levels welcome.

MUSP167001

Waaw Waaw BC

Mangin, Timothy R;Toure, Amadou L Fall 2021

This course specializes in sabar, a drumming and dance style of the Wolof people from Senegal. Performed in many contexts, the sabar is heard at baptisms, weddings, wrestling matches, political and community gatherings, the Black Panther soundtrack, and the urban dance music called mbalax. Students will learn the repertoire performed at these events in weekly classes taught by A. Lamine Toure, a master drummer from one of Senegal's oldest griot families. We welcome musicians, non-musicians, students, faculty, staff, African music fans, and members of the Boston community. We provide the drums. The ensemble is inspired by the Wolof expression "waaw waaw," a positive affirmation meaning "Yes!!", "That's Right," Good Job, and "Excellent." Our classes encourage collective participation, fun, and a deeper understanding of a millennia-old drumming tradition that continues to evolve as new technologies and musical styles emerge.

Introduction to Improvisation Knifin, Eric L

Fall 2021

Improvisation is a central feature of many Western musical styles. This course offers students the opportunity to learn how to improvise in jazz, blues and rock. In a hands-on manner, students are introduced to the fundamental concepts of improvising. No prior experience is necessary, and there is no prerequisite, but you should have at least some experience playing an instrument or singing. In addition to extensive in-class performance, accompaniment recordings are provided for practice outside class.

## Music Performance Courses: Spring 2022

MUSP161501  
Irish Fiddle/Experienced Beginner Falls Keohane, Sheila E  
Spring 2022

Performance course. For students who have at least one year's experience playing the violin, this class will help students continue in the development of violin technique. Students will learn more advanced Irish dance tunes with some beginning ornamentation (bowing and fingering). Students may take the experienced beginner class for more than one semester until they feel ready to move to the intermediate level. Violin rentals are possible. Fall participants may continue in spring semester, but new students may not enroll in spring semester.

MUSP162001  
Traditional Irish Dance Haggan, Caitlin M Spring 2022

This course will introduce students to the traditional dances of Ireland, including solo step dance footwork and group set and cil dances. The class will include warm-ups, technique, and choreography, as well as occasional short readings, video viewings, and music listening exercises. Students will gain an understanding of Irish traditional musical rhythms, while

physically embodying their intrinsic connection to the dance patterns. An uplifting and invigorating class. All levels welcome.

MUSP167001  
Waaw Waaw BC  
Mangin, Timothy R;Toure, Amadou L Spring 2022

This course specializes in sabar, a drumming and dance style of the Wolof people from Senegal. Performed in many contexts, the sabar is heard at baptisms, weddings, wrestling matches, political and community gatherings, the Black Panther soundtrack, and the urban dance music called mbalax. Students will learn the repertoire performed at these events in weekly classes taught by A. Lamine Toure, a master drummer from one of Senegal's oldest griot families. We welcome musicians, non-musicians, students, faculty, staff, African music fans, and members of the Boston community. We provide the drums. The ensemble is inspired by the Wolof expression "waaw waaw," a positive affirmation meaning "Yes!!", "That's Right," "Good Job, and "Excellent." Our classes encourage collective participation, fun, and a deeper understanding of a millennia-old drumming tradition that continues to evolve as new technologies and musical styles emerge.

Edifying Books on the Arab-Israeli Conflict Salameh, Franck  
Spring 2022

With the aim of gaining a deeper understanding of the antagonisms riving and riveting Arab and Jew, this course seeks to discuss edifying books on the Arab-Israeli conflict, analyzing their themes, probing their authors voices, examining temperaments, opinions, political engagements, and attitudes of self and other, and each of the actors/authors' narratives. The course will embark with a critical historical analysis of what is colloquially known as the Arab-Israeli conflict, bringing special attention to splintering empires Post-WWI (both in the Middle East and Europe,) delving into the complex unresolved legacies of multiple identities and the political and cultural conflicts that accompanied the emergence of a new Middle Eastern state system. The course will then proceed to the analysis of various narrative voices of the Arab-Israeli Conflict, interrogating key concepts such as identity, memory, state, homeland, nationalism, localism, diaspora, Zionism, Arabism, refugees, and citizenship from different Arab and Israeli purviews four Arab and four Israeli voices in total, all eight of which by definition advancing heated, temperamental, personal, seldom unbiased voices. The course will conclude with students selecting one additional book, as part of their Final Paper topic and class presentation, which they will read independently summarizing their books narrative and its authors voice and positionality (that is to say, how the authors identity and world of references inform his/her biases, beliefs, and attitudes relative to the Arab-Israeli conflict.)

Enrollment limited to freshmen, sophomores, and juniors The course requirements include ten to twelve hours per week of community service. In light of classic philosophical and theological texts, students in this course address the relationship of self and society, the nature of community, the mystery of suffering and the practical difficulties of developing a just society. PULSE students are challenged to investigate the insights offered by their readings in relationship to their service work. Places in the course are very limited.

Fall 2021  
Freshmen only The course introduces students to the Judeo-Christian Biblical texts and to the writings of such foundational thinkers as Plato, Aristotle, Augustine, Aquinas, Luther, Bacon, Descartes, Hobbes, Locke, Kant, Hegel, and Kierkegaard. The first semester considers the birth of the self-critical Greek philosophic spirit, the story of the people of Israel, the emergence of Christianity and Islam, and concludes with a consideration of medieval explorations of the relationship between faith and reason. Attention will also be paid to non-Western philosophical and theological sources.

PHIL116001  
The Challenge of Justice Pope, Stephen J  
Fall 2021  
This course introduces the student to the principal understandings of justice that have developed in the Western philosophical and theological traditions. Care is taken to relate the theories to concrete, practical and political problems, and to develop good reasons for choosing one way of justice rather than another. The relationship of justice to the complementary notion of peace will also be examined. Special attention is paid to the contribution of Catholic theology in the contemporary public conversation about justice and peace. Problems discussed may include human rights, hunger and poverty, and ecological justice.

The Art of Creativity: Crisis and Transformation Kearney, Richard

Fall 2021

Core Renewal: Enduring Questions

For Freshmen Only. The course begins with three stories of creation in the biblical account of Genesis, Greek myths of art-making and the classic philosophies of imagination in Aristotle and Plato. It then explores the modern paradigm of the productive imagination in Kant and existentialism—engaging key questions of humanism and theism, authenticity and sincerity, anxiety and authority. The course concludes with the philosophical and ethical challenges posed by the electronic and digital revolutions of the third millennium, asking: What is the human imagination in our postmodern culture of social media and virtual simulation? How do we move from crisis to transformation?

The Value of Work: A Philosophical Examination Lott, Micah

Fall 2021

This is an Enduring Questions course and is open to FRESHMEN only. You must take ENGL1728 with this course. "What role and significance does work have in flourishing lives and good societies?" This course pair offers Boston College students the opportunity to reflect on the significance and meaning of the human activity of work an activity that is likely to occupy a large portion of their lives. Around the globe, politicians promise "good jobs," and scholars discuss automation and "the future of work." But what is a good job? What form of value is most central to work as a part of a good life financial reward? social purpose? personal fulfillment? How do individuals and communities understand and achieve justice and meaning at work?

Philosophical Perspectives on Science Stan, Marius C

Fall 2021

This course is an examination of the scientific enterprise with the tools of modern analytic philosophy. Topics include: the structure of a scientific theory; evidence and knowledge in science; the nature of scientific explanations; and the role of values in science. As paradigmatic examples, we will examine major breakthroughs by Archimedes, Newton, Darwin, and Einstein. Open to science and pre-med majors.

PHIL221501

Telling Truths III: The Narratives that Shape Our Lives Hirsch, Kathleen A

Fall 2021

As we encounter injustice, conflicting visions of "the good," and different moral scales of behavior, rights and responsibilities, it is essential that we become aware of our own foundational narratives. What "wisdom stories" shape the way you think about yourself in relation to others? What narratives do you carry into encounters with conditions, attitudes and beliefs that are different from yours? In this course, students will have a rare opportunity to bring their weekly experience of service into a time of reflection, and into relation to some of the core narratives of the great spiritual traditions. We will read modern mystics, parables, and creative theologians, including: Anne Lamott, Etty Hillesum, Kendrick Lamar, and Parker Palmer. The conversation will continue as we write in and read from our journals, sharing stories and questions. Several short writing assignments will occur through the course of the term; a final, longer piece of substantive "spiritual reflection" will give students the chance to synthesize the fruits of observation, reading, and reflection. The aim of the course is to expand students' familiarity with the great narratives of grace and forgiveness, suffering and hope, as they engage in service, and to provide a setting in which they can become intentional about adopting narratives that will shape their lives.

PHIL235001  
Playing God: Technology and the Human Condition Storey, David E  
Fall 2021  
When asked whether God exists, Google futurist and inventor Ray Kurzweil, widely regarded as the prophet-philosopher of Silicon Valley, replied, "Not yet." Conventional wisdom has it that we are in the midst of a "techlash"--a backlash against the powerful and pervasive digital technologies developed in the first two decades of the twenty-first century that is sowing unintended psychological, political, and economic consequences. In this course, you will survey the philosophy of technology, including canonical figures such as Aristotle, Bacon, Martin Heidegger, and Hans Jonas--and contemporary scholars such as Hubert Dreyfus and Shannon Vallor, as well as popular authors such as Sherry Turkle and Jaron Lanier. In particular, we will explore the moral dimensions and the psychological, political, and economic consequences of digital and emerging technologies, including the internet, smart phones, social media, big data, genetic engineering, life enhancement and extension, virtual reality, and artificial intelligence.

PHIL245001  
Philosophies of Happiness Davenport, Anne A  
Fall 2021  
How do philosophers approach happiness? Is happiness defined by well-being, pleasure, emotional state, life satisfaction, or is it best approached through some kind of hybrid account? What are, moreover, the sources of happiness? We start with the challenge of human tragedy in Shakespeare's King Lear, drawing on Walter Kaufmann and on Stanley Cavell. We then compare and contrast Thomas More's utopian imagination with the skepticism of Michel de Montaigne.  
We return to utopian imagination with Francis Bacon and compare his views to Descartes (rationalist), Hobbes (materialist), and Pascal (pragmatist), raising the question of how Faith and reason enter into happiness. We consider John's Ray influential argument for God by design. We read Voltaire's Candide and Emile du Chtelet's Discourse on Happiness. We examine Diderot's formulation of happiness and Rousseau's contrasting view. We look at the distinctive way in which Rousseau privileges beauty and we pursue the topic of aesthetics in John Ruskin and Jane Addams. We end with Freud and Jean-Louis Chrtien.

PHIL314701  
Zen and Philosophy Johnson, David W Fall 2021  
This course focuses on the relation between Zen Buddhism and philosophy. It introduces the basic principles and tenets of Buddhism and provides an overview of the origins and historical development of the Zen school. Because the Neo-Daoist movement influenced the reception of Buddhism in China and shaped the distinctively Chinese form of Buddhism known as Chan (Zen), we will also examine Daoist discourse and practices as these emerge from the Daodejing and the Zhuangzi. In the latter half of the course we will look at the ways in which Zen has shaped Japanese philosophy by considering the doctrines of medieval thinkers such as Dogen as well as the views of the twentieth-century philosophers Nishida Kitaro and Kimura Bin.

PHIL315001  
Inductive Logic Atkins, Richard Fall 2021  
An inductive logic is a logic of evidential support. When inductive arguments are good, the premises provide a degree of support for the conclusion. In contrast, for valid deductive arguments, it is impossible for the premises to be true and yet for the conclusion to be false. Sometimes, deduction is characterized as necessary reasoning whereas induction is characterized as probable reasoning. In this course, we will examine what distinguishes deduction from induction, the varieties of inductive inference, and paradoxes that arise in inductive logic. Topics covered include inference to the best explanation, the probability calculus, Bayes's theorem, and paradoxes such as Goodman's riddle of induction and the paradox of the ravens.

PHIL352101  
Varieties of Feeling Cohen, Martin  
Fall 2021  
Philosophical, literary, artistic, and religious traditions are sources for descriptions and evocations of many kinds of profound and humanly compelling feelings that are not reducible to the labeled emotions. There are, for example, feelings of guidance and direction; feelings of discernment and heart-knowing; feelings of reverence and aesthetic contemplation; and feelings of communion. Feelings often play a role in ethical decision-making, as well as in love. Between the aridity of some forms of intellectualism, on the one side, and the facile advice to trust the gut and the immediacy of whatever intuition appears, on the other, there is a powerful realm of human feeling that calls out for rigorous inquiry. To ignore this realm is to overlook one way to cultivate depths of our humanity. Great literature is often a haven for acknowledging this differentiated realm of feeling that philosophy can benefit from considering. The ancient pillars of the Western discourse on Love, Plato's Symposium and the Biblical Song of Songs, suggest the vastness and potential goodness of feeling. The tripartite soul as conceived by Plato and Aristotle, in which the rational is assigned the task of supervising, controlling or persuading the spirited and appetitive parts, will be respectfully fathomed as a prelude to considering many refinements, qualifications and challenges to this hierarchy granting dominance to rationality.  
The era of Shakespeare, Cervantes and Montaigne issues one challenge; the romanticism of Wordsworth, Keats and Blake another; and a burgeoning body of philosophical and literary materials on feeling in the 20th century extends the unfolding of this formidable ancient conception. As the plenitude and variety of feelings are acknowledged, how must ethics be reconceived?

PHIL400101  
Feminisms and Philosophies of Difference McGill, Cherie  
Fall 2021  
What does it mean to call oneself (or someone else) a 'feminist'? In attempting an answer to this question, we will consider efforts to reveal, unravel, and remedy the conceptual, psychological, and economic dimensions of the oppression of women. We will discuss a variety of feminisms-- liberal, existential, radical--and their differing approaches to such 'feminist' issues as marriage and domestic violence, reproduction and pregnancy, work and sexual harassment, and the science of gender and gender difference. We will examine the relationship of sexism to racism, heterosexism, and class exploitation, and investigate the role of the concept of difference in creating and maintaining structural inequalities.

PHIL440501  
Greek Philosophy Byers, Sarah C Fall 2021  
This course is organized around the central philosophical questions asked and answered by philosophers in the ancient Greek-speaking world. Topics include theories of material bodies, change and time, elemental physics, and entities and their predicates; whether anything immaterial or immutable exists and, if so, its relation to the changing cosmos; the existence and nature of God or gods; the existence and nature of the human soul and its relation to the human body; the criterion of truth and the nature of language; the criterion of ethics; theories of animal and human cognition and motivation. We will consider Plato, Aristotle, and, more briefly, some pre-Socratic and post-Aristotelian authors such as Plutarch, Epictetus, and Plotinus.

PHIL442301  
Spanish-American Philosophy Gurtler, Gary  
Fall 2021  
This course is designed to give the student an opportunity to look at some fundamental philosophical issues regarding human nature and the origins and development of human thought from a fresh perspective. Unamuno's Tragic Sense of Life presents a critique of the rationalism of modern European thought by focusing on human life as dream, theater, and struggle. Octavio Paz, in The Labyrinth of Solitude, explores the meaning of human existence through the lens, or perhaps the mask, of the Mexican quest for identity at the end of the present century.

PHIL442901  
Freud and Philosophy Rumble, Vanessa P  
Fall 2021  
The course is designed to acquaint students with the scope and evolution of Freud's thinking and with significant developments in psychoanalysis since his time. Students will study and assess Freud's and Breuer's first formulation of the nature of hysteria; Freud's groundbreaking work in dream interpretation and the nature of unconscious processes; Freud's attempt to apply his novel theory of unconscious mechanisms to cultural anthropology as well as individual psychology; and the implications of the ongoing revisions in Freud's classification of the drives. Above all, we'll focus on Freud's attempt, over the course of many years, to account for the origin of human morality and guilt, and his ongoing assessment of the role of Judaism in his life and in his culture.

PHIL529501  
Modern Philosophy Solere, Jean-Luc Fall 2021  
From the early 17th to the end of the 18th century, reason asserted its autonomy and triumphed in the Age of Enlightenment, but at the same time reflected on its own limits. Through a series of themes and problems, the course presents the major philosophies (roughly, from Descartes to Kant) that have accompanied the development of scientific knowledge, the rise of the modern mind, and the transformation of Western societies. This comprehensive survey covers metaphysics, epistemology, ethics, and political philosophy, paying attention to the interconnection between ideas in these different domains (with for instance the centrality of the notion of law: laws of nature, political laws, moral law). It particularly highlights the logical development in the succession of questions and answers that characterize the evolution of philosophy in the modern times. The course will provide you with the central concepts of modern thought, so as to grasp the bases of today understanding of the world and of ourselves. Analysis of representative texts, class discussions, and writing assignments are designed to develop rigorous argumentation and expression skills. (NB: This course was previously offered as PHIL 4406; you cannot take it if you took PHIL 4406)

PHIL537201  
Patristic Greek I Schatkin, Margaret Fall 2021  
This course is continued in the spring as THEO5373 New Testament Greek II.. This two-semester course is designed for the student with no previous knowledge of ancient Greek to develop reading and translating skills in Patristic Greek language by mastering the fundamental principles of Greek grammar and syntax and acquiring a basic reading vocabulary. The student becomes familiar with the meaning of Greek words, their forms and structure, and their customary arrangement in sentences. A secondary goal of this course is to serve as a foundation for further studies in Patristic Greek.

PHIL538901  
Buddhist Ethics: Ancient and Modern Makransky, John J  
Fall 2021  
We first study classical Asian Buddhist ethical principles and practices, then a modern manual of Tibetan Buddhist theory and practice, including ethics. We then explore modern Engaged Buddhism in Asia and the West, including contemporary Buddhist reflections on social and economic justice, ecology, violence/non-violence and feminism. Daily mindfulness practice, based on class instruction, is included. Weekly writing of 3 pages, active class participation, two short papers, and a longer paper.

PHIL541901  
Capstone: A Life Well Lived DeChiara-Quenzer, Deborah Fall 2021  
Capstone classes may NOT be taken Pass/Fail. You may take only ONE Capstone class before graduation. Seniors only.. This course engages students in serious reflection on what it means to have "a life well lived." It is advantageous to do this reflection at this time in your life, as it affords you time and opportunity to shape your life going forward. What kind of life do you hope to live? What will bring you peace and satisfaction--dare we say, even happiness? Students will be asked to examine themselves by looking both backwards and forwards in many dimensions of their lives (education, ethics, relationships, career, etc.) while learning what others have said about having a meaningful life.

PHIL550001  
Philosophy of Law  
Van Rooy, Paul A Fall 2021  
This course aims to provide an overview of a number of core debates in contemporary philosophy of law. The primary concern will be to examine the relation between legal validity and the moral normativity of the law, that is, answers to the questions 'What is the law?' and 'Is there a (moral) duty to obey the law?' In addition to these more general questions, we will focus on several more specific questions pertaining to constitutionalism, including 'What is the relationship between a constitution and the rule of law?', 'What is the ground of judicial review?' and 'What connection, if any, is there between questions of legal theory and broader debates in contemporary political philosophy?'

#### PHIL550101

Politics of the Soul: Nietzsche, Leo Strauss, Carl Schmitt, the Good Life, and the Quest for Order  
Braman, Brian J Fall 2021  
There seems to be a permanent conflict between culture and politics. Should the organization of society serve the ends of politics (justice) or those of culture? Which type of polity is best able to promote culture and political life, that is the cultivation of greatness and true human excellence. In short, the political cannot be understood as one among other domains of culture. This course will explore this conflict between culture and politics by examining and close reading of the works of Nietzsche, Leo Strauss, and Carl Schmitt. In order to help structure our investigation of this conflict, we will read the above authors in light of the following questions: What does it mean to be human? What really is the good life? And what is the best regime?

Dante's "Divine Comedy" in Translation Shepard, Laurie  
Fall 2021  
Conducted in English. Elective for Italian major or minor. An introduction to and critical reading of the "Divine Comedy" (in English translation), one of the world's greatest epic poems, produced by "the chief imagination of Christendom" (Yeats). Dante's journey through Hell, Purgatory, and Paradise will be analyzed at its multiple levels of interpretation: literal and allegorical, theological, philosophical, political, and literary. Compendium of an entire epoch of European civilization, the "Comedy" will also be interrogated for its responses to the fundamental questions of human existence: God, the Cosmos, the Self, Good and Evil, Right and Wrong, Suffering, and Happiness.

#### PHIL551501

How to Save the World: Ethics of Climate Change  
Storey, David E Fall 2021  
Climate change is arguably the defining issue of our time and the hardest problem humanity has ever faced. It raises an array of moral questions, e.g.: What values should guide global and national climate policies? What responsibilities do we have toward the poor, future generations, nonhuman species, and our planet? The course is an introduction to environmental ethics and the moral challenges posed by climate change. In particular, we examine the philosophical and ethical questions that underlie climate science, public policy, energy systems and policy, and economics. The goal is to cultivate an integral understanding of the climate problem through an interdisciplinary inquiry.

#### PHIL552901

Metaphysics Gurtler, Gary Fall 2021  
The course begins with classical modern philosophers. Their problems concern the relation of mind and body, the possibility of objective knowledge, and cause and effect. Their method is that of science, combining both empirical and logical elements. After these modern thinkers, giving our cultural assumptions, we turn to Ancient and Medieval philosophers. Their problems concern the relation of spirit and matter, the analogy of being and truth, and causal explanation. Their method is one of dialogue. With this different set of problems and method, we will be able to evaluate the relative strengths of these different philosophical positions.

#### PHIL553401

Environmental Ethics: Value of Nature/Nature of Value DEPT  
Fall 2021  
This course has theoretical and practical sides. Theoretically, it is an inquiry into value theory in general, and the value of (nonhuman) nature in particular. We will examine positions on the moral standing of nonhumans, such as anthropocentrism, animal rights and welfare, biocentrism, and ecocentrism. Practically, we will explore the social, political, economic, and ethical dimensions of environmental issues such as food, consumerism, climate change,

energy, and sustainability. Our animating questions are: What are our duties to the natural world? How would our civilization have to change to meet these duties?

#### PHIL555201

God, Ethics and the Sciences Byrne, Patrick;Pope, Stephen J Fall 2021  
This course examines some important questions regarding relationships between belief in God and scientific approaches to humanity and the natural world. We explore both the arguments for the incompatibility between science and theism, as well as constructive ways of understanding their potential relationships. We will examine major historical contributors to the discussion including Aquinas, Galileo, and Darwin. Central methodological questions focus on forms of naturalism, reductionism, and evolution. Other course topics include the ethical significance of neuroscience and evolutionary psychology, particularly concerning the relation between brain and mind, the meaning of responsibility, and the natural basis of moral decision-making.

PHIL558401

C.S. Lewis Kreeft, Peter J Fall 2021

Lewis wrote poetry, literary criticism, science fiction, fantasy, philosophy, theology, religion, literary history, epics, children's stories, historical novels, short stories, psychology, and politics. He was a rationalist and a romanticist, a classicist and an existentialist, a conservative and a radical, a pagan and a Christian. No writer of our century had more strings to his bow, and no one excels him at once in clarity, moral force, and imagination: the true, the good, and the beautiful. We will consider a sampling of Lewis' fiction and non-fiction.

PHIL667001

Technology and Culture Griffith, William

Fall 2021

This interdisciplinary course will first investigate the social, political, psychological, ethical, and spiritual aspects of the Western cultural development with a special emphasis on scientific and technological metaphors and narratives. We will then focus on the contemporary world,

examining the impact of our various technological creations on cultural directions, democratic process, the world of work, quality of life, and especially on the emergent meanings for the terms "citizen" and "ethics" in contemporary society. Students will explore technologies in four broad and interrelated domains: (1) computer, media, communications, and information technologies, (2) biotechnology, (3) globalization, and (4) environmental issues.

PHIL722401

Medieval Christian Mystical Philosophy: Eriugena, Eckhart, Cusanus Moran, Dermot

Fall 2021

In this course, I plan to read key texts in the Christian Neoplatonic mystical tradition, focusing in particular on Johannes Scottus Eriugena (c. 800-877), Meister Eckhart of Hochheim (1260-1328), and Nicholas of Cusa (1401-1464). The class will begin with readings from St. Augustine and Dionysius the Areopagite, the two most influential figures for medieval Christian Platonism. We shall then read sections of Eriugena's Periphyseon and Homily on the Prologue to St. John's Gospel, selections from Eckhart's sermons and tracts, and parts of Nicholas of Cusa's On Learned Ignorance and De li non aliud (On God as Not Other). The course will consider the Neoplatonic context, affirmative and negative theology, and the nature of the human being in the context of the dialectics of knowledge and ignorance, immanence, and transcendence.

PHIL740001

Philosophy and the Pedagogy of Service Byrne, Patrick;Fried, C G

Fall 2021

Graduate PULSE (3 credits per semester, two semester sequence): In this two-semester course, the student will learn both the theory and practice of teaching a Philosophy service-learning course. The student will attend an undergraduate section of PULSE, doing the same readings as the undergraduates and working in a service placement for four hours a week. The student will also attend a bi-weekly seminar with other graduate students in the course and the graduate PULSE instructor, doing readings in the pedagogy of service learning, philosophy of education, and related fields. In consultation with the section instructor, the student will also serve as a writing mentor to undergraduates in the class. Requirements will include short reflection and exploratory papers, similar to the undergraduates, and a final research paper each semester.

The first semester will focus on philosophy of education and on the pedagogy of service-learning; the second semester will focus on applied philosophical issues raised by specific service placements, either in the ethics of engaged service work or on policy questions connected to the service. Enrollment requires the permission of the undergraduate section instructor, the instructor for the graduate course, and the Director of the PULSE Program.

Moral Responsibility in Mental Illness Harster, Katherine N

Fall 2021

This seminar focuses on current debates in ethics and psychiatry. We will examine contemporary accounts of moral responsibility and interdisciplinary texts on substance use, trauma, personality disorders, and mood disorders. Students will learn strategies for interpreting and synthesizing psychological research for philosophical argument. Students will discuss intuitions and evidence with clinicians and researchers in the Boston area. This course aims to build skills in research and writing in support of a thesis, oral presentation of diverse philosophical perspectives, and discussion of one's views on interdisciplinary issues.

PHIL772101

Medieval Ontology Solere, Jean-Luc Fall 2021

We will study how Neo-Platonism and Aristotelism dialogued, argued, merged, parted in medieval metaphysics, especially in Aquinas's, Scotus's and Ockham's thought, during the 13th and 14th centuries. We will analyze fundamental concepts such as being, form and matter, substance and accident, essence and existence, individuation, participation, creation, etc. The class is especially designed for giving graduate students a strong and in-depth

presentation of medieval thought, an essential moment of the development of western philosophy.

## Philosophy Courses: Spring 2022

PHIL107001  
Philosophy of the Person I Hanly, Peter C  
Spring 2022  
This course introduces students to philosophical reflection and to its history through the presentation and discussion of the writings of major thinkers from ancient, medieval, modern, and contemporary periods. The course is designed to show how fundamental and enduring questions about the universe and about human beings recur in different historical contexts. Emphasis is given to ethical themes, such as the nature of the human person, the foundation of human rights and corresponding responsibilities, and the problems of social justice.  
Credits: 3

to twelve hours per week of community service. In light of classic philosophical and theological  
texts, students in this course address the relationship of self and society, the nature of  
community, the mystery of suffering and the practical difficulties of developing a just society.  
PULSE students are challenged to investigate the insights offered by their readings in  
relationship to their service work. Places in the course are very limited.

The Challenge of Justice Snyder, Joshua R  
Spring 2022

This course introduces the student to the principal understandings of justice that have developed in the Western philosophical and theological traditions. Care is taken to relate the theories to concrete, practical and political problems, and to develop good reasons for choosing one way of justice rather than another. The relationship of justice to the complementary notion of peace will also be examined. Special attention is paid to the contribution of Catholic theology in the contemporary public conversation about justice and peace. Problems discussed may include human rights, hunger and poverty, and ecological justice.

PHIL172001

Animals in the Moral Imagination: Beyond Human Justice Fitzpatrick, Melissa A  
Spring 2022

This is an Enduring Questions course and is open to FRESHMEN only. This course counts toward the Philosophy II Core requirement. . This course will provide students with an introduction to the work of philosophy by probing our understanding of the relation between humans and non- humans, and examining the moral implications of that relation. This will involve analyzing how we have imagined our relationship with non-humans in the past (and why), and evaluating human decision-making in relation to animal welfare. Some of the questions that we will probe throughout the course include: how are the boundaries between humans and animals constructed? Why do they matter? And what values inform them? How does our understanding of non-humans influence our understanding of ourselves? What is the relation between social hierarchies within human society and our understanding of non-humans? Is there a relation between our treatment of animals and our treatment of marginalized groups? In the wake of the ecological crisis, should we recast our relation with animals? And if so, how? How do we change what we value? Is this something that we can voluntarily will? Though we will primarily focus on the ethical and existential dimensions of these questions, we will explore the metaphysical, epistemological, and political dimensions of them as well.

Perspectives on War, Aggression, and Conflict Resolution I Jackson-Meyer, Katherine A  
Spring 2022

The Faith, Peace, and Justice Program at Boston College sponsors this course as an introduction to the field of Peace Studies. This course asks: Is it ever ethical to go to war? Is it possible to be ethical in war? And, what does ethical conflict resolution look like? This course investigates these questions primarily using the resources of the Christian theological tradition and the social sciences, as well as engaging with philosophy and film. Special attention will be paid to issues in contemporary warfare and the challenges and promises of peacebuilding.

PHIL324001

Towards Deep Subjectivity: Architecture, Ethics, and the Personhood of Place Braman, Brian J  
Spring 2022

In Genius Loci: A Phenomenology of Architecture Christian Norberg-Schultz argues that if human beings are to dwell authentically under the sky and on the earth, the architecture's role is to provide an "existential foothold," which grounds people's relationship to their environment. "Man dwells when he can orientate himself with his environment and experiences it as meaningful" and thus ethical; to have an existential foothold allows one to "be" at home. To dwell means that human beings achieve an individual and communal identity—a personhood in a given place. The purpose of this course will be to explore the relationship between subjectivity, architecture, ethics, and the notion of personhood as authentic dwelling on the earth and under the sky.

PHIL440801

Nineteenth- and Twentieth-Century Philosophy Magri, Elisa  
Spring 2022

In this course, we will explore the sources, forms, and implications of the concept of alienation, as this emerged in the nineteenth century and developed over twentieth century philosophy.

We will start, in the first part of the course, with an overview of the challenges brought about by Kant's philosophy with particular regard to the relation between nature and freedom.

Particular attention will be given to the role of education and the re-evaluation of the finitude of human spirit in Fichte, Schiller, and Hegel. We will examine how the concept of alienation is related to the principle of moral autonomy, and how the ideal of self-determination advocated by philosophers of German Idealism shaped pedagogical programs of social and political reform. In the second part of the course, we will explore the relation between alienation and reification in social and political philosophy, starting with Marx and continuing with Arendt and the Frankfurt School. This theoretical journey will offer the basis to investigate alienation in relation to self-estrangement, environmental racism, and gender discrimination in selected classics of the twentieth century. We will also consider ways of resisting alienation by applying methodological frameworks inspired by Lugones' concept of world-traveling.

What is Democracy? Lott, Micah

Spring 2022

Etymologically, "democracy" means rule by the people, or people power. But what does it mean for the people to rule, or to have power? And what is so valuable about the people ruling, if anything? This course examines these questions, with a focus on contemporary political philosophy. We will look at issues like: deliberation, participation, political voice, and the relationship between capitalism and democracy. Throughout, we will consider democracy's connection to the social ideal of a "society of equals."

Unheard Voices: Philosophy at the Crossroads of Identity McGill, Cherie

Spring 2022

What is a just society? What responsibility does each of us have to contribute to a common good? This course starts from the idea that answering these questions requires hearing the voices of those typically unheard, and recognizing the interlocking systems that construct our world. We will attempt to hear voices typically not heard, identify the forces that converge to make voices heard or unheard, and understand the roles that each of us play as silenced and silencer. We will attempt to discern a way forward to a more just society--a way forward that begins from where we are.

PHIL456501

Happiness and Utopia: Thinking about the Ideal Life Lott, Micah

Spring 2022

This course examines the notion of an ideal human life, understood as living well in ideal circumstances. This notion is at once familiar and puzzling. On the one hand, we all have some conception of living well - i.e., happiness, flourishing, the good life. And we recognize some circumstances as inimical to human flourishing, such as conditions of famine, poverty, oppression, and exploitation. Moreover, we seem to operate with some idea of good circumstances whenever we wish good fortune for our loved ones, or whenever we work to make our societies more supportive of human well-being. But on closer inspection, the notion of ideal circumstances raises a number of questions. What would human life look like in utopian conditions? Would humans still work and labor, or would we pass our lives entirely in leisure?

Could our lives still have meaning and purpose, if there were nothing in our circumstances to struggle against? Would we still need virtues like courage and perseverance, with nothing to fear or overcome? And what about death: is it the ultimate non-ideal circumstance that might be overcome in some future utopia? This course considers such questions in relation to the notion of an ideal human life. We will read a range of philosophical texts, from Aristotle to Thomas More to contemporary thinkers. We will also examine film and works of imaginative literature by writers such as H.G. Wells.

PHIL500501  
Medieval Philosophy Solere, Jean-Luc Spring 2022  
Far from being monolithic and repetitive, the Middle Ages were a creative period during which multiple solutions were tried to make sense of the world and of human life. The legacy of Antiquity, the philosophic and scientific knowledge of the time, and religious views were combined in original syntheses. The aim of the course is to provide a picture of this diversity, through a study of the main problems that a wide range of authors (Christian thinkers from St. Augustine to Ockham, but also Islamic and Jewish philosophers) faced. Medieval philosophy was an important step in the development of human thought. Discovering it will be essential to your philosophical education. This course will especially highlight the ideas, in metaphysics, theory of knowledge, and ethics, which medieval thinkers created and transmitted to modern philosophy. In addition, analysis of texts, debates, and writing assignments will help you to develop rigorous argumentation and expression skills. (NB: This course was previously offered as PHIL 4407; you cannot take it if you took PHIL 4407)  
Credits: 3

PHIL522201  
Moral Psychology Garcia, Jorge L Spring 2022  
This course examines intention and motivation in their relation to morality, especially, to moral wrongdoing. We will discuss what it is to act with the intention to V, how that relates to V-ing intentionally, in what sense we act from certain motives, for certain ends, and through certain means, as well as what it is to act despite certain factors. We'll also treat the connection between a human's acting and an event's occurring. We will consider claims that appeal to agent's intention and mental state is relevant only to morally evaluating the agent but not her action, or to determining her action's goodness but not its wrongness, or to fixing the level (or type) of blame she deserves but not to whether she deserves any blame in the first place. We will discuss articles and chapters drawn from the writings of recent thinkers including Elizabeth Anscombe, Ezio Di Nucci, John Finnis, Philippa Foot, Frances Kamm, Jeff MacMahan, Alison McIntyre, T. M. Scanlon, Judith Thomson, and others. A midterm and a final examination will comprise the course's assignments.

PHIL524901  
British Empiricists Davenport, Anne A Spring 2022  
Why are the British Empiricists both perplexing and indispensable? Do they deserve the odium that they often receive? How fundamental are they to our American identity? This course conducts an in-depth examination of John Locke, George Berkeley, and David Hume. We look at the entire spectrum of their concerns, from theories of the self to political science, ethics, and aesthetics. We tease out and discuss their views of the "good life." We probe their arguments critically and look at some of their followers and opponents in order to understand more fully the impact of their positions. We end with Rousseau's critique of British Empiricism.

PHIL537301  
Patristic Greek II Schatkin, Margaret Spring 2022  
This two-semester course is designed for the student with no previous knowledge of ancient Greek to develop reading and translating skills in Patristic Greek language by mastering the fundamental principles of Greek grammar and syntax and acquiring a basic reading vocabulary. The student becomes familiar with the meaning of Greek words, their forms and structure, and their customary arrangement in sentences. A secondary goal of this course is to serve as a foundation for further studies in Patristic Greek.

PHIL540701  
Buddhist Philosophy and Psychology Makransky, John J  
Spring 2022  
We focus on early and Mahayana Indian Buddhism, then some areas of Tibetan and Japanese Buddhism, exploring philosophical, psychological, and spiritual understandings. Buddhist approaches to theological anthropology, ontology, epistemology, ethics, and soteriology are related to practices of meditation, phenomenological investigation, and philosophical and psychological analyses. Reading in classical and modern Buddhism and in a few areas of modern psychology that draw on Buddhism. Weekly writing, active discussion, two short papers, one longer paper.

PHIL544401  
The Ethics of Discernment Byrne, Patrick  
Spring 2022  
This is a course about self-reflection at the heart of ethical deliberation and decision-making. It offers students the opportunity to explore things that go on in ethical reflection. It will highlight the roles played especially by feelings as well and ethical questioning and reasoning. The course will focus on the writings of Bernard Lonergan, Anthony Steinbock, and Patrick Byrne. This self-reflective practice will be used to shed light on major ethical thinkers such as Aristotle, Kant, Mill, and the phenomenologists.

PHIL550501  
The Aristotelian Ethics Gurtler, Gary  
Spring 2022  
This course has recently been added for the fall. For students interested in Aristotle's Nicomachean Ethics, this course is for you! It consists of a close reading of the whole of the Nicomachean Ethics beginning with ethical virtue (Books II-IX) and ending with happiness (Books I and X). I have found that a student's understanding of Aristotle's ethical concepts is enhanced when he/she considers those concepts in relation to leading figures in Ancient Greek literature. Thus, occasionally we will discuss some of Homer's Iliad and Sophocles' Oedipus Tyrannus to consider how some of the following issues relate to Achilles, Hektor, Paris, Oedipus, and Jocasta. What does it mean to have an ethical virtue (or vice), to engage in involuntary actions, to be responsible, courageous, good-tempered, truthful, temperate, continent, incontinent, and happy? Since the course will be run seminar style, students are expected to participate generously in classroom discussions.

PHIL553401  
Environmental Ethics: Value of Nature/Nature of Value Donnelly, Jason M Spring 2022  
This course has theoretical and practical sides. Theoretically, it is an inquiry into value theory in general, and the value of (nonhuman) nature in particular. We will examine positions on the moral standing of nonhumans, such as anthropocentrism, animal rights and welfare, biocentrism, and ecocentrism. Practically, we will explore the social, political, economic, and ethical dimensions of environmental issues such as food, consumerism, climate change, energy, and sustainability. Our animating questions are: What are our duties to the natural world? How would our civilization have to change to meet these duties?

PHIL554901  
Selected Readings in Phenomenology Moran, Dermot Spring 2022  
This course offers a critical introduction to phenomenology, one of the most important movements of twentieth-century European philosophy, including its French existentialist development, and its critics. The major themes and movements in phenomenology and existentialism will be studied through several key thinkers: Franz Brentano, Edmund Husserl, Martin Heidegger, Edith Stein, Maurice Merleau-Ponty, Jean-Paul Sartre, Emmanuel Levinas. Themes that will be critically considered include: intentionality, phenomenological description, perception and embodiment, moods and emotions, self-consciousness, the nature of the self, sociality and the surrounding lifeworld. The course will have both a historical and a critical orientation with an emphasis on reading selected primary-source texts in English translation.

PHIL555301  
Capstone: Poets, Philosophers, and Mapmakers McNellis, Paul W Spring 2022  
We go through life with mental maps of reality in various degrees, implicit or explicit. A liberal arts education presupposes such a map of the intelligible world. Is it accurate? What does your map of reality look like? How has it changed since freshman year? The goal of the seminar is to help you see what kind of map you implicitly have now and to begin to ask what you want the map to look like ten years after graduation. How do you develop an open rather than closed map?

Symbolic Logic: Theory and Practices Atkins, Richard

Spring 2022

An introduction to the powerful ways the logical forms woven into deductive reasoning and language can be analyzed using abstract symbolic structures. The study of these structures is not only relevant for understanding effective reasoning, but also for exploring the Anglo-American analytic philosophical tradition and foundations of mathematics, computer science, and linguistics. Philosophically interesting properties about logical systems will be explored, including the task of proving whether a logical system is complete and consistent. A number of interesting topics of twentieth-century logic will be briefly considered, such as set theory, Russell's paradox, and Goedel's theorems.

Plato's Republic

DeChiara-Quenzer, Deborah Spring 2022

Welcome to one of Plato's greatest dialogues, the Republic. As a Platonic dialogue, the Republic has it all: an aporetic beginning (Book I), an ideal state, philosopher-kings, the theory of forms, degenerative states and souls, true and pseudo pleasures, and a great myth. In defense of a life of justice over injustice, this text involves ethics, politics, epistemology, psychology, and metaphysics. Classes will be run seminar style, so it expected that students participate generously in classroom discussions. There will also be selected readings from Greek literature and Aristotle in order to enhance an understanding of Plato's views.

Frederick Douglass in Philosophical Dialogue Fried, C G

Spring 2022

This course will bring Frederick Douglass, Americas great orator political activist, journalist, writer, and thinker into dialogue with a variety of philosophical figures and themes, historical and contemporary, drawing widely on Douglass's autobiographies, speeches, journalism, and literary work and interlacing these with other authors. Figures in dialogue may include, among others: Butler, Du Bois, Fanon, Hegel, Heidegger, Locke, Mills, Plato, Ricoeur. Themes may include, among others: photography and performativity of self-respect; oclarcenrism and race; freedom and dialectic of master and slave; intersectionality of race and gender in Douglass's times and ours; constitutionalism and the legitimacy of the American regime; the relationship of rhetoric and narrative to justice; the science and pseudo-science of race; critique and reconstruction of rights in liberalism.

PHIL625001

Hegel's Philosophy of Spirit

Magri, Elisa Spring 2022

This course is dedicated to Hegel's philosophy of Geist, which is often translated in English as "spirit," "mind," or "collective cultural mindset." However, the full meaning of Geist in Hegel's philosophy comprises a more fine-grained and richer development of affective, psychological, and practical elements. Drawing on Hegel's Phenomenology of Spirit as well as on the sections on the Philosophy of Spirit of Hegel's Encyclopaedia, this course will explore the main philosophical questions that surround the dimension of Geist in both Hegel's philosophy and contemporary debates, including Hegel's departure from transcendental philosophy and the nature-spirit relation, the novelty of Hegel's philosophical anthropology, the problem of recognition, and the quest for absolute knowledge.

PHIL667001

Technology and Culture Griffith, William

Spring 2022

This interdisciplinary course will first investigate the social, political, psychological, ethical, and spiritual aspects of the Western cultural development with a special emphasis on scientific and technological metaphors and narratives. We will then focus on the contemporary world, examining the impact of our various technological creations on cultural directions, democratic process, the world of work, quality of life, and especially on the emergent meanings for the terms "citizen" and "ethics" in contemporary society. Students will explore technologies in four broad and interrelated domains: (1) computer, media, communications, and information technologies, (2) biotechnology, (3) globalization, and (4) environmental issues.

Heidegger II Sallis, John Spring 2022

This course will be devoted to several themes and texts in Heidegger's later thought. Some of the themes are language and poetry, technology and modern science, the nature of truth. Some of the texts are "Building, Dwelling, Thinking," "Poetically Man Dwells," "The End of Philosophy and the Task of Thinking."

PHIL726001

Hermeneutics of Hospitality Kearney, Richard

Spring 2022

This graduate seminar explores the hermeneutics of hospitality and the gift. It involves close readings of the following: Paul Ricoeur's philosophy of linguistic and narrative hospitality in his later writings on translation; Jacques Derrida's deconstructive notions of 'hospitality' and the

'gift' in Of Hospitality; and Julia Kristeva's psychoanalytic account of hosting aliens in Strangers to Ourselves. The seminar will conclude with a discussion of carnal hospitality as a process of peace and justice. We will also refer to the recent phenomenologies of the gift in Jean-Luc Marion and Marcel Henaff.

PHIL740101

Philosophy and the Pedagogy of Service II Byrne, Patrick;Fried, C G

Spring 2022

Part II of Graduate PULSE (3 credits per semester, two semester sequence): In this two-semester course, the student will learn both the theory and practice of teaching a Philosophy service- learning course. The student will attend an undergraduate section of PULSE, doing the same readings as the undergraduates and working in a service placement for four hours a week. The student will also attend a bi-weekly seminar with other graduate students in the course and the graduate PULSE instructor, doing readings in the pedagogy of service learning, philosophy of education, and related fields. In consultation with the section instructor, the student will also serve as a writing mentor to undergraduates in the class. Requirements will include short reflection and exploratory papers, similar to the undergraduates, and a final research paper each semester. The first semester will focus on philosophy of education and on the pedagogy of service-learning; the second semester will focus on applied philosophical issues raised by specific service placements, either in the ethics of engaged service work or on policy questions connected to the service. Enrollment requires the permission of the undergraduate section instructor, the instructor for the graduate course, and the Director of the PULSE Program.

PHIL743001

Kant's Critique of the Traditional Metaphysics in his Post-Critical Writings Basile, Giampiero

Spring 2022

With the Critique of Pure Reason, Kant intended to ground metaphysics on a new foundation. This new foundation aimed at limiting, in the first instance, the claims of rationalist dogmatism of Wolffan and Leibnizian mould to a speculative metaphysics. In addition to this pars destruens coinciding with the transcendental philosophy as a critique of knowledge, the foundational operation of the first Critique involved a pars costruens: the foundation of metaphysics as moral philosophy. The project of the Kantian critical philosophy did not fail to arouse controversy, especially from representatives of Leibnizian and Wolffan metaphysics in Germany. In particular, the philosopher Johann August Eberhard and the Prussian Academy of Sciences itself promoted an active campaign against the Kantian thought, in defense of the system of Leibniz and Wolff. Among the writings in which Kant retorts to his opponents, two are particularly important: On a discovery whereby any new critique of pure reason is to be made superfluous by an older one (1790) and What real progress has metaphysics made in Germany since the time of Leibniz and Wolff? (1793/1804). Both works are related by a deep systematic unity and constitute, in some ways, an attempt by Kant to make an assessment of his own critical philosophy and to highlight the most original points of his thinking.

PHIL750001

Hegel's Philosophy of Spirit DEPT

Spring 2022

This course is dedicated to Hegel's philosophy of Geist, which is often translated in English as "spirit," "mind," or "collective cultural mindset." However, the full meaning of Geist in Hegel's philosophy comprises a more fine-grained and richer development of affective, psychological, and practical elements. Drawing on Hegel's Phenomenology of Spirit as well as on the sections on the Philosophy of Spirit of Hegel's Encyclopaedia, this course will explore the main philosophical questions that surround the dimension of Geist in both Hegel's philosophy and contemporary debates, including Hegel's departure from transcendental philosophy and the nature-spirit relation, the novelty of Hegel's philosophical anthropology, the problem of recognition, and the quest for absolute knowledge.

PHIL770901

Aristotle on Science and the Sciences Wians, William R

Spring 2022

Scholars increasingly appreciate the profound connections between Aristotle's philosophical positions in works such as the Ethics, De Anima, and Metaphysics and his theory of scientific knowledge, its conditions and methods. Knowledge may be logical, ethical, or physical; it may be practical, productive, or theoretical; it may be mathematical, physical, or theological; and while some things are more knowable to us, others are more knowable in themselves. Whether in psychology, metaphysics, ethics, or natural science, Aristotle's epistemological and methodological commitments determine his starting points, shape the exposition, and decisively influence the outcome of his investigations.

PHIL772001

Platonic Theories of Knowledge Gurtler, Gary

Spring 2022

The purpose of this course will be twofold: to explore Platonic considerations of perception and memory in the Theaetetus and dialectic in the Sophist; and to investigate what Plotinus does with this Platonic inheritance in his major study of the soul and its way of knowing. Both philosophers show the intersection of perception and intellectual knowledge in a way that is essential for understanding the Platonic project as a whole and especially the possibilities and limits of human knowledge.

PHIL778001

Readings in Theory Newmark, Kevin Spring 2022 Conducted in English

Open to undergraduates with permission of instructor only

Fulfills a Ph.D. requirement in Romance Languages and Literatures. This course is organized as an introduction to the reading of literary theory for graduate students in various disciplines. Its aim is to develop an awareness of and sensitivity to the specific means and consequences of interpreting literary and extra-literary language today. The course allows students to acquire a basic familiarity with some of the most formative linguistic, philosophical, and anthropological antecedents underpinning any attempt to understand and account for the special status reserved for rhetorical language in literature or beyond it. Readings from Saussure, Levi-Strauss, Jakobson, Barthes, Lacan, Ricoeur, Geertz, Austin, Derrida, and de Man, among others.

PHYS110001

Structure of the Universe I Bedell, Kevin

Fall 2021

An introductory course directed at non-science majors. Physical principles are developed and applied to our space and astrophysical environment. Topics include structure and evolution of the solar system, physics of the sun and planets, space discoveries, creation and structure of stars and galaxies, relativity and cosmology, extraterrestrial life, and astronomical concepts.

PHYS140001

The Art of Physics Herczynski, Andrzej Fall 2021

This core course is a contemporary prologue to classical physics for students seeking to gain an appreciation of the ethos, scope, methods, and tools of physics, and to reflect on its place among the liberal arts. It explores major physics ideas and paradigms in a broader cultural context, providing historical perspectives from the early Greek astronomy through the scientific revolution. Simultaneously, the aim is to develop practical science skills, including the order-of-magnitude estimates, dimensional analysis, understanding of physics laws, and problem solving techniques. Interdisciplinary connections will be emphasized by inclusion of such topics as the concept of time and examples of applications of mathematics and physics to the visual arts. The course can serve as a preparation for, or a companion to more advanced physics classes.

Foundations of Physics I Kempa, Krzysztof

Fall 2021

Recommended laboratory (optional): PHYS2050-2051.. First semester of a two-semester algebra-based introductory physics course sequence, primarily for non-science majors, that covers the basic principles of physics. Emphasis is placed on problem-solving to demonstrate the implications of these principles, and to develop analytical skills. This course is similar to PHYS2100 in pace and content but with less emphasis on mathematical technique. First semester covers classical mechanics, including Newton's laws, energy, rotational motion, fluids, thermal physics, oscillations, waves, and gravitation.

#### PHYS454501

Condensed Matter Physics Ma, Qiong  
Fall 2021

Condensed matter physics concerns all aspects of the physics of "condensed" materials, that is, solids, liquids, gels, and plasma. It is the science behind many technologically-relevant applied and integrated science and engineering fields. This course primarily covers the solid state, starting with crystal lattices and their vibrations (phonons), and descriptions of crystalline metals, semiconductors, insulators, and superconductors. It covers in some detail the electrical, magnetic, optical, and thermal properties of materials, and introduces the student to noncrystalline solids and so-called "soft condensed matter."

PHYS460001  
Statistical Mechanics and Thermodynamics Broido, David  
Fall 2021  
The results of classical thermodynamics are deduced from a statistical basis, including the concepts of temperature and entropy, and the three laws of thermodynamics. Applications to ideal and real gases. Basic elements of statistical mechanics, including the canonical ensemble, partition function, equipartition theorem and Maxwell velocity distribution. Simple application of Maxwell-Boltzmann, Bose-Einstein, and Fermi-Dirac Statistic.

PHYS495101  
Senior Thesis Chen, Xiao Fall 2021  
A semester-long project in the course of which a student carries out an investigation and research of an original nature or formulates a mature synthesis of a topic in physics. The results are presented as a written thesis, which the student will defend in an oral examination. This course is highly recommended for majors considering graduate study in physics.

## Physics Courses: Spring 2022

PHYS110101  
Structure of the Universe II Bakshi, Pradip M  
Spring 2022  
An introductory course directed at non-science majors. Physical principles are developed and  
applied to our space and astrophysical environment. Topics include structure and evolution of  
the solar system, physics of the sun and planets, space discoveries, creation and structure of  
stars and galaxies, relativity and cosmology, extraterrestrial life, and astronomical concepts.  
Credits: 3  
Room and Schedule: Higgins Hall 265 MWF 12:00 Noon-12:50PM Satisfies Core Requirement:  
Natural Science  
Prerequisites: None Corequisites: None Cross-listed with: None Frequency: Every Spring  
Student Level: Undergraduate  
Comments: None Status: Offered

PHYS150101  
Foundations of Physics II Bedell, Kevin  
Spring 2022  
Recommended laboratory (optional): PHYS2050-2051.. Second semester of the two-semester  
algebra-based introductory physics course sequence primarily for non-science majors.

This course is similar to PHYS2101 in pace and content but with less emphasis on mathematical technique. Topics to be covered are fundamentals of electrostatics, simple electrical circuits, magnetism, electromagnetism, electromagnetic oscillations and waves, physical optics, and, if time allows, basic concepts and applications of special relativity and quantum physics.

Introduction to Physics II (Calculus) Gallaba, G M Dinuka H  
Spring 2022  
PHYS2051 is the laboratory course to supplement the lecture course material. Second semester of a calculus-based introduction to physics primarily for biology majors and premedical students. The development and application of classical physical principles are covered, and students are introduced to more advanced mathematical techniques to extend these applications. Emphasis is placed on problem-solving to better understand the implications of these principles, as well as to develop analytical skills. Topics are electrostatics, electrical circuits, magnetism, electromagnetism and electromagnetic waves, topics in physical optics, and basic concepts of special relativity and quantum physics.  
Credits: 4

PHYS220101  
Introductory Physics II (Calculus) Zeljkovic, Ilija  
of a calculus-based introduction to physics for those majoring in the physical sciences. Students utilize analytical reasoning combined with mathematical formalism to fully explore the development, consequences and limitations of the classical principles of physics; similar to PHYS2212 in pace and content but at a greater depth appropriate for physical science majors. Class size is limited to promote classroom discussion. Topics include fundamentals of electrostatics, simple electrical circuits, magnetism, electromagnetism and electromagnetic oscillations and waves, and selected topics in physical optics.  
Credits: 4  
Room and Schedule: Higgins Hall 310 MWF 09:00AM-09:50AM;Th 03:00PM-03:50PM;Th 3 - 3:50 meets in Higgins 225

PHYS330001  
Introduction to Modern Physics Wang, Ziqiang  
Spring 2022  
This course is a transition between introductory and advanced physics courses for science majors. The basic subject matter includes the two principal physical theories of the twentieth century—relativity and quantum mechanics. Included are the following: the Lorentz transformation, kinematic consequences of relativity, origin of the quantum theory, one-dimensional quantum mechanics, quantum mechanics of a particle in three dimensions, applications to the hydrogen atom and to more complex atoms, molecules, crystals, metals, and semiconductors.

PHYS420001  
Electricity and Magnetism Flebus, Benedetta  
Spring 2022  
To provide students with the background in electricity and magnetism necessary to deal with experimental problems in electromagnetism. Part 1 will present the mathematical foundations for the entire treatment of electromagnetism. Part 2 deals with Coulomb's law and the electrostatics based on this law. Part 3 addresses stationary currents and magnetostatics. Part 4 deals with induction and quasi-stationary phenomena, self- and mutual-induction. Part 5 presents a treatment of Maxwell equations and the consequences of these equations, e.g., energy and momentum conservation, Plane waves, reflection, and refraction. Time permitting, we will discuss radiation from moving charges.

PHYS430001  
Numerical Methods and Scientific Computing Engelbrecht, Jan  
Spring 2022  
This course is intended for students who plan to minor in Scientific Computation. It is also an elective for Physics majors.. This course introduces students to a variety of numerical methods and then applies these methods to solve a broad range of scientific problems. These problems include examples from physics as well as several other disciplines, including chemistry, mathematics, economics, and finance. Numerical techniques for solving problems expressed in

terms of matrix, differential and integral equations will be developed. Other topics will include statistical sampling and Fourier and Laplace transforms.

Optical Spectroscopy of 2D Materials Burch, Kenneth S  
Spring 2022

The course objective is to overview of various Optical Spectroscopic Methods and their use in characterizing and revealing new behavior in 2D Materials. The course will explain the basic principles and experimental pit-falls of infrared and Raman micro-spectroscopies. It will then examine their role in characterizing and revealing novel behavior in graphene, magnetic, and superconducting materials.

PHYS897501  
Many Body Physics DEPT  
Spring 2022  
Many Body Physics is the study of matter when interactions matter. This is a very rich subject  
area and it is impossible to cover all of them. The goal of this Many Body Physics course is to

focus on a few theoretical techniques including, e.g., Greens Functions and Feynman Diagrams that provide a unified view of these areas. These techniques can be used to derive some of the more familiar theoretical results for many body systems, the Hartree-Fock approximation, the random phase approximation (RPA), the kinetic equation, and response functions to name a few. These techniques will be applied to a number of interacting systems that could include, Quantum Fluids (Fermi and Bose Fluids), Graphene, Superconductors/Superfluids, and Ferromagnetic metals.

## Political Sciences Courses: Fall 2021

POLI102101

How to Rule the World: Introduction to Political Theory Bartlett, Robert C

Fall 2021

This introductory course in political theory will be devoted to exploring what may well be the highest political theme: the requirements of great political rule. What must we do in order to govern well? Even more important, what must we know? With these and related questions in mind, you will be asked to read, reflect on, and write carefully about a handful of foundational texts that all deal, in very different ways, with the question of the requirements of great political leadership.

POLI104201

Introduction to Modern Politics DiPasquale, David M  
Fall 2021

For majors only. Restricted to freshmen and sophomores only.. This course examines the politics and government of modern states, identifying what is distinctively modern (e.g., representative government, political parties), including in the survey both democratic and non-democratic nations. We will consider the nation-state itself--the most typical modern political arrangement--as well as efforts to "transcend" the nation (e.g., the European Union, the United Nations). We will examine the kinds of public policies that modern states adapt, and consider their consequences. Although this is not a class in international politics, some attention will be paid to the relations among modern states, including war and its causes.

Flawed Founders: George Washington and the Mythology of a Heroic President Landy, Marc  
Fall 2021

This is an Enduring Questions course and is open to FRESHMEN only. You must take THEO1710 with this course. . This course focuses on the accomplishments and flaws of a great founder: George Washington. It seeks to illumine his character and also to understand his role in the

formation of the new American polity, regarding both its virtues and flaws. As the country's first president he led the effort to forge an enduring national government. How did he succeed so brilliantly in those efforts? Yet even as he was fighting for and presiding over a republic ostensibly dedicated to liberty and equality he abetted a system that perpetuated bondage and inequality. By the end of his life he controlled over 500 slaves. He bought, sold, and rented them. He was a full participant in a culture that subordinated women. This course will scrutinize Washington's public life--as general and politician; his private life--as slaveholder, husband and friend; and the complex interplay between his public and private personas. To better understand his thought processes and his presentation of self it will make extensive use of his speeches and letters as well as contemporary descriptions and assessments of him. The details of his life are most richly captured in Ron Chernow's biography of him, from which students will read. This scrutiny will also help to explain Washington's own role in creating the mythical status he has come to enjoy.

POLI106101

Introduction to American Politics Hartney, Michael T  
Fall 2021

For majors and non-majors. An overview of contemporary American government and politics focusing on how the institutions envisioned by the Framers of the Constitution (Congress, the judiciary, the executive) function today. Particular emphasis will be placed on how developments since the 1960s have affected the interaction of national, state, and local governmental actors, political participation, the articulation of interests, and policy formulation and implementation.

Topics covered will include the media, public interest and advocacy organizations, campaign technologies and consultants, and public policy research institutes (think tanks). Whenever possible, comparisons between the U.S. and other advanced industrial democracies will be explored.

Introduction to International Politics Crawford, Timothy W  
Fall 2021

Course restricted to political science majors only. This course may NOT be taken by any International Studies majors or minors. Class restricted to political science freshmen and sophomores. This course examines the principle sources of the behavior of countries in international politics, including the nature of the international system and the decision-making process within states. It examines such issues as the sources of power, the causes and implications of the security dilemma, the dynamics of alliances, the causes of war, international political economy, and the dilemmas of world order. This course is strongly recommended for students who plan to take upper level international politics courses.

POLI127001

The Cost of Free Speech Bayles, Martha

Fall 2021

Class-restricted to juniors and seniors. This course will focus on the challenge of preserving the Western ideal of free speech in a world where democratic governments seem paralyzed by political and cultural polarization; powerful tech companies have become reluctant censors; authoritarian regimes deploy artificial intelligence and the internet of things for surveillance, censorship, and propaganda; and Western governments seem poised to do the same. The goal is to help you situate the classic debate over free speech in both the broader historical context and the contemporary landscape.

POLI230101

Policy and Politics in the U.S. Melnick, Rowell S

Fall 2021

This course is designed to acquaint students with the major features of American policymaking at the national level by engaging in primary research and extensive memo-writing on selected policy issues. Each student will be expected to become familiar with at least three policy areas, understanding existing government policies and underlying tradeoffs and paradoxes; proposing intellectually defensible and politically feasible reforms; and suggesting political strategies for enacting these reforms. Possible topics include social security, environmental regulations, federal aid and mandates for education, affirmative action, welfare, and the use of public lands.

POLI230901

The U.S. Congress Hopkins, David A Fall 2021

Americans are habitually fierce critics of Congress even as they like (and usually reelect) their own representatives. In this course, we try to explain this paradox by investigating the ways in which the structure and organization of Congress allows members to cultivate personal popularity despite rampant disapproval of the institution in which they serve. Among other topics, the course addresses the nomination and election of congressional candidates, the roles of congressional parties and leaders, and the influence over the legislative process of the committee system, rules and procedures, lobbyists and interest groups, and other branches of government.

Gender and Politics Schlozman, Kay L Fall 2021

In this course we probe the role of women in American politics and the efforts that have been made on behalf of the collective political interests of women. We consider gender differences among citizens in public opinion, political participation, and vote choices and gender differences in the experiences and comportment of political leaders. Finally, we analyze the politics of a number of public policies having a special impact on women--among them,

employment discrimination and other workplace issues, child care, equal opportunity in education, sexual harassment, and sexual violence.

Latin American Politics Purnell, Jennie

Fall 2021

Class restricted to sophomores, juniors, and seniors.. This course is an introduction to politics in Latin America. We'll look at efforts of Latin Americans to create more inclusive, equitable, and rights-respecting democracies in a region long characterized by political instability, authoritarianism, and great inequalities in the distribution of wealth and power. While we'll examine the region as a whole, our focus will be on Argentina, Bolivia, Brazil, Chile, and El Salvador, with a brief excursion to Mexico. No prior knowledge of Latin America is required for the course, which is open to sophomores, juniors, and seniors.

Political Institutions in the Age of Populism: Parties, Voters, and Elections Marcesse, Thibaud

Fall 2021

This course is major restricted. This course is class-restricted to juniors and seniors. This course offers an overview of political institutions such as political parties and elections as democracies face a populist challenge in areas as diverse as Western Europe, Latin America, and Asia. After reviewing the theoretical and historical foundations for party politics and party systems, the course will examine the ways in which political parties reach out to voters in countries with different institutional legacies, in industrialized countries as well as in post-colonial democracies in the Global South, whether through programmatic platforms or political quid pro quos (such as vote buying and patronage).The course will also explore the rise of contemporary populist politics and how this brand of politics challenges traditional party-voter linkages and contributes to the erosion of democratic norms.

POLI242201  
Comparative Social Movements Christensen, Paul T  
Fall 2021

This course examines the theoretical and empirical literature on social movements in order to understand their genesis, evolution, and successes and failures. We will start by exploring the international theoretical literature on social movements, in order to identify commonalities and differences in the experiences of social movements in a wide array of locations and historical moments. The course will then turn to a more detailed empirical study of a number of social movements, some international, some national, some regional, and some local, including labor movements, indigenous movements, women's movements, movements based on liberation theology, and national liberation/terrorist movements.

Comparative Politics of Human Rights Purnell, Jennie  
Fall 2021

Every day, we seem to hear and read about horrific violations of human rights, from chemical warfare in Syria, to the plight of Rohingya refugees fleeing Myanmar, to the forced separation of migrant families in the United States, to violence against women and LGBT persons nearly everywhere. Since the end of World War II, countless human rights laws have been promulgated, institutions created, and advocacy campaigns launched. Have they made a difference? If so, under what conditions? Is respect for human rights greater or worse than it was more than half a century ago? We'll explore these issues and questions over the course of the semester. This course fulfills the Comparative Politics subfield requirement of the Political Science major.

A Continent on the Move: Immigration in Contemporary Europe Molles, Elitsa V  
Fall 2021

Why do people migrate? How do host states and societies react to an increasingly multicultural and diverse foreign population? What impacts the political, economic, and socio-cultural incorporation of Europe's immigrants? This course explores the central debates in immigration studies through a survey of contemporary Western Europe, with cases comprising immigrant populations in both traditional immigrant receivers (e.g., Moroccans in France or Turks in Germany) and "new" immigration countries (e.g., Africans and Latin Americans in Spain or Poles and Nigerians in Ireland). Middle Eastern refugees in Europe will be discussed throughout the semester. Particular emphasis is placed on how the relationship between the immigrant and the receiving state transforms both.

POLI244101  
Comparative Politics of Development Honig, Lauren  
Fall 2021

This is a course about power, politics, and global development. Why are some countries rich and others poor? Why do some communities have few resources while their neighbors have plenty? How does inequality affect politics and vice versa? To answer these questions, we will start by critically examining what development is and how it can be measured. Then we will move on to examine theories linking politics to development. We will explore the effects of colonialism, geography, natural resource wealth, and foreign aid, among others. The readings from this course draw from political science, economics, anthropology, and history. During this

semester we will examine both the deep roots of global inequality and engage with active policy debates about development.

POLI244201  
African Politics Honig, Lauren Fall 2021

This course examines key questions and debates in the study of politics in Africa. Why and when is ethnicity salient in elections? If state boundaries in Africa are largely colonial creations, why are they so resilient? Why are some countries more prone to civil war? What is the relationship between elections and democracy? How do historical legacies impact contemporary politics?

The goal of this course is to provide students with analytical tools to understand a number of questions that are of interest to contemporary politics in Africa. Using the methodologies of comparative politics, we will examine both broad cross-national patterns and focused case studies in this class.

Europe and the Muslim World Laurence, Jonathan  
Fall 2021

Students who have previously taken POLI2451 France and the Muslim World should not take this course. Colonies, migrations, wars, world cups and terrorism... For over two centuries, the republics, kingdoms and empires of Europe have had a complex and occasionally tormented relationship with Islam and the Muslim world. The exchange of ideas, politics and populations has transformed all parties involved. At times serving as a beacon of freedom and enlightenment, at other times Europe's relationship with its citizens of Muslim origin and its Mediterranean neighbors has been fraught with tensions. This course will examine these relationships through political science and history texts and with the aid of films and novels.

Global Governance Erickson, Jennifer L Fall 2021

How do states and other actors in the international community manage global challenges? What are the sources of order in international politics? In the absence of world government, questions about how international rules are made, monitored, and enforced are important and widespread. This course provides an overview of the concept and theories of global governance, with a focus on power, institutions, and norms in contemporary international relations. It then examines the stakeholders, processes, and outcomes of global governance in the context of policy areas such as fragile states and conflict, the global economy, arms control, health, and the environment.

#### POLI340601

Irish Politics 1916 to Present McGraw, Sean D Fall 2021

Class restricted to sophomores, juniors, and seniors. Ireland, a country rich in history, has undergone dramatic changes in the twentieth century beginning with its fight for independence and culminating in its meteoric rise during the Celtic Tiger years. What explains Ireland's distinctive political trajectory and how does it compare to other European nations? How should we understand the Celtic Tiger, the rapid series of social, economic and political transformations that have occurred within Ireland since the 1990s? This course explores these questions by studying the political actors and institutional settings of Irish politics, the nature of political influence and the shaping of political priorities, and the forces that shape policy outcomes. It will address such critical issues as the legacies of colonialism and civil war, nationalism, democratization, the relationship between the Church and State, the Northern Ireland Troubles and the European Union. While the course focuses on the Republic of Ireland, it will adopt a broad comparative perspective, situating the country both within the wider global context and within the political science literature.

POLI352701  
Seminar: Terrorism, Insurgency, and Political Violence Krause, Peter J  
Fall 2021  
Terrorism and insurgency dominate the headlines today, but how much do we really know about these forms of political violence? Are they inventions from the modern era, or do they have a deeper past? What drives an individual to join an armed group? Why do some groups choose to employ violence, while others do not? Are terrorism and insurgency effective political tactics? Just how significant is the threat of terrorism today, in the U.S. and abroad? This course will address these and other questions, while introducing students to relevant analytical frameworks, theories, and cases concerning terrorism, insurgency, and related forms of political violence. In addition to its topical focus, this course could rightly be called a methods course.  
Students in the class will learn how to improve their analytical thinking, conduct high quality research, and present an effective argument, both orally and in writing. They will learn the potential and pitfalls of theories of political violence through constant analysis and engagement with the history of terrorism and insurgency. By the conclusion of the course, students will emerge not only with a far richer understanding of these issues, but also as more sophisticated consumers, analysts, and producers of knowledge.

Research Methods in Political Science Krause, Peter J  
Fall 2021  
Rigorous, systematic research methods are at the foundation of quality scholarship for undergraduates and professors alike. This class will introduce students to a wide array of research methods in an engaging, accessible way. Students will get hands-on training in archival research, interviews, surveys, case studies, lab experiments, participant observation, and statistical analysis. The course will focus on applied methods using scholarship and examples from history, international studies, political science, psychology, and sociology. This is a great course for students thinking about writing a thesis, pursuing a research-focused career, or for those who simply want to supercharge their analytical skills.

POLI360001  
Hannah Arendt Wilford, Paul T Fall 2021  
Students must have previously taken POLI1041 Fundamental Concepts of Politics. Class restricted to sophomores, juniors, and seniors. This course explores the writings of Hannah Arendt (1906-1975), one the twentieth century's most important and controversial political thinkers. We will begin by considering the unprecedented political catastrophe of totalitarianism and Arendt's analysis of the attempts by Nazi Germany and Stalinist Russia to transform human nature. Following Arendt, we will ask: how could totalitarianism appear in the ostensibly most progressive moment in all of world history? The roots of totalitarianism can be traced to the socio-political philosophy of the 19th century and to the politics of the French Revolution, when ideological goals were first advanced through the systematic application of state terror. In the second half of the course, we will consider Arendt's positive response to the political, philosophical, and moral crisis of our time, concluding with a careful reading of The Human Condition. We will explore the tension between politics and philosophy that runs through the history of the West and consider Arendt's distinctive account of political action, public space, collective deliberation, and normative judgement, as well as her defense of the primacy of politics.

POLI439001  
Immigration: Processes, Politics, and Policies Skerry, Peter N  
Fall 2021  
Restricted to juniors, seniors, and graduate students only. Not open to students who have previously taken POLI2330. This course will examine immigration as a social as well as an economic process, with particular attention to its political and policy dimensions. Special attention will be paid to the interaction between immigrants and contemporary American institutions, and to how the contemporary context differs from earlier periods in our history. The various dimensions (social, cultural, economic, and political) of assimilation will be examined. Particular emphasis will be placed on undocumented immigration as well as the group competition and conflict engendered by immigration generally. The course will culminate in an examination of policy responses to the continuing controversy over immigration.

POLI449501  
Seminar: Religion in International Politics Laurence, Jonathan  
Fall 2021  
Class-restricted to sophomores, juniors, seniors, and graduate students only. This seminar examines the role of religious communities and religious institutions in foreign affairs, including the practice of state-church relations and the rights of religious minorities across borders. We will focus on the international implications of domestic religious politics with particular reference to contemporary Europe and the Middle East/North Africa regions.

POLI449601  
Democracy and Political Mediation in the Global South Marcesse, Thibaud  
Fall 2021  
This seminar proposes to explore the variation in democratic outcomes across the Global South. Why have some states remained democratic while others have experienced various forms of authoritarianism? Why are political parties stronger in some countries than others? The course will start with a discussion of institutional legacies such as colonialism to account for the transition to and consolidation (or not) of democracy. Looking at empirical evidence from different regions, such as Latin American and the Caribbean, Africa, South Asia and the Middle East, the course will provide a dynamic and comparative overview of democratic institutions, such as political parties and party systems, discuss informal linkages between citizens and political parties, review the broader implications of development for democratic stabilization and look at the impact of institutional reforms such as decentralization on political participation and the exercise of citizenship.

POLI459001  
East Asian Security Ross, Robert S  
Fall 2021

This course is class restricted to juniors, seniors, and graduate students only.. This class offers an analytical perspective on the strategic conditions of post-Cold War East Asia. It examines the regional political structure, the strategic characteristics of the region's great power relationship-- U.S.-China relations and the rise of China--and the implications of great power relations for the conflicts on the Korean peninsula, in the Taiwan Strait, and in the South China Sea, and the role of alliance relationships in regional diplomacy. From these different perspectives, the class seeks an understanding of the sources of state behavior in East Asia and the prospects for regional stability and instability.

POLI493301

Honors Seminar Hartney, Michael T Fall 2021

This course is restricted to Political Science Honors Program seniors and juniors. This course is by permission only. Democracy and Our Schools: This Honors Seminar examines K-12 education policy through the lens of American politics. On the one hand, schools influence American democracy by cultivating norms of civic and political engagement among youth. Yet public schools are also agencies of government, which means that education policy is established through democratic political processes. This interplay between democracy and education raises fundamental questions about the consequences of living in a nation that relies on elected officials to govern its schools. We begin by examining contestation over the very purposes of public education. We then assess the formal institutions, groups, and ideas that shape education policymaking. Along the way we will be guided by questions such as: Does democracy compromise educational equity? How much say should the public have in determining education policy? Should schools be organized primarily by politics or by markets?

POLI723201  
Quantitative Methods in Political Science Hopkins, David A  
Fall 2021  
POLI7232 is a non-subfield graduate course; this course will fulfill an elective course in your political science graduate degree program.. This course provides an introduction to quantitative methods commonly employed in the social sciences to make descriptive and causal inferences, with a particular focus on the general linear model used in bivariate and multivariate regression analyses. It requires no previous statistical experience and emphasizes practical applications of the concepts introduced. Students will have the opportunity to conduct an original quantitative analysis to address an empirical research question of their choice.

American Political Development I Landy, Marc  
Fall 2021  
This seminar looks at the course of American history from the Federalist period of the 1790's through the end of the nineteenth century for the purpose of understanding subsequent American politics. Its axiom is that contemporary politics cannot be adequately understood without understanding its philosophical and historical underpinnings nor without examining the critical political conflicts and institutional developments that have occurred. Readings consist of original documents and secondary works by historians and political scientists.

POLI780901  
Modern State Easter, Gerald M Fall 2021  
This seminar examines the modern state in comparative historical perspective. The focus is on the relationship between war, the state and society. The course considers how modern warfare contributed to the rise of the modern state as the principal form of organization in world politics. In addition, it seeks to demonstrate how the state gives shape to modern society.  
Finally, the course addresses the issue of the decline of the modern state in response to post-modern military and economic challenges.

Use of Force Ross, Robert S Fall 2021  
This is a graduate seminar in international politics. It assumes knowledge of the fundamental concepts of the international political system and of state behavior. It offers an in-depth discussion of one aspect of international politics—how and why states use force to achieve their objectives. In so doing, it addresses the use of force in its multiple dimensions, including war, deterrence, coercive diplomacy, and terrorism, and its role in contemporary international politics.

POLI781801

Global Public Goods and Cooperation in International Politics Deese, David A  
Fall 2021

Some of our most urgent challenges, from global warming and international financial crises to nuclear proliferation, global epidemics or disruption of the internet, can be understood as "global public goods." These require international actors to bargain, coordinate and collaborate in reaching effective responses. This seminar investigates the nature of public goods and collective action in order to help understand these pressing challenges, possible responses to them, and how politics both limits and opens opportunities for policy formation. It begins with prevalent theories about the production of public goods, from the local to transnational and global, and analysis of their governance. It then studies in depth three case studies, providing international financial stability, slowing the spread of nuclear weapons worldwide, and mitigating global climate disruption. It concludes by examining the implications of rising socio-economic inequality in major countries worldwide.

Hegel's Phenomenology of Spirit DEPT  
Fall 2021

The class will undertake a close reading of Hegel's Phenomenology of Spirit. The course will focus especially on the political and religious dimensions on the Phenomenology and how the relation between these two fundamental human interests shapes the desire of consciousness to be at home in the world. Ultimately, we will try to understand Hegel's audacious claim to have brought philosophy "nearer to the form of science, to where it can lay aside the title 'love of knowing' and be actual knowing."

## Political Science Courses: Spring 2022

POLI103301

Shifting Forms: Political Belonging in Song and Film Dept, Dept;Laurence, Jonathan  
Spring 2022

participation and the nation-state since the late 19th century, and, on the other, the film and literature of minority sexual cultures in the United States and Europe in roughly the same period, we will consider who and what makes it into national narratives and national identity in Europe and the United States, and some of the different relations between minority sexual cultures and mainstream and avant-garde practices of literature and film. Examining the relation between aesthetic forms and, on the one hand, changing political institutions, and, on the other, political and sexual identity and affiliation, the courses will lead participants to consider how political institutions and political culture are constantly reshaping one another, reflecting the shifting subjects of our political systems, and how literary texts and films shape the lives of those who read them.

Making the Modern Mind: Morality Hanley, Ryan P  
Spring 2022

How were the mathematical and scientific developments of the seventeenth century related to its philosophical and religious concepts, and how do these mathematical and philosophical innovations continue to shape the ways in which we think and act today? The world we live in today has been profoundly shaped by specific mathematical, technological and philosophical innovations that came at a crucial point in our history. But what were the most important of these, and are we better or worse off for them? Boston College students will engage these questions by going back to the origin of the modern world in the seventeenth century to study firsthand the birth of both modern algebra and calculus as well as modern moral philosophy via close study of three of the intellectual giants of the age: Descartes, Pascal and Leibniz.

Introduction to Modern Politics Behnegar, Alice P  
Spring 2022  
For majors only. Restricted to freshmen and sophomores only.. This course examines the politics and government of modern states, identifying what is distinctively modern (e.g., representative government, political parties), including in the survey both democratic and non- democratic nations. We will consider the nation-state itself--the most typical modern political arrangement--as well as efforts to "transcend" the nation (e.g., the European Union, the United Nations). We will examine the kinds of public policies that modern states adapt, and consider their consequences. Although this is not a class in international politics, some attention will be paid to the relations among modern states, including war and its causes.

Introduction to American Politics Skerry, Peter N  
Spring 2022  
For majors and non-majors. An overview of contemporary American government and politics focusing on how the institutions envisioned by the Framers of the Constitution (Congress, the judiciary, the executive) function today. Particular emphasis will be placed on how developments since the 1960s have affected the interaction of national, state, and local governmental actors, political participation, the articulation of interests, and policy formulation and implementation.  
Topics covered will include the media, public interest and advocacy organizations, campaign technologies and consultants, and public policy research institutes (think tanks). Whenever possible, comparisons between the U.S. and other advanced industrial democracies will be explored.

The Politics of the Seventies Film Kirshner, Jonathan D  
Spring 2022  
Class restricted to sophomores, juniors seniors. The 10 years from 1967 to 1976 were an extraordinary time both in the history of American politics and in the history of American film. In the same period that the country was rocked by the Vietnam War, the feminist and civil rights movements, Watergate and economic crisis, the end of Hollywood censorship along with demographic and economic change in the industry ushered in what many call "the last golden age" of American film. In this class we study both film theory and political history to examine these remarkable films and the political context in which they were forged. The goal of the course is to take seriously both the films and their politics. Enrolled students are expected to attend a weekly viewing of a film.

POLI127101

Do the Virtues Have Gender? Bayles, Martha

Spring 2022

The question of virtue lies at the heart of every civilization. So does the question of gender. Historically, some virtues, such as bodily strength, courage in battle, self-control, rational intellect, and leadership, have been considered masculine and superior to other virtues considered feminine, such as modesty, industry, frugality, nurturing, and obedience. Is this correlation of virtues and gender natural, rooted in biological sex; or is it socially constructed? Did it ever have any redeeming aspects, or was it always unjust and oppressive? How does the modern ideal of gender equality affect our understanding of the virtues? These questions will be addressed through a wide range of readings, films, and open-minded class discussion.

Political Behavior and Participation Hopkins, David A

Spring 2022

How do citizens form opinions about politics, and how do these attitudes influence their participation in political life? This course addresses these questions by surveying the most prominent sources of influence on the political orientations of individuals, including personality effects, socialization, interpersonal dynamics, cognitive biases, and the news media. We then apply these findings to the most common forms of political behavior, including party affiliation, electoral participation, activism, and protest, aiming to explain why different citizens support different political candidates and causes—as well as why some members of the public engage extensively in political activity while others remain uninvolved.

Conflict and Polarization in American Politics Hopkins, David A

Spring 2022

It was once common for observers to note—and sometimes bemoan—the relative lack of partisan and ideological polarization in American politics, yet many now believe that Americans have become too politically divided. This course examines the nature of political differences in the public, explaining how distinctions of race, sex, social class, religion, ideology, and issue positions are associated with differing choices at the ballot box. We will consider whether the strong ideological conflict now evident in elite institutions reflects similar divisions among citizens, and investigate whether the United States has in fact split into "red" and "blue" partisan territory.

POLI233801

Environmental Politics and Policy Hartney, Michael T

Spring 2022

This course provides an overview of environmental politics in the U.S., with an emphasis on the ways in which environmental policy is developed and implemented. We begin by analyzing the historical development of environmental policy in the U.S. paying close attention to how the environment as an issue has evolved from the time of the country's founding through to the modern environmental movement. We then examine specific case studies related to contemporary policy challenges. Whether climate change, nonpoint source pollution, Not in My Back Yard (NIMBY) politics, or natural disasters, today citizens are confronting the consequences of rapid economic growth and development. Along the way we will consider the key actors that shape environmental outcomes including: Congress, the EPA, industry lobbyists, state and local environmental agencies, advocacy groups, the science community, and the private sector.

POLI233901

State and Local Government Hartney, Michael T

Spring 2022

Although national politics captures most media and public attention, state and local governments may well have a greater impact on citizens' daily lives. Consequently, this course examines the key institutions and processes that shape politics and policymaking at the state and local levels of government. Specific attention will be paid to how American sub-national governments raise revenues, allocate and manage their resources (zoning laws, regulatory takings), and provide important governmental services (public schools, fire and police protection, parks). Along the way, students will be introduced to and asked to evaluate key concepts and theories relating to the operation of sub-national governments (e.g., federalism, Tiebout sorting, the "homevoter hypothesis").

American Political Thought I Hale, Dennis B

Spring 2022

American Political Thought I (colonial period through the Civil War) will begin by examining the "ancient constitution" that English colonists brought with them to the New World, as well as the important new ideas about rights that would form the core of American political experience. We will look also at the very significant religious ideas and practices that shaped colonial life, and how those ideas influenced political thought. We will then examine, in turn, the Revolution; the creation of new constitutions; the debate over the Federal Constitution of 1788, and the difficulties that led to the demand for a new constitution; the formation of the new national government; the beginnings of the party system; conflicts over the powers of the President, courts, and legislature; and the growing conflict over slavery, federalism, and secession. We will end the semester with a study of Abraham Lincoln's contribution to what has been called a "refounding" of the American polity.

Populism and the Rise of Anti-Democracy FitzGibbon, John E

Spring 2022

This course explores the emergence of Populist political movements around the globe and the increased challenge to democracy more generally. While the late 20th century was characterized by the triumph of democracy over alternative forms of government, democracy is facing both new and old challenges around the world. The course investigates the nature of these challenges, what are they, who leads them, and most critically why are they emerging now?

Together we will seek to answer these questions so that we can better understand what is happening around the world with politics right now.

POLI240501

Comparative Politics of the Middle East Bailey, Kathleen T

Spring 2022

The course explores origins of Muslim majority societies and political systems in the Middle East. It covers the formative era of Islamic civilization, and traces the diffusion of the Middle Eastern Islamic paradigm, culminating in the Ottoman system, and explores the social and political disruptions caused by the breakup of Muslim empires and establishment of European economic, political and cultural domination. It addresses how these forces led to the creation of national states and changes in class structure, and explores how the failure of Western forms of modernization and political organization led to demands for the formation of new political communities based on the revival of Islamic principles. Discussions will center Islam's compatibility with liberalism, secularization, modernity, democracy, and terrorism. Recent

developments surrounding the "Arab Spring" and its aftermath will be explored. The course includes a crisis simulation exercise.

POLI240701

Introduction to South Asian Politics Marcesse, Thibaud

Spring 2022

Student must have previously taken POLI1091 Introduction to Comparative Politics or a Comparative Politics course. South Asia is not just home to the world's fastest growing economy (India), it is also a region that continues to face significant security and development challenges, with some of the longest running interstate conflicts (between India and Pakistan for instance), and severe poverty and inequality across countries such as India, Pakistan, Bangladesh, or Sri Lanka. What accounts for the variation in security and development outcomes across and within these countries? Why are some of them better able to ensure peace and security and basic service delivery than others? This course proposes an overview of the politics of South Asia as a regional security complex, starting with the colonial legacies of state building in the region, but also looking at the impact of economic reforms and the changing international environment since the end of the Cold War and the rise of India and China as a global powers.

The New Worlds of Welfare Capitalism: Economic Reform, Redistribution, and Social Policy

Marcesse, Thibaud

Spring 2022

Student must have previously taken POLI1091 Introduction to Comparative Politics or a Comparative Politics course. Under what conditions do states decide to redistribute and fund a welfare state? This course builds on scholarship in institutional economics and political economy to consider the evolution of welfare states in both industrialized economies and emerging economies in the global south. It will not only consider the impact of economic reforms such as market and trade liberalization on welfare regimes, but also look at the evolution of the structure of taxation and its impact on social policies. The course will discuss some of the challenges faced by emerging economies in the implementation of welfare policies in the absence of large-scale redistribution.

A Continent on the Move: Immigration in Contemporary Europe Molles, Elitsa V

Spring 2022

Why do people migrate? How do host states and societies react to an increasingly multicultural and diverse foreign population? What impacts the political, economic, and socio-cultural incorporation of Europe's immigrants? This course explores the central debates in immigration studies through a survey of contemporary Western Europe, with cases comprising immigrant populations in both traditional immigrant receivers (e.g., Moroccans in France or Turks in Germany) and "new" immigration countries (e.g., Africans and Latin Americans in Spain or Poles and Nigerians in Ireland). Middle Eastern refugees in Europe will be discussed throughout the semester. Particular emphasis is placed on how the relationship between the immigrant and the receiving state transforms both.

POLI244601

Natural Resource Politics Honig, Lauren

Spring 2022

This course examines the relationship between natural resources and politics, with an emphasis on developing countries. The first half of the semester focuses on the paradox of plenty: when and why does wealth in natural resources lead to negative outcomes for governance, democracy, and development? In the second half of the semester, we will examine scarcity and conflict. How should scarce resources such as good land and clean water be managed? When does competition over resources devolve into conflict? Is there something special about diamonds? In examining these questions (and others), we will seek to understand how these issues are conditioned by policies and political institutions.

The World Wars: Causes, Conduct, and Unintended Consequences O'Rourke, Lindsey A

Spring 2022

This course examines the origins, military conduct, and societal consequences of World War I and World War II. We will look at each war from the perspective of state leaders designing their state's military strategy and the soldiers fighting for them. What caused the outbreak of each war? What was each state's military strategy and how did it interact with the strategies of other states? Why were so many soldiers willing to risk their lives and kill others on an unprecedented scale of destructiveness? Topics covered include: the social, political, and technological developments necessary to fight wars of this scale; domestic, accidental and interstate explanations for WWI; the military strategies of the major combatants in both wars; the Versailles Treaty and Post-WWI order; individual, economic, and interstate explanations for WWII; the European and Pacific theaters; German mass killings; and Japan's surrender.

Nuclear Weapons and International Relations O'Rourke, Lindsey A

Spring 2022

How have nuclear weapons influenced international relations (IR)? This course is divided into two main sections. The first section analyzes competing IR theories regarding the strategic utility of nuclear weapons and the causes of proliferation: Under what conditions will nuclear weapons act as an effective deterrent? Can nuclear weapons be used to coerce or blackmail other states? Does nuclear acquisition embolden states to pursue more aggressive foreign policies? How and why do states acquire nuclear weapons? The second portion of the course focuses on various current issues relating to nuclear weapons, including strategic missile defense, nuclear terrorism, global zero, and the Iranian nuclear deal.

POLI459701  
Realist Theories of International Relations Kirshner, Jonathan D  
Spring 2022  
Class restricted to sophomores, juniors, seniors, and graduate students. "Realism" is often invoked in international relations to mean many different things. By policymakers, it is often cited as a source of support for--and opposition to--the use of force by the U.S. in world politics. By scholars, the term realism has been deployed as a rhetorical weapon (implying opponents are "unrealistic"), as a challenge to well-intended but "utopian" foreign policies, and, often, in an academic context, as a synonym for "structuralism," which it need not be. In this course, we will look closely and critically at the tradition of realism in International Relations Theory, both to find out exactly what realism does stand for and to see how it can help us better understand world politics more generally.

The Political Philosophy of Alfarabi DiPasquale, David M  
Spring 2022  
In the Muslim world today, more than ever there is an effort to locate the key figures of Islamic civilization and to situate them in a contemporary context. Alfarabi (d. 950) founded the main tradition of philosophy in the Islamic world. Regarded by his successors such as Avicenna (Ibn Sina), Averroes (Ibn Rushd) and Maimonides as the "Second Teacher" or greatest philosophical figure following the death of Aristotle, Alfarabi was understood to have been the leading authority in two fields of study, namely, logic and political science. This course will involve a close reading of The Philosophy of Plato and Aristotle. No prior acquaintance with the Arabic language or Islamic philosophy is necessary.

POLI493401  
Honors Seminar Easter, Gerald M Spring 2022  
This course is restricted to Political Science Honors Program seniors and juniors by permission only. Honors Seminar: Pre-Modern Politics. Modern political life is mostly defined by state institutions and national identities. Yet the modern nation-state is a relatively recent political development in human society, comprising less than half of a millennium of human history. Until the modern era, the organization of political power tended to be more personalized and less institutionalized, more situational and less uniform, and more voluntary and less compulsory. Notable exceptions to this trend, however, can be found in early history's ancient empire-states. This class examines the wide variation of pre-modern political forms and practices. It identifies the common dynamics of war, wealth, religion, which drove the political transformation of human society from pre-modern kinship communities to early modern proto-states. Comparative case studies are used to illustrate these processes. The cases are drawn mainly from the peoples of Eurasia and the Americas, where occurred the historic clashes between early modern territorial-based states and pre-modern stateless societies that have since shaped today's world.

POLI771901  
American Politics From the Ground Up Skerry, Peter N  
Spring 2022  
The populist wave in American politics highlights the limitations of approaches focusing on formal organizations and government bureaucracies, particularly at the national level. As "political realists" such as Galston, Yack, and Honig note, informal and emergent social bonds and cultural forces also demand attention. Others emphasize the causal priority of ideas. This debate will be engaged by examining the social and cultural dimensions of politics. Topics to be considered will include: informal, pre-political social formations such as families and neighborhoods; non-economic aspects of corruption; community institutions such as churches, synagogues, and mosques; labor unions; and Alinsky community organizations. So will social and political movements such as the Tea Party and other manifestations of populism. These will be examined in the context of a regime improbably characterized by both identity politics and expertise.

POLI772601  
Democracy in America Melnick, Rowell S Spring 2022  
Do not take this course if you have already taken PO392/POLI4392. This seminar will use Alexis de Tocqueville's Democracy in America to examine fundamental issues in the study of American politics. Readings from Democracy in America will be coupled with contemporary political science works. What are Tocqueville's central insights? Was his description of American politics accurate? How has the U.S. changed since he wrote? These are among the questions we will address in the course.

POLI780001  
Advanced Directed Study Wilford, Paul T  
Spring 2022  
Advanced Directed Study is a final paper project for eligible second year Master's students. It is a focused and substantial paper, written under the guidance and approval of a supervising faculty member. The project is intended to cultivate expertise in a subject in which the student has formed an interest and has already done some work in. Examples include: further development of a paper from a previous seminar with a case study, primary sources or original research; an extended critical literature review; or, a delegated project in cooperation with a supervising professor's own research.

POLI780401  
Politics and Society in the Middle East Krause, Peter J  
Spring 2022  
This graduate seminar provides a comparative survey of the Middle East and North Africa from World War I to the present. After a historical introduction to the reshaping of the region a century ago, the course explores the contemporary patterns of authority and governance, the persistence of authoritarianism and the quest for democracy, ethnicity and identity politics, the rise and fall of various forms of nationalism, the role of religion, and the international relations of key states--including Egypt, Israel, Iran, Iraq, Qatar, Saudi Arabia, Syria, and Turkey. A special focus in the latter part of the seminar will be on the social bases, ideologies, dynamics, and consequences of the recent revolutionary and protest movements in the region. In addition to its topical focus, this course could rightly be called a methods course. Students in the class will learn how to improve their analytical thinking, conduct high quality research, and present an effective argument, both orally and in writing. They will learn the potential and pitfalls of prominent theories and concepts of political science through constant analysis and engagement with the modern history of the Middle East. By the conclusion of the course, students will emerge not only with a far richer understanding of the region and its politics, but also as more sophisticated consumers, analysts, and producers of knowledge.

# Psychology and Neuroscience

## Psychology and Neuroscience Courses: Summer 2021

No records found

## Psychology and Neuroscience Courses: Fall 2021

PSYC111001

Introduction to Brain, Mind, and Behavior Heyman, Gene M

Fall 2021

This is one of two introductory courses required for Psychology majors. The course focuses on basic brain function (how neurons work, brain plasticity, and drug effects) and genetic influences on psychological functions (including attitudes), and introduces students to fundamental features of learning, motivation, appetite, memory, and perception, along with their biological underpinnings. A major course theme is the physical bases of psychological phenomena.

Credits: 3

Room and Schedule: Devlin Hall 8 TuTh 12:00 Noon-01:15PM Satisfies Core Requirement:

Natural Science Prerequisites: None

Corequisites: None Cross-listed with: None

PSYC220101  
Introduction to Social Work Ryan, Sarah E  
Fall 2021  
This is a Social Work course available to undergraduate students Starting with a discussion of its history and the relevance of values and ethics to its practice, the course takes up the various social work methods of dealing with individuals, groups, and communities and their problems. In addition to a discussion of the theories of human behavior that apply to social work interventions, the course examines the current policies and programs, issues, and trends of the major settings in which social work is practiced.

PSYC227201  
Cognitive Psychology: Mental Processes and their Neural Substrates Brownell, Hiram H  
Fall 2021  
This course introduces the scientific study of mental function from an information processing perspective. The course examines how information is processed and transformed by the mind to control complex human behavior. Specific topics include the history of cognitive psychology, cognitive neuroscience, attention, perception, consciousness, short-term and long-term memory, mental imagery, language, decision-making, and problem solving. Course material will be drawn from work with clinical populations (e.g., people who have sustained brain injury) as well as from work with non-injured populations. Class sessions will be devoted to lecture, discussion, demonstrations, and (if practical) student presentations.  
Credits: 3

PSYC227401  
Sensation and Perception MacEvoy, Sean P  
Fall 2021  
How do our senses tell us what is really in the world around us, and can our senses be trusted? These questions have been pondered by philosophers for centuries, and more recently by psychologists and neuroscientists. This course will explore the anatomical/biological basis of sensation (how the world that we perceive is translated into the raw language of the nervous system) and the cognitive processes underlying perception (how our brains reconstruct the physical world from these neural inputs). We will examine these questions for vision, hearing, touch, smell, and taste.  
Credits: 3

PSYC332701  
Psychology of Prejudice and Discrimination Zimler, Mattitiyahu  
Fall 2021  
This course focuses on the social psychology of stereotyping, prejudice, and discrimination. In other words, we will examine beliefs about members of social groups (stereotypes), evaluations of group members (prejudice), and behaviors towards members of social groups based on their group membership (discrimination). Also we will study how these issues shape the experiences of social group members, especially when they are members of low-status and/or minority groups. Rather than relying on anecdotal evidence, we will examine theories of stereotyping, prejudice, and discrimination through empirical research findings.

PSYC332901  
Psychophysiology of Stress Ivkovic, Vladimir  
Fall 2021  
This course explores the psychological and physiological factors underlying stress, including basic principles of psychophysiology and fundamental concepts of stress. Topics include emotion, motivation, multitasking, attention, arousal, and distraction. Physiological mechanisms underlying stress will be examined relative to health and abnormal behaviors, such as addictions, mood disorders, and violence. Students will be instructed in methods of stress control, including cognitive behavioral techniques and meditation.

Interpersonal Violence Tishelman, Amy C  
Fall 2021  
This course will review research, assessment, treatment, and current controversies in the area of family violence, focusing on child sexual abuse, child physical abuse, and spousal abuse. The course will consist of a combination of a lecture and class discussion of the issues, including those related to memories of abuse, identification of abuse, and the legal, psychological, and social ramifications of extracting women and children from abusive homes.

PSYC333601  
Clinical Psychology Rosen, Karen  
Fall 2021  
Issues associated with the treatment of psychological disorders will be examined. The concepts of normality and pathology will be discussed in the context of various models of intervention.  
Several different schools of psychotherapy will be covered, with an emphasis on the theoretical assumptions and practical applications of each perspective. Studies on the effectiveness of psychotherapy will be reviewed. The clinical training and professional practices of psychologists will be discussed.

PSYC334201

Sport and Exercise Psychology Moore, Kristina

Fall 2021

This course will provide a broad introduction to sport and exercise psychology as both a science and a practice. Content will include major theories, seminal and current empirical research, and practical considerations concerning the cognitive processes, emotional states, social influences, and developmental systems involved in sport and exercise participation and performance.

Topics will span across individual, group, and context and may include personality, motivation, anxiety, team cohesion, group dynamics, as well as psychological skills training areas such as confidence, imagery, arousal regulation, goal-setting, and concentration. Students will synthesize material and design appropriate applications to sport and exercise settings.

Social Motivation Zimler, Mattitiyahu Fall 2021

How do other people affect our motivation to act? Psychology has given too much emphasis to extrinsic rewards and too little to the ways in which our relationships with others determine our choices, feelings, and thoughts. Many of our behaviors are motivated primarily by our relationships with others. In this course we will explore the influence of others on our behavior. Topics to be considered include kindness and cruelty, cooperation and competition, and conformity and rebellion.

PSYC336201

Mind of a Dog: How Canine Cognition Informs Human Psychology Johnston, Angela M

Fall 2021

This course explores intelligence and cognitive processes across a variety of animal species, including humans. It addresses such questions as, do chimpanzees lie? Can dolphins count? What makes us uniquely human? Topics include mental representation, memory, tool use, counting, problem-solving, self-awareness, social knowledge, and communication/language. For each area, we will examine the evidence from both wild and laboratory settings, continually returning to the questions of what such knowledge tells us about non-human animals, and how this knowledge informs our theories of human cognition.

PSYC337101

Cognitive Neuroscience Ritchey, Maureen

Fall 2021

What happens in your brain when you are secretly paying attention to a conversation at the next table? How is that conversation recorded into memory? Cognitive neuroscience aims to address such questions by exploring the brain mechanisms that underlie human mental processing. This course will examine the neural basis of core cognitive processes, including perception, attention, memory, action, and language (identified using techniques such as functional MRI, event-related potentials, and lesion studies). Other mind-brain topics that will be considered include hemispheric specialization, neural plasticity, frontal lobe function, and consciousness.

PSYC338101

Psychobiology of Emotional Learning Cole, Sindy

Fall 2021

This course will introduce students to research and theory in regards to the psychobiology of emotional learning and behavior. Behavioral experiments demonstrating basic concepts in emotional learning will be described, as well as experiments aimed at determining the neural circuits which govern this learning and behavior. Additional coursework will explore the role of both developmental factors and sex differences in emotional learning. Most of the findings presented will be from non-human animal research, but some human studies will be highlighted.

PSYC338301

Neurobiological Basis of Learning and Memory Lamoureux, Jeffrey A

Fall 2021

This course will explore the neural mechanisms that underpin basic processes of learning and memory. We will investigate both systems-level neuroscience (e.g., What do the hippocampus, amygdala, VTA, etc. actually do?), as well as a more molecular view of the role of specific intracellular processes in producing changes in synaptic connections. The molecular focus of the course will comprise a detailed investigation of long-term potentiation (LTP), and its relation to endogenous memory processes. Systems-level topics will focus on fundamental associative and non-associative learning phenomena in non-human animal models.

PSYC338801

Neurobiology of Eating and Eating Disorders Petrovich, Gorica D

Fall 2021

This course will review the neural mechanisms controlling food intake, and body weight regulation under normal circumstances and in eating disorders. Eating is not only controlled by metabolic signals (e.g., hormones, peptides), but also by extrinsic or environmental factors that are not directly related to energy balance (e.g., stress, emotion, social/cultural factors). Likewise the brain systems regulating hunger are associated with networks mediating stress, reward, emotion, and learning and memory. The course will explore the current neuroscience findings from animal models, and human studies relevant to appetite, regulation of eating, and eating disorders.

Neurobiology of Psychiatric Disorders

McDannald, Michael A Fall 2021

All people are directly or indirectly impacted by psychiatric disorders. It is now clear that virtually all psychiatric disorders have their basis in the brain. This course will explore the neurobiology of psychiatric disorders. We will focus particularly on clinical studies examining brain function in people with psychiatric disorders and animal models aiming to better understand these disorders. Students are expected to have a strong background in neuroscience prior to entering this course.

PSYC440101

Research Practicum in Human and Artificial Intelligence Anzellotti, Stefano

Fall 2021

This course is a practical introduction to the convergence between psychology, neuroscience, and artificial intelligence. Ideas from psychology and neuroscience have inspired the development of artificial neural networks. Their current instantiations, deep neural networks, are having a profound impact on computer science and society, but also on the study of the brain and cognition. This course starts with a brief introduction to the roots of artificial intelligence in psychology and neuroscience, followed by a brief, accessible introduction to the mathematical foundations of deep neural networks. In the remainder of the course, students will learn to use python and pytorch and will work in groups to implement and train deep

neural networks to build models of behavior or of the brain. Prior experience with computer programming is highly recommended; students with no experience in programming are encouraged to meet the instructor before enrolling.

PSYC443501

Images of Mental Illness in Film and Literature Schneider, Barry H

Fall 2021

This course is devoted to the representations of mental illness in film and literature, which are often more complex and more personal than the descriptions of psychological disorders in scientific writings. Students deepen their understanding of abnormal psychology as they criticize material from selected books and films containing depictions of disorders. These creative works will be examined in terms of the possible motivation of the authors and filmmakers and the potential for the creative works to decrease or increase stigma. The messages conveyed about the nature of abnormality are emphasized throughout the course. The course concludes with consideration of the ways in which psychologists and other mental-health professionals are depicted in these media.

Clinical Fieldwork in Psychology Rosen, Karen

Fall 2021

Seniors only. Priority will be given to students who are in the Clinical Concentration. This course will provide students with an opportunity to integrate theoretical and empirical work in clinical psychology with the real-life experience of working in a clinical setting. Students will select, together with the professor, a field placement (e.g., hospital, community clinic, day treatment center, shelter, emergency hot line, preschool classroom, prison). Students' work in the field will involve at least eight hours per week with weekly, on-site supervision. Weekly class meetings will focus on the discussion of issues relevant to the direct application of mental health services to child, adolescent, and adult patients.

Advanced Cognitive Neuroscience of Memory Slotnick, Scott

Fall 2021

Memory enables you to have skills, to communicate with other people, to make intelligent decisions, to remember your loved ones, and to know who you are. Without memory, you would not be you. Although human memory has been studied for over two thousand years, the neuroscience of human memory has only been studied for the last two decades. In this course, following an introduction on memory processes and brain regions of interest, we will discuss the following key topics on the neuroscience of human memory: the tools of cognitive neuroscience, explicit (conscious) memory in space, explicit memory in time, explicit memory

failure, working memory, implicit (nonconscious) memory, explicit memory and other cognitive processes, explicit memory in animals, and the future of memory research.

PSYC559001  
History of Psychology Weidman, Nadine Fall 2021  
A hundred years ago, psychology was a tiny academic specialty called mental philosophy. In a matter of decades, however, psychology burgeoned into an enormous field influencing both scholars and the popular imagination (think IQ test, think analyst's couch). What accounts for the rise of psychology to its all-powerful position? This course will examine the twentieth century trajectory of psychology, asking how it has shaped, and been shaped by, cultural, social, and political conditions, and exploring major thinkers such as William James, Sigmund Freud, B.F. Skinner, Stanley Milgram, Abraham Maslow, and others.

Introduction to Multilevel Modeling Ryu, Ehri  
Fall 2021  
The course introduces multilevel analysis and commonly used statistical models. The course begins by providing overall background including what are multilevel data, why multilevel modeling is needed, and how to properly report descriptive statistics for multilevel data. The remainder of the course presents commonly used multilevel models with illustrations using empirical data. R packages will be used. The course will focus on models with linear effects. Students are expected to be familiar with general linear models or multiple regression analysis.

## Psychology and Neuroscience Courses: Spring 2022

PSYC103201  
Science of Emotion Heberlein, Andrea S Spring 2022  
This course examines the scientific study of emotion for undergraduate students with no background in psychology. Topics include such questions as: What are the functions of emotion, interpersonally and intrapersonally? What are some ways that emotions can be dysfunctional? Are emotions the same across cultures? How do we know what someone else is feeling? How does emotion interact with decision-making? In addressing these questions, we will incorporate discussions of how psychological experiments are constructed, performed, and interpreted.  
Credits: 3

PSYC111001  
Introduction to Brain, Mind, and Behavior Heyman, Gene M  
Spring 2022  
This is one of two introductory courses required for Psychology majors. The course focuses on basic brain function (how neurons work, brain plasticity, and drug effects) and genetic influences on psychological functions (including attitudes), and introduces students to fundamental features of learning, motivation, appetite, memory, and perception, along with their biological underpinnings. A major course theme is the physical bases of psychological phenomena.

PSYC111301  
Introduction to Neuropsychological Disorders Kensinger, Elizabeth A  
Spring 2022  
In this seminar, we will discuss the function of the brain through the lens of neuropsychological disorders. We will cover disorders of attention (e.g., neglect), memory (e.g., amnesia, dementia), and vision (e.g., prosopagnosia, blindsight), discussing the characteristics of each disorder and what its existence has taught us about brain function. This course is a one-credit seminar, designed to facilitate communication between a small group of students, to foster scientific thinking, and to enhance each student's communication and critical thinking skills.

Introduction to Psychopathology Ogren, Marilee

Spring 2022

This course provides an introduction to the field of psychopathology. Major topics include theoretical and empirical approaches to the study of psychopathology; assessment and diagnosis of abnormality; and psychological, behavioral, biological, and sociocultural characteristics of the major syndromes of psychopathology. Legal and ethical issues and current approaches to the treatment and prevention of psychological disorders will also be discussed.

Psychology of Motivation Moore, Kristina

Spring 2022

Understanding human motivation extends beyond instincts, drives, needs, and rewards. This course explores motivation from multiple lenses including biological, cognitive, social, and developmental approaches. Students will examine psychological theories and principles of motivation from biological motives like hunger, thirst, and pleasure to more contemporary social-cognitive views involving self-efficacy, self-determination, competence and control, attribution, and achievement goal theories. Students will consider applications to relevant contexts including the classroom, the workplace, social relationships, and performance.

PSYC226201

Baby Talk Hartshorne, Joshua K Spring 2022

Children have an instinct for language. Every typically developing child learns language-- something neither our most powerful machines nor smartest non-human animals can do. Even adults do not learn language as quickly or successfully as children. If not exposed to a language, children will invent one. In this course, we try to understand how children learn language, why animals, machines, and adults have so much difficulty learning language, and what the answers to these questions say about what it means to be human. This course takes an interdisciplinary approach to the problem, drawing on psychology, linguistics, anthropology, animal behavior, and other fields.

PSYC227401

Sensation and Perception MacEvoy, Sean P

Spring 2022

How do our senses tell us what is really in the world around us, and can our senses be trusted?

These questions have been pondered by philosophers for centuries, and more recently by psychologists and neuroscientists. This course will explore the anatomical/biological basis of sensation (how the world that we perceive is translated into the raw language of the nervous system) and the cognitive processes underlying perception (how our brains reconstruct the physical world from these neural inputs). We will examine these questions for vision, hearing, touch, smell, and taste.

Comparative Psychology: Study of Animal Behavior Johnston, Angela M

Spring 2022

This course is a survey of animal behavior from the psychologist's perspective. The methods and aims of comparative psychology are presented as we consider how and why psychologists should study animal behavior. All species are faced with fundamental problems such as navigating in their environment, finding food and water, defending against predators, communicating with conspecifics, attracting a mate, and learning and remembering information. The course will examine the very different strategies that various species, including humans, have evolved for solving these problems, and discuss reasons why these different kinds of strategies have evolved.

Psychology of Prejudice and Discrimination Zimler, Mattitiah

Spring 2022

This course focuses on the social psychology of stereotyping, prejudice, and discrimination. In other words, we will examine beliefs about members of social groups (stereotypes), evaluations of group members (prejudice), and behaviors towards members of social groups based on their group membership (discrimination). Also we will study how these issues shape the experiences of social group members, especially when they are members of low-status and/or minority groups. Rather than relying on anecdotal evidence, we will examine theories of stereotyping, prejudice, and discrimination through empirical research findings.

Developmental Psychopathology Tishelman, Amy C  
Spring 2022  
This course provides an introduction to the field of developmental psychopathology, an area of psychology that combines the topics of developmental and abnormal psychology in order to facilitate an understanding of maladaptive behavior within a developmental framework. Course material emphasizes how aspects of development bear upon the subsequent adaptation of an individual and will generate an appreciation of normal and pathological behavior in the context of the individual, his or her developmental history, and current conditions. Examples of specific topics include the developmental impact of parent-child attachment, child maltreatment, peer relationships, and resilience in development.

PSYC334501  
Social Motivation Zimbler, Mattitiyahu Spring 2022  
How do other people affect our motivation to act? Psychology has given too much emphasis to extrinsic rewards and too little to the ways in which our relationships with others determine our choices, feelings, and thoughts. Many of our behaviors are motivated primarily by our relationships with others. In this course we will explore the influence of others on our behavior. Topics to be considered include kindness and cruelty, cooperation and competition, and conformity and rebellion.

PSYC334901  
Psychology of Meaning Ongis, Martino  
Spring 2022  
What is the meaning of life? Since time immemorial, people have attempted to answer this question throughout disciplines of science, humanities, and the arts. The human need for meaning has been described as an innate will and a fundamental motivational force. This course explores the psychology of meaning from multiple perspectives (including existential, cognitive, social, and developmental). Topics include: definitions and fundamental aspects of meaning; neurocognitive correlates of the experience of meaning; measuring meaning; what happens when our efforts to make sense of experiences fail (and how this relates to trauma); meaning-centered therapies; sources of meaning; and the relationship between meaning and individual well-being.

PSYC336001  
How Extraterrestrials Think Hartshorne, Joshua K Spring 2022  
This course covers what we know about the minds of extraterrestrials. You might think that we don't know anything about extraterrestrials on account of the fact that we haven't met any. In fact, study of human cognition has taught us a lot not just about humans, but about what is

and isn't possible. So we actually can make some definitive statements about what aliens must be like (assuming there are any). For instance, it can be shown that society could not exist if we did not have memories, so we can be fairly certain that any extraterrestrials who are advanced enough to have large-scale societies must have memories. In short, thinking about extraterrestrial cognition allows us to hold up a mirror to humanity and ask why we are the way we are, and whether there are other ways to be. The course will involve approx. 50% reading relevant findings from psychology and 50% analyzing depictions of aliens from film and literature. There will be three units: alien perception, alien morality, and alien language.  
Credits: 3

PSYC336601  
Social and Emotional Development Rosen, Karen  
Spring 2022  
In this course, we will explore developmental changes in social and emotional functioning from birth through adolescence. We will study the beginning of emotion expression and the emergence of attachment relationships, the development of emotional regulation, and the socialization of children during infancy. We will then continue to examine emotional changes and social development through toddlerhood, early childhood, middle childhood, and adolescence. The influences of parents, siblings, peers, and caregivers will be examined, as will the issues of individual differences, stability and change, and coherence of development across contexts and over time.

PSYC337401  
Psychology and Neuroscience of Cognitive Aging Ford, Jaclyn H  
Spring 2022  
This course will examine recent work being conducted in cognitive psychology and neuroscience to understand the effects of healthy aging on the cognitive and neural processes associated with functions such as perception, language, memory, and emotion. The course will introduce and examine research studies that rely on a variety of research methods, including behavioral testing, functional neuroimaging (e.g., fMRI), and structural imaging, and will focus on how the integration of these methods has allowed researchers to better understand the effects of aging. Although the course will focus on healthy aging, it will conclude with an examination of age-related diseases (e.g., Alzheimer's disease), allowing for a discussion of the ways in which the effects of disease differ from those of healthy aging.

PSYC338401  
Neurophysiology Christianson, John P Spring 2022  
The action potential is fundamental to information processing in the brain. Neurons fire action potentials in response to a variety of inputs and action potentials exist in many different shapes, sizes and frequencies. In this course we will begin with a study of ion channels, the membrane bound biochemical switches that give the action potential its shape. Then we will explore the numerous factors that influence the nature of an individual action potential: neuronal morphology, ion channel composition, and intracellular signaling cascades. We will conclude by considering how circuits of diverse neuronal phenotypes integrate synaptic signals, which give rise to sophisticated information processing, learning and memory, and psychiatric disease.  
Student projects will explore how ion channel abnormalities, so-called "channelopathies," influence cognition and behavior.

PSYC339701  
Cognitive and Neural Bases of Person Knowledge Anzellotti, Stefano  
Spring 2022  
This course is discusses how people acquire knowledge about others. The first part of the course focuses on the perceptual mechanisms involved in the recognition of other agents, their identity, their facial expressions, and their actions. The second part of the course covers how these perceptual "ingredients" are used to make inferences about other people's mental states (i.e., their emotions), their beliefs, their goals, and their traits. During the course, we will read and discuss recent research articles, and explore how different types of evidence and different methods can be used to constrain theories of cognition and of the brain.

PSYC444301  
Research Practicum in Social and Cognitive Methods Heberlein, Andrea S  
Spring 2022  
This course explores how questions are asked and answered in social and cognitive psychology, focusing on discussions of articles and the conduction of a series of research projects and demonstrations. We will cover topics including research ethics, constructing experimental variables, experiment design, a few specific types of methods and their uses/constraints, and how to write an APA-style research report.

PSYC444901  
Psychology of Inequality Ahl, Richard  
Spring 2022  
We live in a time of tremendous inequality. In the United States, the top 1% of households owns more wealth than the bottom 90%. This discussion-based class will explore the causes and consequences of wealth inequality through the lens of psychology and cognitive science. We will explore questions such as 1) How do we decide what resource distributions are equitable? 2) How do we react to unfairness? 3) Under what circumstances might we view inequality as justified? This course will use readings from developmental and adult social psychology to explore issues surrounding wealth inequality across the lifespan and consider the influence of inequality in public policy and everyday life.  
Credits: 3

PSYC446501  
Research Practicum in Developmental Psychology Topper, Stacey S  
Spring 2022  
This course is designed to serve as an overview of the research methods used in the study of Developmental Psychology. Over the course of the semester, you will become comfortable with all aspects of the scientific method. While completing a semester long research project proposal, you will learn to identify research questions, design a thoughtful scientific study, and propose statistical analyses. Students will gain experience reading, analyzing, and critiquing current research in developmental psychology. By the end of course, you will be familiar with the different methods used in developmental research and become critical consumers of research in this area.

PSYC447701  
Research Practicum in Cognitive Neuroscience Ritchey, Maureen  
Spring 2022  
This course introduces students to the research process in the cognitive psychology of memory. Research in memory examines how people encode and retrieve information (e.g., personal experiential information and world knowledge). Topics will include implicit memory, explicit memory, semantic memory, and working memory. Class readings will come from journal articles. Students will analyze these articles and lead class discussions. The ultimate goal is to have students propose a novel study and possibly carry out a research project. This will entail reviewing the relevant literature, identifying a novel research question, designing an experiment, interpreting results, and writing up the experiment in publication format.  
Credits: 3

PSYC447901  
Research Practicum in Neurogastronomy Herz, Rachel S  
Spring 2022  
How do our senses what we see, hear, smell, and taste, and the sensory features of how food is presented to us influence what, when, and how much we eat? How do moods, expectations, the situation we are in, and the people we are with influence our feelings of hunger and satiety, and even how we metabolize food? How does what we eat influence our emotions, and how do our personalities and moral convictions influence what we eat? These are some of the topics that will be addressed in this research practicum involving critical reading, class presentations, research projects, and active participation.

# Romance Languages and Literatures

## Romance Languages and Literatures Courses: Summer 2021

No records found

## Romance Languages and Literatures Courses: Fall 2021

RLRL102301

Elementary Portuguese I Rodrigues, Jose D

Fall 2021

Conducted in Portuguese. This beginning course is designed for students with little or no knowledge of the Portuguese language. It is an introduction to the language and cultures of the Portuguese-speaking world: Portugal, Brazil, Mozambique, Angola, Guinea-Bissau, Cape Verde, Sao Tome and Principe and East Timor. Students will be engaged in basic activities and conversation, read simple texts, and study basic grammar structures and vocabulary (personal and family information, daily routines, food, housing, hobbies).

SLAV116101  
Tolstoy, Dostoevsky, and Chekhov: What is the Good Life? Epstein, Thomas  
Spring 2022  
The question of what constitutes the good life preoccupied Russian society of the 19th century. In the work of the great novelist and "repentant nobleman" Leo Tolstoy life and art converge in a quest for moral self-perfection. In his "disciple" Anton Chekhov, born thirty-plus years after Tolstoy, this same quest receives a radically different response. We will explore these fascinating writers on their own terms and in dialogue via a study of Chekhov's plays, short stories, and letters, and Tolstoy's novellas, various "confessions," and Anna Karenina. The ways in which art poses ethical questions will receive special attention.

SLAV218001  
From Russia with Love: Russian Musical and Visual Culture Lin, Tony H  
Spring 2022  
In this interdisciplinary course, students will become familiar with sounds and images that  
represent Russia's contribution to world culture and Russians live by, such as symphonies by  
Tchaikovsky and Shostakovich as well as paintings by Repin and Chagall. We will consider the  
artists' aesthetic convictions in the context of several important artistic movements (e.g.,  
Romanticism, the Avant-Garde, and Socialist Realism). The class will take a trip to the Boston  
Symphony Orchestra, and each student will design a final project, which can be creative or  
performative. Formal musical training and/or the ability to read music, while helpful, are not  
prerequisites for the course.

## Sociology Courses: Fall 2021

SOCY100101

Introductory Sociology Carr, Kyle A

Fall 2021

Offered every semester. Do not take SOCY1001 if you have already taken SOCY1002. Only one of these courses will count toward the major or minor.. This course conveys a sense of the history of sociology and introduces students to the most essential concepts, ideas, theories, and methods of the discipline. Special topics may include interaction in everyday life, sociology of the family, gender roles, race and ethnic relations, and the sociology of work, among others. We will deal with fundamental questions about what it means to be a human being living in a society at a given moment in history. Ordinarily, SOCY1001.01 is reserved for majors and minors. Note that Introductory Sociology is taught by different instructors; check each instructor's syllabus for a more exact description.

Introduction to Sociology for Healthcare Professions Fan, Wen

Fall 2021

Do not take SOCY1002 if you have already taken SOCY1001. Only one of these courses will count toward the major or minor.. This course is designed to present the fundamentals of

sociology to an audience of future healthcare professionals. Attention is given both to micro-level (interpersonal) and macro-level (organizational) behavior. One of the major goals of the course is to enable students to ground themselves and their families sociologically, by examining their own community and social class origins. It will highlight issues of interest to healthcare professionals, along with sociological concepts that appear on the MCAT exam. NOTE THAT LAPTOPS WILL NOT BE ALLOWED DURING CLASS.

SOCY103001

Deviance and Social Control Pfohl, Stephen J

Fall 2021

This course explores the social construction of boundaries between the "normal" and the so-called "deviant." It examines the struggle between powerful forms of social control and what these exclude, silence, or marginalize. Of particular concern is the relationship between dominant forms of religious, legal, and medical social control and gendered, racialized, and global economic structures of power. The course provides an in-depth historical analysis of the theoretical perspectives used to explain, study, and control deviance, as well as ethical-political inquiry into such matters as religious excess, crime, madness, corporate and governmental wrong-doing, and sexual subcultures that resist dominant social norms.

Society and Environmental Transformations Thombs, Ryan P

Fall 2021

Where do contemporary environmental problems come from? Why is it so hard to resolve serious global environmental issues? Are environmental problems really social problems? This course will compel students to explore these questions, to devise answers to them, and to learn how to understand environmental problems with sociological analytical tools and methods.

Students will explore the historical origins of the contemporary world, revisit the social and environmental changes brought about by the Industrial Revolution, the World Wars, and the liberalization of capitalism, and, through first-hand research, ponder how globalization might be the start of a new environmental transformation for society.

SOCY103601

Introduction to Latin American Societies Morello, Gustavo

Fall 2021

The aim of this course is to introduce students to sociology while exploring Latin American societies. The course will start with a general presentation of both sociology and Latin America. We will discuss what sociology is, and the different ways of studying societies. We will take some time to study the birth of modern Latin American nations. Relying on this historical background, we will explore Latin American societies through sociological concepts such as race, gender, social violence, religion, sports, and culture. Finally, we will pay attention to U.S.-LA relations and the fact of Latino people living in the United States.

Social Problems Uyan, Deniz Fall 2021

This course is an exploration of different sociological approaches to the study of social problems and social trends in contemporary society. It examines the linkages between social structures/institutions, culture and human experience. The course emphasizes theoretical

research issues, especially how, and to what degree, the understanding of social problems are a direct result of the processes used to define social problems as well as the research methods and procedures used to investigate them. Students will learn to critique popular discourses from a critical sociological perspective and will be encouraged to form their own opinions and critiques.

Women and the Body

Hesse-Biber, Sharlene Fall 2021

This course covers Western cultural pressures on women to be super-slender. We analyze biological, sociological, and feminist perspectives on the body especially with regard to issues of beauty and body image and sexuality. We analyze how race, ethnicity and class intersect to create differences among women's relationship to their bodies. In what way do biological perspectives illuminate as well as cloud understanding of women's relationship to their bodies? We explore mass-mediated pressures on women's bodies through films, women's magazine, reality TV, and social networking sites. We examine the plastic surgery industry and the growing trend toward "designer bodies."

Peace or War Derber, Charles Fall 2021

Offered every semester.. We analyze issues of war and peace before and after the Cold War, focusing on U.S. wars, largely in the Third World. In the first part of the course, we explore core theories of the roots of war. In the second part, we focus on the Cold War era, examining Vietnam, El Salvador, and other U.S. conflicts. In the third part, we focus on more recent wars: Iraq, Syria, the Israeli-Palestinian conflict, the "war on terrorism," as well as conflicts such as Rwanda and Sudan. The fourth section explores the United Nations, social activism among students, and other routes to peace.

Aging and Society Moorman, Sara Fall 2021

"Age doesn't matter unless you're a cheese," quipped actress Billie Burke (the Good Witch in The Wizard of Oz). Nevertheless, age does matter within societies. This class will cover specific topics in four general areas of sociological study: roles and relationships (e.g., within the family), inequalities (e.g., ageism), institutions (e.g., health care), and social change (e.g., the aging of the population). By the end of the course, you will have acquired a new approach to thinking about how you and others age in the social world and the ways in which age is portrayed in the media.

SOCY172601

Grief and Resistance: Social Responses to American Gun Violence Gross, Nora

Fall 2021

Today's generation of college students face twin existential crises: rampant gun violence and a rapidly changing climate. While these crises can induce us to despair, our courses examine the response of grief as a site of moral, social, and political creativity. In one course, we consider how grief in the wake of various forms of gun violence is shaped by social inequalities, but also

used to motivate resistance. In the other, we explore the moral and theological resonances of our grief over deteriorating planetary systems and the inequalities produced therefrom. Ultimately, we consider how to be hopeful amidst these catastrophes.

Community Service Research Seminar Haider, Maheen  
Fall 2021  
Students should contact the Thea Bowman AHANA and Intercultural Center to obtain permission to register.. CRP is a two-semester program that offers leadership, research, and public policy training for students interested in working with communities of color in Massachusetts. In the fall, students will participate in a seminar to study the process of

community-based research and its methodologies and begin to design a research proposal for an independent study with a faculty advisor for the spring semester research project. The seminar will also include a lecture series, in which academic researchers and community professionals will discuss their current work and experiences on issues related to four research-interest communities.

Crime and Punishment Goldman, Alyssa W Fall 2021

This course will examine major themes and insights in the areas of crime and criminal justice.

The first half of the course will orient students with foundational theories of criminology, and review how these theories have informed recent empirical developments within the field. The second half of the course will focus on the American criminal justice system, with emphasis on how policy changes since the 1970s have driven an expansion in incarceration and other criminal justice sanctions in the United States, as well as the social consequences of such changes for individuals, families, and communities.

Closed on Sundays: Religious Change in Modern Societies DEPT

Fall 2021

What is going on with religion in our world? How do we understand it? What is the role of religion in contemporary societies, if any? We will explore the current answers to these questions, and also devote time to reading the classics. We will explore what the 'Founding Fathers' of sociology (Marx, Durkheim, Weber, and Du Bois) had said about religion, and also study the main theoretical frameworks to understand religion from a sociological perspective: secularization and rational choice theories. Finally, we will debate new trends in understanding religion in our globalized societies. Students will gain knowledge on the classics of the sociology of religion, the main theoretical discussions, and the contemporary trends in the field. It will cover some theoretical and methodological perspectives, as well as research literature, and include different geographical and cultural region.

Community Advocacy and Research Engagement

Abowd, Thomas P;Assigned, Dept Fall 2021

CARE is a two-semester course (SOCY 3254/3255) that offers leadership, research, and public policy training for students interested in working with Latino, Asian American and/or African Diaspora communities. In fall, students in SOCY3254 learn the process of community-based research and its methodologies, and begin to design a proposal for an independent study for spring. In the Spring, students sign up for SOCY3255 in conjunction with a Readings and Research to conduct their projects. The Spring seminar complements the R&R serving as a forum for students to discuss their research and continue to develop their oral presentation skills.

Social Construction of Whiteness Piatelli, Deborah A

Fall 2021

This course explores the social construction of race through the lens of whiteness. By examining whiteness as both a race and historical system of privilege, students will gain a deeper understanding of the persistence of racism. We will examine the distribution of privilege within American society at both the interpersonal and institutional levels; as well as consider how whiteness operates within the social constructs of class and gender. Through writing and in-class group discussion, students will examine their own identities and consider how consciously or unconsciously they are affected by these processes, as well as consider strategies for challenging racism.

Studies in Crime and Social Justice Hedges, Jessica D

Fall 2021

Crime and social justice are considered not as distinct, but indivisible constructs produced through specific knowable institutional/personal practices. Course allows students to analyze perspectives on the process through which laws and criminal justice institutions have been/continue to be constructed; situate crime study within a "power reflexive" framework, while being attentive to the operation of race, class, and gender as features of contemporary social relations/institutions; discuss contemporary intellectual and practical efforts challenging existing conceptual and political structures relating to crime and social justice; and imagine/articulate institutions paralleling the vision of social justice developed throughout the course.

Consumption, Health, and the Environment Ouimette, Monique

Fall 2021

There are many health and environmental impacts associated with consumption activities, yet such impacts often remain hidden or obscured in the course of everyday life. In this applied course, students will examine health and environmental issues associated with consumption activities. Over the course of the semester, students will learn concepts from environmental health, environmental sociology, the sociology of consumption, and public policy. Each student will engage in an original preliminary research project on a contemporary issue related to consumption and environmental health. Students will develop an understanding of the power dynamics and inequalities associated with identifying, defining, managing, and mitigating the health and environmental impacts of consumption activities. Skills, perspectives, and analytic frameworks learned in this course will be useful for students in their roles as individual consumers, citizens, and professionals.

Immigration and Identity DEPT

Fall 2021

The course explores both the history of U.S. immigration while connecting it to contemporary issues of immigration in the current Trump era. The course is designed to challenge students as we critically examine immigration theory and focus on the geo-political changes (in particular War on Terror) impacting immigrants, immigration, and immigration policy. We answer three perennial questions: (1) What is an immigrant? (2) Who is an immigrant? (3) How does one become an immigrant? We will look at the intersection of immigrant identities (class, race, ethnicity, gender, and religion) while examining immigrant experiences in the host society.

Gender and Sports Kim, Kyoung-yim Fall 2021

This course uses sport to understand gender relations in a society. The course examines the ways that gender and intersections of race, class, and sexuality are produced by and within relations of power, and how normative definitions of gender and its intersections underpin normative practices in sport, health, and physical cultural contexts. Drawing on feminist scholarship, this course provides a critical insight into the history of gender relations, and how gender is used to reproduce and resist inequalities in sport, health, and physical culture.

SOCY336501  
Human-Wildlife Conflicts and Co-existence Gross-Camp, Nicole  
Fall 2021

This course introduces students to a wide spectrum of wild animal issues and services through an interactive and interdisciplinary lens. The course captures the diversity of both negative and positive interactions between humans and wildlife in rural and urban contexts. The course covers: the ecological, social, and economic significance of wild animal species; interactions between wild, human, and domesticated species that facilitate the spread of zoonotic diseases; the impact of habitat degradation and climate change on wild animal species' geographical range and population; how species are adapting to smaller spaces and altered climates; and the urgency to protect Earth's biodiversity and the ecosystem services they provide. Human-Wildlife Conflicts and Co-existence provides an academic experience that is engaging, interdisciplinary, applied, personal, and inclusive, not just in terms of its accessibility and variety, but in terms of the multi-species perspectives it uncovers.

Social Justice in Israel/Palestine Spangler, Eve  
Fall 2021

This seminar provides the intellectual underpinnings for an immersion trip to Israel/Palestine in January. Students in this course must commit to the trip and, upon their return, to a project that uses the knowledge they gained in Israel/Palestine. The seminar will include a review of the Israeli and Palestinian history, an analysis of the contested theological claims to the land, and an examination of conflict resolving strategies focusing on cross-border groups operating in Israel/Palestine (e.g., Prime, Combatants for Peace, Parents Circle). Finally, we will consider possible economic futures for the area under both one and two state scenarios.

American Economic Crisis and Social Change Derber, Charles  
Fall 2021

Course is offered every semester. This course offers a new way to think about America, focusing on our values, our intertwined economic and social crises exploding in the 2008 Wall Street AND THE CORONAVIRUS meltdown, and systemic solutions. Our economic problems include growing poverty and inequality, a shrinking job market, and the failure of many of our industries and corporations to compete globally; our social crisis includes the growth of violence, family breakdown, global warming, SYSTEMIC RACISM, overweening corporate power and erosion of democracy. We look at new visions and social movements to transform our socio-economic system.

SOCY389901  
Society and Animals DEPT  
Fall 2021

Society and Animals introduces undergraduate students to a spectrum of understandings on animal oppression, symbolism, sociocultural constructions, and affinities from a variety of sociological perspectives. This course focuses on why these relationships matter, with a lens into societal actions, behaviors, practices, and systems altering and reshaping humans, animals and nature. Substantial consideration is given to the relationship between humans and other species within a range of societal contexts, including, but not limited to: companion animals, animals as food, animals as entertainment, animals in sport, and animals in science.

Additionally, the course contemplates the place of wild animals while questioning the notion of their freedom from societal norms and constraints. Differing cultural, regional and philosophical doctrines, ideologies and lived experiences are provided throughout the semester. Society and Animals offers an academic experience that is applied, personal, and inclusive, not just in terms of its accessibility and variety, but also in a multispecies sociological framework.

Sexual Politics in the African Diaspora DEPT  
Fall 2021

Using the African Diaspora as an analytic strategy and geographic focal point, this upper level seminar will examine the intersections of race and sexuality in a global context. The course will begin with foundational issues in the study of sexuality and people of African descent and how these frameworks have shaped theoretical, empirical and popular conceptions of Black sexuality. Although we will pay careful attention to the historical foundations for many of the contemporary issues now facing people of African descent, we will primarily focus on modern day sexual and racial dynamics and debates.

Studies in Crime, Deviance, and Social Control DEPT

Fall 2021

This class involves a sociological exploration of power-charged rituals of social control and the deviants such rituals target, as well as resistance to control by those that power excludes, marginalizes, stigmatizes, or attempts to silence. How do gendered, class-based, and racialized forms of power influence battles between agents of control and those they label as other? Drawing on critical theoretical and historical scholarship, we review major religious, legal, medical, social science, and ethical-political approaches to crime, deviance, and social control, paying attention to global digital technologies of control and resistance. Other issues include racialized policing; mass incarceration; the pharmaceutical management of madness; surveillance in everyday life; elite and governmental deviance; and the global trafficking of people, sex, drugs, body parts, weapons, terrorism, and mesmerizing media images capable of inducing fascinating and fearful waves of affect.

SOCY770401  
Regression Models for Categorical Data Fan, Wen  
Fall 2021  
This applied course is designed for students in sociology, education, nursing, organizational studies, political science, psychology, or social work with a prior background in statistics at the level of SOCY7703 Multivariate Statistics. It assumes a strong grounding in multivariate regression analysis. The major topics of the course will include OLS regression diagnostics, binary, ordered, and multinomial logistic regression, models for the analysis of count data (e.g., Poisson and negative binomial regression), treatment of missing data, and the analysis of clustered and stratified samples.

SOCY771001  
Social Inquiry Research Seminar Sarkisian, Natalia  
Fall 2021  
Required for graduate students. This course presents the wide range of alternative research methods available to and widely used by the social researcher. Among those considered are the following: survey research, observational field research, intensive interviewing, experimental research, historical analysis, and content analysis. Considerable attention will be given to comparisons among these alternative methods, to an assessment of the relative strengths and limitations of each, and to issues related to research design and proposal writing. In the context of these alternative research methods, attention will be given to problem formulation, measurement, reliability, validity, sampling, and ethical considerations.

SOCY776101  
Second Year Graduate Writing Seminar Babb, Sarah L  
Fall 2021  
This is a 3-credit, 2-semester course that meets approximately every other week for both terms. Students should contact the professor about attending in the fall, but wait to register until the spring term. In the fall term, they should register instead for an independent study with the faculty member advising their writing project. Note that a completed research proposal is required for entry.. The writing seminar is intended for second year M.A. and Ph.D. students working on their M.A. theses/papers. The 3-credit seminar begins in fall and continues into the spring term. The seminar employs a supportive structure and a collaborative learning environment to help students to carry out their independent projects. Students will be graded on the drafts of their research papers submitted at the end of the spring semester.

## Sociology Courses: Spring 2022

SOCY100101

Introductory Sociology Huang, Xiaorui

Spring 2022

Offered every semester. Do not take SOCY1001 if you have already taken SOCY1002. Only one of these courses will count toward the major or minor.. This course conveys a sense of the history of sociology and introduces students to the most essential concepts, ideas, theories, and methods of the discipline. Special topics may include interaction in everyday life, sociology of the family, gender roles, race and ethnic relations, and the sociology of work, among others. We will deal with fundamental questions about what it means to be a human being living in a society at a given moment in history. Ordinarily, SOCY1001.01 is reserved for majors and minors. Note that Introductory Sociology is taught by different instructors; check each instructor's syllabus for a more exact description.

SOCY100201

Introduction to Sociology for Healthcare Professions Goldman, Alyssa W

Spring 2022

Do not take SOCY1002 if you have already taken SOCY1001. Only one of these courses will count toward the major or minor. This course is designed to present the fundamentals of sociology to an audience of future healthcare professionals. Attention is given both to micro-level (interpersonal) and macro-level (organizational) behavior. One of the major goals of the course is to enable students to ground themselves and their families sociologically, by examining their own community and social class origins. It will highlight issues of interest to healthcare professionals, along with sociological concepts that appear on the MCAT exam. NOTE THAT LAPTOPS WILL NOT BE ALLOWED DURING CLASS.

SOCY103001

Deviance and Social Control Pfohl, Stephen J

Spring 2022

This course explores the social construction of boundaries between the "normal" and the so-called "deviant." It examines the struggle between powerful forms of social control and what these exclude, silence, or marginalize. Of particular concern is the relationship between dominant forms of religious, legal, and medical social control and gendered, racialized, and global economic structures of power. The course provides an in-depth historical analysis of theoretical perspectives used to explain, study, and control deviance, as well as ethical-political inquiry into such matters as religious excess, crime, madness, corporate and governmental wrong-doing, and sexual subcultures that resist dominant social norms.

SOCY103101

Society and Environmental Transformations Thombs, Ryan P

Spring 2022

Where do contemporary environmental problems come from? Why is it so hard to resolve serious global environmental issues? Are environmental problems really social problems? This course will compel students to explore these questions, to devise answers to them, and to learn how to understand environmental problems with sociological analytical tools and methods.

Students will explore the historical origins of the contemporary world, revisit the social and environmental changes brought about by the Industrial Revolution, the World Wars, and the liberalization of capitalism, and, through first-hand research, ponder how globalization might be the start of a new environmental transformation for society.

SOCY104901

Social Problems Uyan, Deniz Spring 2022

This course is an exploration of different sociological approaches to the study of social problems and social trends in contemporary society. It examines the linkages between social structures/institutions, culture and human experience. The course emphasizes theoretical research issues, especially how, and to what degree, the understanding of social problems are a direct result of the processes used to define social problems as well as the research methods and procedures used to investigate them. Students will learn to critique popular discourses

from a critical sociological perspective and will be encouraged to form their own opinions and critiques.

SOCY171501

Family Matters: Psychology and Adoption Kim, Oh Myo

Spring 2022

This is an Enduring Questions course and is open to Freshman only. In recent decades, the enduring question--what is a family?--has intertwined itself with religious, political and global concerns as nation-states and many different faiths have begun to regulate and create new modalities of the family. Understanding kinship--biological and constructed--is fundamental to evaluating this global turn. Using adoption as a critical lens, our linked courses encourage students to question definitions of family, evaluate how ideas of kinship have changed over time, and consider kinship's impact on one's sense of self, one's relationship to family and genealogy, and one's understanding of the past.

Family Matters: Psychology and Adoption Kim, Oh Myo

Spring 2022

This is an Enduring Questions course and is open to Freshman only. In recent decades, the enduring question--what is a family?--has intertwined itself with religious, political and global concerns as nation-states and many different faiths have begun to regulate and create new modalities of the family. Understanding kinship--biological and constructed--is fundamental to evaluating this global turn. Using adoption as a critical lens, our linked courses encourage students to question definitions of family, evaluate how ideas of kinship have changed over time, and consider kinship's impact on one's sense of self, one's relationship to family and genealogy, and one's understanding of the past.

Encountering Confinement: Ethnographies of Youth Captivity and Constraint Gross, Nora

Spring 2022

How does carceral power function in places where youths live? The United States currently incarcerates more of its citizens than any other country does, most of whom are members of disadvantaged social groups. How have experiences of confinement reorganized the social worlds of individuals, families, and communities? Although confinement is associated with prisons, the paired courses will familiarize students with the myriad sites and architectures of confinement (i.e., schools, hospitals, detention centers, and systemically neglected neighborhoods). Students will learn to recognize the roles of race, gender, age, and class in these forms of captivity and discuss the historic and present causes and effects of these incarceration sites and constrained opportunities.

Oh my God! A Sociological Intro to Religion in the U.S. Morello, Gustavo

Spring 2022

This course presents you a basic sociological approach to religion in the United States. We ask what religion is, how it is present and influential in U.S. society, its interactions with ethnicity, gender, and American politics. We will focus on people's religious practices, and how religiosity influence their personal lives. This is not a class about U.S. religious history, or about a comparison of the main beliefs among different traditions. We will pay attention to historical developments and theological ideas, but our aim is to understand how do people live religion in their daily lives, and how that practices relates to other aspects of their social life.

Edifying Books on the Arab-Israeli Conflict Salameh, Franck

Spring 2022

With the aim of gaining a deeper understanding of the antagonisms riving and riveting Arab and Jew, this course seeks to discuss edifying books on the Arab-Israeli conflict, analyzing their themes, probing their authors voices, examining temperaments, opinions, political engagements, and attitudes of self and other, and each of the actors/authors' narratives. The course will embark with a critical historical analysis of what is colloquially known as the Arab-Israeli conflict, bringing special attention to splintering empires Post-WWI (both in the Middle East and Europe,) delving into the complex unresolved legacies of multiple identities and the political and cultural conflicts that accompanied the emergence of a new Middle Eastern state system. The course will then proceed to the analysis of various narrative voices of the Arab-Israeli Conflict, interrogating key concepts such as identity, memory, state, homeland, nationalism, localism, diaspora, Zionism, Arabism, refugees, and citizenship from different Arab and Israeli purviews four Arab and four Israeli voices in total, all eight of which by definition advancing heated, temperamental, personal, seldom unbiased voices. The course will conclude with students selecting one additional book, as part of their Final Paper topic and class presentation, which they will read independently summarizing their books narrative and its authors voice and positionality (that is to say, how the authors identity and world of references inform his/her biases, beliefs, and attitudes relative to the Arab-Israeli conflict.)

Perspectives on War, Aggression, and Conflict Resolution I Jackson-Meyer, Katherine A Spring 2022

The Faith, Peace, and Justice Program at Boston College sponsors this course as an introduction to the field of Peace Studies.. This course asks: Is it ever ethical to go to war? Is it possible to be ethical in war? And, what does ethical conflict resolution look like? This course investigates these questions primarily using the resources of the Christian theological tradition and the social sciences, as well as engaging with philosophy and film. Special attention will be paid to issues in contemporary warfare and the challenges and promises of peacebuilding.

Genetics and Society Hesse-Biber, Sharlene Spring 2022

This course is geared toward social science and humanities students as well as those in the sciences. We examine the rise of genetic knowledge and advanced biotechnologies and their consequences on society. We examine the historic and contemporary aspects of genetic

research from the eugenics movement to the sequencing of the human genome. We provide a sociological lens focusing issues such as the ethics and science of genetics and genetic testing, genetic engineering, human cloning. We analyze the ethical, political, and economic impacts of genetic technologies. We delve into how genetic knowledge impacts concepts such as self, identity, disability, reproduction, and delinquency. We examine the nature versus nurture debate by analyzing the origins of sex differences, gender identity, and gender inequity.

Social Construction of Whiteness DEPT Spring 2022

This course explores the social construction of race through the lens of whiteness. By examining whiteness as both a race and historical system of privilege, students will gain a deeper understanding of the persistence of racism. We will examine the distribution of privilege within American society at both the interpersonal and institutional levels; as well as consider how whiteness operates within the social constructs of class and gender. Through writing and in- class group discussion, students will examine their own identities and consider how consciously or unconsciously they are affected by these processes, as well as consider strategies for challenging racism.

The Sociology of W.E.B. DuBois Magubane, Zine Spring 2022

This course explores the life and theoretical works of W.E.B DuBois. It is also a historical sociology of the emergence of sociology as an academic discipline. The course explores why mainstream American sociology has been so slow to recognize the contributions of W.E.B DuBois to the founding of the discipline. The course is also a rigorous exploration of the major theories he developed with regards to racism, capitalism, imperialism, colonialism and sexism. The course concludes by exploring the enduring influence of W.E.B DuBois with a particular emphasis on how his work informed and continues to inform scholars of post colonialism, race and ethnicity, inequality, and identity.

Consumption, Health, and the Environment Ouimette, Monique Spring 2022

There are many health and environmental impacts associated with consumption activities, yet such impacts often remain hidden or obscured in the course of everyday life. In this applied course, students will examine health and environmental issues associated with consumption

activities. Over the course of the semester, students will learn concepts from environmental health, environmental sociology, the sociology of consumption, and public policy. Each student will engage in an original preliminary research project on a contemporary issue related to consumption and environmental health. Students will develop an understanding of the power dynamics and inequalities associated with identifying, defining, managing, and mitigating the health and environmental impacts of consumption activities. Skills, perspectives, and analytic frameworks learned in this course will be useful for students in their roles as individual consumers, citizens, and professionals.

Global Environmental Justice and Conservation Gross-Camp, Nicole D

Spring 2022

The concept of environmental justice - that nature is not only found in wilderness, but also in the places where we live and work - revises our understanding of environmentalism to include both National Parks and nuclear waste sites, wild rivers and mega-dams. The literature on environmental justice provides narratives of individuals and communities organizing and responding to economic and environmental problems on local, national, and international levels. Its stories and investigations show that environmental issues are deeply connected with issues of globalization, gender, race and class. In this deeply interdisciplinary course, we will explore the concept of global environmental justice within the context of conservation; reflecting on the historical foundations of conservation and increasing attention to 'just' conservation. By the end of this course, you will have been exposed to ways in which environmental justice connects to issues of ethics, social justice, civic engagement, and, hopefully - your own life.

Faith and Conflict: Religion and Social Change in Latin American Societies Morello, Gustavo

Spring 2022

Liberalism was a major political influence in most of the new Latin American republics during the nineteenth century. During most of the twentieth century, the church stood itself against modernity and fought against progressive and liberal positions. However, during the Sixties, a very important renewal in theology took place in the church. This renewal had political consequences in Latin America, where wide portions of the faithful and clergy supported progressive theology. The seminar will study the progressive theological ideas and their impact in Latin America. We will frame this discussion in the debate about secularization and modernity in the continent.

Masculinity, Sexuality, and Difference Ingram, Brett D

Spring 2022

Satisfies Critical Issues Course requirement for the class of 2021 and beyond. This course will examine constructions of masculinity and sexuality in Western society from a critical cultural perspective. We will consider the ways in which cultural narratives about acceptable masculine behaviors and attitudes catalyze social conflicts, reinforce established power hierarchies, and organize the modes of being available to people of different gender identities and sexual orientations. We will also evaluate the liberatory potential of emergent discourses and practices that seek to cultivate greater acceptance of diversity, and promote social healing. There will be a concentrated focus on popular cultural forms (especially television, film, music, sports, and social media) that are particularly influential to contemporary men and boys.

SOCY493101  
Important Readings in Sociology Schor, Juliet Spring 2022  
This course is designed as the first in the sequence of courses required of students who have been admitted into the Sociology Department's Undergraduate Honors Program. Ordinarily, students will take this course during the spring of their junior year. The purpose of this seminar will be to read and discuss a series of books that are generally thought to be important contributions to the field. The books chosen will reflect a range of substantive issues, methodological approaches, and theoretical perspectives. The abiding question throughout this seminar class will be the following: What are the characteristics of powerful and compelling sociological work?

Senior Honors Thesis Moorman, Sara Spring 2022

After having completed their research proposal in SOCY4961, Students in the Undergraduate Sociology Honors Program then complete the data collection, the analysis, and the writing of their senior thesis during the spring of the senior year. In SOCY4963.01 students complete their thesis research under the direction of their faculty advisor. Ordinarily, students are expected to complete their thesis by April 15, approximately two weeks before all senior honors students present the findings of their research in a public meeting.

Internship in Sociology I DEPT  
Spring 2022

This internship program is designed for students who wish to acquire practical work experience in a human service, political, social research, or social policy agency--private or governmental, profit or nonprofit. Students have the primary responsibility of locating their own placement setting; however, both the instructor and the BC Internship Program Office in the Career Center can be of help. Students must meet with the instructor before registering to receive permission to register for the course, make sure that they will be available at the time the seminar will meet, and receive the details about the course and placements.

SOCY556001  
Consumption and Sustainability Schor, Juliet  
Spring 2022

As ecological degradation intensified, this course addresses the role of consumption in achieving sustainability, considering issues such as the scale of consumption in the global north, the spread of consumer culture globally, and the role of damaging goods and services. We begin with social theory and apply it to sustainable consumption practices. While much of the literature is pessimistic, consumer culture is remarkably dynamic. Students will develop a strong analytic context and learn to evaluate the growing literature and applied activity in this field.  
Readings include Bourdieu, Giddens, Shove, Sachs, Holt, Thompson, Seyfang and others.

SOCY559301  
Advanced Topics in Transnational Feminism Hesse-Biber, Sharlene  
Spring 2022

Transnational feminism challenges the view of "global/international" feminisms that erases differences within and between nations. There is a tendency toward a Eurocentric/Colonial viewpoint that melds difference into one "feminist mold." Transnational Feminisms highlight the varying contexts of women's lives looking at multiple frameworks of difference. Transnational Feminists focus on the link between women's situated lives and the ever-changing relationships in which they are engaged in terms of movements of people, capital, and ideas. This course will challenge Western feminists to examine their own standpoint within a global system.

SOCY667001  
Technology and Culture Griffith, William  
Spring 2022

This interdisciplinary course will first investigate the social, political, psychological, ethical, and spiritual aspects of the Western cultural development with a special emphasis on scientific and technological metaphors and narratives. We will then focus on the contemporary world, examining the impact of our various technological creations on cultural directions, democratic

process, the world of work, quality of life, and especially on the emergent meanings for the terms "citizen" and "ethics" in contemporary society. Students will explore technologies in four broad and interrelated domains: (1) computer, media, communications, and information technologies, (2) biotechnology, (3) globalization, and (4) environmental issues.

SOCY770301  
Multivariate Statistics Fan, Wen  
Spring 2022  
Requirement for sociology graduate students.. Starting with the spring semester of 2018 this course will assume knowledge of the material covered in the current version of SOCY7702 and that includes (1) a solid background in Stata programming and (2) a recent course in basic statistics. We will be switching from SPSS used last year to Stata to be used this year. We will cover exploratory factor analysis, logistic regression, basic discriminant analysis, and multiple imputation to deal with missing data; but our focus, and more than 50% of the course, will deal with multiple regression and related issues and procedures including: data transformations, analysis of residuals and outliers, interaction terms, quadratic regression, dummy variables, analysis of covariance, stepwise regression, and path analysis. This course does not require a knowledge of matrix algebra or calculus. Students who are advanced undergraduates or graduate students from other departments are welcome, but you must first get the written permission of the instructor.

SOCY770801  
Hierarchical Linear Modeling Sarkisian, Natalia  
Spring 2022  
This applied course on hierarchical linear modeling is designed for graduate students with a thorough knowledge of OLS regression. It will cover 2-level models for continuous, categorical, and count outcomes, 3-level models, growth curve models, and models for couple data. The goals of the course are to develop the skills necessary to identify an appropriate technique for multilevel data analysis, estimate models, conduct diagnostics, and interpret results. We will use HLM 6 to perform the analyses; no prior knowledge of this software is required.

SOCY771601  
Contemporary Social Theory Pfohl, Stephen J  
Spring 2022  
Required for graduate students. This seminar is a graduate level introduction to contemporary social theory. It concerns the historical context and development of a wide variety of perspectives used by social theorists to make sense of multiple social worlds. It also concerns the ways in which social theories are themselves sociologically constructed. Theoretical frameworks addressed include: functionalism and cybernetics; symbolic interactionism and pragmatism; exchange, behavioral, and conflict perspectives; feminism; Marxism; phenomenology and ethnomethodology; critical race theory; queer theory; structuralism and poststructuralism; as well as postcolonial and postmodern theories of the subject and power.

SOCY776101  
Second Year Graduate Writing Seminar Babb, Sarah L  
Spring 2022  
This is a 3-credit, 2-semester course that meets approximately every other week for both terms. Students should contact the professor about attending in the fall, but wait to register until the spring term. In the fall term, they should register instead for an independent study with the faculty member advising their writing project. Note that a completed research proposal is required for entry.. The writing seminar is intended for second year M.A. and Ph.D. students working on their M.A. theses/papers. The 3-credit seminar begins in fall and continues into the spring term. The seminar employs a supportive structure and a collaborative learning environment to help students to carry out their independent projects. Students will be graded on the drafts of their research papers submitted at the end of the spring semester.

## Studio Art Courses: Fall 2021

ARTS110101

Drawing I: Foundations Sherman, Mary S

Fall 2021

The use of line, plane, and volume is explored to develop the student's comprehension of pictorial space and understanding of the formal properties inherent in picture making. Class work, critiques, and discussions will be used to expand the student's preconceived ideas about art. This course incorporates historical components and writing assignments.

Issues and Approaches to Studio Art Ivy, Candice M

Fall 2021

This course is intended for Studio Majors and Minors and serious students with previous studio experience. This course enables students to develop skills and ideas by exploring objective, subjective, and conceptual approaches to a variety of media. Practical exercises include live models, scenarios, memory, and imagination. Students develop skills and confidence by exploring a variety of ideas and techniques in preparation for a more individually directed approach in subsequent courses. Discussions and group or individual critiques develop students' critical and analytical skills and provide an open forum for students to bring questions and problems for exploration.

Design: Seeing Is Believing

Weisberg, Debra Fall 2021

Seeing is Believing is a hands-on class that will help open the door to the mystery behind effective and engaging visual decision making. Do you find yourself using ambiguous gut feelings to make something that looks "good" without applying meaningful criteria? Using a variety of approaches and materials including photography, charcoal, and collage, assignments, exercises, and field trips are designed to strengthen visual acuity and the ability to communicate dynamically and creatively. This class is designed for both advanced and entry-level students with 2-D and 3-D assignments providing enough flexibility to meet each student at whatever level they are.

ARTS110501

Making Prints/Making Books: An Introduction to Printmaking and Book Arts Stigliano, Stephanie

Fall 2021

In this course, students will be introduced to the world of printmaking and book arts through practical, hands-on assignments. Students will learn to make relief prints, and will leave the class with a book designed from their prints. Art in book form tells a story with words, images, structure, and material. The developmental process of making a print is akin to the building of a narrative. Both of these graphic arts have existed in tandem throughout history. They are

ways to communicate ideas to a broader public, so it makes sense to explore them together in the classroom. Students who are just learning to draw and accomplished draftsmen can both benefit from making prints and books. Each assignment will balance technical, conceptual, and formal goals. We will discuss the design basics of line, shape, texture, light and shadow, space, and composition. The printmakers will create series, sequences, and variations on a theme. We will look at books and prints from different eras and cultures, and take advantage of the college's numerous collections. There will be written components, such as an observational response to a single print and a reflection on an individual book work. The students will present their artwork as the focus of group discussion and critique. Additionally, they will receive individual feedback during each class meeting.

#### ARTS110901

Design is Human Burns, Jennifer L Fall 2021

Design today is buzzed about in fields as diverse as business, medicine, and engineering. But if design can mean everything from the swoosh on a shoe to preparing coastal cities for sea-level rise, how do we comprehend this elastic concept? Considering specific examples from graphic, fashion, and product design, studying the shaping of place by architects, planners and infrastructure engineers, and finally exploring the virtual worlds of gaming, the internet and social media, this introductory course critically surveys design practices from the late-nineteenth to early-twenty-first century to understand what design has promised, what it delivered, and what it could still become.

Innovation through Design Thinking Rutirasiri, Chokdee R

Fall 2021

Would you like to be innovative in whatever you pursue? Innovation is about solving important and complex problems to create value for the greater good. Innovating through design thinking is a structured, human-centered process for creatively solving problems, which can be adopted by anyone. In this foundational course we will introduce the mindset, process and methods at the core of design thinking. Students will see inspiring case studies, hear from cutting edge practitioners, and work on a project to internalize this learning. Students will discover design thinking is a practical toolkit that helps them reliably innovate in the face of changing social needs, business disruptions, and technology shifts.

The Art of Portraiture Chong, Sammy  
Fall 2021  
Classroom activities will include demonstration, lecture, and critiques. Basic drawing skills are strongly recommended This drawing course focuses on the genre of portraiture, both in theory and in practice. The Mona Lisa, carnival portraits, and everything in between they all share the same initial approach to the figure. We will first hone in on the structure of the head. From there, we will use value, shapes, and color to create strong portraits with charcoal, gouache, and watercolor pencils. Along with traditional methods we will explore contemporary approaches to portraiture, with differing uses of format, composition, and color schemes.

Urban Design for Complexity and Sustainability Littell, Matthew  
Fall 2021  
The course explores the changing demands on urban environments in the twenty-first century and the newest policies, technologies, and design approaches that are being developed to address them. Topics will include analyses of the factors that shape the physical form of cities, including zoning and regulatory contexts, real estate development patterns, transportation infrastructure, environmental challenges, and aesthetics. The material will be introduced as case studies and surveys, with presentations by design professionals, city officials, and real estate developers. Students will gain literacy in zoning, real estate metrics, planning, and issues related to architectural design and large scale urban design. The semester will conclude with a final project synthesizing many of the topics covered.

ARTS226101  
Intermediate Photography: Techniques, Formats Muldowney, Greer R  
Fall 2021  
This course will focus on understanding and mastering the aesthetic and technical relationships among light, film, and camera, and emphasizes the development of a personal photographic vision. The class will serve as a forum for demonstrating photographic processes and equipment, critiquing work, and examining the work of contemporary artists and traditional masters within the medium to develop a visual literacy. Students are expected to produce work in series and to present a final portfolio. This course requires additional work outside of class time.  
Credits: 3  
Room and Schedule: Devlin Hall 9 Th 02:00PM-05:00PM Satisfies Core Requirement: Arts  
Prerequisites: Prerequisites: Photography I (ARTS1161), Intro to Digital Photography (ARTS1163), or with permission of the instructor after portfolio review

ARTS330601  
Alternative Approaches in Drawing Austen, Hartmut  
Fall 2021  
Fresh ideas and approaches to drawing are essential for the creative development of a department and its students. This class will explore both traditional and new conceptions of what drawing can be. We will conduct our investigation using traditional materials as well as new media in the service of crossing and pushing established boundaries. Utilizing and deepening our understanding of "mark-making" we will further explore drawing's breath and expanse across disciplines as well as its potential to expand on the what it means to "draw from observation".

ARTS332101  
Painting IV: Layered Image Lacey, Sharon  
Fall 2021  
This is a hands-on painting course that explores ways to develop and construct new imagery. We will seek challenging approaches to the organization and composition of painting space through layered and juxtaposed images. The many possible sources for imagery may include, but are not limited to, personal memorabilia, cultural references, museums of science and natural history, text and the internet. Class time is organized around painting, complemented by slide lectures, critiques, readings, and gallery visits.

ARTS110301  
Issues and Approaches to Studio Art Gallagher, Sheila E  
Spring 2022

This course is intended for Studio Majors and Minors and serious students with previous studio experience. This course enables students to develop skills and ideas by exploring objective, subjective, and conceptual approaches to a variety of media. Practical exercises include live models, scenarios, memory, and imagination. Students develop skills and confidence by exploring a variety of ideas and techniques in preparation for a more individually directed approach in subsequent courses. Discussions and group or individual critiques develop students' critical and analytical skills and provide an open forum for students to bring questions and problems for exploration.

ARTS110401  
Design: Seeing Is Believing Weisberg, Debra  
Spring 2022

Seeing is Believing is a hands-on class that will help open the door to the mystery behind effective and engaging visual decision making. Do you find yourself using ambiguous gut feelings to make something that looks "good" without applying meaningful criteria? Using a variety of approaches and materials including photography, charcoal, and collage, assignments, exercises, and field trips are designed to strengthen visual acuity and the ability to communicate dynamically and creatively. This class is designed for both advanced and entry-level students with 2-D and 3-D assignments providing enough flexibility to meet each student at whatever level they are.

ARTS110501  
Making Prints/Making Books: An Introduction to Printmaking and Book Arts  
Stigliano, Stephanie Spring 2022

In this course, students will be introduced to the world of printmaking and book arts through practical, hands-on assignments. Students will learn to make relief prints, and will leave the class with a book designed from their prints. Art in book form tells a story with words, images, structure, and material. The developmental process of making a print is akin to the building of a narrative. Both of these graphic arts have existed in tandem throughout history. They are ways to communicate ideas to a broader public, so it makes sense to explore them together in the classroom. Students who are just learning to draw and accomplished draftsmen can both benefit from making prints and books. Each assignment will balance technical, conceptual, and formal goals. We will discuss the design basics of line, shape, texture, light and shadow, space, and composition. The printmakers will create series, sequences, and variations on a theme. We will look at books and prints from different eras and cultures, and take advantage of the college's numerous collections. There will be written components, such as an observational response to a single print and a reflection on an individual book work. The students will present their artwork as the focus of group discussion and critique. Additionally, they will receive individual feedback during each class meeting.

ARTS110901  
Design is Human Burns, Jennifer L Spring 2022

Design today is buzzed about in fields as diverse as business, medicine, and engineering. But if design can mean everything from the swoosh on a shoe to preparing coastal cities for sea-level rise, how do we comprehend this elastic concept? Considering specific examples from graphic, fashion, and product design, studying the shaping of place by architects, planners and infrastructure engineers, and finally exploring the virtual worlds of gaming, the internet and social media, this introductory course critically surveys design practices from the late-nineteenth to early-twenty-first century to understand what design has promised, what it delivered, and what it could still become.

ARTS112501  
Innovation through Design Thinking Rutirasiri, Chokdee R  
Spring 2022

Would you like to be innovative in whatever you pursue? Innovation is about solving important and complex problems to create value for the greater good. Innovating through design thinking is a structured, human-centered process for creatively solving problems, which can be adopted by anyone. In this foundational course we will introduce the mindset, process and methods at the core of design thinking. Students will see inspiring case studies, hear from cutting edge practitioners, and work on a project to internalize this learning. Students will discover design thinking is a practical toolkit that helps them reliably innovate in the face of changing social needs, business disruptions, and technology shifts.

ARTS220801  
Drawing the Figure (Drawing II): Observation to Expression Chong, Sammy  
Spring 2022  
Together we will venture into a world of the body as represented through drawing materials on 2D surfaces. You will learn techniques and approaches to drawing the figure and will work in the studio from a live model. Simultaneously, you will examine the relationship between cultural philosophies and their effects on the figurative representations they produced. Studio work include: drawing the body; revise those ideas; developing finished drawings; researching historical and contemporary innovations and doing creative copies of these master works; working from memory and contextualized imagination; translate sensory experience through the representations of the body.

ARTS222301  
Intermediate Painting III Austen, Hartmut  
Spring 2022  
The course reviews and expands on the fundamental painting skills and materials acquired in Painting 1. Students continue to work on assigned and individual projects that highlight historical and contemporary methods and concepts of the discipline. Projects are mostly based on work from direct observation, but some will use found images, memory and imagination as sources to promote visual judgment and development of a more personal direction. Exhibition visits, illustrated presentations and a writing assignment are supplementing the program.

ARTS222401  
Bare Naked Approaches to Painting the Figure-Painting III Chong, Sammy  
Spring 2022  
This course is an introduction to the human body as a form and as a subject for creating paintings. The course will introduce the student to portraiture and full figure painting, using both the student and in class models as the subject. The student will be introduced to a variety of painting styles and techniques through side presentations and assigned projects. This is an intermediate/advanced level course and the student will be encouraged to focus on personal imagery and style while maintaining a concentration on representational painting.

ARTS223001  
Video Art Friedman, J Georgie Spring 2022  
This course introduces video as a medium for artistic expression and conceptual inquiry. Hands-on instruction in camera composition, lighting, sound, and editing allows students to produce individual projects which explore a range of approaches and strategies including experimental, animation, and installation. Recent and historical trends in the medium are covered through the viewing of work by media artists since 1965.

Credits: 3  
Room and Schedule: Devlin Hall 401F M 03:00PM-06:00PM Satisfies Core Requirement: None

ARTS223601  
Digital Art: Print-Based Media Popova, Katya  
Spring 2022  
This course will explore digital art as it relates to the processes and methodologies in image manipulation, compositing, representation, sequencing and story-telling. Students will work toward developing their aesthetic skills within the context of applications such as Adobe Photoshop and Adobe Illustrator, and other appropriate software. Areas covered include compositing of photographs, digital painting, flip-books, large-scale prints, and gif animation. It is presumed that students will have taken Intro to Digital Art (or a similar course), or have proficient experience in Photoshop or Illustrator before entering the class.

ARTS225001  
Graphic Design Reeves, Brian A Spring 2022  
This course is an immersive project-based introductory overview of concepts, contexts, tools, and techniques useful in solving a wide range of contemporary design problems, including logos, business cards, propaganda posters, multi-page documents, data visualizations, web page designs, app wireframes, and proposals for site-specific graphics. Beyond the necessary focus on software, including Adobe InDesign, Illustrator, and Photoshop, the course will incorporate discussion and application of typography, color theory and other 2D design concepts affecting how subject matter is perceived. Students will solve problems on behalf of themselves and choose one or more other clients whom they'll strive to serve.

ARTS228001  
Digital Diaries: Creating a Personal Body of Work in the Digital Age Baden, Karl  
Spring 2022  
Students learn and use advanced techniques in Adobe Photoshop, Illustrator and InDesign to create a body of work exploring the meaning in their lives, examples may include family history, friends, relationships, or life-changing experiences. Technical demonstrations, critiques, discussions of established photographers is part of each class. The goal is to design and produce an actual book of their project, printed by an online service (iBook, Blurb, Shutterfly, etc.). Digital Diaries is an intermediate/advanced level course.

ARTS330501  
Advanced Graphic Design: Typography & Publication Reeves, Brian A  
Spring 2022  
This course provides a conceptual, aesthetic, and technical immersion into the appreciation, use, and creation of typefaces on behalf of print and screen-based work. Students engage in critique and discussion as they work independently and collaborate to conceive and design compelling projects, including an exhibition catalog. Emphasis is placed upon both experimentation and fine-tuning with enhanced sensitivity to typographical factors affecting legibility and perception. Students gain a contemporary and historical awareness of the subtleties of various letterforms and of the people and contexts from which they arose. Tools used will include Adobe InDesign and Illustrator, open-source-type design tools, and an online portfolio site of their choosing. While no prior coding experience is required, simple markup and styling for web display will be explored. For proofing and final output of print-based projects, students will be expected to use lab printers and the on-campus printing service. Prerequisite: ARTS 2250: Intro to Graphic Designer the equivalent. Students with experience using Illustrator and InDesign who feel qualified, but haven't taken ARTS2250, may contact the instructor with a statement of interest and portfolio of their work.

Credits: 3  
Room and Schedule: Devlin Hall 401F M 12:00 Noon-02:50PM Satisfies Core Requirement: None

ARTS332801  
Senior Minor Project Austen, Hartmut Spring 2022  
This course is limited to Studio Art Minors in their senior year or by permission of the instructor. This course comprises hands-on studio work and readings that address contemporary issues in the visual arts. It is an upper level class for those with a serious interest in art making and visual thinking. Students are expected to work in a medium of their choice with which they are familiar. Studio assignments will be developed out of the issues explored in the readings.  
Students are expected to produce a body of studio work and to make an oral presentation that situates their work in relation to the topics under investigation.

ARTS333301  
Advanced Digital Art: Projection and Installation Friedman, J Georgie  
Spring 2022  
In this course, students will develop video art and animation projects specifically for three-dimensional installation. Students will research and analyze environments, surfaces, themes and a wide range of installation projects. For each assignment, students will research a theme, create original video content and develop their video for installation. The course will consider indoor and outdoor installations, projection onto surfaces, fixed media pieces and site-specific installations. The semester will culminate with a live video installation event that students will research, create, publicize, and install. Collaboration, experimentation and cohort support will be key within this class to help see bright and energetic installation projects transform spaces.

ARTS333501  
Advanced Digital Design: Designing Spaces Cook, Morgan M  
Spring 2022  
Preference will be given to majors and minors in Studio Art.. This course explores the possibilities of using 3D modeling software to design and describe 3D spaces and objects. Beginning with a solid foundation in the principles of architectural drawing and 3D modeling, students will develop their spatial design skills and build software proficiency in parallel through creative projects, readings, and short essays. Students will draw on their personal experiences of the built environment to create new 3D works. Key course concepts will be drawn primarily from the fields of architecture and sculpture, with additional materials from the fields of art and architectural history, photography, industrial design, and graphic design. This course provides an opportunity for upper-level art students interested in design to create a large amount of portfolio-quality work, and final projects are student-driven. Students should have a working knowledge of the Adobe Creative Suite before taking this course.  
Credits: 3

ARTS336101  
Intermediate Photography: Conceptual and Studio Muldowney, Greer R  
Spring 2022  
This production course explores the potential of the photographic medium through both color and black and white pictures. Working with current photographic digital imaging technology and techniques, students will advance their skills in digital-image capture and high-quality output as well as analog printing. Lectures and assignments will concentrate on both traditional photographic-based picture making and digital technologies. Students will be expected to develop their own project ideas and to work in series. This course requires additional work outside of class time.

## Theatre Courses: Fall 2021

THTR101101

Theatre Production Lab I: Scenery Run Swift, Russell L  
Fall 2021

The Theatre Production Run Labs will introduce students to the skills necessary to rehearse and perform the technical duties needed to produce a stage production. Through actual hands-on practice, students will be allowed to develop their abilities in the areas of theatre production related to scene shifting, prop running, rigging, and performance needs. Students will work on a departmental production during the semester. The work that students do on that production will vary by student and will be determined by the needs of the production and may evolve during rehearsal. Students may do multiple labs in a semester but they must be in different areas.

Theatre Production Lab II: Props Prep Swift, Russell L  
Fall 2021

The Props Theatre Production Prep Lab will introduce students to the skills necessary to research, collect, build, and organize theatrical properties; decorate theatrical sets; repair and maintain props, stage dressing and stage furniture. Through hands-on practice, students will work on departmental productions during the semester in the props lab and scene shop. The work will vary by student and will be determined by that individual abilities and interest in addition to the demands of the specific productions that the department is presenting. Students will complete 26 hours of lab work over the course of the semester.

Theatre Production Lab II: Electrics Prep Swift, Russell L  
Fall 2021

The Electrics Theatre Production Prep Labs will introduce students to the skills necessary to prepare, hang, cable, focus, and maintain stage lighting. Through actual hands-on practice, students will be allowed to develop their abilities in the areas of theatre production related to stage lighting. Students will work on departmental productions during the semester. The work that students do on those productions will vary by student and will be determined by individual abilities and interest. Students will complete 26 hours of lab work over the course of the semester.

Theatre Production Lab II: Dramaturgy Lang, Theresa  
Fall 2021

The course will be based on the practical application of Dramaturgy Basics: THTR2240. The major emphasis is on the practice and application of the art and science of dramaturgy. Students will apply the knowledge of Dramaturgy Basics to a Theatre Department production. Students will implement typical dramaturgical tasks and receive guidance and feedback on their execution. More importantly, the lab will frame the dramaturgical point of view so students will be able to effectively navigate the role in production. Over the course of the semester students will work on: Script selection and analysis, production dramaturgical research and response, in rehearsal practice and protocol, audience contact, program notes, lobby display and talk backs, new play development, building a theatrical season, and civic engagement.

#### THTR103901

Theatre Production Lab III: Assistant Stage Manager Traub, Adele N  
Fall 2021

Every department production has two or more assistant stage managers. These students help the stage manager to run rehearsals and are in charge of backstage during performances. ASMs must be at many of the regular rehearsals and at all of the technical and dress rehearsals and performances for the show that they are assigned. ASMs count as a one credit lab. While it takes a little more time than other labs, you learn how all the theatrical pieces of a show fit together. This lab requires department permission; however, there are no majors only restrictions and no experience is necessary to assistant stage manage a show.

THTR104901  
Advanced Production Lab: Stage Manager Traub, Adele N  
Fall 2021

Once students gain experience as an assistant stage manager, they may advance to the two credit Stage Management lab. The stage manager works alongside the director on a production and is in charge of organizing rehearsals, communicating with the production team, and running performances. Stage managers plan each rehearsal with the director, create rehearsal schedules, keep track of blocking, costume and prop needs, and distribute rehearsal reports to theatre staff and designers. Stage managers are assigned at the end of the previous academic school year to stage manage one of the six Theatre Department productions. This lab requires department permission and significant production experience. Stage managers at BC work alongside students and professionals alike and are considered leaders within the department.

THTR170301

Performing the Immigrant Experience Stahl, Megan E

Fall 2021

The show-stopping lyrics, "Immigrants: We get the job done," are from the Broadway smash Hamilton. The production's resonance with our contemporary zeitgeist serve as a potent reminder that the history of the United States is truly a story of immigrants. This course examines the impact that such immigrant experiences have had on the narratives told in American theatre, and analyzes the ways in which diasporic communities have used the stage to challenge the power dynamics of a dominant cultural hierarchy. Through the plays and theatrical movements studied in class, students will investigate the construction and performance of immigrant identities by Irish, Italian, Jewish, African, Asian, Latinx, and Middle Eastern theatre practitioners in the United States.

Stage Management Basics Traub, Adele N

Fall 2021

This course is a lecture/laboratory course with the major emphasis on the practice and application of the art and science of stage management. Course work will include a thorough investigation of the theory and principles of human resource management, as well as technical production. Discussions will include production preparation, rehearsal management, union rules, working relationships, and all essential skills of a professional stage manager. Special emphasis will be placed on the application of theory to actual stage management situations.

Theatre Skills: Stage Lighting Process Adelberg, Jeff

Fall 2021

This course is for students interested in production assignments in Lighting Design. Building on the foundation of Lighting Design, we will learn the process of turning lighting ideas into executable designs in collaboration with artistic and technical teams. All stages of the design process will be covered, including concept development, drafting light plots and all types of lighting paperwork, and the focus/cueing/tech process.

Principles of Theatre Management DEPT

Fall 2021

This course is designed to provide an introduction to the managerial, administrative, and leadership aspects of both for-profit and non-profit theatre. This class will consist of lectures on the fundamentals of arts management, case studies, project work, and a series of in-depth conversations with leaders in the field of theatre and/or performing arts management. Emphasis will be placed on: marketing, PR, budgeting, audience development, producing, fundraising, education, and community relations. Producing work in today's world, the challenges and opportunities, will be a theme throughout the semester.

History of Theatre I Hecht, Stuart J  
Fall 2021  
This course follows the simultaneous development of the actor, playwright, architect, and director from the Egyptian theatre through to the Elizabethan and Jacobean theatre. The course will also study the development of dramatic structure and form over time. In a larger sense, it will examine the role and function of theatre in each successive society, determining how the stage reflects the social, political, and cultural concerns of each age.

THTR228601  
The Chorus, Ancient and Modern: Forms of Communal Performance and the Body Politic Sapsford, Thomas  
Fall 2021  
This course investigates a particular form of cultural institution developed in ancient Greece, the chorus. It begins by exploring how the ancient chorus both praised and questioned the political systems that facilitated it before considering how choral performance in the modern period has been an effective tool for propaganda, revolt, and riot. Alongside works by ancient Greek poets, students look at a range of modern performance genres such as opera, ballet, sporting ceremonies, Broadway musicals, and flash mobs. Students also gain experience of communal performance themselves through participation in a series of practical movement and singing workshops.

THTR319001  
Memory and Testimony in Irish Theatre DEPT  
Fall 2021  
Do you have a family story about the past? Do you know of a story that isn't told? Do you know of people who want to tell their story but have no one to listen? This course focuses on Irish plays as a way of exploring the questions of who gets to speak, what stories get told, and what stories do not get heard. In Irish theatre we encounter zany characters who can't stop talking about a romanticized past, lonely voices speaking of deeply personal pain, and families who celebrate and inherit the memories of others. The plays in this course range from the comic to the tragic, and from fiction to documentary work. They ask challenging questions of how culture allows certain people to speak, and of how we can use our voices to tell our own stories. Each week students will read a new play and consider it in its cultural and critical context. There will be opportunities for writing creative as well as critical responses. Most of all, this aims to be a lively class where we all get to consider what it means to remember, what it means to forget, how we can be better listeners, and how we can find our own ways to give testimony. Playwrights may include: Samuel Beckett, Brian Friel, Tom Murphy, Mary Raftery, Marina Carr, Christina Reid, Enda Walsh, Sebastian Barry, Louise Lowe, Grace Dyas. Emilie Pine is Professor of Modern Drama in the School of English, Drama and Film at University College Dublin, Ireland. She is Editor of the Irish University Review and lead investigator on the Industrial Memories project (<https://industrialmemories.ucd.ie>). Emilie has published widely as an academic and critic, most recently The Memory Marketplace: Witnessing Pain in Contemporary Theatre (Indiana University Press, 2020), and the multi-award-winning Notes to Self: Essays, which has been translated into fifteen languages. Her first play will premiere in 2021.

THTR330301  
Meisner Acting Technique Riggin, Patricia  
Fall 2021  
Acting III explores the essential principles of acting using the methods developed by Sanford Meisner and William Esper. Through a progression of structured improvisations, the actor's ability to work moment by moment and to truthfully live in those moments is developed. These exercises are designed to stimulate impulses, sharpen concentration and listening skills, and develop the imagination, spontaneity and emotional skills of the actor. During the

semester, students apply the expertise acquired through these exercises to scene work. (Formerly listed at Acting III class)

THTR331901  
Musical Theatre Performance Shea, Jerome E  
Fall 2021  
The study of Musical Theatre Technique is learning the tools required to perform this theatrical form with truth and depth. Students will explore the connection between actor, character and material through solo and scene work. The course is divided into three units with each unit focused primarily on one or more specific aspects of Musical performance. Through exercises, group work and coachings, students will develop a thorough understanding of each technique and will have the opportunity to demonstrate their understand in a final performance. By the end of the course, students will have further developed vocal and acting skills, explored what it is to perform in a variety of Musical Theatre styles, enlarged their Musical Theatre repertory, deepened their understanding of the Music Theatre form, and pushed beyond preconceived personal limitations.

Costume Design Dalley, Jacqueline Fall 2021  
Students are not required to have advanced drawing skills to take this class. There are several class sessions devoted to learning and practicing drawing and painting techniques. The art of costume design integrates artistic imagination with the practical concerns of theatrical production. The course is designed to help students develop the fundamental skills used by costume designers, focusing particular attention on character analysis, period research, and visual communication. The course will include a series of exercises and projects to develop skills in figure drawing, rendering in various media, fabric selection and color. Students will learn how to communicate character, mood and style through costume following two learning tracks: (1) developing the concept and theory of the design and (2) communicating the design through figure drawing and rendering.

THTR337801  
Creative Dramatics Jorgensen, Luke R Fall 2021  
This class investigates the power of drama to educate, inspire and empower the individual. The course focuses on drama pioneers whose work crosses over borders between the fields of education, theater, drama therapy and social justice. This is a hands-on investigation of theories and techniques and will include working with local middle school students to observe and apply ways of making drama with adolescents. Creative Dramatics is essential for activists, directors and for teachers in obtaining additional certification to teach drama. Subjects include storytelling, improvisation, Commedia Dell'Arte, drama therapy, Theatre of the Oppressed, and Theatre for Youth. It examines the work of Viola Spolin, Augusto Boal, Winifred Ward, Jerry Grotowski, and Jacob Moreno.

THTR338601  
Shakespeare on the Stage Cummings, Scott T  
Fall 2021  
William Shakespeare wrote his plays to be performed. Consequently, the most effective method of understanding his work is through performance. Lectures will describe the

condition of Elizabethan England and its theatre, providing a larger social and historical context in which to view the playwright and his work. The class will read, analyze and discuss some ten to twelve Shakespearean plays, including his comedies, tragedies, history plays, and the so-called problem plays. Students will also be expected to perform scenes from Shakespeare's plays, not to show off their acting skills, but rather as a means to explore how each play works.

## Theatre Courses: Spring 2022

THTR101101

Theatre Production Lab I: Scenery Run Swift, Russell L

Spring 2022

The Theatre Production Run Labs will introduce students to the skills necessary to rehearse and perform the technical duties needed to produce a stage production. Through actual hands-on practice, students will be allowed to develop their abilities in the areas of theatre production related to scene shifting, prop running, rigging, and performance needs. Students will work on a departmental production during the semester. The work that students do on that production will vary by student and will be determined by the needs of the production and may evolve during rehearsal. Students may do multiple labs in a semester but they must be in different areas.

THTR102701  
Theatre Production Lab II: Dramaturgy Lang, Theresa  
Spring 2022

The course will be based on the practical application of Dramaturgy Basics: THTR2240. The major emphasis is on the practice and application of the art and science of dramaturgy. Students will apply the knowledge of Dramaturgy Basics to a Theatre Department production. Students will implement typical dramaturgical tasks and receive guidance and feedback on their execution. More importantly, the lab will frame the dramaturgical point of view so students will be able to effectively navigate the role in production. Over the course of the semester students will work on: Script selection and analysis, production dramaturgical research and response, in rehearsal practice and protocol, audience contact, program notes, lobby display and talk backs, new play development, building a theatrical season, and civic engagement.

THTR103101  
Theatre Production Lab III: Assistant Scenic Designer Tiala, Crystal  
Spring 2022

For this lab, students will assist the scenic designer with many aspects of the design process, depending on the needs of the show. Through this work they will learn about the process and become acquainted with the relationship between the designer and the scene shop. They will assist with such activities as research, the creative development of the design idea, model building, drafting, properties research, and interacting with the scene shop and scenic painters.

THTR103201  
Theatre Production Lab III: Assistant Costume Designer Dalley, Jacqueline  
Spring 2022

For this lab, students will assist the costume designer with many aspects of the design process, depending on the needs of the show. Through this work they will learn about the process and become acquainted with the relationship between the designer and the costume shop.

They will assist with such activities as research, pulling from stock, shopping, special construction projects, wigs, ensemble costuming, and being a liaison during dress rehearsals. Students will work on one departmental production during the design process through dress rehearsals. The work that students do on that production will vary by student and will be determined by the needs of the production and may evolve during rehearsal.

THTR103901  
Theatre Production Lab III: Assistant Stage Manager Traub, Adele N  
Spring 2022

Every department production has two or more assistant stage managers. These students help the stage manager to run rehearsals and are in charge of backstage during performances. ASMs must be at many of the regular rehearsals and at all of the technical and dress rehearsals and performances for the show that they are assigned. ASMing counts as a one credit lab. While it takes a little more time than other labs, you learn how all the theatrical pieces of a show fit together. This lab requires department permission; however, there are no majors only restrictions and no experience is necessary to assistant stage manage a show.

THTR104901  
Advanced Production Lab: Stage Manager Traub, Adele N  
Spring 2022  
Once students gain experience as an assistant stage manager, they may advance to the two credit Stage Management lab. The stage manager works alongside the director on a production and is in charge of organizing rehearsals, communicating with the production team, and running performances. Stage managers plan each rehearsal with the director, create rehearsal schedules, keep track of blocking, costume and prop needs, and distribute rehearsal reports to theatre staff and designers. Stage managers are assigned at the end of the previous academic school year to stage manage one of the six Theatre Department productions. This lab requires department permission and significant production experience. Stage managers at BC work alongside students and professionals alike and are considered leaders within the department.

THTR105101  
Advanced Production Lab: Technical Director Swift, Russell L  
Spring 2022  
The Technical Director Lab will allow students to develop the skills necessary to plan the construction, rigging, load-in, and budgeting of scenery. Through actual hands on practice, students will be allowed to develop their abilities in the areas of theatre production related to organizing the construction of scenery. Skills will be developed in planning, budgeting, construction drawings and crew organization. Safety procedures that relate to these areas will be taught and practiced. Students will work on a specific departmental production during the semester. The work that students do on that production will vary by student and will be determined by individual abilities and interest, as well as the needs of the specific production that we are working on.

Ballroom Dance: Mid-Nineteenth Century Burgess, Quinn M  
Spring 2022

Students in this course will learn a selection of mid-nineteenth century ballroom dances such as the waltz, the polka, a quadrille, and country dances such as the Virginia Reel. In addition, students will connect with the past through an exploration of topics such as women's and men's fashion, etiquette, and the physical world of the ballroom. Students will be asked to synthesize the information contained in the course through the embodiment of a character that will be presented in class. These elements will encourage each student to envision the past, bringing it to life with an understanding of the relationships between dance, etiquette, fashion, and the culture of the period.

Performing the Immigrant Experience Stahl, Megan E

Spring 2022

The show-stopping lyrics, "Immigrants: We get the job done," are from the Broadway smash Hamilton. The production's resonance with our contemporary zeitgeist serve as a potent reminder that the history of the United States is truly a story of immigrants. This course examines the impact that such immigrant experiences have had on the narratives told in American theatre, and analyzes the ways in which diasporic communities have used the stage to challenge the power dynamics of a dominant cultural hierarchy. Through the plays and theatrical movements studied in class, students will investigate the construction and performance of immigrant identities by Irish, Italian, Jewish, African, Asian, Latinx, and Middle Eastern theatre practitioners in the United States.

Makeup Design for the Stage DEPT

Spring 2022

This course introduces students to basic makeup techniques for the stage. Students will study makeup design principles and develop a mastery of applied techniques. Using the theories of highlight and shadow, and an examination of facial anatomy and how it changes with age, the student will learn to change the look of the face to suit different characters. Emphasis will be placed on character analysis and research, and translating that into a makeup design. Time will also be given to study various styles of makeup (e.g., fantasy, cartoon, period makeup, etc.) and special-effect makeup.

History of Theatre II Hecht, Stuart J Spring 2022

Continuation of History of Theatre I. It begins in 1642 in England and tracks the simultaneous development of the actor, playwright, architect and director. However, it studies this evolution within the larger cultural and political contexts that implicated every decision from the content of dramas to the seating arrangements within auditoriums. Among the epochs and influences that will be considered are art and decadence in English Restoration comedy, the role of the playhouse in the rise American proletarian culture, the impact of sentimentalism and Victorian morality on playwriting, and the advent of psychology and its effect on acting.

Stage Design I Tiala, Crystal Spring 2022  
This course will concentrate on contemporary professional design practices and theories for the stage. Students will study the evolution of theater design and will investigate the development of imagistic design forms, produce effective spatial environments and create ideas through rigorous research of imagery. Processes will include script analysis and the study of imagery as well as techniques in drafting and model building.

Lighting Design for the Stage DEPT  
Spring 2022  
The theory of illumination for the arts is explored in its fullest implications. Theater, dance, cinema, video, photography, and rock and roll lighting will be used as examples of the art of creative illumination. As an art form and a practical science, media lighting presents a complex subject for detailed investigation. Some drafting ability and practical experience in one of the areas previously mentioned is desirable as background for the course.

THTR336201  
Playwriting I Cummings, Scott T Spring 2022  
This writing-intensive course offers a practical introduction to the art and craft of writing for performance. Students will engage in numerous writing exercises that highlight the special demands and opportunities of writing for the stage. Emphasis is placed on finding ways to contact and release the theatrical imagination and on mastering the basics of writing a solid dramatic scene. Exemplary plays by established playwrights will be studied as appropriate, but the overwhelming emphasis is on student writing.

THTR337701  
Fashion and Decor: A Cultural History Dalley, Jacqueline;Tiala, Crystal Spring 2022  
Trends in fashion and interior decoration simultaneously shape and are shaped by the culture from which they grow. When we look at styles of a particular period, we see reflections not just of personal taste, but also social values, political and economic developments, influence of popular culture, new technology, and the overall mood of the period. Through lectures, discussions and visual research projects, this class will examine trends in fashion and décor as they relate to the cultures of the eighteenth, nineteenth, and twentieth centuries, highlighting the correlation between fashion, decorative arts, architecture, and interior design.

THTR338201  
Contemporary American Theatre Cummings, Scott T  
Spring 2022  
This upper-level theater studies course surveys important playwrights and developments in American theater and drama over the past four decades. Works by Sam Shepard, Maria Irene Fornes, David Mamet, David Henry Hwang, Tony Kushner, Paula Vogel, Suzan-Lori Parks, and others are studied. Special topics include the off-Off Broadway movement of the 1960s; the resident-regional movement and the decentralization of American theater; the advent of multiculturalism and performance studies; and the rise of solo performance.

THTR338701  
Modern Theatre and Drama: Ibsen to Albee DEPT  
Spring 2022  
Theatre offers much-needed perspective on our world which is why we have seen many recent Broadway revivals of Modernist plays: they address/anticipate the progressive ideals, social and political concerns, and issues of identity, relevant today and beyond. This upper-level theatre studies course traces the development of Modern drama and theatre from roughly 1870 to 1970, considering the innovative, ground-breaking work of dramatists such as Ibsen, Strindberg, Chekhov, Shaw, O'Neill, Brecht, Beckett, Pinter, and Albee. In this course we will consider the originals and revivals, analyze texts and learn how to "read" styles. We may also stage moments from each play in class. There will be a midterm, final, and term paper.

## Theology Courses: Fall 2021

THEO108801

Person and Social Responsibility I Troxell, Mary S

Fall 2021

Enrollment limited to freshmen, sophomores, and juniors The course requirements include ten to twelve hours per week of community service. In light of classic philosophical and theological texts, students in this course address the relationship of self and society, the nature of community, the mystery of suffering and the practical difficulties of developing a just society. PULSE students are challenged to investigate the insights offered by their readings in relationship to their service work. Places in the course are very limited.

Perspectives on Western Culture I/Perspectives I Atanassova, Antonia

Fall 2021

Freshmen only The course introduces students to the Judeo-Christian Biblical texts and to the writings of such foundational thinkers as Plato, Aristotle, Augustine, Aquinas, Luther, Bacon, Descartes, Hobbes, Locke, Kant, Hegel, and Kierkegaard. The first semester considers the birth of the self-critical Greek philosophic spirit, the story of the people of Israel, the emergence of Christianity and Islam, and concludes with a consideration of medieval explorations of the relationship between faith and reason. Attention will also be paid to non-Western philosophical and theological sources.

Peaceful Conflict Resolution Methods Nielsen, Richard P

Fall 2021

This course considers conflict resolution methods in several different types of contexts: personal and family, organizational and work, and international peace-making. Among the methods analyzed and practiced in role playing exercises are: methods for resisting win-lose behaviors, methods for developing win-win solutions to conflicts, dialogic methods for developing creative solutions to conflicts, and third party facilitation, mediation, and arbitration methods. Personal skill development as well as careers in conflict resolution are explored. In addition, different types of personal philosophical and spiritual approaches to conflict resolution are considered.

Praying Our Stories Ponsetto, Daniel P Fall 2021

Significant experiences of God's presence are often thought of as extraordinary. They are moments we might expect while on retreat, during community worship, or while sitting under the stars. We might assume that to find God we must transcend our mundane life and get to another place. This course will explore how God is in fact more likely, and thankfully, discovered in the ordinary. Ignatian spirituality does not distinguish between secular and sacred, work and prayer, or God and "real life." Instead, it is about finding God in our lived experience and cooperating with God to transform that experience.

THEO140201  
God, Self, and Society Hein, Aimee A  
Fall 2021  
The purpose of this course is to introduce students to the dynamics of theological reflection in an academic setting. Framed as a quest for truth, transformation, and justice, the course invites students to explore key questions and themes of enduring human significance in conversation with the classic texts, ideas, and practices that animate the Christian theological tradition. Such questions include: What is theology? What is the ultimate horizon of our lives? What does it mean to be human? Who is Jesus Christ? And how can we know and serve the common good?  
Satisfies Core requirement for: Theology (Christian Theology)

 Fall 2021  
 The purpose of this course is to introduce students to the dynamics of theological reflection in an academic setting. Framed as a quest for truth, transformation, and justice, the course invites students to explore key questions and themes of enduring human significance in conversation with the classic texts, ideas, and practices that animate the Christian theological tradition. Such questions include: What is theology? What is the ultimate horizon of our lives? What does it mean to be human? Who is Jesus Christ? And how can we know and serve the common good?  
 Satisfies Core requirement for: Theology (Christian Theology)  
 Credits: 3

#### THEO142001

The Everlasting Covenant: The Hebrew Bible DeSouza Garner Assis, Luiz Gustavo Fall 2021

The Hebrew Bible/Old Testament has been an influential and often fundamental source for many modern, Western views of God, nature, human beings, a just society, and the origin and destiny of humanity and the world. An intelligent, serious reading of the Hebrew Bible raises most of the enduring questions that have traditionally stood at the center of philosophical and theological debate. Thus, a thorough analysis of texts from the Hebrew Bible in terms of the central concerns of the core curriculum will be the primary goal of THEO 1420 The Eternal Covenant: The Hebrew Bible. Satisfies Core requirement for: Theology (Sacred Texts and Traditions)

THEO143001

Buddhism and Christianity in Dialogue Goehring, Dorothy L;Makransky, John J Fall 2021

This course is both an introduction to Buddhism and to Buddhist-Christian comparative learning. In early weeks we study concepts and practices of Theravada and Zen Buddhism from Southeast and East Asia. We then explore some areas of Christian thought that can be compared with Buddhism--understandings of faith, God, Jesus, sin, spiritual rebirth, sacramentality, and social ethics. Finally, from Buddhist and Christian perspectives, we focus on one or more of the following topics: spiritual practices of deepening care and discernment, faith- based action, interfaith learning, ecology, and/or feminism. Satisfies Core requirement for: Theology (Sacred Texts and Traditions)

THEO143201

Hinduism and Christianity in Dialogue Cornille, Catherine M;Savariyar, Dhinakaran Fall 2021

It has been said that to know one religion is to know none. In this course, we seek to gain an understanding of two of the major world religions, Christianity and Hinduism, through a comparative and dialogical approach of the ways in which these traditions have come to terms with some of the basic existential questions and religious aspirations of humanity. We will focus on conceptions of evil and salvation/liberation, on ritual practices, ethical principles, and their respective views of one another. Satisfies Core requirement for: Theology (Sacred Texts and Traditions)

#### THEO170101

Spiritual Exercises: Engagement, Empathy, Ethics Robinette, Brian  
Fall 2021

This course introduces students to a variety of "spiritual exercises" that have helped shape the Christian theological traditions of the East and West. Focusing on figures and texts from antiquity to the current era, such a study presupposes that theology is not merely a theoretical enterprise but a way of life. Drawing upon insights from other disciplines (e.g., philosophy, psychology, the arts) as well other religious traditions, the course highlights the perceptual, emotional, and cognitive transformation of the human person--or what Ignatius of Loyola, founder of the Jesuits, called "care for the whole human person" (cura personalis).

Geographies of Imperialism: Theology of Colonization Delong-Bas, Natana J  
Fall 2021

This is an Enduring Question course for Freshman only. Register for both THEO1707 and HIST1716. The age of empires is past--or is it? In this course, we examine the enduring ideas of empires and their challengers through the present day, using the lenses of history and theology (Christianity and Islam). Beginning with the traditional geographies of maps, we explore how empires colonized not only territories with physical borders, but also bodies and minds, using race, gender, sexuality, ethnicity, education, laws and institutions. Using the British and French empires in the Middle East and North Africa as case studies, we will identify and question how to overcome the boundaries still imposed on people today.

#### THEO171001

Flawed Founders: King David and the Theology of a Political Hero Vanderhoof, David  
Fall 2021

The portrait of King David in the books of Samuel and Kings does not offer direct access to ancient Israel's royal dynastic founder. Layers of praise and polemic intertwine with embellished biography and searing criticism to create a complex portrait. Was he a pious shepherd boy who slew the giant Goliath and rose to fame or a Machiavellian politician who exploited his predecessor, King Saul, and the numerous women in his life? The biblical account of David's rise to the throne, his royal accomplishments, and his private failings, have aroused conflicting interpretations through the ages. At the same time, the dynasty founded by "the man after God's own heart," ruled Israel or Judah for nearly 400 years, while later Jews and Christians idealized David's image. Jesus of Nazareth, of course, was understood as a descendent of the great king. How should readers of the Bible appreciate David, the significance of his accomplishments in political terms, and his ongoing influence in theological reflection about the ideal ruler, justice, and the relationship between God and King? The course will focus on the biblical narrative, on contemporary non-biblical records, on archaeological evidence, and on the image of David in later texts and artistic images. Modern methods of biblical scholarship will guide the inquiry, but attention will also be given to the philosophy of history and to evaluation of literary artistry in the Bible.

Grief and Resistance: Theological Responses to Climate Change Powell, Russell C  
Fall 2021

Today's generation of college students face twin existential crises: rampant gun violence and a rapidly changing climate. While these crises can induce us to despair, our courses examine the response of grief as a site of moral, social, and political creativity. In one course, we consider how grief in the wake of various forms of gun violence is shaped by social inequalities, but also used to motivate resistance. In the other, we explore the moral and theological resonances of our grief over deteriorating planetary systems and the inequalities produced therefrom. Ultimately, we consider how to be hopeful amidst these catastrophes.

In the other, we explore the moral and theological resonances of our grief over deteriorating planetary systems and the inequalities produced therefrom. Ultimately, we consider how to be hopeful amidst these catastrophes.

When Gods Begin Again: Intro to African and African Diaspora Religions Daniels, Kyrh M  
Fall 2021

This introductory course examines Indigenous African and African Diaspora religions from an interdisciplinary perspective. We explore Yorùbá and other African religions, along with African Christianity, Islam, Haitian Vodou, Cuban Santería, Brazilian Candomblé, Sango Baptist of Trinidad and Tobago, Rastafari and Obeah of Jamaica, Black American conjure, and Oyotunji Village. Important themes of religions in Africa and the Afro-Atlantic Diaspora are addressed, such as: the veneration of God(s), Spirit(s), Ancestors, and the natural world; divination, initiation, sacred space, and healing; the impact of slavery on conversion and continuity; fetish as a colonial construct; globalization, race, gender, and power. Ultimately, this course encourages students to reevaluate their understanding of Africana religions, recognize diverse

cultural practices and ritual knowledge systems, and engage with oral, written and audio/visual texts that underscore the values of these traditions.

The Challenge of Justice Pope, Stephen J

Fall 2021

This course introduces the student to the principal understandings of justice that have developed in the Western philosophical and theological traditions. Care is taken to relate the theories to concrete, practical and political problems, and to develop good reasons for choosing one way of justice rather than another. The relationship of justice to the complementary notion of peace will also be examined. Special attention is paid to the contribution of Catholic theology in the contemporary public conversation about justice and peace. Problems discussed may include human rights, hunger and poverty, and ecological justice.

#### THEO221501

Telling Truths III: The Narratives that Shape Our Lives Hirsch, Kathleen A

Fall 2021

As we encounter injustice, conflicting visions of "the good," and different moral scales of behavior, rights and responsibilities, it is essential that we become aware of our own foundational narratives. What "wisdom stories" shape the way you think about yourself in relation to others? What narratives do you carry into encounters with conditions, attitudes and beliefs that are different from yours? In this course, students will have a rare opportunity to bring their weekly experience of service into a time of reflection, and into relation to some of the core narratives of the great spiritual traditions. We will read modern mystics, parables,

and creative theologians, including: Anne Lamott, Etty Hillesum, Kendrick Lamar, and Parker Palmer. The conversation will continue as we write in and read from our journals, sharing stories and questions. Several short writing assignments will occur through the course of the term; a final, longer piece of substantive "spiritual reflection" will give students the chance to synthesize the fruits of observation, reading, and reflection. The aim of the course is to expand students' familiarity with the great narratives of grace and forgiveness, suffering and hope, as they engage in service, and to provide a setting in which they can become intentional about adopting narratives that will shape their lives.

Cultural and Social Structures I Sweeney, Meghan T

Fall 2021

This course focuses on examining the cultural foundations that underlie the contemporary ways in which people choose to structure literally, figuratively, and symbolically the way they live together. Our study centers on questions about how our cultural and social structures are the concrete expression in politics, city planning, architecture, literature, etc., of what we value and of the things we consider meaningful and important.

#### THEO230001

The Walking Dead Adkins, Amey

Fall 2021

What happens when we die? Historically, the conditions of death in America have never been equal or just for all, but do visions of an afterlife resolve the inequities of lived experience? With Orlando Patterson's pronouncement of the black slave and social death in mind, this course examines the way a theological vision of "the damned" informs everything from racialized injustice and incarceration, to sovereignty and Zombie anxiety in the American conscience.

Bringing together philosophy, theology, and critical race theory, we will consider how constructions of death, memory, eternity, and the Other speak to the ethics of a life "well-lived."

#### THEO295001

The Ten Commandments Gillihan, Yonder

Fall 2021

What are the Ten Commandments? Why are there three versions in the Bible? Why are they displayed on the U.S. Supreme Court building, when the Supreme Court has blocked their public display in multiple high profile cases? This class surveys the origin and historical meanings of one of the Bible's most iconic and frequently cited texts: the Ten Commandments (AKA the "Decalogue," an English term that comes from Greek and means "Ten Laws"). The heart of the class is a ten-week comparative study of major historical interpretations of each of the ten laws. Interpretations that we will consider include ancient writers, Medieval theologians, Catholic and Protestant theologians and Church documents. We will consider how the Ten Commandments have been interpreted from a variety of perspectives, including historical-critical, systematic-constructive, in legal theory, and from critical liberationist perspectives, including feminist, Black, queer, and post-colonial. Students will be evaluated on team research and presentation assignments, and on three brief research/reflection essays.

 Catholicism and Social Responsibility Heyer, Kristin E  
 Fall 2021  
 This course explores the tradition of Catholic social thought and in its theoretical and lived forms. It probes the theological and moral foundations of social responsibility and the relationships between the church and civil society. It investigates the implications of the traditions core commitments (including human rights, solidarity, the option for the poor, liberation, the common good) for contemporary questions of justice. It attends to the ways structural inequalities and harmful ideologies impact the courses applied ethics topics (e.g., racialized violence, migration, labor rights, and food justice). Finally it considers growing edges of the tradition in need of development.

**THEO450001**  
 Vodou Not Vodoo: Media Distortions & Lived Religion in Haiti Daniels, Kyrah M  
 Fall 2021  
 This seminar offers a deep dive into Haitian religion and culture. Historically, the media has misrepresented Haitian Vodou as a tradition of zombies, poison, and "voodoo dolls." In reality, Haitian Vodou is a religion based on principles of healing, balance, and ancestral devotion. Students will analyze media portrayals such as The Princess and the Frog and Lovecraft Country as well as "pop" journalism to understand how they reinforce racist stereotypes of Haitian traditions. Students will also examine real Vodou ethnographies by scholar-practitioners, addressing 21st century issues like gender and queerness, Protestant conversion, Haitian ancestral gifts, and Euro-American initiatives. Ultimately, students will learn how to discern the differences between the media's distortions and the reality of Vodou as an African-derived religion today.

 Living Truthfully: Way to Personal Peace and Social Change Penna, Anthony  
 Fall 2021  
 The primary purpose of this course is to examine the proposition that it is better to tell the truth than tell the lie. Too often, we are tempted to live out an illusion. The personal and social costs of keeping an illusion pumped are steep. Personal peace and courage are born when we settle in on the truth of our identity and dare to live it. In short, this course proposes that the larger life is possible when we come home to the smaller life that defines us as individual women and men.

Patristic Greek I Schatkin, Margaret Fall 2021

This course is continued in the spring as THEO5373 New Testament Greek II.. This two-semester course is designed for the student with no previous knowledge of ancient Greek to develop reading and translating skills in Patristic Greek language by mastering the fundamental principles of Greek grammar and syntax and acquiring a basic reading vocabulary. The student becomes familiar with the meaning of Greek words, their forms and structure, and their customary arrangement in sentences. A secondary goal of this course is to serve as a foundation for further studies in Patristic Greek.

THEO544401

The Quran and Its Interpretation Bowering, Gerhard

Fall 2021

The course is focused on the Quran (Koran), the sacred Scripture of Islam and investigates its origins, its proclamation by Muhammad in the Arabian Peninsula and its structure of Meccan and Medinan suras and verses. It traces the compilation of the Quran as a codex and holy book

after Muhammad's death in 632 CE, and its reliable transmission in manuscript and print into our days, always and only in Arabic. It examines its Arab tribal background, its foreign vocabulary pointing to Jewish and Christian influences on its contents, and shows how it became the basis for the life of the Muslim community until today. Furthermore, it analyzes its stories of the prophets of old, its polemics versus Judaism and Christianity, and its association with Arab tribal life. It examines in detail particular suras and verses in their meaning for personal religiosity, highlights the recitation of the Quran in public life and mosques, and documents the Quranic foundations of Islamic law and theology.

God, Ethics and the Sciences Byrne, Patrick;Pope, Stephen J Fall 2021

This course examines some important questions regarding relationships between belief in God and scientific approaches to humanity and the natural world. We explore both the arguments for the incompatibility between science and theism, as well as constructive ways of understanding their potential relationships. We will examine major historical contributors to the discussion including Aquinas, Galileo, and Darwin. Central methodological questions focus on forms of naturalism, reductionism, and evolution. Other course topics include the ethical significance of neuroscience and evolutionary psychology, particularly concerning the relation between brain and mind, the meaning of responsibility, and the natural basis of moral decision-making.

Dante's "Divine Comedy" in Translation Shepard, Laurie

Fall 2021

Conducted in English. Elective for Italian major or minor. An introduction to and critical reading of the "Divine Comedy" (in English translation), one of the world's greatest epic poems, produced by "the chief imagination of Christendom" (Yeats). Dante's journey through Hell, Purgatory, and Paradise will be analyzed at its multiple levels of interpretation: literal and allegorical, theological, philosophical, political, and literary. Compendium of an entire epoch of European civilization, the "Comedy" will also be interrogated for its responses to the fundamental questions of human existence: God, the Cosmos, the Self, Good and Evil, Right and Wrong, Suffering, and Happiness.

THEO559901  
A Theology of Food: Eating, Drinking and the Eucharist Bergin, William N  
Fall 2021  
Eating and drinking are primordial human experiences that nourish individuals, sustain communities and are at the heart of rituals in many religions. In the Judeo-Christian tradition meals play an important part in the unfolding dialog between God and humanity. Christians believe in a privileged encounter with the Lord Jesus in the Eucharistic meal of bread and wine. Eternal life is portrayed as a great banquet in God's presence. This course articulates a theology of the Eucharist that takes meal as its point of departure. It examines how this central Christian action both shapes the divine-human relationship and informs our response to contemporary issues such as creation and ecology, hunger and suffering, solidarity and exclusion, hope and eternity.

THEO703601  
Beyond Hierarchy: Toward a Theology of Church Order Gaillardetz, Richard R  
Fall 2021  
One of the most basic features of Roman Catholicism is its essentially hierarchical institutional structure. Over the past six decades, this hierarchical structure has been the subject of widespread critique as various feminist and postmodern theologies have leveled withering critiques of Catholic hierarchy, identifying this hierarchical configuration as the source of Catholicism's clericalist and patriarchal character. This course will explore these various critiques, assess their adequacy and address a basic question: Can Catholicism slough off its hierarchical church order and while still retaining institutional authoritative structures capable of preserving the unity of a church with over 1.2 billion adherents? BTI/STM students need to have completed a graduate course in Ecclesiology to register

Practical Theological Ethics and Global Christianity Vicini, Andrea  
Fall 2021  
The doctoral seminar explores four selected topics in contemporary practical theological ethics: bioethics, sustainability, politics, and theological ethics in the local and global Church. By engaging the contributions of representative, diverse theological-ethical voices in global Christianity from the Global South particularly from Asia, Africa, and Latin America the seminar aims to strengthening the students familiarity with current global scholarship on these topics.

Messianic times: a postmodern and decolonial approach Mendoza-Alvarez, Carlos  
Fall 2021  
This course will address the reading of the messianic time proposed by the political philosophy of the 20th century. A review of the biblical sources, especially St. Paul's letters, will open the path to rediscovering its theological meaning. After this review of 20th-century bibliographical references, a hermeneutics of the messianic time in a postmodern and decolonial key will be proposed as a Christian eschatology of the kairological time.

THEO767801  
Feminist Theologies and Theory Hinsdale, Mary Ann  
Fall 2021  
This doctoral seminar examines the contributions that feminist/womanist/Latina/Asian/ Queer theologians have made to Christian theology, with special attention given to the theoretical perspectives and methodological frameworks they employ. We will examine some of the major social/political/hermeneutical theories that feminist scholars of religion use in addressing the challenges of identity, difference, embodiment and Western hegemony/imperialism. Students will have the opportunity to analyze a classic feminist theology text of their choosing, utilizing insights from these theoretical frameworks.

THEO800801

New Testament Textual Criticism Roth, Dieter T

Fall 2021

The academic study of the NT requires a text of the NT for that study. This course, therefore, seeks to provide foundational competencies in the knowledge of NT manuscripts, the history of the discipline of textual criticism, and the creation and use of modern critical editions. At the same time, the contemporary field of NT textual criticism is concerned with far more than merely the (re)construction of the NT text. Thus, the course will also consider recent scholarship on early Christian scribal culture, manuscripts as early Christian artifacts, and the theological significance of textual variants. Must be proficient in NT Greek.

The purpose of this course is to introduce students to the dynamics of theological reflection in an academic setting. Framed as a quest for truth, transformation, and justice, the course invites students to explore key questions and themes of enduring human significance in conversation with the classic texts, ideas, and practices that animate the Christian theological tradition. Such questions include: What is theology? What is the ultimate horizon of our lives? What does it mean to be human? Who is Jesus Christ? And how can we know and serve the common good?  
Satisfies Core requirement for: Theology (Christian Theology)

THEO142001

The Everlasting Covenant: The Hebrew Bible Myrose, Jamie;Vanderhooft, David Spring 2022

The Hebrew Bible/Old Testament has been an influential and often fundamental source for many modern, Western views of God, nature, human beings, a just society, and the origin and destiny of humanity and the world. An intelligent, serious reading of the Hebrew Bible raises most of the enduring questions that have traditionally stood at the center of philosophical and theological debate. Thus, a thorough analysis of texts from the Hebrew Bible in terms of the central concerns of the core curriculum will be the primary goal of THEO 1420 The Eternal Covenant: The Hebrew Bible. Satisfies Core requirement for: Theology (Sacred Texts and Traditions)

THEO143001

Buddhism and Christianity in Dialogue Goehring, Dorothy L;Makransky, John J Spring 2022

This course is both an introduction to Buddhism and to Buddhist-Christian comparative learning. In early weeks we study concepts and practices of Theravada and Zen Buddhism from Southeast and East Asia. We then explore some areas of Christian thought that can be compared with Buddhism--understandings of faith, God, Jesus, sin, spiritual rebirth, sacramentality, and social ethics. Finally, from Buddhist and Christian perspectives, we focus on one or more of the following topics: spiritual practices of deepening care and discernment, faith-based action, interfaith learning, ecology, and/or feminism. Satisfies Core requirement for: Theology (Sacred Texts and Traditions)

THEO143201

Hinduism and Christianity in Dialogue Smith, Jason W

Spring 2022

It has been said that to know one religion is to know none. In this course, we seek to gain an understanding of two of the major world religions, Christianity and Hinduism, through a comparative and dialogical approach of the ways in which these traditions have come to terms with some of the basic existential questions and religious aspirations of humanity. We will focus on conceptions of evil and salvation/liberation, on ritual practices, ethical principles, and their respective views of one another. THEO170201  
God and the Good Life Pope, Stephen J Spring 2022  
This course examines paradigmatic modern Christian accounts of what constitutes a good human life. Key topics include the relation between virtue and human flourishing, the meaning of faith and its relation to reason, the relation of charity and justice, hope in the face of suffering, sin and grace, aesthetics as an avenue for self-transcendence, and personal and social transformation. Key figures include St. Ignatius of Loyola, Kierkegaard, Dostoevsky, Tolstoy, Chekov, and Dorothy Day. It is taught as an Enduring Questions course in tandem with Thomas Epstein's course "Tolstoy to Chekhov: What is the good life?"

THEO171401  
For the Love of the Game: Theology of Sport Gaillardetz, Richard R Spring 2022  
What role do sports play in human flourishing and our search for religious transcendence in various societies across the globe? There are few cultural realities that attract the allegiance and participation of such a wide swathe of our population across social, cultural, and ideological divides more than sports. These linked courses will explore the different roles that sports play, positively and negatively, across diverse global cultures. We will investigate the key socio-historical transformations of the place of sport in particular cultures, and attend to the possibility of structural social injustices associated with sport. Finally, we will consider the complex relationship between Christianity and sport and explore the possibility that the experience of sports may include a capacity for religious transcendence.

THEO211401  
When Gods Begin Again: Intro to African and African Diaspora Religions McElwaine, Michelle L Spring 2022  
This introductory course examines Indigenous African and African Diaspora religions from an interdisciplinary perspective. We explore Yorùbá and other African religions, along with African Christianity, Islam, Haitian Vodou, Cuban Santería, Brazilian Candomblé, Sango Baptist of Trinidad and Tobago, Rastafari and Obeah of Jamaica, Black American conjure, and Oyotunji Village. Important themes of religions in Africa and the Afro-Atlantic Diaspora are addressed, such as: the veneration of God(s), Spirit(s), Ancestors, and the natural world; divination, initiation, sacred space, and healing; the impact of slavery on conversion and continuity; fetish as a colonial construct; globalization, race, gender, and power. Ultimately, this course encourages students to reevaluate their understanding of African religions, recognize diverse cultural practices and ritual knowledge systems, and engage with oral, written and audio/visual texts that underscore the values of these traditions.

The Challenge of Justice Snyder, Joshua R Spring 2022  
This course introduces the student to the principal understandings of justice that have developed in the Western philosophical and theological traditions. Care is taken to relate the theories to concrete, practical and political problems, and to develop good reasons for choosing one way of justice rather than another. The relationship of justice to the complementary notion of peace will also be examined. Special attention is paid to the contribution of Catholic theology in the contemporary public conversation about justice and peace. Problems discussed may include human rights, hunger and poverty, and ecological justice.

Perspectives on World Religions  
Bowering, Gerhard Spring 2022  
Issues in the literature, ideals, concepts, practices, rituals and institutions of four major world religions as they appeared in history: Hinduism, Buddhism, Christianity, and Islam. A historical survey combined with a phenomenological treatment of principal topics in the perspective of dialogue with Christianity. The principal focus of the course is on the development of religion in South Asia (the Indian subcontinent) and West Asia (the Middle East), excluding developments of Buddhism in East Asia and of Christianity in Europe after 732 CE.

Perspectives on War, Aggression, and Conflict Resolution I Jackson-Meyer, Katherine A Spring 2022  
The Faith, Peace, and Justice Program at Boston College sponsors this course as an introduction to the field of Peace Studies. This course asks: Is it ever ethical to go to war? Is it possible to be ethical in war? And, what does ethical conflict resolution look like? This course investigates these questions primarily using the resources of the Christian theological tradition and the social sciences, as well as engaging with philosophy and film. Special attention will be paid to issues in contemporary warfare and the challenges and promises of peacebuilding.

Introduction to the Hadith: Foundations of Islamic Religious Life Morris, James W Spring 2022  
Using English translations of Sunni and Shiite hadith collections, this introductory seminar looks at the ways the corpus of Prophetic hadith has inspired every area of Islamic religious life, including spiritual devotions and practices; theology, cosmology and eschatology; family, social and economic life; ethics and models of proper behavior; the interpretation of the Qur'an, sacred history, and other religions. This foundational course focuses on acquiring a

familiarity with the structure, contents, and uses of major Sunni and Shiite hadith collections, as well as a few influential later short devotional collections.

THEO280001  
Race, Freedom, and the Bible in America Gillihan, Yonder  
Spring 2022

Discourse about American identity, purpose, and ethics has drawn on Scripture for its themes, terms, and claims to authority, from the nation's political genesis as a refuge for English Puritans to its current incarnation as "secular sanctuary" of ethnic and religious pluralism. This team-taught course surveys uses of the Bible and other "American Scriptures" in discourse on race and civil rights, focusing on its use by political opponents. Assigned readings, essays, and discussions will survey specific meanings that scriptures have acquired at critical historical moments, and what the multiplication of interpreters, methods, and meanings implies for prospects for unity.

THEO310201  
The Historical Jesus Roth, Dieter T Spring 2022

Jesus is undoubtedly one of the most significant figures in history; however, who was Jesus? Though the doctrinal affirmations of Christianity seek to answer this question from the perspective of theology and faith, ever since the Enlightenment, some scholars have sought to present an answer from the perspective of history. This course considers both the history of historical Jesus studies and contemporary trends in the discipline in order to come to a greater and deeper appreciation of this important, and often controversial, aspect of the ongoing academic study of Jesus.

THEO311701  
Love and the Human Condition Robinette, Brian  
Spring 2022

This course introduces students to classic texts and themes related to human and divine love. Through a careful study of primary texts, both in theoretical and narrative formats, the course is designed to promote extensive classroom conversation and written reflection as we consider forms of love such as affection, friendship, erotic attraction, and agapeic service. Other important themes that will emerge in our study include: freedom, rivalry, suffering, death, beauty, conversion, heroism, and vocation. By situating the dynamics of human and divine love in this way, the course offers an opportunity to reflect upon the meaning of the human condition.

The Ethics of Global Public Health and the Common Good Vicini, Andrea  
Spring 2022

Global public health is both an urgent good and a needed right that is integral to a vision of just society. The course studies, first, the ethical issues raised by global public health (from epidemics and pandemics to poverty and underdevelopment); second, the ethical approaches to address them (from rights to the common good); third, concrete solutions and praxes. International examples from Africa, Asia, Europe, and the Americas help to identify the ethical agenda and to implement it. The course's readings, analyses, and proposals engage: health sciences, anthropology, social sciences, philosophical and theological bioethical discourses, and social doctrine by considering, among others, Catholic and Protestant contributions.

THEO357701  
Conciliar Traditions of the Catholic Church Wilkins, Jeremy  
Spring 2022

This course offers an introduction to the conciliar tradition of the Roman Catholic Church. The course will begin with an historical overview of the ecumenical and Catholic councils, from the councils of Nicaea and Constantinople in the early church era, to the Council of Trent and the First Vatican Council in early modernity. It will then turn to an extended exploration of the Second Vatican Council, its interpretation and reception. The course provides an introduction to the development of Catholic theology, in regard to both form and content, from the beginning to the present.

Vodou Not Voodoo: Media Distortions & Lived Religion in Haiti Daniels, Kyrh M  
Spring 2022

This seminar offers a deep dive into Haitian religion and culture. Historically, the media has misrepresented Haitian Vodou as a tradition of zombies, poison, and "voodoo dolls." In reality, Haitian Vodou is a religion based on principles of healing, balance, and ancestral devotion. Students will analyze media portrayals such as The Princess and the Frog and Lovecraft Country as well as "pop" journalism to understand how they reinforce racist stereotypes of Haitian traditions. Students will also examine real Vodou ethnographies by scholar-practitioners, addressing 21st century issues like gender and queerness, Protestant conversion, Haitian ancestral gifts, and Euro-American initiates. Ultimately, students will learn how to discern the differences between the media's distortions and the reality of Vodou as an African-derived religion today.

Sexuality and the Spirit Weiss, James M

Spring 2022

For graduates or undergraduates who have completed one theology Core. Can you be Queer and spiritual? Trans or non-binary and religious? Straight, hooking up, and Catholic? Can you combine pleasure and piety? Of course you can. But how? This course surveys progressive thinkers examining the close relationship of sexuality, gender, the body, and spirituality. We look at evolving views of marriage and single life. We reflect on sexual violence. We ask how traditional religion distorts or supports these issues. Catholic, Protestant, and Episcopal authors explore developments and disagreements! -- that nurture authentically spiritual sexuality. The aim is to promote understanding and care for self and others. Graduates and undergraduates welcome.

THEO535601

From Foes to Friends: Jewish-Christian Relations Svartvik, Jesper

Spring 2022

Christianity began as an inner-Jewish movement: Jesus and his disciples were Jews, in his teaching Jesus constantly referred to the Scriptures that are sacred to Jews and Christians alike (known as Tanakh or the Old Testament), and in his writings the apostle Paul also quoted from or alluded to these writings. This means that the texts in the New Testament have shaped not only Christians self-understanding, but also their view of Jews and the Jewish tradition. This course studies the reception history of the New Testament texts, and their impact on Jewish-Christian relations throughout history, with emphases both on the first two centuries (when the texts were written down) and the 20th century (when the Holocaust took place). How do Christians read the New Testament texts today? And how do Jews and Christians view each other today?

Exploring the Theology of Abraham Joshua Heschel Langer, Ruth Spring 2022

A refugee from the Nazis, Abraham Joshua Heschel became one of the most beloved and influential Jewish theologians of his day. He advised the bishops in formulating their new teachings about Jews and Judaism at the Second Vatican Council, he marched with Martin Luther King in Selma, he protested the Vietnam War, and he dialogued with other leading Christian theologians. This course will be an exercise in comparative theology, engaging key elements of Heschel's writings and the Judaism expressed in them in order to investigate their potential for contributing to the self-understanding of Christians and practitioners of other religions.

Ancient Hebrew and Related Inscriptions Vanderhooft, David  
Spring 2022  
This course introduces students to the corpus of ancient Hebrew Inscriptions of the Iron Age and to several inscriptions from closely related languages, including Moabite. Students will study paleography, the historical grammar of Hebrew, the relationship of Hebrew to other closely related languages, and new photographic technologies for reading inscriptions. These inscriptions will also offer a perspective on the religious experience and ideas of ancient communities.

THEO703801  
Origen of Alexandria and his Fourth-century Reception Fernandez, Samuel  
Spring 2022  
Origen is well known as both biblical scholar and systematic thinker. The course studies the relationship between these two theological dimensions of the master of Alexandria. After an overview of Origen's life, works and context, the course addresses the principles of his biblical interpretation and the character of his theological thinking. Then, the course reviews the key topics of theology and economy, according to Origen, namely, God, the Sons begetting, creation, fall, free will, spiritual progress, and eschatology. The last part of the course tackles the reception of Origen's theology around the Council of Nicaea. The course is based on the reading of Origen's texts in English translation.

THEO704001  
Theology, Ethics and Race Heyer, Kristin E  
Spring 2022  
This seminar explores key themes at the intersections of theology, ethics and race, with a focus on the Christian tradition. It engages foundational figures and methods in Black theology and womanism, the history of Black Catholicism and the work of transnational African activism. It surveys the roots of structural racism and the logic and impact of the sin of white supremacy, including the complicity of Christian theology and practice. The course also analyzes contributions from Asian American, Latinx and Indigenous theologians and ethicists on questions of racial identity and trauma. Finally, the course invites consideration of the personal, social and institutional implications of its texts from theology and ethics.

THEO712801  
Just Sustainability Vicini, Andrea Spring 2022  
Sustainability is one of the global challenges facing humankind and its survival. Avoiding apocalyptic rhetoric, the course studies both what threatens and what promotes sustainable conditions of life on the planet. Hence, from its ethical standpoint, the course analyzes the issues that concern both the environment and human agency, locally and globally. It also analyzes individual, institutional, and collective practices that aim at promoting just sustainability around the world. The courses theological perspective is interdisciplinary and integrates contributions from sciences, human experience, biblical scholarship, theological insights and debates (both Catholic and Protestant), and the Catholic Magisterium.

THEO746101  
Human Rights Interdisciplinary Seminar Lykes, M B  
Spring 2022

The study of human rights defies disciplinary boundaries. This seminar, sponsored by the Center for Human Rights and International Justice, provides a rare space to examine human rights from an interdisciplinary perspective. It brings together faculty affiliated with the Center, students from across the university, visiting scholars, and guest speakers to examine issues of human rights and international justice. The spring 2022 seminar will begin with an overview and brief historical review of human rights as understood in the West and then explore a series of complexities for those seeking to engage in human rights scholarship, advocacy, and activism.

We seek to engage critically with human rights discourse and actions as they intersect with gender, culture/ethnicity, "race," social class, and other categorizations as well as with emergent challenges from diverse communities of the global South who frame human rights beyond Northern epistemologies, understandings, and praxis.

Theology and the Mystical Turn Prevot, Andrew L  
Spring 2022

This seminar explores the wide-ranging apophatic mood in contemporary thought and the diverse ways mystical theology has come to occupy a central role in recent reflection upon God. In addition to examining the emphasis upon "difference," "absence," and "otherness" among key philosophical and theological voices, the seminar inquires into the relationship between negative theology and the incarnation, as this relationship uniquely characterizes Christian apophysis.

THEO776301  
Forgiveness: Theological and Philosophical Issues Pope, Stephen J  
Spring 2022

This graduate course will examine theological and philosophical interpretations of forgiveness and related topics such as guilt, repentance, and accountability. We will focus on various accounts of what it means to forgive a wrongdoer, what it means to be forgiven, and how forgiveness is related to reconciliation. We will also examine whether and, if so, how forgiveness might pertain not only to interpersonal but also intrapersonal and collective wrongdoing. Special attention will be placed on the relation of forgiveness to the virtues of mercy and justice.

Readings will include historical figures such as Thomas Aquinas, Joseph Butler, and Friedrich Nietzsche, contemporary philosophers Nicholas Wolterstorff, Martha Nussbaum, and Charles Griswold, and contemporary theologians Miroslav Volf, Anthony Bash, and James Alison.

Course requirements: class participation, one seminar presentation, final paper. This is intended for advanced MA and PhD students.

THEO850201  
Mercy and Justice Kaveny, M Cathleen Spring 2022

This course explores the meaning of mercy, particularly in its relationship to justice. It examines four major topics: (1) mercy in its relationship to retributive justice, focusing on

mercy or clemency in the case of criminal sentencing, as well as broader questions of retribution for wrongdoing, such as whether there can or should be criteria for the exercise of mercy, whether mercy can be exercised unjustly, and the relationship of forgiveness to mercy; (2) mercy in its relationship to distributive justice, focusing on the corporal works of mercy and issues such as the relationship of justice and private charity; (3) mercy in its relationship to social justice, or the social face of mercy; and (4) divine justice and mercy, focusing on the way theologians have attempted to reconcile God's mercy and God's justice. Readings for the course will be interdisciplinary, including philosophical, theological, and legal materials.

Designing Your Career: An Exploration Course Smith, Julianne M

Fall 2021

This course is open to sophomores, juniors and seniors in the Morrissey College of Arts and Sciences, Woods College of Advancing Studies, and Applied Psych majors within the Lynch School of Education. Please note that this course is not open to freshman.. In this hybrid course (combination of in-person and online sessions), students who are exploring their career interests will use self-assessment exercises, lively discussion, and thought-provoking activities to identify and reflect upon their values, interests, and skills and then connect them to career options. Using a design thinking framework, students will explore the eight skills that are most desired by employers and discover how they are developing those competencies during their time at BC. We will discuss ways to research varied career paths and learn targeted strategies to achieve meaningful professional goals. Students who are considering such questions as In what academic discipline do I want to major? What kind of internship do I want to pursue? What sort of careers am I interested in? will all benefit from this course.

Innovation through Design Thinking Rutirasiri, Chokdee R

Fall 2021

Would you like to be innovative in whatever you pursue? Innovation is about solving important and complex problems to create value for the greater good. Innovating through design thinking is a structured, human-centered process for creatively solving problems, which can be adopted by anyone. In this foundational course we will introduce the mindset, process and methods at the core of design thinking. Students will see inspiring case studies, hear from cutting edge practitioners, and work on a project to internalize this learning. Students will discover design thinking is a practical toolkit that helps them reliably innovate in the face of changing social needs, business disruptions, and technology shifts.

Peaceful Conflict Resolution Methods Nielsen, Richard P  
Fall 2021  
This course considers conflict resolution methods in several different types of contexts: personal and family, organizational and work, and international peace-making. Among the methods analyzed and practiced in role playing exercises are: methods for resisting win-lose behaviors, methods for developing win-win solutions to conflicts, dialogic methods for developing creative solutions to conflicts, and third party facilitation, mediation, and arbitration methods. Personal skill development as well as careers in conflict resolution are explored. In addition, different types of personal philosophical and spiritual approaches to conflict resolution are considered.

UNAS170201  
Life, Liberty & Health: The Economics, Policy and Law of Healthcare Chirba, Mary Ann;Regan, Tracy L  
Fall 2021  
This is a Complex Problems course and is open to Freshman only. Recently, health has become a central focus of political infighting, public discord, and personal worry. Health care and health insurance now dominate everything from think tanks to Jimmy Kimmel Live! Meanwhile, concussions go up, NFL ratings go down, drug prices soar, and opioid abuse damages individuals, families, and the health care system, and the economy. Such complex issues are best understood through interdisciplinary study. These paired classes will introduce basic principles of economics, law, and public policy through the lens of contemporary problems involving enduring questions of government authority and individual autonomy, morality, and ethics, social justice, and human rights.

Life, Liberty & Health: The Economics, Policy and Law of Healthcare Chirba, Mary Ann;Regan,  
Tracy L

Fall 2021

This is a Complex Problems course and is open to Freshman only. Recently, health has become a central focus of political infighting, public discord, and personal worry. Health care and health insurance now dominate everything from think tanks to Jimmy Kimmel Live! Meanwhile, concussions go up, NFL ratings go down, drug prices soar, and opioid abuse damages individuals, families, and the health care system, and the economy. Such complex issues are best understood through interdisciplinary study. These paired classes will introduce basic principles of economics, law, and public policy through the lens of contemporary problems involving enduring questions of government authority and individual autonomy, morality, and ethics, social justice, and human rights.

When Life Happens: Disability and the Stories We Tell Dunsford, Clare M

Fall 2021

Core Renewal: Enduring Questions

For Freshmen Only. In this literature core course students will read stories of disability written by those who are disabled and those who love them or are interested in understanding their lives. We will read memoir, fiction, and essays that explore a range of physical and developmental disabilities. Questions of representation--who gets to tell the story, how disability has been represented historically at different times and in different cultures--will be considered in terms of literary analysis and disability theory.

When Life Happens: Psychology Views Disability Hauser-Cram, Penny  
Fall 2021

Core Renewal: Enduring Questions

For Freshmen Only. In this social science core course, we will explore the socially--constructed meaning of disability and the ability--disability continuum as viewed by both psychology and the social sciences more broadly. We will analyze contemporary and historical perspectives on disability both in the United States and globally, including stigmatization, false claims, and popular myths. In what ways has psychology both advanced and undermined our understanding of disability as part of the human condition?

War and Peace: Historical and Literary Experience Epstein, Thomas  
Fall 2021

This is an Enduring Questions course and is open to FRESHMEN only. You must take HIST1727 with this course. How does War and Peace speak through its historical context and as a description of a perennial human situation? War and Peace is a great and massive novel. Its primary subject, the effect of the Napoleonic Wars on Russia, may seem distant from our contemporary concerns. Yet its fundamental questions How shall I live and what is worth dying for? Is war a necessary evil, or something greater, or different? How does our social-historical experience construct our identity? are as relevant today as ever. Approaching these and other questions from our separate disciplines, we will attend both to the historical and literary context in which War and Peace was written and to the ways it speaks to us today.

Fall 2021

This is an Enduring Questions course and is open to FRESHMEN only. You must take UNAS1717 with this course. How did East Asia emerge from the wreckage of the Second World War to become the dominant political, economic, and cultural force it is in the world today? How did East Asia emerge from the wreckage of the Second World War to become the dominant political, economic, and cultural force it is in the world today? What is the relationship between politics and popular culture? Since 1945, East Asia has experienced the Cold War, civil war, communist revolution, modernization, capitalism, democratization, and economic booms and busts. It has also become a powerhouse producer of popular and art cinema. In these paired courses students will explore the relationship between politics and culture as they learn how historians and filmmakers have grappled with the tumultuous events of the past 75 years.

The Rule of Law and the Complex Meaning of Justice Cassidy, R M  
Fall 2021

This is an Enduring Questions course and is open to FRESHMEN only. You must take ENGL1729 with this course. How do societies define justice, and what role do lawyers, authors, and dramatists play in illuminating the many complex issues underlying this concept? In this course we will explore the range of experiences of law for its ministers (lawyers, judges, law enforcement agents) as well as for its recipients/suplicants (citizens, plaintiffs, defendants and victims). We will first begin with the question of what is justice and approach that issue from the standpoint of political theorists. What does justice mean? Is it fairness? equality? morality? maximization of utility? We will use Michael Sandel's Justice: A Reader as an introductory text to major political theorists on the justice question, from the ancients to the moderns. We will then examine how the law is mobilized and deployed by professionals as an instrument of justice.

What do we mean by the rule of law, what roles do lawyers and judges play in safeguarding and promoting the rule of law, and what, if anything, does the rule of law have to do with justice? A set of topics has been selected to develop an understanding of the situational and systemic demands under which legal actors perform their roles in the United States. For this part of the course we will use Lord Thomas Bingham's reader The Rule of Law. The course concludes with an investigation of where lawyers stand in American society today, assessing whether they have succeeded or failed in their larger ambitions to protect the rule of law and to serve as architects of a just society. If not, how might they better serve both society and themselves in uncertain times? For this latter part of the course we will examine the work of two lawyers, one a criminal defense lawyer and one an environmental litigator, in the texts Just Mercy and A Civil Action.

Community Service Research Seminar Haider, Maheen

Fall 2021

Students should contact the Thea Bowman AHANA and Intercultural Center to obtain permission to register.. CRP is a two-semester program that offers leadership, research, and public policy training for students interested in working with communities of color in Massachusetts. In the fall, students will participate in a seminar to study the process of community-based research and its methodologies and begin to design a research proposal for an independent study with a faculty advisor for the spring semester research project. The seminar will also include a lecture series, in which academic researchers and community professionals will discuss their current work and experiences on issues related to four research- interest communities.

Cross Currents: Thinking About Law and Economics Felter, John K

Fall 2021

This seminar, co-taught by a distinguished lawyer and an economist, investigates how economic theory applies to several areas of law. In 1897, Oliver Holmes prophesied that, [f]or the study of the law, the [lawyer] of the future is the [lawyer] of statistics and economics. Many lawyers and economists name groundbreaking articles by Ronald Coase and Guido Calabresi from the early 1960s as the advent of this collaboration of law and economics: Since then, economic theory has been applied in ever-expanding areas of law. Along the way, economics has dramatically changed legal scholarship and the practice of law.

Designing Your Career: An Exploration Course Smith, Julianne M

Spring 2022

This course is open to sophomores, juniors and seniors in the Morrissey College of Arts and Sciences, Woods College of Advancing Studies, and Applied Psych majors within the Lynch School of Education. Please note that this course is not open to freshman.. In this hybrid course (combination of in-person and online sessions), students who are exploring their career interests will use self-assessment exercises, lively discussion, and thought-provoking activities to identify and reflect upon their values, interests, and skills and then connect them to career options. Using a design thinking framework, students will explore the eight skills that are most desired by employers and discover how they are developing those competencies during their time at BC. We will discuss ways to research varied career paths and learn targeted strategies to achieve meaningful professional goals. Students who are considering such questions as In what academic discipline do I want to major? What kind of internship do I want to pursue? What sort of careers am I interested in? will all benefit from this course.

Innovation through Design Thinking Rutirasiri, Chokdee R

Spring 2022

Would you like to be innovative in whatever you pursue? Innovation is about solving important and complex problems to create value for the greater good. Innovating through design thinking is a structured, human-centered process for creatively solving problems, which can be adopted by anyone. In this foundational course we will introduce the mindset, process and methods at the core of design thinking. Students will see inspiring case studies, hear from cutting edge practitioners, and work on a project to internalize this learning. Students will discover design thinking is a practical toolkit that helps them reliably innovate in the face of changing social needs, business disruptions, and technology shifts.

Peaceful Ethics: Social Action Leadership Methods Nielsen, Richard P  
Spring 2022

The course focuses on methods we can use individually and together in addressing ethics issues and in helping to build and maintain ethical communities and organizations within different types of political-economic environments and realities. Methods considered include: ethics reasoning, dialogue, and persuasion methods; win-win negotiating and incentive methods; win-lose, nonviolent forcing and compliance methods; internal due process and governance methods; and alternative institution building and social movement methods.

Global Ethics and Pragmatic Solidarity Estelrich Barcelo, Bartomeu;Lykes, M B Spring 2022  
This interdisciplinary seminar offers participants an opportunity to critically reflect upon selected philosophical and social scientific readings and their lived experiences towards understanding multiple local and global systems and structures that give rise to and sustain social injustice. Specifically, you will begin by exploring your social positions at the intersection of 'race,' gender, social class, sexuality, ethnicity, language, abilities, etc. You will develop criteria for understanding the multiple local and global contexts in which you live towards exploring options for taking actions alongside individuals and communities directly affected by social injustices. You will also explore how action-reflection processes can contribute to clarifying your self-understanding and social position vis-à-vis each other and those with whom you act locally and globally.

Coming of Age: Crisis and Calm Revealed through Literature Michalczyk, Susan A  
Spring 2022

Core Renewal: Enduring Questions  
For Freshmen Only. What does it mean to come of age? What experiences define us, as we make our journey through life? How do we process those moments of crisis and calm, so that we can become better prepared to engage effectively in all that life holds for us as adults? Exploring written narratives of the adolescent experience provides opportunities for personal growth, for understanding of this challenging transition, and for recognizing common patterns and bonds we all share. Through analysis of narrative techniques, students explore approaches to storytelling that create a pact between author and reader that encourages consideration of their stories

Maternity and Science: Neuroscience & Genetics Black, Jessica M  
Spring 2022

In what ways is the maternal experience informed and determined? Birth is one of the building blocks of the human experience. Throughout history, cultures around the world have developed specific beliefs, traditions and rituals regarding menstruation, pregnancy, birth, and infant care. These are related to the societal structures in which they have emerged. An understanding of these beliefs and traditions and the society in which they have developed is an important part of delivering culturally competent reproductive health care. In addition, specific populations have been and continue to be mistreated by the medical establishment regarding pregnancy and birth, including Indigenous communities, prisoners, people living in poverty, and African Americans. It is essential to be aware of historically mistreated populations to create a health care system based on justice and equity. In this survey course, a number of topics related to the historical, societal, and cultural elements of reproductive health will be discussed through the lens of public health.

For the Love of the Game: Sociology of Sport Kim, Kyoung-yim  
Spring 2022

What role do sports play in human flourishing and our search for religious transcendence in various societies across the globe? There are few cultural realities that attract the allegiance and participation of such a wide swathe of our population across social, cultural, and ideological divides more than sports. These linked courses will explore the different roles that sports play, positively and negatively, across diverse global cultures. We will investigate the key socio- historical transformations of the place of sport in particular cultures, and attend to the possibility of structural social injustices associated with sport. Finally, we will consider the complex relationship between Christianity and sport and explore the possibility that the experience of sports may include a capacity for religious transcendence.

Holocaust, History, Representation & Memory Block, Nicholas  
Spring 2022

This course takes the grave topic of the Holocaust, a seminal event in the twentieth century from which the legal framework of human rights and genocide emerged, as an entry point into discussing the intersection between art and history. The first part of the semester on origins engages students to think critically about structural racism outside of a US context as race intersected with religious identity. The second portion introduces the concept of testimony and witnessing as a tool for knowing events. The third portion on aftermaths and legacies extends the idea of testimonials to the courtrooms of international law and later representations that utilized testimony as their basis.

Cross Currents Seminar: Thinking About Race Astacio, Chasneika;Bell, Karl

Spring 2022

The Cross Currents: Thinking About Race seminar explores the concept of race; the effects of race on individuals; the presentation and negotiation of race in society; and the role of race at Boston College. The topics covered in the course are not only important, but also complex and provocative. The seminar is an opportunity to have candid conversations with others who are also exploring race and its effects in society. The seminar will help develop your understanding and intellectually through discussions with other students.

Cross Currents: Thinking about Food, Body and Self-Care Davis, Makayla B;Sweeney, Kathryn  
Spring 2022  
Eat less carbs, more protein. Work out daily. Avoid snacking. Don't gain weight in college. Don't be too muscular. Learn how food and body rules have come along with our cultures obsession with health, and how that obsession leads to systemic oppression of people under the guise of health. It also distracts from issues like food justice and sustainability. This course will teach you how to make food decisions based on science and Intuitive Eating(TM) . You will learn what self-care really is, why practicing self-care is a radical act, and how nutrition as self-care provides freedom from cultural expectations.

Faith, Peace, and Justice Senior Project Seminar Snyder, Joshua R  
Spring 2022  
Open only to senior students in the FPJ Program.. This course provides the finishing touch for students in the program for the Study of Faith, Peace, and Justice. Students enrolled in the seminar work closely with a faculty project advisor from the department of their major and present the preliminary results of their project study in the seminar. Students and faculty responses to the presentation will help shape the presenter's project into a finished form. The seminar provides a unique opportunity for the individual student to integrate several years of study in the Program while at the same time learning about an interesting range of issues from fellow students.

## Global Public Health and the Common Good Courses: Fall 2021

PHCG121001

Public Health in a Global Society Edmonds, Joyce K;van de Water, Brittney Fall 2021

This foundation course presents public health as an interdisciplinary science focused on health promotion and disease prevention at the population level. The course provides an overview of the history of public health, global burden of disease, sub-disciplines of public health, maternal/child health, and nutrition, and emphasizes the collaborative nature of the field through examples in research and practice. An inherent principle in public health is advancing social justice and this course, and the public health sequence more broadly, focuses on at-risk populations, reducing health disparities, and improving health equity at the population level.

Introduction to Epidemiology Straif, Kurt H

Fall 2021

Epidemiology is the study of the distribution and determinants of health and disease in populations, and the application of this knowledge to improve health outcomes. This course will provide an introduction to the basic concepts and methods of epidemiology. Topics will include: measures of disease occurrence and association, study design, basic statistics, reading and interpreting published epidemiological studies, and special topics (e.g., chronic disease epidemiology, outbreak investigations), with an emphasis on critical thinking and application.

Global Public Health Law Chirba, Mary Ann;Wirth, David Fall 2021

This course will examine the critical role of law in creating and implementing social policy and achieving (or at least seeking) social justice. Through the lens of current global trends, it will study the ways in which laws and regulations operate to promote and protect--as well as impede--both individual and public health at the local, national, and international levels. Specific topics may include the following: global differences in the definition of health care as a human right, expanded trace in agricultural products, domestic threats to public health, anthropogenic organic compounds, and the integrity of resources of the global commons. This course is designed to instill the policy-makers of tomorrow with the active skill set necessary to grapple with new public health challenges as they arise.

Contemporary Issues in Public Health Hawkins, Summer S

Fall 2021

This course provides students the opportunity to apply the foundational skills of public health to contemporary public health issues. The course integrates data and research to begin a more in-depth examination of the major burdens of disease and several emerging areas of concern. With a consistent goal of reducing health disparities, the course identifies population-level risk factors as well as evidence-based interventions for health promotion and disease prevention. Principles and concepts learned in Public Health in a Global Society are reinforced through specific health conditions, behaviors, and topics.

Obesity Epidemiology and Prevention DEPT

Fall 2021

This seminar course will provide students with the opportunity to delve into the critical yet complex topic of obesity epidemiology and prevention. The course provides an overview of the global burden of obesity and associated chronic diseases, including a focus on at-risk populations and opportunities for improving health equity. It will familiarize students with a range of modifiable risk factors for obesity (e.g., nutrition, physical activity, sleep, and social determinants of health), and explore epidemiologic methods for conducting obesity research. The course will also emphasize a variety of prevention strategies with a particular focus on multilevel, multisectoral and policy approaches. Students will work individually and in small groups to apply course content to case studies and applied learning experiences throughout the semester. \*\*Must have taken PHCG1210/NURS1210 Public Health in a Global Society and PHCG2120 Introduction to Epidemiology.

Maternity and Science: Society, Culture, & Public Health Casebolt, Megan

Spring 2022

In what ways is the maternal experience informed and determined? Birth is one of the building blocks of the human experience. Throughout history, cultures around the world have developed specific beliefs, traditions and rituals regarding menstruation, pregnancy, birth, and infant care. These are related to the societal structures in which they have emerged. An understanding of these beliefs and traditions and the society in which they have developed is an important part of delivering culturally competent reproductive health care. In addition, specific populations have been and continue to be mistreated by the medical establishment regarding pregnancy and birth, including Indigenous communities, prisoners, people living in poverty, and African Americans. It is essential to be aware of historically mistreated populations to create a health care system based on justice and equity. In this survey course, a number of topics related to the historical, societal, and cultural elements of reproductive health will be discussed through the lens of public health.

PHCG312001  
Cancer Epidemiology Straif, Kurt H  
Spring 2022

Cancer is the second leading cause of death today in many countries around the world in the aftermath of the epidemiological transition. Globally, cancer incidence will increase from an estimated 18.1 million new cases in 2018 to 29.5 million new cases by 2040, with the majority of the increase expected in low- and middle-income countries. Cancer is not a single disease, but comprises a broad spectrum of diseases. This course will provide the student with a thorough understanding of the biology and classification of tumors, the global descriptive epidemiology of cancer incidence, mortality, and survival. No country can treat its way out of the rising global burden of cancer. Therefore global cancer control strategies must focus on primary and secondary prevention of cancer as the most effective response to these public health challenges. The first step in cancer prevention is to identify the causes of human cancer and to determine what works in cancer prevention. The aim of the course is to provide the student with the knowledge and skills to identify relevant cancer types, their established and suspected risk factors and established measures of primary and secondary prevention (screening) of cancer, globally, regionally, and nationally. Within and between countries the poor are often more affected by cancer, therefore cancer control must also aim to reduce the social inequalities in cancer.

The Ethics of Global Public Health and the Common Good Vicini, Andrea  
Spring 2022

Global public health is both an urgent good and a needed right that is integral to a vision of just society. The course studies, first, the ethical issues raised by global public health (from epidemics and pandemics to poverty and underdevelopment); second, the ethical approaches to address them (from rights to the common good); third, concrete solutions and praxes. International examples from Africa, Asia, Europe, and the Americas help to identify the ethical agenda and to implement it. The course's readings, analyses, and proposals engage: health sciences, anthropology, social sciences, philosophical and theological bioethical discourses, and social doctrine by considering, among others, Catholic and Protestant contributions.

Global Health: Theory to Practice Casebolt, Megan  
Spring 2022

In this course, students will take the theories and disciplinary practices learned in other global health courses and learn how to apply this knowledge in practical situations. A series of case studies describing real life global health programs, policies, and interventions will be used to present how many diverse disciplines were necessary to address complex public health programs. The case studies will also illustrate the importance of community-based and participatory methods in the day to day work of public health. Students will also assess the case studies to determine best practices and lessons learned from each case that they can then apply in their own future global health work.

Children's Health and the Environment Landrigan, Philip J  
Spring 2022

This course will provide students with fundamental understanding of the powerful influence of the environment on health and disease in children. It will enable students to understand why children are uniquely sensitive to toxic chemicals and other environmental hazards and how toxic exposures in early life can influence risk of disease across the life span. It will familiarize students with the major environmental hazards of our time, including lead, mercury, pesticides, and air pollution as well as with the links between the built environment, climate change, and children's health. Using case studies, it will explore the linkages between children's environmental health and social justice. It will conclude with a discussion of options and strategies for translating science to public policy to prevent diseases of environmental origin in children.

TMCE703401

Critical Ethical Issues Iozzio, Mary Jo  
Fall 2021

This is the introductory course in moral theology for all degree programs, except the M.Div. This course considers critical contemporary issues from Catholic, interdenominational, interfaith, international, and cross-cultural perspectives. Attention will be given to the Wesleyan Quadrilateral (scripture, tradition, reason, and experience) and casuistry to ground a common approach in the examination and interrogation of the issues to be addressed. The principal ethical issues to be studied include: economic justice (access to health and human services), sexual ethics (just love, sexual identity, misogyny, pedophilia, and reproduction), respect life (abortion, euthanasia, hyper-incarceration and capital punishment), fanaticism and religious fundamentalism, environmental degradation and human ecology (natural disasters), and the toll of a perpetual state of war.

TMCE721601

Virtue Ethics Daly, Daniel J Fall 2021

This course introduces the emerging field of Christian virtue ethics. The course begins with a study of the theological and philosophical theories of virtue that have shaped contemporary Catholic and Protestant accounts of virtue. Attention is given to the relation of virtue theory and the virtues to: the Gospels and the life of Jesus; the Christian community; theological anthropology; human happiness; the natural law; and moral norms. The course also discusses the academic and pastoral uses of virtue ethics through the examination of contemporary cases in light of the virtues.

End of Life Ethics Daly, Daniel J Fall 2021

The course endeavors to educate the student about the issues, perspectives, and methodologies in contemporary end of life ethics. Throughout the course the tradition of Catholic end of life ethics will be placed in dialogue with Protestant and secular positions and approaches in the field. The course begins with an exploration of the development of the Catholic end of life ethics tradition from Thomas Aquinas to the present day. Students then consider contemporary issues in end of life ethics, such as physician assisted suicide, the provision of artificial nutrition and hydration for permanently unconscious patients, the ethics of palliative care, and the provision of treatment for neonates suffering from terminal illness. This section of the course analyzes cases in clinical end of life ethics. The course also introduces students to how end of life ethics functions in hospital ethics committees.

Disability Studies and Theological Ethics DEPT

Fall 2021

This course investigates Disability Studies at the intersections of interdisciplinary subjects in the humanities, including Scripture, theology, and theological ethics. Attention will be given to the hermeneutic work of Disability Studies and considerations in scripture studies, theology, and theological ethics. The course (1) presents the history of people with disabilities (similar to feminist retrievals of undocumented stories found by reading between the lines of texts), (2) explores the move from institutionalization to rights, liberties, and self-determination, and (3) considers how theological ethics in particular calls for something radically new in the way of solidarity between people with disabilities and their normate counterparts.

### Christian Ethics Courses: Spring 2022

TMCE700801

Introduction to Catholic Social Ethics Daly, Daniel J

Spring 2022

This course introduces the rich tradition of social ethics engaged explicitly by Leo XIII, Rerum novarum (1891), continued by his successors and bishops conferences, and enriched by theological reflection that continues today. Attention will be given to the principal documents (encyclicals, Gaudium et spes (1965), pastoral letters), and the contexts from which they emerged to gain facility in applying social analysis to contemporary concerns. Key themes to be studied: life and dignity of the human person, solidarity, social participation and the common good, the preferential option for the poor, and economic development and work, among others.

Just Sustainability Vicini, Andrea Spring 2022

Sustainability is one of the global challenges facing humankind and its survival. Avoiding apocalyptic rhetoric, the course studies both what threatens and what promotes sustainable conditions of life on the planet. Hence, from its ethical standpoint, the course analyzes the issues that concern both the environment and human agency, locally and globally. It also analyzes individual, institutional, and collective practices that aim at promoting just sustainability around the world. The course's theological perspective is interdisciplinary and integrates contributions from sciences, human experience, biblical scholarship, theological insights and debates (both Catholic and Protestant), and the Catholic Magisterium.

Social Justice and the Bible DEPT  
Spring 2022

This course builds on the rich tradition of Catholic social teaching found in the papal, Vatican, and conferences of bishops' documentary history and brings the insights of Catholic social ethics and biblical studies to bear on the realities of social justice and human rights today. Attention will be given to primary source documents in the prophetic and wisdom literature traditions of scripture and the social encyclicals found in CST. The course (1) presents the concerns of justice making/justice breaking/justice doing in the primary literature of these traditions, (2) explores the social, economic, and educational conditions of those who are vulnerable or otherwise marginalized, and (3) considers how to realize the preferential option for those who are poor and/or otherwise vulnerable as the Gospel demand for justice.

TMCE811801  
Health Care Ethics Daly, Daniel J Spring 2022

This course explores contemporary Catholic health care ethics. The course begins by examining the sources, methods, and influential documents of the Catholic medical ethical tradition. The syllabus traces the development of the tradition from the sixteenth to the twenty-first century. Prominent secular approaches in the field are studied as well. The course then takes up: (1) clinical, case-based medical ethics; and, (2) ethics at the institutional level. Applied topics include: abortion; access to health care and the distribution of medical resources; end of life ethics; mergers among Catholic and non-Catholic health institutions; and international recruiting of health care workers.

Introductory Hebrew: Summer Intensive Harkins, Angela K

Summer 2021

This course is an intensive introduction to the grammar and syntax of biblical Hebrew. While no prior knowledge of the language is presumed, students must memorize the biblical Hebrew consonantal alphabet prior to our first meeting. The goals of the course are (1) to learn the grammar of biblical Hebrew; (2) to expose students to the classic reference tools for biblical Hebrew; (3) to read and translate simple passages from the Hebrew Bible into clear idiomatic English. The textbook for this course is J. Hackett, A Basic Introduction to Biblical Hebrew (2010) (ISBN 978-1598560282).

Directed Readings: Fundamental Moral Theology Bader Mayer, Jennifer;Genilo sj, Fr eric

marcelo Summer 2021

This course seeks to give a historical, practical, and pastoral approach to the study of fundamental moral theology. It presents the historical richness and diversity of the Church's moral tradition, seeking to provide the student with an awareness, understanding, and appreciation of the resources of the tradition. By tracing the history of the development of the Church's moral teaching, the syllabus seeks to relate the Church's on-going moral discernment with the development of the Church's self-understanding as it journeys through human history. Through the use of cases, the course will illustrate methods of moral analysis, the application of moral principles, the dynamics between magisterium and conscience, and pastoral approaches to difficult moral cases especially taking into account the social and cultural realities in the Asian context. This course is being offered by Loyola Ateneo De Manila University.

Directed Readings: Engaging in Dialogue with Indigenous Cultures and Spirituality: Contextual Theology

Bader Mayer, Jennifer;Fung sj, Fr fojo Summer 2021

This course enables the students to be enriched by the religiocultural richness of the indigenous peoples in the use of the spiral process (10th Plenary Assembly of the Federation of Asian Bishops' Conferences FABC, 2012 Vietnam) of learning and doing theology. The spiral process begins with narratives of the students experience of the beliefs and practices of the indigenous communities. Prayerful analysis of the students narratives in the contexts of indigenous peoples enable the students to formulate a more indigenous specific and sensitive theological framework that enables the students to discerningly theologize on the best impulses (GC 34, D. 4, no. 8) amidst the onslaughts of globalization that deterritorialize and dereligionize the indigenous cultures and spiritualities and how they resonate with the Christian faith. This theological reflection will also reflect on the need for a postcolonial epistemic shift in the face of neocolonialism (e.g. settler colonialism) and neoextractivism. This theological reflection will lead to a pastoral response by which the students formulate a few pastoral strategies that inculturated the sacramental celebration of the rite of passage by incorporating the religiocultural beliefs and ritual practices. The use of this discerning hermeneutic enables the students to enable the students to respond to Missio Dei for a more integral and sustainable livelihood with joy, dignity, justice, peace and resilience amongst the indigenous communities.

This course will be offered by Loyola Ateneo de Manila University.

TMTM811401

Intermediate Latin Readings Harkins, Franklin T

Fall 2021

This course seeks to develop proficiency in reading Latin beyond the basics of syntax and grammar learned at the introductory level. Latin texts considered in the course will be theological in nature and drawn from the ancient, medieval, and/or early-modern period of the history of Christianity. Presently the STM offers no course beyond the Summer Intensive Latin introduction for students seeking to develop their facility with the language further.

The course would be especially useful for students planning to apply to doctoral programs in the History of Christianity and Systematic Theology.

Credits: 3

Room and Schedule: 9 Lake Street 110 M 03:00PM-04:50PM Satisfies Core Requirement: None

Prerequisites: Students must have at least one year (two semesters) of coursework in Latin language or its equivalent. The Summer Intensive Latin course, for example, would meet the requirement of this prerequisite.

Corequisites: None Cross-listed with: None Frequency: Periodically Student Level: Graduate Comments: None Status: Offered

TMTM200301

New Testament Greek II Kakavas, Maria

Spring 2022

The main objective of the course is to be able to read the New Testament in the original. This is the second part of the two-semester course where we will finish all Croy's lessons, provided that a good understanding and working knowledge of the material has been attained. We will cover a chapter every two class meetings, and the third meeting we will have a review, a quiz, and may introduce a new chapter depending on the progress. The students will be expected to master the basic grammar and most common vocabulary of the New Testament Greek, complete all assignments on time and participate actively in class.

TMHC722801

Introduction to Thomas Aquinas Harkins, Franklin T

Fall 2021

This course provides an introduction to the theology of Thomas Aquinas (c. 1225-1274) in its historical, intellectual, and institutional contexts, with a focus on reading and understanding the primary texts of Thomas (in English translation). The course considers Thomas's treatment of central theological topics including the nature and extent of theology, the status and interpretation of Sacred Scripture, the existence and essence of God, divine providence and predestination, God's triune nature, creation, human nature, evil and sin, grace and its effects, merit, faith and its relationship to reason, the Incarnation, Christ's passion and death, His resurrection and ascension, and the sacraments. Throughout attention will be given to Thomas's assumptions and working method as a scholastic master and the uses he makes of various authorities (scriptural, patristic, philosophical, etc.) in the development of his theology.

TMHC809301

Ambrose and Augustine Dunkle SJ, Brian P

Fall 2021

A treatment of two of the seminal theologians of the Christian West, especially their biblical, liturgical, theological, pastoral and philosophical concerns, with attention to their socio-cultural, historical, and political context. The course will use Ambrose as a representative of early Christian thought and explore his influence on the young Augustine. We will then discuss how Augustine adopts and adapts many of Ambrose's insights in developing his own synthesis, which would influence all of the church until the present day.

Discernment and Prayer in the Spiritual Exercises of St. Ignatius Geger, Barton T  
Spring 2022  
This is a Graduate level online course. . A study of the spiritual doctrine of St. Ignatius Loyola  
as articulated in the text of the Spiritual Exercises, but with reference to other texts such as  
Ignatius' Testament, letters, and the Constitutions of the Society of Jesus. The focus is how  
Ignatius' treatment of prayer, discernment of spirits, and discernment of God's will, work  
together to form a "contemplative in action."

TMHC717901  
History of Western Christianity III: Catholicism from the French Revolution to Vatican II von  
Arx, Jeffrey  
Spring 2022  
What John OMalley, S.J. calls the Church's "long nineteenth century," from the French  
revolution to the 1950's, although often considered a period of secularization, was also a great  
age of renewal for the Roman Catholic Church. It witnessed a tremendous institutional growth  
of the Church, the assertion of doctrinal and administrative control from Rome known as  
ultramontanism, the flowering of spirituality and devotional life, and the spread of the faith  
from Europe throughout the world by means of extensive missionary activity. This course will  
consider the institutional and intellectual transformation of the Church in the nineteenth  
century, but will also pay close attention to changes in popular piety and the social role of the  
Church. Focus will be both topical and regional.

TMHC723001  
Medieval Theology Harkins, Franklin T Spring 2022  
The course provides an historical introduction to Christian theology in the medieval West, c.  
400  
- c. 1400, with a focus on medieval scholasticism. Fundamental themes include modes of  
theological discourse, scriptural exegesis, monasticism, mysticism, and scholasticism. The  
course considers how such theologians as Augustine of Hippo, Pseudo-Dionysius, Bede,  
Anselm of Canterbury, Bernard of Clairvaux, Hugh and Richard of St. Victor, Robert of Melun,  
Peter Lombard, Albert the Great, Thomas Aquinas, Bonaventure, Mechthild of Magdeburg,  
Gertrude of Helfta, and John Duns Scotus understood such central theological topics as the

natural knowledge of God, divine revelation, Trinity, creation, the human person, sin, evil,  
grace, predestination, Christ, mystical union, the Virgin Mary, salvation, and the sacraments.

TMOT701401

The Core Narrative of the Old Testament: Genesis to Kings Davis, Andrew R  
Fall 2021

A study of the Pentateuch and the Deuteronomistic History (Deuteronomy to Kings) through lectures, and sections in which students present an exegesis of important passages. Solid knowledge of these books is essential to understand the rest of the Bible. This course does not duplicate other introductions, for we read only Genesis through Kings (not the Prophets, Wisdom Literature, or Psalms), and a third of the class time is devoted to small sections, which are designed to sharpen exegetical and preaching skills.

TMOT812801

The Book of Daniel Harkins, Angela K Fall 2021

This course will provide a detailed introduction to the Book of Daniel and three additions found in the Catholic Old Testament known as the prayer of Azariah; Susannah and the Elders, Bel and the Dragon. Our study of this book will attend to its literary features, historical context, and theological content. We will investigate the book from a variety of methodological approaches and relate the book to its Second Temple Jewish apocalyptic context and later Danielic pseudepigraphic traditions. This course will also connect the Book of Daniel to relevant New Testament texts, in particular the Son of Man traditions in the Synoptic Gospels.

## Old Testament Courses: Spring 2022

TMOT809801

Prophets

Davis, Andrew R Spring 2022

This course provides a historical, literary and theological overview of the prophets and the prophetic books in the Hebrew Bible. Although we will look at the Former Prophets, most of the class will focus on the Latter (Writing) Prophets. When possible, we will read prophetic books in their entirety, but for longer books we will read selected texts. By the end of this course I hope that you will better appreciate the rich diversity of form, style and theology we find in the prophetic books.

TMOT810001

Women in Scripture Davis, Andrew R Spring 2022

This course will begin with an overview of feminist biblical hermeneutics--its history and variety-- and then we will examine depictions of women throughout the Christian Bible. Part of this analysis will consist of looking at these depictions from different feminist perspectives. Another part of our analysis will be a consideration of the stories' social and cultural contexts, especially what archaeology can tell us about women's lives in antiquity.

TMPS701801

Death and Dying Kelley, Melissa M Fall 2021

The study of death and dying is a complex, multidimensional, and evolving field. This course draws on contemporary theory and research to explore death and dying from multiple perspectives, including religious, theological, pastoral, and psychological. Topics include societal attitudes toward death; facing one's own death; cultural features of death and dying; end-of-life issues; children and death; funerals and the use of ritual in ministry to the dying; pastoral sensitivities and skills for ministering to the dying; and pressing contemporary concerns, such as death in the workplace, institutional death, violent death, and death in global perspective.

TMPS704101

The Practice of Ministry with Youth and Young Adults DEPT Fall 2021

This course aims to explore elements critical to the effective practice of ministry for and with youth and young adults. Considering the broad demographics herein, this class attends to fostering the skills of discernment and mentoring, which would be valuable across the spectrum of these varied constituencies and contexts. Together the class explores the contexts of the ministry (ecclesial and social), identifies a vision for the work, and considers how that vision might assist in discerning God's action in and direction for work with youth and young adults.

TMPS709301

Introduction to Pastoral Care and Counseling: A Narrative Approach Kelley, Melissa M Fall 2021

In this introduction to pastoral care and counseling, you will reflect on the discipline as a charism for the whole people of God that can be practiced in empowering and teachable ways. Focusing on how people shape their lives through stories, you will explore congregational and personal family systems and self-care practices. Particular topics to be addressed will be family counseling, violence, crisis ministry, depression, substance abuse, and boundaries in ministry. You will explore the theological horizons of pastoral care and counseling, including the interface between counseling ministry, sacramental ministry, and Ignatian spirituality.

TMPS718201

Pastoral Care in/with Communities of Faith: Creating Networks of Care Roozeboom, William D;Sutton-Adams, Hannah L Fall 2021

Life is in inherently relational, multidimensional, interconnected, and located within larger systems and structures - i.e. communities. Thus, our practices of pastoral care and counseling must likewise attend to the multidimensional and systemic nature of relationality. This course uses an interdisciplinary approach to explore personal, pastoral, and communal processes of creating networks of care in communities of faith and para-church organizations. Both pastoral and lay leaders will learn how to engage and utilize systems theory, conflict theory, therapeutic skills and processes, and theological and spiritual resources to navigate conflict, foster dialogue, and build constructive solutions and possibilities in community as part of an overarching practice of pastoral care. Particular attention will be given to one's self-in-representation and the capacity to remain a non-anxious, non-reactive constructive presence.

Professional Ministry Practicum Weiss, Joseph E

Fall 2021

Students receive 3-credits in the fall semester and 3-credit in the spring semester. The professional ministry practicum provides M.Div. students with an opportunity to integrate the academic study of theology and ministry with the exercise of a particular pastoral ministry under supervision. There are three required components of the professional ministry practicum. First, students are engaged in pastoral ministry in an approved setting for a required number of hours. Second, students are mentored by approved supervisors at the ministry site. Third, students participate in a course component to deepen their understanding of their ministry experience and to further develop pastoral and professional skills and sensitivities for ministry.

English Chants of the Roman Liturgy Weiss, Joseph E

Fall 2021

The English chants provided in the Liturgy of the Hours and the Roman Missal 3rd edition make it possible to sing the liturgy. Sung liturgy is an ideal of the liturgical reforms issuing from the Second Vatican Council. This module provides students with: 1)an exploration of sung vernacular liturgy in the liturgical reform of the II Vatican Council, 2) instruction in the dynamics of singing well, 3) practice in the genres of chant in the English missal and the Liturgy of the Hours. Module course.

Lifespan Pastoral Care: The Early Years Smith, Walter J

Fall 2021

This foundational course for caregivers, pastoral counselors, chaplains, lay & ordained ministers, and healthcare professionals will survey contemporary crisis and normal developmental escence, and young adulthood. Employing didactive, dialogic, and experiential learning modalities, this course will offer weekly opportunities for laboratory engagement with issues, traumas, and critical challenges that caregivers encounter. Drawing upon current research and clinical data in fetal, pediatric, adolescent, and young adult development, psychology, neuroscience, genetics, biomedical ethics, pastoral theology and spirituality, this course will seek to identify, develop, and/or enhance the basic assessment, helping, and referral skills needed by pastoral caregivers. Students will learn best practices and become capable to provide astute, compassionate, and supportive spiritual care and counsel to individuals, their significant others, and families in need.

TMPS812201

Canon Law of the Sacraments Ponzone, Andrea

Fall 2021

This course examines Book IV of the 1983 Code of Canon Law, the sanctifying munus of the Church. It presents a canonical study of the Sacraments of the Catholic Church, other Acts of Divine Worship, and Sacred Places and Times. Special emphasis is placed on the Sacrament of Marriage, not only on substantive norms (cann. 1055-1165) but also on Book VII as regards the Process for Declaration of Marriage Nullity. A comparison with selected norms of the 1990 Code of Canons of the Eastern Churches will highlight some specificities of Sacramental Law of the Eastern Catholic Churches. Students who have not completed an introductory course in Canon Law are required (prior to the beginning of the course) to submit a preliminary essay to the instructor demonstrating basic knowledge and appropriation of the essential elements of the Code of Canon Law and insights from the work of Martin De Agar, Joseph T., A Handbook on Canon Law (Wilson & Lafleur, 2007).

## Pastoral Studies Courses: Spring 2022

TMPS700601

Grief and Loss Kelley, Melissa M Spring 2022

Grief may be understood as the response to a significant loss. We will explore pastoral, theological, religious, and secular perspectives on grief and loss and seek to integrate these perspectives where appropriate. We'll consider important new research in thanatology and review traditional psychological theories of grief in light of contemporary critiques. We will explore the experience of grief in light of context and culture and consider which features may be universal. We will attend to often unrecognized dimensions of grief—disenfranchised grief and the grief born of injustice. We'll focus on how to respond pastorally to grieving individuals and communities.

TMPS707801

Pastoral Care of the Family Kelley, Melissa M

Spring 2022

This course presents specific topics that are important for effective and compassionate pastoral care of families today. We will examine challenging realities that may shape and/or disturb families and lead members to seek pastoral care, such as domestic violence, substance abuse, imprisonment of a family member, grief and loss, and family caregiver stress. We will consider the specific needs of families affected by injustices and harsh difficulties such as poverty and immigrant/refugee status. We will consider the specific roles and strategies of the pastoral caregiver and the faith community in helping families to negotiate challenges and create stability and well-being.

M.Div. Spiritual Formation Quinn, Barbara  
Spring 2022  
All M.Div. students participate in a one- credit comprehensive program of formation that expresses the STM's commitment to the formation of the whole person for effective ministry. Students who are members of religious orders or candidates for ordination fulfill the one-credit requirement for formation by participating in the formation programs required by their religious orders or diocese. Lay students are required to complete the seven components of the one- credit program that follow over the course of three years.

Professional Ministry Practicum Weiss, Joseph E  
Spring 2022  
Students receive 3-credits in the fall semester and 3-credit in the spring semester. The professional ministry practicum provides M.Div. students with an opportunity to integrate the academic study of theology and ministry with the exercise of a particular pastoral ministry under supervision. There are three required components of the professional ministry practicum. First, students are engaged in pastoral ministry in an approved setting for a required number of hours. Second, students are mentored by approved supervisors at the ministry site. Third, students participate in a course component to deepen their understanding of their ministry experience and to further develop pastoral and professional skills and sensitivities for ministry.

Dying in the Human Life Cycle DEPT  
Spring 2022  
Dying, death, grief, and bereavement touch every human life. This comprehensive and practical course will survey the entire life course and expand awareness, knowledge, and understanding of the biopsychosocial and spiritual aspects of death and dying. The course will focus on learning ways to apply contemporary developmental theory and clinical research to the pastoral care of the dying and bereaved. It will expand a pastoral caregivers knowledge and helping skills to accompany and support individuals and families as they walk the dying and grief journey.

Healing Ministries  
Smith, Walter J Spring 2022  
Over the course of our lives, many people suffer from serious acute or chronic illnesses, traumas, and disabilities. We all mourn the losses of loved ones. We all, at some point, confront dying, death and grief. Despite their certainty, many approach these life events with anxiety, fear, and avoidance. This course will address human sickness, trauma, disability, and the processes of dying and grieving from psychosocial, theological, clinical-pastoral, liturgical, and experiential perspectives. Building on current studies, research, and dynamics related to the care of persons who are sick, disabled, traumatized, and dying, this course will enhance the knowledge and skills needed to intervene and respond effectively to the spiritual and emotional needs of people who may look to a compassionate caregiver for guidance, comfort, and healing in times of crisis and loss. This course is intended for a diverse group of caregivers pastoral counselors, healthcare, prison, and school chaplains, lay and ordained ministers, and other health care professionals who provide assistance and care both in institutional settings and within families and communities.

Calling out from the Depths: Jewish and Christian Interpretations of the Psalms Davis, Andrew

R;Rose, Or

Spring 2022

For centuries, Jews and Christians have turned to the Book of Psalms in times of joy and thanksgiving, and in times of sadness and lament. However, there have been far fewer opportunities for members of these two communities and others to explore these ancient poetic texts together as fellow spiritual seekers. What do we share in common? Where do we differ? How might reading these sources with people with different religious or ideological commitments impact our relationship with the text? This is a Module course.

Introduction to Canon Law

Ponzone, Andrea Spring 2022

This course examines the nature, history, and sources of Canon Law in the Catholic Church. It presents an overview of the norms provided in the 1983 Code of Canon Law and relevant complementary canonical legislation. This course will focus on general norms (Book I), the People of God (Book II), the teaching munus of the Church (Book III), temporal goods (Book V). Given the current circumstances and issues about the Catholic Church's sexual abuse crisis, a brief presentation of penal law (Book VI) and processes (Book VII) will be offered. This course is recommended as a foundational background for "Canon Law of the Sacraments."

Advanced Professional Ministry Practicum Weiss, Joseph E

Spring 2022

The Advanced Professional Ministry Practicum provides advanced M.Div. or Th.M. students with opportunities for exercising ministerial leadership in settings requiring both advanced ministerial experience and professional expertise in a field other than theology. The aim is to conjoin expertise in another professional field (e.g., health care, law, economics, social work,

education, international affairs, etc.) with the practice of ministry. The student is mentored by experienced ministers. The course component offers opportunity for careful reflection on the experience with peers. Students should meet with the instructor early on to allow sufficient time to plan an approved practicum experience.

Theopoetics and Theologies of Imagination Keefe-Perry, Lincoln Birch

Spring 2022

This course explores how aesthetics and imagination shape expectations and hopes we have for our communities. The class begins with an exploration of theopoetics, which affirms that how we express experiences of the divine shapes what we think the divine is. Content builds from there to the role of imagination in religious reflection more broadly. Readings are profoundly interdisciplinary, with scholarship from philosophical and sociological treatments of imagination, psychology, theology, and literary criticism. Some customization of work is possible and students will be able to deepen their focus in directions of their choosing by selecting texts that speak to them.

TMPT802201

Seminar in Practical Theology Ospino, Hosffman

Spring 2022

Christian theology at its best is marked by the pastoral interest of serving the life of the church in the world. Necessarily, the study of the church; specifically, its nature, purpose, and mission provides a framework within which to consider the task of practical theology. The methodology and issues that distinguish practical theology flow from this larger ecclesial context. This seminar will focus on models of the church, the art of doing theology in service of the church, and some foundational themes of practical theology (e.g., hermeneutics, praxis, culture and inculturation, and our post-modern context).

Credits: 3

TMPT813201

Theology, Race, and Critical Race Theory Valentin, Benjamin

Spring 2022

A social construction at its core, the modern idea of race has been given power through the years. Accruing strength and mostly negative use over time it has cut across the private sphere and become a portentous social idea in the form of systemic racism, institutionalized within government, laws, medical science, religion, culture, and society. This course explores the historical foundations of race and racism, and ranges over different manifestations of institutional racism in the spheres of criminal justice, employment, housing, health care, political power, education, and religious and congregational life. It also looks into recent movements for racial justice in thought and practice, and considers ways in which theological ideas and church practices can be refocused to contribute to racial justice within the academy, ecclesial communities, and the larger landscape of society.

Religion and Higher Education DEPT Fall 2021

Faith, religion, and spirituality have become topics of increasing interest for scholars and practitioners in higher education administration and student personnel development. This course explores the historical, sociological, and cultural dynamics between religion and higher education. Topics include secularism, modernity, and challenges to the integration of faith and intellectual life. Additional topics include: religious pluralism; religion in secular higher education; legal issues surrounding religion and higher education; academic freedom; constitutional matters; modernism, post-modernism, post-secularism and the tensions and

opportunities that these cultural/intellectual movements pose for religion and higher learning in a modern, democratic, pluralistic society.

Religious Education, Critical Pedagogy and Liberative Learning Keefe-Perry, Lincoln Birch Fall 2021

This course provides familiarity with key concepts and thinkers of the critical pedagogy movement, exploring how they have informed theology and education, both religious and otherwise. The course highlights the contributions of Paulo Freire, considering the influence of Critical Theory and Christian spirituality on his educational scholarship and service. It builds from there to consider bell hooks engaged pedagogy, Antonia Darders decolonial pedagogy, and the work of Henry Giroux and Parker Palmer. Centered on in-class dialogue, the course culminates in student-driven projects exploring possible interventions and contributions that students can make in their own community-building contexts.

Adult Believers in a Postmodern Context Regan, Jane Spring 2022

What are the dynamics that make adults ready and able to live effectively as people of faith in our contemporary postmodern context? What does it mean to be a believer in such a context and how are adults supported in the maturity of faith? Theology, psychology, and education theory all have a contribution to make in addressing these questions. Focused consideration is given to contemporary theories in adult development and adult learning. Attention is given to the implications of this for the parish/congregation, but broader applications are also considered.

TMRE725201

What Makes Education Catholic? Groome, Thomas

Spring 2022

When a school presents itself to the world as offering Catholic education, it signals, at a minimum, that it is committed to educating from and for faith. It is to educate from deep spiritual convictions that are core to Catholicism and for a Transcendent as well as an immanent perspective on life, preparing students to live well into an Ultimate Horizon God as revealed in Jesus Christ. What does this ask of the curriculum of a Catholic school, of its faculty and administrators? We once took for granted our response to such questions, for example when 95% of faculty and staff were vowed religious and all students were decidedly Catholic. That era has passed, bringing new challenges and opportunities. Note, for example, the growing number of students from other or no faith tradition attending, likewise an often diverse faculty and staff, and many Catholic students who are more cultural than affiliated in their faith. This changed reality, coupled with the secular and postmodern culture of our time, offers new opportunity for a fresh address of what makes education Catholic. This course will be a seminar.

## Systematic and Historical Theology Courses: Fall 2021

TMST700901

Fundamental Theology Doyle, Dominic F  
Fall 2021

The resources and methods of theology provide the framework for this course. A primary focus will be on the relationship between revelation, faith, and theology, which includes the role of the Bible and the church's doctrine. The course will also survey past and present methods in 'doing theology,' and consider the connection between theology and spirituality.

Fundamental Theology Chong, Vicente  
Fall 2021

The resources and methods of theology provide the framework for this course. A primary focus will be on the relationship between revelation, faith, and theology, which includes the role of the Bible and the church's doctrine. The course will also survey past and present methods in 'doing theology,' and consider the connection between theology and spirituality.

The Church Lennan, Richard J Fall 2021

The ecclesial dimension of Christian faith is the focal point of this course. The course will locate the church within both a Trinitarian theology and a theological anthropology. Specific topics for exploration include the place of the church in the Creed, the sacramentality of the church, a theology of mission, and of structure and authority. The course will also explore current issues shaping the church's life and its place in the wider culture.

TMST702401

Christology Luciani, Rafael F Fall 2021

This course seeks to clarify what it means to confess that Jesus of Nazareth is the Christ, and why this is a significant claim. The course examines the New Testament, the early councils of the Church, the writings of early and medieval Christian theologians, the dogmatic teachings of the Church, and the contributions of contemporary theologians. Two main questions will be addressed: Who is Jesus? How does Jesus save us?

TMST704501

Grace  
Doyle, Dominic F Fall 2021

A historical and textual examination of how some Christian thinkers have described and conceptualized the experience of grace. After considering New Testament sources, the class will examine, through lecture and discussion, the following approaches: patristic (e.g. Irenaeus, Augustine, Pelagius), medieval (Aquinas), reformation (Luther, Calvin, Trent, John of

the Cross), and modern (Congar, Rahner, Balthasar, Lonergan, liberation theology). Themes to be explored include sin, forgiveness, and healing; divine initiative and human freedom; sanctification; the relationship between nature and grace; social dimensions of grace; and theologies of the Spirit.

TMST705101

Development of Christological Doctrine Dunkle SJ, Brian P  
Fall 2021

Jesus' question to his disciples, "Who do you say that I am?" (Mk 8:29) received a definitive response in Church doctrine only through a long and tumultuous process of development. In seeking to formulate our own responses to this question, we need to appropriate the contents of this process. The project of this course is to integrate contemporary questions with those that generated the development of christological doctrine so that we may delve deeper into the mystery of the human-divine identity of Jesus Christ.

Sacraments in the Life of the Church Bergin, William N  
Fall 2021

After exploring sacrament in its broadest sense, the meaning of sacramentality, and other fundamental elements of Roman Catholic sacramental theology, we will examine each sacrament both in its role in the life of the church as well as its role in each individual's faith journey. We will address historical background and contemporary issues about the Sacraments of Initiation, Baptism, Confirmation and Eucharist, the Sacraments of Healing, Reconciliation and the Sacrament of the Sick; and Sacraments at the Service of Communion, Marriage and Holy Orders.

Writing and Research for Theology and Ministry Petro, Susannah  
Fall 2021

This course provides an introduction to writing and research for students engaged in STM degree programs. Through a series of workshops, the course will introduce students to the basics of research, developing a thesis statement, and the use of sources, as well as the different kinds of writing that STM faculty require (research papers, biblical exegeses, theological reflection papers). With an individual tutor, students will work on developing research paper that has been assigned in the current semester. This is a year long course. Students register both fall and spring semesters and will receive 1-credit in the spring semester.

TMST724701  
 Faith and Justice: Liberation Theologies in the U.S. Valentin, Benjamin  
 Fall 2021  
 Liberation theologies are modes of theological discourse that rethink the purpose of religious  
 thought and practice by placing attention on distinctive experiences of injustice and inequality  
 encountered by different individuals and social groups. Although the liberation theology  
 movement is now a global one, the United States has been the birthplace of a good number of  
 liberation theologies. This course examines the emergence, development, emphases, and  
 methodologies of four of these, including African American/Black theology of liberation,  
 feminist theology of liberation, Latino/a theology of liberation, and LGBTQ theology of  
 liberation. Besides offering a solid introduction to liberation theology, the course analyzes  
 basic concepts underlying theories of injustice, domination, and oppression.

TMST725101  
 U.S. Latinx Theologies Valentin, Benjamin Fall 2021  
 In the United States, feminist and African-American/Black theologies have received much  
 deserved recognition for their original contributions to the task of theological construction.  
 However, it should be noted that right alongside these liberation and justice oriented  
 theologies, even if with less publicity until recently, Latino and Latina theologians have been  
 developing their own distinctive form of contextual and liberation theology written from the  
 perspective of their lives in the United States. This course examines their theological  
 expression, offering an overview of the historical development, main academic theologians,  
 core themes and methods, and the promise and challenge of U.S. Latino(a) theology in the  
 process. Besides offering students a solid introduction to U.S. Latinx theology, the course  
 grants an opportunity to enhance one's cultural competence; to learn about the  
 characteristics of the largest ethnic minority group in the United States (i.e. Latinos and  
 Latinas); and to become more familiar with  
 U.S. social history, the legacy of colonialism, and contemporary decolonial thinking.

 Priesthood: Theology and Praxis Baldovin, John  
 Fall 2021  
 This Level Two course is open to all students and focuses on ordained ministry of the Roman  
 Catholic priesthood in terms of its biblical & theological foundations, historical development,  
 contemporary issues, pastoral practice, & priestly spirituality, especially as treated in the  
 pertinent ecclesial documents. Also treated are the cooperation between laity and clergy and  
 the roles of lay ecclesial ministry as well as both tensions and critiques arising out of the  
 Church's reservation of the priesthood to males and mandatory celibacy. Ecclesiology is a  
 prerequisite for counting this course for the Ecclesial Ministry requirement in the M.Div.  
 curriculum.

The Theology of Johann Baptist Metz Valiente, Orfilio E  
Fall 2021  
This seminar will unfold by first examining Johann Metz's early relationship and subsequent break with the theology of Karl Rahner. Next we will explore Metz's critical dialogue with the thinkers of the Frankfurt school and the manner in which this encounter led to the formulation of Metz's early political theology. We will then turn to Metz's mature political theology as a "theology after Auschwitz." Some of the themes to be considered include Metz's assertion of the need for "anamnestic rationality," his focus on "the theodicy question," his apocalyptic eschatology, and his articulation of a mystical-political spirituality.

Seminar: Theology, Education, and Liberation DEPT  
Fall 2021  
What does it mean to "teach as Jesus taught," especially in situations where human dignity is threatened and compromised by vulnerability, catastrophe, terror, uncertainty, and misery? Using the writings of Brazilian theorist Paulo Freire as a point of reference for theological inquiry and critical reflection, this course sets Freire's insights in conversation with those of contemporary biblical scholars, theologians, educators and philosophers who believe "another world is possible." The course examines the interconnectedness of love, hope, faith, freedom, wonder, dialogue and moral agency in promoting the Gospel of life and the culture of death.

Reconciliation in a World of Conflict Valiente, Orfilio E  
Fall 2021  
The twentieth century's legacy is marked by social conflict and war: more than 200 million people killed because of political repression, ethnic or religious wars. Enlisting a theological lens, this seminar examines the Christian resources and contribution to the problem of reconciliation. After examining the most important secular approaches to the problem of personal and social conflict, we will focus on the main Christian theologies of reconciliation, including the works of Robert Schreiter, Miroslav Volf, John de Gruchy, and Jon Sobrino. Their

theologies will be examined through individual case studies of the Balkan region, South Africa, and El Salvador.

Introduction to Patristic Theology Dunkle SJ, Brian P

Spring 2022

This course presents the methods and insights of patristic treatments on the topics of theology through a study of major figures and texts. After an overview of the culture and context of the early church, we will treat patristic reflection on: Scripture, faith and reason, Christ, Trinity, the church, liturgy, ethics, and prayer. Authors and literature include, but are not limited to: Ignatius of Antioch, Justin Martyr, Irenaeus, Clement of Alexandria, The Martyrdom of Perpetua and Felicity, Origen, Tertullian, Athanasius, Basil of Caesarea, Gregory of Nazianzus, Gregory of Nyssa, Hilary of Poitiers, Ambrose, Augustine, and John Chrysostom.

TMST724901

Methods in Theology: Mediating Between Culture and The Gospel Rylyskyte, Ligita

Spring 2022

The purpose of this course is to introduce students to contemporary methods in theology. The course presupposes that a theology mediates between a cultural matrix and the significance and role of a religion in that matrix. Since the mediating role of theology includes both listening and speaking phases, and the listening is the matter of authentically appropriating the inherited tradition in the historically contingent context, the course is organized in three units: (1) Classical Methods and the Modern Shift; (2) Methodical Theology: Bernard J. F. Lonergan; (3) Theology and Culture. The first unit explores classical approaches to doing theology, exemplified by St.

Augustine and St. Aquinas, and the modern shift to historical consciousness and hermeneutics.

The second unit examines a method in theology after the turn to subject, as proposed by Bernard J. F. Lonergan. The third unit completes the inquiry by engaging theories of culture, critical race theory, feminist theory, and postcolonial theory.

Creation and Eschatology DEPT

Spring 2022

How does Christian faith invites us to imagine the relationship between "this world" and "the world to come"? How does that affect the way we live and work in the world? This course explores key biblical texts, Christian doctrine, and contemporary theologies. Special attention is given to the relationship between religion and science, especially biblical hermeneutics; evolution and theology; death, judgment, heaven, and hell; the significance of Christian faith in bodily resurrection; and the biblical and theological basis for concern for the environment and a creation-centered spirituality.

The Christology of Thomas Aquinas Harkins, Franklin T  
Spring 2022  
This course provides an introduction to the Christology of Thomas Aquinas (1225-1274) primarily as set forth in the Summa theologiae. Through close reading of Illa qq. 1-59 in English translation), we will consider Aquinas's teaching on the Incarnation and Christ's life and work. The sacraments as extensions of Christ's saving work throughout time and space will also be examined. Primary sources will be supplemented by modern scholarship on various aspects of Aquinas's Christology. Throughout the course we will attend particularly to Aquinas's sources and working method as a scholastic theologian.

Contemporary Sacramental and Liturgical Theology Baldovin, John  
Spring 2022  
Advances have been made in the past fifty years with regard to sacramental/liturgical theology. This course will investigate the contributions made by Roman Catholic, Anglican, and Protestant scholars who use different methods to move beyond traditional debates about sacraments.  
Several of the authors are non-RC: Hughes (Reformed), Larson-Miller (Anglican), Saliers (Methodist); Smith (Reformed). Attention will be paid to women theologians (Belcher and Larson-Miller) as well as to Latino theology (Empereur/Fernandez).

Mariology  
Guider, Margaret E Spring 2022  
How are we to account for the upsurge in interest regarding Mary both within and beyond Christian churches around the world? Mindful of this question, the course surveys the origins and development of Marian doctrine and devotion using a fourfold method of theological inquiry (dogmatic, historical, social scientific, aesthetic). Conscious of the interactive dynamics of religion, culture, politics, and social change, the course examines selected themes, claims, and controversies that pertain to the contemporary study of Mary. The course also explores the significance of Marian art, music, literature, film, and sites of pilgrimage for spirituality and theological imagination.

TMST810901  
The Trinity in the Early Church Dunkle SJ, Brian P  
Spring 2022  
An introduction to early Christian Trinitarian theology and its enduring pertinence to the Church's worship of God as one and three, Father, Son, and Holy Spirit. Treating authors from Justin Martyr to John of Damascus, we explore the scriptural and philosophical features of, among other issues, the Cappadocian solution, the psychological analogies of Augustine, the roots of the filioque, and the challenge of Islam. We will consider the retrieval of patristic Trinitarian theology by recent authors, especially in light of debates on ontotheology, the immanent and the economic Trinity, and social analogies for divine perichoresis.

TMST812901  
Theology, Violence and Nonviolence Valiente, Orfilio E  
Spring 2022  
This course will examine violence as a problem of deep religious and spiritual significance for Christianity, and the complex relationship between theological reflection, violence, and nonviolence, by exploring such questions as: Is Christianity inherently violent? What aspects of Christianity can exacerbate or mitigate violent acts? Does Christian soteriology sanction divine violence? Under which conditions does Christianity condone or condemn violence? We will enlist an interdisciplinary approach to answer these and other questions. The first part of the course will turn to history to explore current manifestations of violence and review contemporary classic texts in philosophy, psychology, theology, and politics on this difficult topic. We will also study the occurrence of human and divine violence and nonviolence in the Christian sources of revelation. The course will then examine different Christian theological traditions in connection to the just war theory, pacifism, and non-violence, all with the intention of identifying the most appropriate Christian responses to contemporary violence.

Christology in the Making: An Inquiry into Christology from Below Valentin, Benjamin  
Spring 2022  
This course explores an approach to Christology that has emerged in the last few decades and  
has come to be known as a "Christology from below" -- that is, a Christology that inquires into  
and builds from the historical circumstances and events of Jesus' life and ministry. The course  
begins with study of the historical Jesus, offering a look at the emerging picture of Jesus arising  
from present-day historiography, archaeology, and literary analysis. It then proceeds to focus  
on the works of several contemporary theologians who make a case for and/or exemplify a  
Christology done from below.  
Credits: 3  
Room and Schedule: Simboli Hall 135 Tu 03:00PM-06:20PM Satisfies Core Requirement: None

TMST857101  
Theological Aesthetics Chong, Vicente  
Spring 2022  
This course is a study of the mystery of God from the perspective of aesthetics and art. In  
other words, we will try to understand Gods saving presence and action in our lives, in the  
world, and in history, based on the transcendental and liberating experience of art, and we will  
try to speak about God who has revealed Gods self in Christ using aesthetic categories. We will  
also explore different ways to establish a conversational relationship between theology and  
the arts.

Applied Research Project Hiles, Elisabeth A Summer 2021

Course is taken in final semester only.. The Applied Research Project for Leadership and Administration is designed to give students the opportunity to apply the knowledge they have acquired throughout their graduate program to real-world situations. The culmination of such knowledge will be directed at a final presentation and major paper. Also, the learning objectives of their particular M.S. specialization will be encapsulated through their in-depth, individualized research. An applied research project is meant to be a cumulative experience. As such this course provides opportunities for students to integrate knowledge from their core and concentration courses, to gain insight into the meaning of professionalism and professional practice, and to produce a research project that can be utilized in their current work setting to showcase their skills and talents. Alternatively it can also be used to highlight their background to prospective employers or in fields in which they have an interest but may not be currently employed.

Inclusive Leadership Ryan, Joan R

Fall 2021

This course is designed to provide a foundation for understanding of the concept of inclusion as well as an overview of the theory bases, terminology, and practices of inclusive leadership. Students will explore the impact of inclusive leadership (and conversely, a lack of inclusive leadership) on individual, group, and organizational dynamics. Activities will include: exploring leadership constructs and traits that impact organizations, psychological processes and behaviors related to inclusion (e.g., unconscious bias, bystander effect, EQ), case analyses, and actions of effective inclusive leaders that lead to greater employee engagement, productivity, and ultimately business outcomes and revenues. The course will also help participants to identify additional individual learning goals that will help position them well on their own journey of enhanced personal leadership. This course is intended to teach foundational concepts and to provide a context for the course work that follows. This course will include reading from texts and 'classic' articles, course discussion, group presentations, guest speakers, and individual work that explores the core processes and skills that are associated with the practice of inclusive leadership. Consistent with the values of effective and inclusive leadership, our learning will be highly participative and consistent with the tenets of human growth potential and positive psychology.

Leading and Managing Change Vuksinick, Brett R

Fall 2021

The contemporary business environment is constantly changing. Global and domestic markets are in flux, and the workforce is subject to the ebb and flow of generational dynamics. Whether Fortune 500 or small business, the ability to be nimble and strategically change in response to the fluidity of business trends is the key to success. Yet, leading and managing change in the corporate setting is extraordinarily challenging. Change is unsettling. Change challenges the security of how things have been done. Change tests the mettle of project implementation and teams. The prospect of change often impedes creativity rather than promotes innovation in the workplace. No one wants to be wrong or make a wrong decision in the face of change. Hence, managers and the workforce they oversee tend to be change resistant. In order for the organization to change, the people in the organization must be willing to change work/management styles, approaches, and attitudes. In today's highly competitive business environment, rapid and smooth decision-making and implementation is the basis for competitive edge. This course will be presented in three parts. First, students will gain a detailed understanding of change at the macro (organizational) and micro (individual) levels. We will identify the problems associated with anticipating, initiating and implementing change in both for profit and not for profit corporate settings. The second part of the course will explore various techniques in promoting sound analytical corporate response to change at the senior and mid-level managerial levels. The final part of the course is applied. Student teams will assume leadership roles in a fictional company needing change and present their change process in class. Students will also each prepare an analysis of a case studies of corporate change experience. Emphasis will be placed on the process of change in the business context. The class discussions will be grounded in empirical realities rather than theoretical suppositions.

ADGR778501  
Leadership and Decision Making: Ignatian-Based Applied Ethics Noone, Gregory P  
Fall 2021

What role do ethics and morals play in influencing leaders? Too often, decisions are made based solely on numbers, shareholder value or some other metric of business, often without reflection. Yet, we have an obligation to each other and to ourselves to personally engage and make decisions within a moral context. Using a Thomistic ethical system and Ignatian discernment and values as our guide, this course will explore strategies and options for integrating virtue into leadership decision-making. Thomistic ethics is to be given primacy of place because it is universally applicable, and is based upon a unified, coherent understanding of the nature of humanity. It is thoroughly grounded in the objective order of things. Thomistic ethics is an eminent expression of philosophical realism. Thomistic ethics is guided every step of the way by the assumption that just as human beings are born into a world which is defined and governed by objective physical laws, so that same world is defined and governed by objective moral laws. Applying those strategies to real world case studies, we will develop tools to help navigate those situations where there is pressure to compromise virtue or disengage from our moral compass.

ADGR801001  
Leader as Change Agent Arrowood, Rick J  
Fall 2021

A leader's job is to drive change to respond to a changing environment. The ability to navigate and execute responsive, expedient organizational change is a crucial component for contemporary leaders, yet over 70% of planned change campaigns fail. This course is a study of successful change processes, and the leader's role in creating a culture conducive to change; establishing vision, buy-in, and purpose among the influencers; and implementing sustainable, transformative change within an organization. Through the examination and discussion of change theory, case studies, and interviews with change agents, this course considers effective approaches to confronting resistance, as well as leading change both vertically and horizontally. This course includes a leadership style assessment to identify personal strengths and challenges as an influencer and change agent.

Business Strategy Beauvais, Bradley M Fall 2021

Strategy is how leaders distinguish the organizations advantage in competitive markets. It is a set of guidelines that help direct decision making and the allocation of resources to accomplish the company's key business goals and objectives. To succeed in the future, leaders must develop the means and capabilities needed to gain and sustain these advantages. This course introduces the concepts of strategic management by using readings, discussion, and case studies. The key components the course will cover are: the three horizons of strategy; external environments (social, political, technological, and economic); global markets; internal Factors and Implications (capabilities, talent, resources); the role of Culture and Change Management.

Talent Management McDonald, Brian R Fall 2021

Companies often describe the people they employ as their most important asset. The best companies view talent as competitive differentiator and one where the acquisition, engagement, development, and retention of talent is a strategic priority. This course exposes you to methods and practices to acquire, engage, and develop talent, focuses on the development of leaders within an organization, and examines how executive succession is managed. Through readings, cases studies, on-line and in-class discussions student will develop their definition of talent management and perspectives on the most effective practices. The course will culminate with a research project and in class presentation that allows learnings throughout the semester to be shared and reflected with the full cohort group.

Public Relations/Crisis Communication Arrowood, Rick J  
Fall 2021

This course combines two major areas of managerial communication: Public Relations and Crisis Communication. The overriding objective is to examine the strategies and perspectives of organizations as they attempt to manage their image and reputation. The course analyzes several paradigm cases in crisis communication, and it explores the tools of public relations as a means to enhance and restore the reputation of a company. The overarching viewpoint of the course focuses on decisions implemented by managers to protect the reputation of an organization.

ADGR809001  
Workforce Planning and Employment Snyder, Shanell L  
Fall 2021

Strategic Workforce Planning takes a broad view of the organization to assure the right people and right skillsets are in place to drive strategy and reinforce culture. Key stakeholders are partners in the process to ensure adoption within the organization, and collaboration is necessary to drive alignment of people, process and technology. Workforce planning considers the balance between the current state, the organization's evolution, and the desired future state. Finding that balance requires measuring the system, and evaluating both the internal and external environments. This course will help you think about how to assess organizations, learn to work with the organization's strategy and culture to determine the key factors driving Workforce Planning, how to apply different frameworks, and to create a gap analysis between

the current state and the desired state. From this framework, you will look at ways to implement the strategy, and learn to use data to inform your thinking.

Inclusive Leadership Ryan, Joan R

Spring 2022

This course is designed to provide a foundation for understanding of the concept of inclusion as well as an overview of the theory bases, terminology, and practices of inclusive leadership. Students will explore the impact of inclusive leadership (and conversely, a lack of inclusive leadership) on individual, group, and organizational dynamics. Activities will include: exploring leadership constructs and traits that impact organizations, psychological processes and behaviors related to inclusion (e.g., unconscious bias, bystander effect, EQ), case analyses, and actions of effective inclusive leaders that lead to greater employee engagement, productivity, and ultimately business outcomes and revenues. The course will also help participants to

identify additional individual learning goals that will help position them well on their own journey of enhanced personal leadership. This course is intended to teach foundational concepts and to provide a context for the course work that follows. This course will include reading from texts and 'classic' articles, course discussion, group presentations, guest speakers, and individual work that explores the core processes and skills that are associated with the practice of inclusive leadership. Consistent with the values of effective and inclusive leadership, our learning will be highly participative and consistent with the tenets of human growth potential and positive psychology.

ADGR772601

Leading and Managing Change Viksinick, Brett

Spring 2022

The contemporary business environment is constantly changing. Global and domestic markets are in flux, and the workforce is subject to the ebb and flow of generational dynamics. Whether Fortune 500 or small business, the ability to be nimble and strategically change in response to the fluidity of business trends is the key to success. Yet, leading and managing change in the corporate setting is extraordinarily challenging. Change is unsettling. Change challenges the security of how things have been done. Change tests the mettle of project implementation and teams. The prospect of change often impedes creativity rather than promotes innovation in the workplace. No one wants to be wrong or make a wrong decision in the face of change. Hence, managers and the workforce they oversee tend to be change resistant. In order for the organization to change, the people in the organization must be willing to change work/management styles, approaches, and attitudes. In today's highly competitive business environment, rapid and smooth decision-making and implementation is the basis for competitive edge. This course will be presented in three parts. First, students will gain a detailed understanding of change at the macro (organizational) and micro (individual) levels. We will identify the problems associated with anticipating, initiating and implementing change in both for profit and not for profit corporate settings. The second part of the course will explore various techniques in promoting sound analytical corporate response to change at the senior and mid-level managerial levels. The final part of the course is applied. Student teams will assume leadership roles in a fictional company needing change and present their change process in class. Students will also each prepare an analysis of a case studies of corporate change experience. Emphasis will be placed on the process of change in the business context. The class discussions will be grounded in empirical realities rather than theoretical suppositions.

Leadership and Decision Making: Ignatian-Based Applied Ethics Noone, Gregory P

Spring 2022

What role do ethics and morals play in influencing leaders? Too often, decisions are made based solely on numbers, shareholder value or some other metric of business, often without reflection. Yet, we have an obligation to each other and to ourselves to personally engage and make decisions within a moral context. Using a Thomistic ethical system and Ignatian discernment and values as our guide, this course will explore strategies and options for integrating virtue into leadership decision-making. Thomistic ethics is to be given primacy of place because it is universally applicable, and is based upon a unified, coherent understanding of the nature of humanity. It is thoroughly grounded in the objective order of things. Thomistic ethics is an eminent expression of philosophical realism. Thomistic ethics is guided every step of the way by the assumption that just as human beings are born into a world which is defined and governed by objective physical laws, so that same world is defined and governed by objective moral laws. Applying those strategies to real world case studies, we will develop tools to help navigate those situations where there is pressure to compromise virtue or disengage from our moral compass.

Leader as Change Agent Arrowood, Rick J

Spring 2022

A leader's job is to drive change to respond to a changing environment. The ability to navigate and execute responsive, expedient organizational change is a crucial component for contemporary leaders, yet over 70% of planned change campaigns fail. This course is a study of successful change processes, and the leader's role in creating a culture conducive to change; establishing vision, buy-in, and purpose among the influencers; and implementing sustainable, transformative change within an organization. Through the examination and discussion of change theory, case studies, and interviews with change agents, this course considers effective approaches to confronting resistance, as well as leading change both vertically and horizontally. This course includes a leadership style assessment to identify personal strengths and challenges as an influencer and change agent.

Spring 2022

A hybrid course utilizing required classroom attendance on specific dates. The other weeks will require monitoring and posting to the virtual classroom on Canvas 2-3 days each of those on-line weeks to submit work and engage in on-line discussion. Designed to identify and explore current strategies and measures that enhance organization productivity within a healthy workplace environment. The course examines the current literature that focuses on workplace productivity in the public, private and non-profit sectors. A look at the changing roles of the game, the melding of the physical and virtual worlds; the evolution from a more vertical hierarchical design into more collaborative, interactive, and horizontal structures, joining with global endeavors. Course is sensitive to cultural dynamics, new patterns of participation and behavior, examines personal, interpersonal, and group behavior and suggests practical approaches to better respond.

Agile Methodologies Musserian, Lalg J Spring 2022

Companies that produce software are increasingly turning to agile development practices to help them stay competitive. Strategic project management is focused on the rapid and repeatable delivery of software, speed to market and risk mitigation as part of the project management process. Project Managers and project teams need to become well-versed in Agile practices and the highly collaborative and iterative methods which have made Agile and experienced "Agilista's" in high demand. This course starts with an overview for project managers and project teams on a variety of Agile methods, followed by a deeper dive into the most popular Agile process called Scrum. We will cover a prescriptive methodology for "Scrumming," with activities grouped into categories of People, Process and Technology within the 3 recommended phases for the successful implementation of projects with Scrum. For each phase, we will review a set of inputs and outputs, definitions and common terminologies, tips for success, inputs and outputs and the various Scrum ceremonies for a comprehensive course on running a Scrum project. This will be an interactive, hands-on class, so we can practice Scrum principles and not just learn them from a theoretical perspective.

Business and Marketing Analytics Baker Hearld, Kristine R

Spring 2022

As industries become increasingly competitive, companies rely more and more on marketing to attract buyers and prove the value of their spend from brand awareness to impact on revenues. Doing so in today's digital world requires a clear understanding and management of metrics and analytics. The Internet promises to revolutionize the dynamics of international commerce and permits new types of measurement tools that will expand the data available to marketers, including advertising measurement and customer profiling. This course will provide students with the main tools to lead marketing performance and help them answer key questions such as: How can I lead marketing performance by designing the appropriate metrics? What are the most important marketing metrics and analytics for me to use? How can I measure my various marketing programs impact on revenue and profit? How can I best communicate marketing results with my executive team and board?

Social Influence Riveras, Jorge Spring 2022

The Social Influence course is designed to give students a comprehensive approach to understanding social influence marketing. Consumers can be influenced not only for buying products or services but to assume certain attitudes, particular behaviors, or decisions. Social media in its different forms employs multiple tools and strategies to impact the social norms, values, and beliefs. This new field of marketing encompasses different domains such as culture, consumer behavior, social media, social psychology and its subset of persuasion.

Dividing the course in 5 distinctive modules offers the possibility to first cover the

determinants of the system of values and norms that are shared among a group of people.

Then, the external and internal factors influencing consumers before focusing on the different techniques employed by different media outlets. Through lectures, discussions, case studies, and current news, students will learn and apply various theoretical frameworks to analyze the process of influencing an audience.

Citizen Science Chandler, Mark Spring 2022

Active civic participation in the creation of scientific knowledge is the underpinning of Citizen Science. This emerging discipline seeks to contribute to this endeavor through active and engaged research, education, and advocacy. This course will take both a theoretical and applied lens by exposing students to both the primary literature of the discipline and by asking students to participate in active citizen science projects in their local communities. Experiential components of the course will encourage students not only critically assess methods of data collection, but to also contribute to the scientific process.

ADBM177101

Applied Data Analysis and Interpretation Hay, Daniel C

Fall 2021

This course will introduce students to the basics of data analysis and interpretation. Students will critically engage with actual data from across disciplines in order to develop their own interpretations of the underlying meaning. We will explore how these skills can apply to making decisions in academic, professional, and community contexts. The skills developed and practiced here will assist the students in critically evaluating and drawing meaning from data as well as making well-informed decisions from that data.

Design Thinking

Ingram, Noel E;Lindgren, Timothy C Spring 2022

This course seeks to introduce Design Thinking as an action-oriented creative process for engaging deeply with the problems that matter to you. The course is designed to help you: develop habits of mind and tools for thinking to make creativity a reliable resource in your life; cultivate empathy for both others and yourself as the starting point for creative problem-solving; think flexibility by reframing problems and finding ways to move beyond your first good ideas; and adopt an experimental mindset that allows you to try test out your ideas and collaborate with others. The course will take a learn-by-doing approach combined with ample opportunity for reflection. The goal is to integrate Design Thinking with the rest of your liberal arts studies so you leave the course with a broad-based, personalized creative toolkit for tackling problems in your life and in the world.

Special Topics in Design Thinking Whitcavitch-Devoy, Julia

Spring 2022

Design thinking is a process that involves defining a problem, researching and/or observing behavior, coming up with various approaches and solutions, refining solutions, choosing a potential pathway, prototyping the idea, implementing it and evaluating. While critical thinking breaks down ideas, design thinking builds them up and benefits from having as many diverse solutions as possible. We will learn how a design thinking framework can be applied at any stage of the human development cycle and across many situations to help you build better experiences and outcomes. Design thinking incorporates a number of different techniques, tools, and skills we will cover in order to solve problems and produce something in a collaborative and empathetic spirit.

Digital Storytelling Hacunda, Michelle A Fall 2021

The evolution of the internet has created new ways to tell and deliver stories. Digital Storytelling explores the world of interactive narratives through social, mobile, and digital media. These channels include, but are not limited to podcasts, videos, social media posts, blogs, and infographics. This course is designed to provide students with new skills to produce compelling online stories that will resonate with target audiences and encourage them to take action for artistic, educational, and commercial purposes. To do this, we need to examine the changing role of storytellers in the communication field and how digital stories differ from traditional storytelling tactics, such as print, radio, and television. Students will critique digital stories throughout the semester and share feedback with other developing (peer) storytellers.

Corporate Communication Whalen, Martha A

Spring 2022

In a globally competitive and technologically advanced world, the ability to convey ideas and persuade diverse audiences is critical for professional success in any organization. This course offers exposure to numerous communication needs and strategies to address various corporate stakeholders. The course focuses on honing students written and oral presentation skills to target these corporate audiences - it presents suggested types of communication for each, based upon situations and circumstances. Review of readings, videos and case studies, in conjunction with weekly quizzes and/or individual written assignments, discussion board participation, group papers and culminating team presentations using collaborative media design provide multiple opportunities for students to demonstrate subject matter competency, receive feedback/critique and, consequently, enhance and hone communication skills to use inside of corporations and/or other organizations.

Introduction to Social Justice Carroll, J P

Spring 2022

What is social justice? This phrase has been used so frequently that we often lose sight of its meaning. In this course, students will investigate the many meanings of the term social justice and will be introduced to social justice issues in the US. Students will begin by locating themselves within systems of power, privilege, and oppression and then use their experiences and perspectives in discussion as we analyze and dissect these concepts. The course focuses on studying systems of oppression, methods of resistance, and visions of possibility.

Inside-Out: Perspectives on Crime, Corrections, and Justice DelSesto, Matthew J

Spring 2022

Most sessions will meet at the Suffolk County House of Correction. Due to the unique nature of this course, registration is by application only.. This Inside-Out course is an opportunity for a group of students from Boston College and the Suffolk County House of Correction to exchange ideas and perceptions about crime, corrections, and justice. It is a chance for all participants to gain a deeper understanding of the United States criminal justice system through the marriage of theoretical knowledge and practical experience achieved in meetings throughout a semester. Topics include causes and definitions of crime, criminal justice institutions, myths and realities of prison life, experiences of crime victims, theories of punishment and rehabilitation, and the relationship between crime and community. Most sessions will meet at the Suffolk County House of Correction.

Cybersecurity: Designing Offensive and Defensive Capabilities Maor, Etay

Summer 2021

This technical course examines both offensive and defensive tools, tactics, and procedures in cybersecurity. The course focuses on the technical aspects of cybersecurity, including online attacks and the development of counter measures, varying threats (phishing, malware, social engineering, mobile attacks, network exploitation), defensive technologies, tactics, and strategies, and policy issues pertaining to privacy v. national security. This course will analyze offensive capabilities used by cyber criminals, nation states, and other adversaries to attack private and government infrastructures to develop and design proper detection capabilities, mitigation strategies, and response plans to recover from such attacks. Through hands-on simulations, topics covered include cryptography (e.g., PKI, encryption techniques, digital signatures), open source intelligence (OSINT), IoT vulnerabilities, software and hardware based attacks, and recovery procedures, among others.

Ethical Issues in Cybersecurity Hurley, Deborah

Summer 2021

Course provides "real life" complex, ethical situations for students to evaluate, as both decision-maker and advisor, by addressing the various issues confronted by senior government and corporate professionals, nation states, and other parties of significance, involving the receipt and protection of critical and sensitive data. Specific topics include standard professional ethical frameworks of beneficence and non-maleficence; rights and

justice; and issues related to privacy, intellectual property, and corporate espionage and fraud, while contrasting same with freedom of information and intellectual creativity. The course compares and contrasts global governments' and cultures' differing approaches to ethics, and enhances, from a framework of dialogue, discernment of action, and deliberation, the ability of students to make reasoned and responsible business decisions in a global economy. The course also examines aspirational versus mandatory ethical standards (i.e., the "right thing to do" vs. what is "legal" or "compliant"), through additional frameworks of reference, including review, reflection, and refinement of decisions.

Organizational Effectiveness: Governance, Risk Management, and Compliancy DEPT  
Fall 2021

Organizational Effectiveness: Governance, Risk Management, and Compliancy. Technical proficiency is not enough to manage business risk. Every potential or identified threat cannot be mitigated, and organizations must choose where to focus their often limited resources to support business goals. This course focuses on Governance, Risk and Compliance (GRC) as an organizational capability that all organizations require in today's complex world. Topics include understanding the business context of key stakeholders, corporate culture, and organizational risks. Students will understand how GRC capabilities such as enterprise risk management (ERM), compliance management (SOX, ISO, PCI, NIST, etc.) and policy management should work together to build a cohesive strategy within the business context. Students will learn about GRC technology and GRC program management required to support and grow GRC capabilities.

Lastly, students will hear from guest lecturers about the roles and responsibilities of the Board of Directors, Risk/Audit Governance Committees, Chief Executives (Chief Information Security Officer (CISO), Chief Risk Officer (CRO), Chief Security Officer (CSO), etc.) and how they rely on GRC capabilities to support the business.

Cybersecurity: The Role of the CISO DEPT  
Fall 2021

Course provides guidance and the necessary skills to lead, design, and frame a business case for investment. Course outlines cost-benefit analysis and return-on-investment (ROI) by utilizing incident analysis, threat, and residual vulnerability analyses to determine and quantify the underlying business parameters. Course also addresses supporting techniques, including benchmarking and normalization, to enable data-based decision-making. Additionally, the course covers executive dashboard design, security metrics, key performance indicators (KPIs), graphics, illustrative techniques, business reach-out, and leadership engagement.

Cyber Crime  
D'Addio, David J;Queenin, Mackenzie A Fall 2021

Our increasingly digital world has led to a wealth of opportunities for cybercriminals and other bad actors. This class, taught by a current and former federal prosecutor, will provide an in-depth examination of cybercrime, including the federal statutes implicated in computer hacking and other computer-based crimes, such as network attacks, identity and data theft, and cyberstalking. Through illustrative case studies, students will learn how federal law enforcement investigates and prosecutes cybercrime, starting with the collection of digital evidence and proceeding through trial and sentencing. The course will highlight the investigative tools law enforcement uses as well as the current challenges law enforcement faces in prosecuting cybercriminals. We will examine legal, procedural, and policy issues surrounding the search and seizure of digital evidence. The class will incorporate guest speakers from government organizations and other stakeholders in the cybersecurity arena.

## Cybersecurity Courses: Spring 2022

ADCY60001

Cyber Ecosystem and Cybersecurity DEPT  
Spring 2022

Course provides an overview of Cyberspace, defines the scope of Cybersecurity, and addresses information classification and system compartmentalization. Course includes an appreciation of information confidentiality, integrity, and availability, and covers Cybersecurity architecture, strategy, services, hardware, software, and cloud services. The course also examines national security issues, critical infrastructure, and the potential for cybercrime and cyber terrorism, as well as the need for corporations to align their security with business needs and consider the threat from malicious employees, contractors, and/or vendors.

ADCY684001

Cybersecurity: Strategy and Implementation Wilkinson, David

Spring 2022

Companies must determine how much they should spend on cybersecurity and cyber risk management as well as how these resources should be allocated amongst mitigative functionalities and capabilities. The cybersecurity program must be optimized such that the investment in it provides an attractive return relative to the other investment opportunities the company has. Companies must be able to quantify the return on investment (ROI) for their cybersecurity program to complete the comparison. Calculating the ROI for a cybersecurity program requires that the benefits be calculated in monetary terms and compared to the investment (current expense, capital expenditure and interdepartmental support cost) of providing and supporting the program. If the program is already in place, as most are, then the program should be evaluated in these terms and potential new investments be evaluated on their contributory value to the program overall. Once the goals and resource requirements have been determined, the program must be implemented in the most effective and efficient manner, a process that involves a cybersecurity program architecture, organizational structure, business engagement model, outsourcing strategy and RACI chart (responsibility, accountability, consultancy and informative requirements). In addition, the program must be measured from a performance perspective that requires the identification and monitoring of key performance indicators (KPIs) and regularly reported on.

ADCY690001

Ethical Issues in Cybersecurity Hurley, Deborah

Spring 2022

Course provides "real life" complex, ethical situations for students to evaluate, as both decision-maker and advisor, by addressing the various issues confronted by senior government and corporate professionals, nation states, and other parties of significance, involving the receipt and protection of critical and sensitive data. Specific topics include standard professional ethical frameworks of beneficence and non-maleficence; rights and justice; and issues related to privacy, intellectual property, and corporate espionage and fraud, while contrasting same with freedom of information and intellectual creativity. The course compares and contrasts global governments' and cultures' differing approaches to ethics, and enhances, from a framework of dialogue, discernment of action, and deliberation, the ability of students to make reasoned and responsible business decisions in a global economy. The course also examines aspirational versus mandatory ethical standards (i.e., the "right thing to do" vs. what is "legal" or "compliant"), through additional frameworks of reference, including review, reflection, and refinement of decisions.

ADEC110101

Principles of Economics Lopez Rago, Ricardo A Fall 2021

This course analyzes prices, output, and income distribution through the interconnections between households and businesses in a Western economy. It studies economic agents, their behavior and interactions, and the outcome of these interactions taking into account government interventions. It analyzes national income and employment, economic fluctuations, monetary and fiscal policy, inflation, growth, interest rates and international aspects of macroeconomic policy such as the trade balance, exchange rates, and the purchasing power parity. The appropriate role of the monetary authority (Central Bank) and government intervention is also examined. Basic analytical tools are applied to current economic problems.

Financial Economics Kowalik, Michal K Fall 2021

This course teaches the practical application of finance theory to decisions made in industry.

We will learn how individuals and firms choose investment portfolio decisions under uncertainty with a particular focus on topics such as the capital asset pricing model, market imperfections, borrowing constraints, market efficiency and security valuation. Understanding how interest rates, exchange rates, and risk work will aid your understanding of multiple firm problems such as why does a firm chooses a specific investment or place of manufacturing. In addition, studying term structures and discounted cash flows are important to understanding the decision to invest over time.

Big Data Econometrics Sirohi, Ashuraj

Fall 2021

This course demonstrates how to merge economic data analysis and applied econometric tools with the most common machine learning techniques, as the rapid advancement of computational methods provides unprecedented opportunities for understanding "big data." This course will provide a hands-on experience with the terminology, technology, and methodologies behind machine learning with economic applications in marketing, finance, healthcare, and other areas. The main topics covered in this course include: advanced regression techniques, resampling methods, model selection and regularization, classification models (logistic regression, Naïve Bayes, discriminant analysis, k-nearest neighbors, neural networks), tree-based methods, support vector machines, and unsupervised learning (principal components analysis and clustering). Students will apply both supervised and unsupervised machine learning techniques to solve various economics-related problems with real-world data sets. No prior experience with R or Python is necessary.

Predictive Analytics/Forecasting Bradley, Robert J

Fall 2021

Econometrics. This course will expose students to the most popular forecasting techniques used in industry. We will cover time series data manipulation and feature creation, including working with transactional and hierarchical time series data as well as methods of evaluating forecasting models. We will cover basic univariate Smoothing and Decomposition methods of forecasting including Moving Averages, ARIMA, Holt-Winters, Unobserved Components Models and various filtering methods (Hodrick-Prescott, Kalman Filter). Time permitting, we will also extend our models to multivariate modeling options such as Vector Autoregressive Models (VAR). We will also discuss forecasting with hierarchical data and the unique challenges that hierarchical reconciliation creates. The course will use the R programming language though no prior experience with R is required.

Ethics, Economics, and Public Policy Mc Gowan, Richard

Fall 2021

The focus of the course is to ascertain how public policy makers decide to either regulate or legislate how an industry/firm will operate in society. We will examine the process from three different vantage points: ethics, economics, and policy. The first part of the course will be spent examining the role (or lack thereof!) that ethical thinking plays in motivating public policy makers to take action. The second part of the course examines how economic pressure comes into play as policy makers try to establish bounds on an industry or a firm. Finally, we explore the role that social pressures such as the media and various interest groups play in influencing how public policy makers react to various issues that confront an industry or a firm.

ADEC781099  
Empirical Behavioral Economics DEPT  
Fall 2021

Behavioral economics combines insights from economics and the cognitive sciences to study how human beings make decisions in various contexts. This course will introduce you to the key concepts in this field and give you the tools you need to start designing your own experiments for business or policy applications. Beginning from the standard rational model, we first study the decision-maker in isolation and then move on to the decision-maker in strategic settings. As we go, we will learn how to use simple theoretical models to describe and predict behavior, as well as analyze data from canonical published experiments using R. We will then see how firms and policy makers can design interventions help people make better decisions.

ADEC782001  
Economics of Innovation and Entrepreneurship Sile, Ayse E  
Fall 2021

Innovation and entrepreneurship have been the key drivers behind economic growth across developed economies and even more so in the U.S. However, innovations and entrepreneurship develop under a high degree of risk and uncertainty and, in most cases, rupture existing structural and traditional patterns and practices. Economic policies along with regulation set the incentives for innovation and entrepreneurship. Intellectual property rights and competition ensure that innovators receive a fertile and collaborative market structure to reach their potential.

Software Tools for Data Analysis Arlashin, Anatoly S  
Fall 2021

The course provides students with an overview of popular software packages used today for data exploration, analysis and visualization. The first part of the course will offer an overview of the non-programming tools Excel and Tableau. In Excel we will cover basic charts with the emphasis on their use with pivot tables. In Tableau students will be introduced to more advanced data exploration and visualization methods via a variety of advanced charts and dashboards. The second part of the course will cover exploratory data analysis in R. Here students will learn how to write their own code for importing, cleaning and exploring large datasets, as well as how to create, modify and export complex charts and summaries for visual, qualitative and quantitative analysis of the data. The third part of the course will provide an intro to using SQL databases, where students will learn how to create SQL queries to select, filter and manipulate the data.

ADEC351001  
Mathematics for Economists Gerraughty, Lorin E  
Spring 2022

This course introduces students to mathematical methods used in the analysis of economics and business problems. It focuses on multivariable calculus, optimization, and its economic applications. This includes optimization with equality constraints, utility maximization and consumer demand, and Kuhn-Tucker conditions. The course concludes with lectures on economic dynamics and the application of integral calculus to problems in investment and capital formation, present value analyses, and economic growth models. This course is an upper-level Economics elective, and it also fulfills Calculus II requirement for MS in Applied Economics program.

ADEC720001  
Applied Macroeconomic Theory Sjuib, Fahilino F  
Spring 2022

This course covers the theory and practice of macroeconomics. The course focuses on the underlying determinants of economic growth, unemployment, and inflation by developing and assessing a variety of simple models. The course will also teach the skills needed for interpreting and using macroeconomic data to formulate macroeconomic policy. A central feature of the course includes understanding the ability and limitations of policy for stabilizing the business cycle and promoting long-term growth.

ADEC738001  
Empirical Health Economics Bowser, Diana M  
Spring 2022  
At its root, the study of health economics is the study of market failure and of government failure. We will begin the course by studying the ways in which incentives facing players in the health care industry are different from those present in other industries. We will use economics to explore how firms in the health care sector should behave, given the sometimes perverse incentives they face. As the course progresses, our emphasis will shift: in small groups, students will complete and present a data-driven (or empirical) project investigating a question relevant to healthcare providers, pharmaceutical companies, insurance companies, and/or government regulators. Skills developed in this class will allow students to think critically about incentives present in health care settings, analyze various types of health care data, and present ways to improve the performance of different players in the health care industry.

ADEC743001  
Big Data Econometrics Sirohi, Ashuraj  
Spring 2022  
This course demonstrates how to merge economic data analysis and applied econometric tools with the most common machine learning techniques, as the rapid advancement of computational methods provides unprecedented opportunities for understanding "big data." This course will provide a hands-on experience with the terminology, technology, and methodologies behind machine learning with economic applications in marketing, finance, healthcare, and other areas. The main topics covered in this course include: advanced regression techniques, resampling methods, model selection and regularization, classification models (logistic regression, Naïve Bayes, discriminant analysis, k-nearest neighbors, neural networks), tree-based methods, support vector machines, and unsupervised learning (principal components analysis and clustering). Students will apply both supervised and unsupervised machine learning techniques to solve various economics-related problems with real-world data sets. No prior experience with R or Python is necessary.

ADEC746001  
Predictive Analytics/Forecasting Bradley, Robert J  
Spring 2022  
Econometrics. This course will expose students to the most popular forecasting techniques used in industry. We will cover time series data manipulation and feature creation, including working with transactional and hierarchical time series data as well as methods of evaluating forecasting models. We will cover basic univariate Smoothing and Decomposition methods of forecasting including Moving Averages, ARIMA, Holt-Winters, Unobserved Components Models and various filtering methods (Hodrick-Prescott, Kalman Filter). Time permitting, we will also extend our models to multivariate modeling options such as Vector Autoregressive Models (VAR). We will also discuss forecasting with hierarchical data and the unique challenges that hierarchical reconciliation creates. The course will use the R programming language though no prior experience with R is required.

ADEC750002  
Ethics, Economics, and Public Policy Erbil, Can  
Spring 2022  
The focus of the course is to ascertain how public policy makers decide to either regulate or legislate how an industry/firm will operate in society. We will examine the process from three different vantage points: ethics, economics, and policy. The first part of the course will be spent examining the role (or lack thereof!) that ethical thinking plays in motivating public policy makers to take action. The second part of the course examines how economic pressure comes into play as policy makers try to establish bounds on an industry or a firm. Finally, we explore the role that social pressures such as the media and various interest groups play in influencing how public policy makers react to various issues that confront an industry or a firm.

ADEC752001  
Transfer Pricing DEPT  
Spring 2022  
Transfer pricing involves the valuation of goods, services, and other assets exchanged between affiliated companies. Based on economic principles and governed by the U.S. tax code, international transfer pricing has continued to be a focal point for both multinational companies and tax authorities as a means to evaluate the allocation of income resulting from intercompany transactions conducted across borders. This course will include an introduction to basic tax and transfer pricing concepts, accounting and financial statement analysis, and an application of economic principles underlying transfer pricing analysis. Students will use real case studies and work in groups to consider the economics associated with conducting an international business, and apply transfer pricing methods to develop and support their analysis.

ADEC791001  
Software Tools for Data Analysis Arlashin, Anatoly S  
Spring 2022  
The course provides students with an overview of popular software packages used today for data exploration, analysis and visualization. The first part of the course will offer an overview of the non-programming tools Excel and Tableau. In Excel we will cover basic charts with the emphasis on their use with pivot tables. In Tableau students will be introduced to more advanced data exploration and visualization methods via a variety of advanced charts and dashboards. The second part of the course will cover exploratory data analysis in R. Here students will learn how to write their own code for importing, cleaning and exploring large datasets, as well as how to create, modify and export complex charts and summaries for visual, qualitative and quantitative analysis of the data. The third part of the course will provide an intro to using SQL databases, where students will learn how to create SQL queries to select, filter and manipulate the data.

Market Research and Analysis Sile, Ayse E  
Spring 2022  
Market research is the systematic gathering and interpretation of information and data using the statistical and analytical methods and techniques of the applied economics and statistics to gain insights or support decision making. This course provides you with the skills and tools needed to understand and evaluate market research. Market research and analysis involve developing research questions, collecting data, analyzing it and drawing inference, with a view to making better decisions. To this end, the course is organized into two basic parts: (1) Data collection and research design, and (2) Tools and applications of research and data analysis. The course will provide a framework for conducting research, knowledge to properly design research, techniques and tools to analyze data and infer insights, and practical information sources.

Studies in American Ethnic Literature Sarr, Akua

Spring 2022

Ethnic difference has a profound effect on personal and social understandings of what it means to be an American. Multicultural fiction navigates the complex terrain of race and ethnicity in America. Fiction depicts a variety of experiences and suggests that what constitutes an American identity is far from settled. A discussion of the literature invites students to share their own personal narratives--stories of race, ethnicity, class, gender, faith, and nationality--to further uncover what it means to be "ethnic" in America. Writers include: S. Alexie, E. Danticat, J. Diaz, J. Eugenides, and J. Lahiri.

The Art of Creative Writing Santiago, Elizabeth

Spring 2022

This course explores the creative in creative writing, prompting students to study and practice the subject in a broader artistic context. Students will have the opportunity to write in multiple genres (poetry, fiction, creative nonfiction, and playwriting) and concentrate in one genre, discussing one another's work. Students will learn further by examining not only published creative writing, but also artworks in photography, music, dance, sculpture, and painting. The course emphasizes the process and technique--the art--of creative writing, highlighting deep structures, principles, and methods that operate in many forms of creative expression.

Woods College Formative Seminar Meyer, Erica

Fall 2021

This one credit course aims to support new Woods College students as they transition to college life, while helping them make the most of their Boston College experience. The course will expose students to Boston College on and off campus resources to facilitate their academic success and further deepen their connection to BC. Topics will include time management skills, career planning, ideas and strategies for engaging in critical thinking, communication, study skills and library research, and identifying and utilizing on campus and community resources geared for student success. Students will be empowered to make the most of their BC experience by engaging in reflection and self-assessment as they create an academic plan and career plan. This course is designed to be taken with the opening course to the Woods College Core Curriculum, and students should register for the corresponding section of ADEX1150 The Examined Life at the same time they register for ADEX1151 Woods College Formative Seminar.

Transfer students with more than 30 credits are exempt from the Formative Seminar requirement.

ADEX415001

Purposeful Life Klein, Timothy R Fall 2021

The Purposeful Life course is the capstone experience to the Woods College Core Curriculum. The course builds upon the personal values and strengths students will concurrently explore in the Designing Your Career course. Students will grapple with and dig deeper into the following big-picture questions: What is my purpose and how do I pursue it? What problems of purpose do I care most about? How can I make a meaningful contribution that also brings me satisfaction? Research posits that having an awareness of how to approach work and the meaning that derives from it is crucial in achieving the best possible outcomes for both individuals and organizations. Course perspectives will combine psychology, adult learning, and organizational leadership topics to help students frame their purposeful path. Students will engage in a semester-long problem-based learning project that explores a local ethical issue they would like to understand better. This project will refine students reflection skills, incorporate their strengths, and enhance practical knowledge needed for future professional aspirations and lifelong learning. This learning experience will help students combine the competencies they have acquired in their Woods College coursework and co-curriculum with practical application in successful project implementation. This course is restricted to Woods College students with more than 100 credits. Students must register for the corequisite course, ADEX4151 Designing your Career.

Designing your Career Cipriano, Salvatore Fall 2021

Guided by Ignatian principles of self-knowledge and discernment, students will learn how to connect the value of their liberal arts education to their futures. Through self-assessment exercises, lively discussion, and thought-provoking activities, students will identify and reflect upon their values, interests, and skills and then connect them to career options. In addition, students will explore the skills most desired by employers and learn how to develop those competencies during their BC careers. We will also discuss ways to research various career paths and learn targeted search strategies to achieve meaningful profession goals. Using a design thinking framework, students will approach the career exploration process with curiosity and creativity, learn how to identify their unique career interests, take ownership of their career development, and address challenges that often occur in the process. The skills developed will serve students throughout their life by teaching them to focus on possibilities and exploring various career pathways. Students who are considering questions like "what do I want to major in?", "what kind of internship do I want?", or "what sort of career should I pursue?" will all benefit from this course.

The Examined Life is an interdisciplinary course that addresses perennial questions by linking them to contemporary issues of significant ethical import that have bearing on daily living and social life. It is meant to bring multiple lenses to bear on topics related to our shared condition and deepen our understanding of the complex realities of human existence. Through thoughtful engagement with these topics and in community with others, students will attend to and reflect upon their personal experiences with the end goal to form ideas and opinions on how we are called to respond to the challenges confronting our world today. This course is restricted to Woods College BA students.

Woods College Formative Seminar Meyer, Erica

Spring 2022

This one credit course aims to support new Woods College students as they transition to college life, while helping them make the most of their Boston College experience. The course will expose students to Boston College on and off campus resources to facilitate their academic success and further deepen their connection to BC. Topics will include time management skills, career planning, ideas and strategies for engaging in critical thinking,

communication, study skills and library research, and identifying and utilizing on campus and community resources geared for student success. Students will be empowered to make the most of their BC experience by engaging in reflection and self-assessment as they create an academic plan and career plan. This course is designed to be taken with the opening course to the Woods College Core Curriculum, and students should register for the corresponding section of ADEX1150 The Examined Life at the same time they register for ADEX1151 Woods College Formative Seminar.

Transfer students with more than 30 credits are exempt from the Formative Seminar requirement.

#### ADEX415001

Purposeful Life Klein, Timothy R Spring 2022

The Purposeful Life course is the capstone experience to the Woods College Core Curriculum. The course builds upon the personal values and strengths students will concurrently explore in the Designing Your Career course. Students will grapple with and dig deeper into the following big-picture questions: What is my purpose and how do I pursue it? What problems of purpose do I care most about? How can I make a meaningful contribution that also brings me satisfaction? Research posits that having an awareness of how to approach work and the meaning that derives from it is crucial in achieving the best possible outcomes for both individuals and organizations. Course perspectives will combine psychology, adult learning, and organizational leadership topics to help students frame their purposeful path. Students will engage in a semester-long problem-based learning project that explores a local ethical issue they would like to understand better. This project will refine students reflection skills, incorporate their strengths, and enhance practical knowledge needed for future professional aspirations and lifelong learning. This learning experience will help students combine the competencies they have acquired in their Woods College coursework and co-curriculum with practical application in successful project implementation. This course is restricted to Woods College students with more than 100 credits. Students must register for the corequisite course, ADEX4151 Designing your Career.

#### ADEX415101

Designing your Career Cipriano, Salvatore Spring 2022

Guided by Ignatian principles of self-knowledge and discernment, students will learn how to connect the value of their liberal arts education to their futures. Through self-assessment exercises, lively discussion, and thought-provoking activities, students will identify and reflect upon their values, interests, and skills and then connect them to career options. In addition, students will explore the skills most desired by employers and learn how to develop those competencies during their BC careers. We will also discuss ways to research various career paths and learn targeted search strategies to achieve meaningful profession goals. Using a design thinking framework, students will approach the career exploration process with curiosity and creativity, learn how to identify their unique career interests, take ownership of their career development, and address challenges that often occur in the process. The skills developed will serve students throughout their life by teaching them to focus on possibilities and exploring various career pathways. Students who are considering questions like "what do I want to major in?", "what kind of internship do I want?", or "what sort of career should I pursue?" will all benefit from this course.

Film, Literature, and Law

Michalczyk, John;Michalczyk, Susan A Spring 2022

Interest in the rapport between film and literature as it relates to the law intrigues us as much today as ever. Literature captures the drama of a legal trial or an investigation into a brutal, racial murder. Film then takes this rich material and shapes it into a compelling form with dynamic visuals and other narrative techniques. The course explores the power of story-telling and the impact of film to embody and inhabit law and its relationship to ideas about inferiority, liberty, citizenry, race, justice, crime, punishment, and social order. Film adaptations from short stories, plays, and novellas will comprise the body of the curriculum.

Modern History I Menke, Martin R Fall 2021

Survey of the great ideas of the western tradition from the Renaissance to the French Revolution. The focus is on the rise of the modern state in Germany (Holy Roman Empire, Treaty of Westphalia), England (Glorious Revolution and the roots of constitutional rule), and France (Divine Right Absolutism), the relationship of religion and politics (which suffers more, religion or politics?), and early modern European culture (Renaissance, Baroque, Rococo, Classicism) as well as Europe's interactions with Asia, Africa, and the Americas. Each class consists of a slide lecture and primary source-based discussion.

History of New England Hannan, Christopher W Fall 2021

For nearly four centuries, this region has managed to maintain an identity broadly American and distinctly New England. Course examines the region's social, cultural, and political history, with particular attention to the Boston area in periods of momentous change. Topics explored include witchcraft in Salem; the Minutemen and the American Revolution; nineteenth-century immigration from Ireland; Boston's Civil War; urban and suburban growth and the social crises of the 1960s and 1970s. Analysis of local historical sites serves to deepen understanding of New Englanders' enduring attachment to the past.

Art, Politics, and Propaganda: Birth of the Nation State 1300-1700 Paul, Michael G

Fall 2021

This course examines the crucial role of Art and Politics in the creation of the Nation State during the Renaissance. We will look specifically at the Tudor and Stuart era in England and Scotland in order to examine the intersection of Art and artists and the politics of the time. In placing Art in its historical context, we will investigate how the Tudor and Stuart dynasties used Art (paintings, poetry, plays, and literature) as a way of engendering and solidifying the concept of the Nation State. We hope to discover the role played by political factors, and various art forms, in confirming the legitimacy of the Nation State in England between 1300-1700.

Resistance: Call to Action Menke, Martin R

Spring 2022

This course seeks to better understand the climate and complexities that contributed to different forms of German resistance to the National Socialist regime. The course will consider motivations stemming from Jewish, Christian, aristocratic, political convictions, which led to different visions of a post-war Germany. The interaction of the different motivations as well as the threshold moment, that led individuals to action will be examined. The course will ask students to reflect on their own worldview and to ponder the question what sort of circumstances would drive them to resist.

Kingdoms, Caliphates, and Colonies: Western Africa from 1400 to 1900 Prochnow, Kyle

Spring 2022

This course explores the history of Western Africa a culturally, politically, and environmentally diverse region from 1300 to 1900. Its key topics include the rise and fall of Western African states, cross-cultural exchange between Africans and Europeans, religion and Islamic revolutions, the trans-Atlantic and trans-Saharan slave trades (and their profound impact on African societies), and the steady encroachment of European colonialists upon Western Africa. Throughout the semester, we will explore African history through diverse mediums including written texts, oral traditions, art, architecture, music, novels, and documentaries. Along the way, we will sharpen our historical skills by practicing primary source analysis, critical reading, and essay writing.

Women and Gender in World History Miller, Marlyn L

Spring 2022

This course covers the major events in the history of the modern world (roughly 1450-1990) through the lens of gender in order to discover the way gender shapes political, intellectual, religious, economic, and social developments; how it intersects with race, class, sexuality, and relations of power; how it is differently understood and employed in various cultural and historical contexts; and how contact between peoples and their cultural and political systems changes understanding of gender roles. It will look at topics such as the development of the family, female rulership, religion and gender, gender in colonial and imperial contexts, gender and slavery, masculinity in nationalism and war, and changing ideas of gender in the twentieth century. Students will be asked to work with primary source material to craft historical arguments.

## Information Technology Courses: Fall 2021

ADIT134001

Introduction to Web Development Walker, James A

Fall 2021

This course takes a tour of the essential technologies that have shaped today's internet and provides an introduction to web programming. Along the way, students acquire the fundamental knowledge and skills needed to make use of HTML5, Cascading Style Sheets (CSS), and JavaScript. The course's primary focus is on web site development. Students gain a clearer understanding of just what exactly the internet is through the study of its history and underlying protocols. No prior web-development experience and no prerequisites are required. No auditors.

ADIT135001

JavaScript Oliva, Ramiro Fall 2021

This course teaches students the fundamental concepts of programming (coding). First we will define what a programming language is and then we will learn its grammar and syntax. We will learn about variables, conditionals, and iteration. We will also learn about arrays, functions, and objects. We will use the industry-standard JavaScript programming language to put into practice all of these concepts. Designed specifically for individuals who have little-to-no programming experience, this course teaches participants in a project-based environment how to code JavaScript, the language of the web. During this course students will: (1) Learn how to think of problems logically and computationally, (2) Use programming tools to express themselves creatively as they learn the fundamentals of coding, and (3) Create real-world applications. No auditors.

ADIT199001 C++

DEPT

Spring 2022

An introduction to programming with C++. This course is meant for students with little or no programming experience. We will start with the basics of programming using the C++ programming language. C++ is the cornerstone programming language used to develop many of the fundamental applications we use on a daily basis. For example operating systems, web browsers and other programming languages such as Java, Python, and SQL are built with C++. We will use the low level nature of the C++ programming language to learn about the fundamental aspects of how a computer works. In this course we will develop basic command line applications, explore how data is stored in memory and how we may use logic to manipulate the data to produce different results.

Data Visualization Luo, Jiebei;Xu, Yaqing Spring 2022

In today's information age with ever pressing demand for data skills, data visualization becomes a critical component of data science. By utilizing visual presentations, data visualization achieves an effective way of communicating insights from data, identifying hidden data patterns and trends, and telling the full story behind data. In this course, students are introduced to the foundations of data visualization along with various data visualization tools. We will introduce the key design principles, how to present data using a number of common data visualization tools (such as Excel and Tableau software). This course will provide students from all backgrounds the opportunity to learn data skills and have hands-on experience working with various datasets, creating visualizations and telling data stories. Students will develop data visualization skills that can be applied to their fields of study and future career. Topics covered include best practices in use of color, visualization principles, static and interactive visualizations, visualization types, and others.

## Law Courses: Fall 2021

ADLA240001

Business Law Schott, Joseph P Fall 2021

This course will introduce students to the legal framework applicable to business. It will begin with an overview of the U.S. legal system, including the process by which government and courts establish laws and resolve disputes. The bulk of the course will then review those areas of the law that business leaders regularly encounter, including business formation and governance, finance, securities, employment, contract, real estate, intellectual property and torts. The course will give particular focus to the practical implications for business leaders, including how leaders identify and manage risks to the business when the law is unsettled or ambiguous, or otherwise raises ethical considerations. The course will regularly draw on the experiences of current business leaders and their lawyers and advisors.

ADLA505301

Employment and Labor Law Tierney, Michael P

Spring 2022

This introduction to the rapidly evolving law of the workplace focuses on how the law works in practice today providing important information for employees and managers. Looks at traditional common law such as "Employment At Will" and areas of employment law topics including hiring, promotion and termination, workplace security, privacy and safety, compensation and benefits, immigration, and labor-management relations. Course also covers the various laws prohibiting discrimination in the workplace, with a focus on federal statutes and regulations as well as the emerging legal issues around Social Media in the workplace.

ADMK220101

Digital Marketing Strategy Fortney, Erin M

Fall 2021

This course is intended to introduce students to the world of digital marketing and the many different facets that work together in shaping an online digital branding presence to meet strategic business goals. A digital marketing strategic plan is one that helps achieve specific digital goals through carefully selected online marketing channels such as paid, earned, and owned media. Areas of focus include the origins of the digital marketing channel, how it has transformed the way customers interact with brands and products, as well as how marketers leverage different digital channels to optimize sales, awareness, and engagement goals.

Students will gain a deeper understanding of how marketing teams function based on different organizational structures and will develop their own strategic plan based on a real-world company or organization.

Applied Statistics Lawson, Jordan Spring 2022

This course is designed to provide students with a foundation in statistical analysis and computing. This class focuses on the concepts, language, and application of statistics to social sciences. In particular, students will learn to produce and interpret descriptive statistics and graphical and numerical representation of information; additionally, students will learn about measures of location, dispersion, position, and dependence, and how to conduct exploratory data analysis. Additional topics will include elementary probability theory (to aid with interpretation and understanding), point and interval estimation, hypothesis significance testing, and linear regression. To help facilitate understanding of the data analysis process, students will routinely apply what they have learned to real data using SPSS. Students will become familiar with SPSS through class lectures, in-class lab exercises, and take-home assignments. SPSS is available to BC students through BC Apps. Real-world data sets will be provided to students for use in coursework.

## Philosophy Courses: Fall 2021

ADPL150001

Ethics

Clemente, Matthew J Fall 2021

This course will look at ethics from a social and Christian perspective. This course provides an introduction to Christian ethical modes of reflection on contemporary issues that impact class, race, and gender groups. These include issues of poverty/economic justice, First World/Two-Thirds World relations, racism, and sexism. U.S. citizens often identify themselves as religious persons, but less often do the hard work of connecting religious ethical traditions with social policies that impact relations among social groups. We may come up with different conclusions, but the unifying element in this course is our engagement in the difficult process of ethical discernment that is informed by both social theory (i.e., analysis of class, race, and gender systems) and the Christian tradition (Catholic Social Teaching with its foundation in scripture, Thomistic ethics with its assumption that the world is defined and governed by objective moral laws, and church teaching which emanates from application of tradition and scripture to current ethical situations.) An integral component of this class is to be engaged with the world, i.e., pay attention to issues in the world that could benefit from the application of the material being discussed in class.

ADPL201101

True Detectives: Investigating the Crimes and Mysteries of Existence Clemente, Matthew J Fall 2021

For modern readers, detectives stand as the image of the ideal thinker. In literature, cinema, and on TV, we see the hold detectives have on our cultural imagination. They are viewed as purveyors of wisdom, personifications of reason, logical thinkers defined by their commitment to the facts and their unflinching pursuit of truth at all cost - especially hard, uncomfortable truths, the kind most of us prefer not to see. From the time of Aristotle, philosophers have approached the world as if it was the scene of a crime, a mystery to be solved, a riddle to be deciphered. Philosophers, it might be said, act as investigators whose job it is to uncover hidden truths. Like detectives, they are late on the scene, arriving after the crime has been committed. Like detectives, they rely upon the facts of existence to question and reason their way to probable answers, to what happened here and why. In this course, students will learn the art of philosophical investigation by learning to think like a detective. Questions of epistemology - what can be known - and metaphysics - why things are the way they are - will be explored in relation to mystery novels, detective shows, and works of philosophical literature.

ADPL304001

Social and Political Philosophy Fitzpatrick, Melissa A

Spring 2022

Philosophy involves examining life as we know it, and human life necessarily involves cohabitating, cooperating, and collaborating with others. Social and political philosophy examines not only how we should live together, but why we live together in the various ways that we do. A central premise within social and political philosophy is that the causes and solutions to many of humanity's most significant challenges derive from our social and political institutions: our form of government, the nature and limits of sovereignty, how we conceive of citizenship, what forms of rights our government protects (or overlooks), and so on. Some of the questions we will investigate together include: What is the nature of authority? Rights? Equality? And justice? What is freedom? And what does it mean to live freely (and flourish) in a world with diverse human and non-human others? This course examines the principles that establish and justify societies and determine the rights and responsibilities of a society to its own members, and of a society to other societies--and ultimately, to the global community. Although this course will be historical in its orientation, it will also analyze these themes through the lens of contemporary thought and current events. The hope is that by understanding the sources and motivations of our political institutions, we will be in a better position to assess them critically and become more reflective, responsible, and engaged citizens.

Industrial and Organizational Psychology Payne, Adam M

Spring 2022

Industrial and Organizational (I-O) Psychology is a scientific discipline that studies human behavior in the workplace. I-O psychologists help institutions with hiring, managing, developing, supporting employees, while working to align employee efforts with business needs. Some intended outcomes of I-O psychology include better talent to achieve the strategic goals of the organization, reduced turnover, increased productivity, and improved employee engagement.

The tools and methods used in I-O psychology are highly transferable, as they are based upon the application of scientific processes toward studying people at work which incorporate aspects of statistics, research techniques, and other evidence-based approaches.

ADPS222001

Forensic Psychology Barros, Joanne T Spring 2022

This course focuses on key theories in the field of psychology. Forensic Psychology goes beyond traditional interpretations and interventions, to examine the complexity of factors present in any case. Environmental, biological, psychological, emotional, and social factors, as well as acute stressors, are examined to demonstrate these dynamics. Reviewed theories are integrated to provide a critical analysis of forensic cases, utilizing a comprehensive evaluation and threading in all key information. Moving beyond the acute care system and community guidelines for assessing clinical needs, this course promotes an in-depth review of all factors, inclusive of historical data, risk factors, mitigating factors, forensic assessment of clinical needs, treatment planning, as well as the use of multi-disciplinary and integrated approaches (for example threading in the behavioral health system with the criminal justice system). This course also examines how forensic psychology applies in court systems, state hospitals, correctional facilities, law enforcement work, and overall community care. Given the increasing complexity and acuity in clinical presentations, co-occurrence disorders, and contact with the criminal justice system as a result of increased risk factors, the field of forensic psychology is critical to the well-being of the individual, the community, and the system as a whole.

Personality Theories Goodman, David M Spring 2022

New developments and increasingly sophisticated technology inform and expand our understanding of the brain and human nature, personality, and individual differences. The course takes a fresh look at the similarities and differences that key figures, and key research have attributed to human nature. How do genetic inheritance, environment, and social factors interact to affect personality? Is personality stable or changing? How can modern psychology reconcile individual needs with those of the community? Readings consider theories of key figures and such factors as temperament, resilience, parenting, education, psychotherapy, gender, and attachment.

Cultural Anthropology Bafford, Douglas A Fall 2021

This course explores what it means to be human from a comparative and cross-cultural perspective. With an introduction to the methods and central insights of anthropological inquiry, students consider the role of social structures, historical transformations, and symbolic meaning in shaping human life around the globe. Ethnographic case studies, including written accounts, films, and observational exercises undertaken during the semester, reveal the diverse ways that culture impacts our most enduring social institutions: kinship, economics, politics, race and ethnicity, religion, science, and medicine. The course equips students with the analytical skills to work alongside people from unfamiliar cultures with empathy and mutual understanding while developing a critical self-reflection on their own cultural backgrounds.

Race, Surveillance, and Society King, Candace

Spring 2022

Under the institution of slavery, Black bodies were heavily surveilled through severe monitoring, disciplining, and punishing practices. Although slavery has been abolished, these technologies for surveillance continue to resonate in the contemporary era. From data collection to ancestry tests or artificial intelligence, this course focuses on how society defines, automates, and monitors racial difference. Students will explore the concept of surveillance and its impact on conceptions of race and society from enslavement to the present day. The sociological framing of surveillance equips students with a language to not only unpack, but address contemporary issues within societal institutions such as prisons, health centers, and mass media.

## Sports Administration Courses: Summer 2021

ADSA900101  
Sports Administration Internship Morris, Jade M  
Summer 2021

This course is designed to immerse students within a work setting at an institution, private high school, or professional sport organization to enhance their experience and put their classroom knowledge to work in a practical setting. This experience should be fitted to the student's career development and interests. The student works with course instructors to find an opportunity to observe and work in an athletic administrative capacity under the guidance of a professional athletic administrator.

Sports Leadership and Ignatian-based Ethics Utschneider, Cathy  
Fall 2021

Sports leadership based on Ignatian ethics helps individuals, teams, and organizations realize high achievement with integrity and compassion. In this course coaches, managers in sport, and student athletes study Ignatian values and how they inform leadership tasks: determining mission, values, and goals; communicating for positive impact; developing and motivating teams; identifying individual and organizational strengths; and in times of constant change, adapting to it and managing organizations through it. Assignments will include a leadership log and a paper and presentation about leaders whom the students identify as role models. Students will also initiate a leadership goal that they will present to the class and then write a paper applying concepts from the course. Students will also practice a range of leadership exercises and discuss current case studies.

The Athletic Director Lynch, Michael P  
Fall 2021  
The role of the collegiate athletic director has evolved greatly over the years, from "former  
football coach turned administrator" to seasoned business executive. The Athletic Director  
today, particularly at the highest levels of Division I, holds roles and responsibilities similar to a  
chief executive officer in a corporation and must have the acumen to match in order to be  
successful. This course will examine the myriad responsibilities that today's AD's hold in  
running the athletic enterprise on a college campus. The course will also delineate and define  
the most important leadership aspects of the position and those that are most determinate of  
successful careers in the field. The course will review the evolution of the position and  
describe the differences that are inherent in the position, based on university NCAA  
classification.

ADSA802001  
Athletic Facilities and Operations McKiernan, John R;Raube Keller, Patricia Fall 2021  
As the sport industry continues to grow, so do the number of sport-related event management  
jobs. Event management is one of the most sought-after skills in the sports and entertainment  
industry. With the construction of massive new facilities, there is a growing need for skilled  
individuals who can fill arenas, stadiums, and coliseums with programming on a yearly basis.  
Today's sport event planner must be able to manage his personal life along with having strong  
conceptual, interpersonal, technical, and time management skills. The event planner must also  
be able to negotiate with sport event venues and recognize the importance of sport tourism  
and the need for collaborating with a wide variety of network organizations. This course  
provides you with necessary foundations of event management, including conceptualization,  
staffing, budgeting, financing, promoting, securing, and managing. You will have the  
opportunity to understand the competencies necessary for managing and operating sport  
events through theory and application.

Sports Security and Event Management Hartnett, Michael B  
Fall 2021  
To provide students with an understanding of the core security principles required to plan and  
provide a safe and secure environment for fans, event staff, and players. Students will learn  
the skills necessary to identify a wide variety of risks facing sporting events and sports venues.  
This includes how to mitigate those risks, develop emergency action plans and critical incident  
response protocols, and how to respond to a crisis in conjunction with state, local, and federal  
partners. Students will also learn how to develop and implement security plans for domestic  
and international sporting events, understand security principles involved in the daily  
operation of sports venues, and how to train staff and conduct training exercises for security  
colleagues.

ADSA800501  
Health and Wellness in Athletics and Sports Administration DEPT  
Spring 2022

This course, with a multidisciplinary perspective that involves athletes, health care providers, and administrators, will provide a basic overview of key health and wellness aspects within sport and the administration and delivery of that health care. It will explore the regulatory and medical legal landscape affecting sports health and wellness, beginning with the history and development of sports medicine at all levels and the evolving models currently being established. In addition to the athletes it will address the personal health and wellness of those nonathletes such as administrators and health care providers involved with athletic programs.

Included in the course will be the administration and roles of members of the healthcare team. An overview of the history of sports medicine and the interaction of various health care systems in the U.S. with athletic entities will be discussed. Health and wellness priorities within the construct of an athletic department, team or program will be introduced on such topics as concussion, catastrophic injury, emergency action plans, supplement and drug usage, drug appeals & therapeutic use exemptions, mental health best practices, sexual violence, mind-body interactions in sports & injuries, strength & conditioning and sports performance, impact of select sports in society, families and the health & wellness of athletes, sleep, rest & recovery, health services in large sporting venues & national events and insurance and disability.

ADSA800801  
Sport Psychology Sturm, Jennifer E Spring 2022

This graduate course explores the science and practice of sport psychology. The purpose is to equip students interested in pursuing careers in sport administration with a realistic and informed view of the psychological aspects of sport and performance. The course will survey topics including individual factors such as personality, motivation, anxiety, burnout, injury, and addictive and unhealthy behaviors, as well as social and environmental factors such as group cohesion and team dynamics, competition and cooperation, and diversity and inclusion. The course will challenge students to connect principles of sport psychology to sport leadership as well as consider the value of sport psychology service provision in sport organizations.

ADSA801501  
Sports Analytics Shea, Steve  
Spring 2022

Sports analytics is a rapidly evolving industry with careers in professional and amateur organizations, in the media, for supporting tech companies, and elsewhere. It's a modern application of so many academic disciplines, such as mathematics, computer science, physics, economics, marketing, and psychology; however, success in this course or in the industry doesn't require expertise in any of the above. This is a course on constructing, interpreting and communicating quantitative arguments in sports. For example, it might be quantifying injury risk for a pitcher, analyzing that risk relative to age and injury history, and then arguing to a general manager why they should or shouldn't sign player X to contract Y. Or, it might be investigating if there is a lack of competitive balance in women's college basketball, and if so, the reasons why. Students will develop statistical and writing literacy, learn basic computational skills and practice delivering oral arguments. Most importantly, students will think critically about real-world problems, where there isn't one correct solution and where there are many valid approaches.

While students will do all of this in sports--a familiar medium where most have strong opinions and where amazing data is publicly available--these skills and competencies have universal application.

ADSB190401

Planetary Health

Chandler, Mark;Studer, Marie M Fall 2021

Planetary health is a rapidly emerging field that provides a unifying framework for many of the most urgent challenges of the coming decades. It focuses on understanding and quantifying the human health impacts of global environmental disruptions, including climate change, food- systems collapse, rapid biodiversity loss, and widespread pollution, among other urgent threats to human lives and livelihoods. Planetary health also advances the development of solutions that will allow humanity and nature to thrive into the future. Students will be introduced to the field of planetary health through analyzing case studies about climate change, biodiversity loss, nutrition, deforestation, and their resultant human disease burden. Course themes include an awareness of the knowledge base that connects environmental change with human health, governance, urgency and scale, equity and ethics, bias, and trade-offs will be discussed as the class examines solutions and policy needs at the core of sound planetary health.

Sustainable Design As A Way Of Thinking Foley, David M

Fall 2021

Do you ever dwell, work, eat, sleep, or recreate indoors? Do the location, layout, light, acoustics, air quality, or thermal comfort of buildings affect you? Do you ever rely on wires, pipes, or ductwork to provide you with services you need? Do you use roads, bridges, rail lines, airports, water supplies, sewage treatment systems, or utilities? Then you have a stake in the built environment. Do you agree that providing for our present needs should not diminish the chance for future generations to provide for their needs? Then you have a stake in sustainability. The built environment and environmental sustainability are connected, through energy and water use, alteration of habitats, manufacture and disposal of materials, indoor environmental quality and human well being, transportation of people and goods, and in other important ways. In this course we'll examine and think hard about those connections. By the end of the course, we'll all develop a broader overview and better understanding of how to think about, assess, measure, advocate for, inhabit, design, and build a more sustainable built environment.

Introduction to Christian Theology I: Christian Life and Spirituality Snyder, Joshua R

Fall 2021

This course considers significant questions in conversation with some of the most important writings in the tradition of Western Christian thought. Its purpose is to encourage students by drawing systematically on primary sources of historical significance to uncover the roots of the Christian faith and life and to delineate the values for which this tradition of faith stands.

ADTH200301

New Testament: Women Encounter Jesus Gribaudo, Jeanmarie

Spring 2022

This course will be an analytical, historical, and literary study of women in the New Testament.

Beginning with Mary, this course will explore the various encounters and relationships that Jesus develops with women in the New Testament. Through careful critical reading and exegesis students will be able to articulate the significant role that women such as Anna, Elizabeth, the woman at the well, the woman caught in adultery, Phoebe, Tabitha, among others played in the life and ministry of Jesus. Attention will be given to the religious, cultural, and political background of the New Testament documents, their literary form, composition and religious significance, as well as the inspiration this collection of documents has provided for writers and artists of many ages. Both contemporary and classical pieces of artwork and music will be examined to assist students in understanding the lasting impact of the writings of the New Testament particularly those that relay the role of women in the ministry of Jesus have had on humanity.

ADTH216001

Challenge of Justice Snyder, Joshua R Spring 2022

The pursuit of justice is a dominant concern of our age. But it appears that there are nearly as many understandings of justice as there are persons and communities to claim them. The goal of this course is to consider the principal understandings of justice and peace that have developed in the Western philosophical and theological traditions and assess how these alternative understandings affect personal decisions and social policy choices. We will pay attention to how these theories relate to concrete, practical, political and social issues. Special attention will be paid to the contribution of the Catholic intellectual tradition in formulating an approach to justice and peace. This course highlights what is at stake when we choose one way of justice rather than another. Ultimately, we need to think about how we ought to treat other people and what kind of society we want to build. Over the course of the semester, we will examine issues of justice related to human rights, hunger and poverty, racism, sexuality, ecology, and peace-building.

# Policies and Procedures

## University Policies and Procedures

### Accreditation of the University

Boston College is accredited by the [New England Commission of Higher Education \(NECHE\)](#). Prior to 2018, NECHE operated as the Commission on Institutions of Higher Education, a division of the New England Association of Schools and Colleges (NEASC). NEASC restructured in 2018 to align with the U.S. Department of Education's requirement that NEASC's higher education-related commission operate as an independent entity. Boston College has been accredited by NEASC, and now NECHE, since 1935.

NECHE is recognized by the U.S. Secretary of Education as a reliable authority on the quality of education and adheres to the standards of the Council for Higher Education Accreditation. As part of NECHE guidelines, member institutions undergo a peer review process every ten years which involves the preparation of a comprehensive self-study. Boston College's most recent full review for accreditation occurred in March 2017.

Inquiries regarding Boston College's accreditation status should be directed to the Office of the Provost and Dean of Faculties, Boston College, 270 Hammond Street, Chestnut Hill, MA 02467 (617-552-3260); individuals may also contact the New England Commission of Higher Education, 3 Burlington Woods Drive, Suite 100, Burlington, MA 01803 (781-425-7785). For a paper copy of the information presented in this catalog, please contact the Boston College Office of Institutional Research and Planning at 617-552-3111 or [oir@bc.edu](mailto:oir@bc.edu). The mailing address is Boston College, Institutional Research and Planning, St. Clement's Hall, 140 Commonwealth Avenue, Chestnut Hill, MA 02467.

In addition to NECHE, a variety of schools and programs at Boston College are affiliated with discipline-based accrediting agencies such as: Connell School of Nursing: [American Association of Colleges of Nursing, Commission on Collegiate Nursing Education](#); Carroll School of Management: [Association to Advance Collegiate Schools of Business](#); Law School: [American Bar Association](#); Boston College School of Social Work: [Council on Social Work Education](#); School of Theology and Ministry: [The Association of Theological Schools](#); Morrissey College of Arts and Sciences, Chemistry Department: [American Chemical Society](#); Lynch School of Education and Human Development, Teacher Education, Special Education, and Curriculum and Instruction programs: [Council for the Accreditation of Educator Preparation](#); Counseling Psychology Programs: [American Psychological Association, Masters in Psychology and Counseling Accreditation Council](#). For distance/online-related education, Boston College is an approved member of the National Council for State Authorization Reciprocity Agreements (NC-SARA).

### Annual Notification of Rights

The University Registrar and the Vice President for Student Affairs are responsible for notifying students annually of their rights under FERPA. The annual notice is to appear in the *Boston College Bulletin* and in the *Boston College Student Guide*.

All non-directory information is considered confidential and will not be released to outside inquiries without the express written consent of the student.

### Student Rights Under FERPA

Boston College maintains a large number of records regarding its students in the administration of its educational programs, as well as its housing, athletics, and extracurricular programs. The University also maintains employment and financial records for its own use and to comply with state and federal regulations. Boston College is committed to protecting the privacy interests of its students and to maintaining the confidentiality of student records in accordance with the Family Educational Rights and Privacy Act of 1974 (FERPA).

These rights are as follows:

- The right to inspect and review the student's education record within 45 days of the day the University receives a request for access.

Any student who wishes to inspect and review information contained in an education record maintained by any office of the University may, with proper identification, request access to the record from the office responsible for maintaining that record.

Unless the circumstances require the existence of a formal request, an oral request may be honored.

Whenever an office responsible for maintaining education records is unable to respond, the student may submit to the Office of Student Services, dean, academic department head, or other appropriate official a written request that identifies the record he or she wishes to inspect. The University official shall provide access within 45 days after the University receives the request, and shall notify the student of the time and place the record may be inspected. If the record is not maintained by the University official to whom the request is submitted, that official is to advise the student of the correct official to whom the request is to be addressed.

- The right to request the amendment of the student's education record if the student believes that information contained in his or her record is inaccurate, misleading or in violation of his or her rights of privacy.

Any student who believes that information contained in his or her education record is inaccurate, misleading, or in violation of his or her rights of privacy is to write to the University official responsible for the record, clearly identifying the part of the record he or she wants changed, and specifying why the record should be amended.

If the University concludes that the record should not be amended as requested, the University will notify the student, advise the student of his or her right to a hearing and provide information about the hearing process.

- The right to consent to the disclosure of personally identifiable information contained in the student's education record, except to the extent permitted under FERPA. One exception that permits disclosure without consent is disclosure to University officials with legitimate educational interests, which may include employees in administrative, supervisory, academic or research, or support staff position (including law enforcement unit personnel and health staff); members of the Board of Trustees; and students serving on an official committees, such as a disciplinary or grievance committees, or assisting another University officials in performing their tasks. University officials may also be contractors, consultants, volunteers or other outside parties to whom the University has outsourced institutional services or functions that would ordinarily be performed by University employees. The University may disclose education records without consent to officials of other educational institutions that have requested the records and in which a student seeks or intends to enroll or is already enrolled so long as the disclosure is for purposes related to the student's enrollment or transfer.
- The right to file a complaint with the U.S. Department of Education concerning alleged failures by the University to comply with the requirements of FERPA. Written complaints may be directed to the Family Policy Compliance Office, U.S. Department of Education, 400 Maryland Avenue, SW, Washington, D.C., 20202-4605.

### **Confidentiality of Student Records**

Certain personally identifiable information from a student's education record, designated by Boston College as directory information, may be released without the student's prior consent. This information includes name; term, home, local, and electronic mail addresses; telephone listing; date and place of birth; photograph; major field of study; enrollment status; grade level; participation in officially recognized activities and sports; weight and height of members of athletic teams; dates of attendance; school/college of enrollment; anticipated date of graduation; degrees and awards received; the most recent previous educational agency or institution attended; and other similar information.

Electronic access to selected directory information is available to both the Boston College community and the general public. A student who so wishes has the right to prevent the release of all directory information including verification of enrollment, or to suppress selected directory information at [bc.edu/myservices](https://bc.edu/myservices) ("Privacy Preferences Confirm/Review)." This must be done by the end of the first week of enrollment.

### **Disclosures to Parents of Students**

When a student reaches the age of 18, or attends a postsecondary institution regardless of age, FERPA rights transfer to the student. Guidelines for the disclosure of information to parents are as follows:

- Parents may obtain directory information at the discretion of the institution.

- Parents may obtain nondirectory information (e.g., grades, GPA) at the discretion of the institution and after it is determined that the student is legally dependent on either parent.
- Parents may also obtain nondirectory information if they have a signed consent from the student.

## Certificate of Enrollment

Visit the [Certificate of Enrollment](#) page for more information.

Certifying enrollment can be done for the following audiences:

- For current students and employees with access to the Agora Portal
- For alumni and external audiences, including employers

## Disability Services Office

The Disability Services Office (DSO) serves undergraduate and graduate students with physical, medical, psychological, and temporary disabilities. The Assistant Dean works with each student individually to determine the appropriate accommodations necessary for the student's full participation in college programs and activities. The Associate Director of Disability Support Services also works with university administrators to develop policies and procedures pertinent to students with disabilities while acting as a general referral service on disability issues.

**All accommodation requests must be submitted by June 1, 2021 to the DSO. This deadline does not apply to the Connors Family Learning Center and students registering for accommodations based on a learning disability or Attention Deficit Hyperactivity Disorder (ADHD).**

For more information, contact:

Office of Student Outreach and Support Services  
Maloney Hall—Suite 448  
140 Commonwealth Ave  
Chestnut Hill, MA 02467  
Phone: 617-552-3434  
E-mail: [disabsrv@bc.edu](mailto:disabsrv@bc.edu)

Services for students with learning disabilities and ADHD, as well as all testing accommodations, are coordinated through the Connors Family Learning Center (CFLC). The CFLC, located in O'Neill Library, provides academic support services and accommodations to undergraduate and graduate students. The CFLC's services are extensive and vary depending upon the unique needs of the individual student.

For more information, contact:

Kathleen M. Duggan, Ph.D.  
Director, Connors Family Learning Center  
The Connors Family Learning Center (CFLC)  
Thomas P. O'Neill Jr. Library, Room 200  
140 Commonwealth Avenue  
Chestnut Hill, MA 02467  
Phone: 617.552.8093  
E-mail: [dugganka@bc.edu](mailto:dugganka@bc.edu)

## Family Educational Rights and Privacy Act (FERPA)

Visit the [Notices and Disclosures](#) page for information regarding the Family Educational Rights and Privacy Act (FERPA).

- The page enumerates students rights under FERPA.

- It also contains other notices and disclosures of interest to students and parents.

## Financial Aid

Visit the [Financial Aid](#) page for more information about financial aid at Boston College.

## Immunization

The state of Massachusetts requires that all full-time, part-time Health Sciences, and part-time visa carrying students entering college must submit proof of the following:

- Tetanus, Diphtheria, Pertussis (Tdap) vaccine one time booster after 6/2005 required for all incoming students. If Booster date is greater or equal to 10 years, a Td vaccine date must also be included.
- 2 MMR (measles, mumps, rubella) vaccines (these doses must be given at least four weeks apart beginning at or after 12 months of age).
- Hepatitis B vaccine series (a total of 3 doses at varying intervals).
- 1 dose of Meningococcal Conjugate Quadrivalent vaccine (MCV 4- A,C,Y,W-135) (Menactra, Menveo or Nimenrix only) for **all** full time students 21 years of age and younger. The vaccine must be on or after the sixteenth birthday or a signed waiver is acceptable.
- A reliable history of varicella disease documented by a health care provider or 2 doses of Varicella vaccine.
- Completion of the Tuberculosis Screening/Testing Form and accompanying testing if needed.

If proof of immunization for measles, mumps, rubella, hepatitis B, and/or varicella is not available, a blood titer showing immunity will be accepted.

Failure to show proof of immunizations within 30 days from the start of classes will result in a block on your registration and an administrative fee of \$85 will be charged to your student account.

## Important Notices and Disclosures under the HEOA

Boston College maintains a web page that provides all notices, disclosures, and other information required to be disclosed under the Higher Education Opportunity Act (HEOA). This web page is available at [bc.edu/content/bc-web/offices/executive-vice-president/notices-disclosures.html](http://bc.edu/content/bc-web/offices/executive-vice-president/notices-disclosures.html). This page includes links to disclosures with the following information:

- **Institutional and Student Information**, including information regarding the University's academic programs, facilities, faculty, academic improvement plans, accreditation, student rights with respect to the privacy of student records, transfer of credit policies, resources for students with disabilities, the diversity of the student body, voter registration, copyright and file-sharing, and how to reach the Office of Student Services, which maintains additional resources and information for students and prospective students;
- **Financial Information**, including the cost of attendance, withdrawal and refund policies, information regarding financial aid programs (including information about eligibility requirements and criteria, forms, policies, procedures, standards for maintaining aid, disbursements and repayment), student employment information and exit counseling information, and how to reach the Office of Financial Aid;
- **Student Outcomes**, including information regarding retention rates, graduation rates, and placement and education of graduates;
- **Health and Safety Information**, including the Annual Campus Security and Fire Safety Report which describes the University's campus safety program policies and includes statistics for the previous three years concerning reported crimes and fires that occurred on campus; the Drug-Free Campus and Workplace Program; and the University's policies with respect to immunizations required under Massachusetts law; and
- **Athletic Program Information**, describing how to request a report about the University's athletic programs that includes participation rates, financial support, and other information on men's and women's intercollegiate athletic programs.

Each disclosure explains how you may request a paper copy of the information. Alternatively, you may request paper copies of these disclosures by calling the Office of the Executive Vice President (617) 552-3255 or sending a written request to: Boston College, Office of the Executive Vice President, Botolph House, 140 Commonwealth Avenue, Chestnut Hill, MA 02467.

## Notice of Nondiscrimination

Founded by the Society of Jesus in 1863, Boston College is dedicated to intellectual excellence and to its Jesuit, Catholic heritage. Boston College recognizes the essential contribution a diverse community of students, faculty, and staff makes to the advancement of its goals and ideals in an atmosphere of respect for one another and for the University's mission and heritage. Accordingly, Boston College commits itself to maintaining a welcoming environment for all people and extends its welcome in particular to those who may be vulnerable to discrimination on the basis of their race, color, national origin, sex, religion, disability, age, marital or parental status, sexual orientation, military status, or other legally protected status.

Boston College rejects and condemns all forms of harassment, wrongful discrimination, and disrespect. It has developed procedures to respond to incidents of harassment whatever the basis or circumstance. Moreover, it is the policy of Boston College, while reserving its lawful rights where appropriate to take actions designed to promote the Jesuit, Catholic principles that sustain its mission and heritage, to comply with all state and federal laws prohibiting discrimination in employment and in its educational programs and activities on the basis of a person's race, color, national origin, sex, religion, disability, age, marital or parental status, genetic information or family medical history, or military status, and to comply with state law prohibiting discrimination on the basis of a person's sexual orientation.

To this end, Boston College has designated its Executive Director for Institutional Diversity to coordinate its efforts to prevent discrimination in accordance with this notice and applicable laws. Individuals are welcome to raise any questions regarding this notice and the requirements of state and federal nondiscrimination laws with the Executive Director for Institutional Diversity:

Boston College Office for Institutional Diversity (OID)  
140 Commonwealth Avenue (Office location: 129 Lake Street)  
Chestnut Hill, MA 02467  
Patricia Lowe,  
Executive Director for Institutional Diversity/Title IX Coordinator  
[patricia.lowe@bc.edu](mailto:patricia.lowe@bc.edu)  
Phone: 617-552-3334  
Email: [TitleIXCoordinator@bc.edu](mailto:TitleIXCoordinator@bc.edu)

The Executive Director for Institutional Diversity oversees the efforts of the following additional Title IX coordinators: (i) Melinda Stoops, Associate Vice President for Student Affairs and Student Affairs Title IX Coordinator (for student sexual harassment complaints), Maloney Hall, Chestnut Hill, MA 02467 (617-552-3482); (ii) Linda Riley, University Harassment Counselor, 129 Lake Street, Brighton, MA (617-552-0486); and (iii) Jocelyn Fisher Gates, Senior Women's Administrator and Athletics Title IX Coordinator, 310 Conte Forum, Chestnut Hill, MA 02467 (617-552-8303).

The following federal laws and regulations require the University not to discriminate on the basis of race, color, national origin, disability, sex, or age in treatment, employment, admission or access to Boston College and its educational programs and activities: Title VI of the Civil Rights Act of 1964 (Title VI), Section 504 of the Rehabilitation Act of 1973 (Section 504), Title IX of the Education Amendments of 1972 (Title IX), the Age Discrimination Act of 1975 (Age Act), and their respective implementing regulations at 34 C.F.R. Parts 100, 104, 106, and 110. Inquiries concerning the application to Boston College of each of the statutes and implementing regulations outlined above may be referred to the U.S. Department of Education, Office for Civil Rights, 5 Post Office Square, 8th Floor, Boston, MA 02109-3921 (617-289-0111).

## **Tuition and Fees**

Visit the [Tuition and Fees](#) page for more information on the following:

- Tuition and fees
- Laboratory/course fees
- Tuition refund schedule

## **Veterans Benefits and Transition Act of 2018**

The university will adhere to the requirements of Section 3679 of Title 38 of the Veterans Benefits and Transition Act of 2018 (referred to below as the "Veterans Benefits and Transition Act").

Boston College shall permit any student who is a covered individual ( as defined in Section 3679 of the Veterans Benefits and Transition Act) to attend or participate in the course of education during the period beginning on the date on which such student provides to Boston College a certificate of eligibility for entitlement to educational assistance under chapter 31 or 33 of Title 38 of the Veterans Benefits and Transition Act and ending on the earlier of (i) the date on which the U.S. Secretary of Veterans Affairs provides payment for such course of education to Boston College, or (ii) the date that is 90 days after the date on which Boston College certifies for tuition and fees following receipt from the student such certificate of eligibility.

Boston College shall ensure that it will not impose any penalty (including the assessment of late fees, the denial of access to classes, libraries, or other institutional facilities, or the requirement that a covered individual (as defined in Section 3679 of the Veterans Benefits and Transition Act) borrow additional funds) on any student who is a covered individual because of such student's inability to meet his or her financial obligations to Boston College due to the delayed disbursement of a payment to be provided by the Secretary of Veterans Affairs under chapter 31 or 33 of Title 38 of the Veterans Benefits and Transition Act.

The University reserves the right to deny access to services or impose additional fees in accordance with University policy on the difference between the amount of the student's financial obligation and the amount of the VA education benefit disbursement if not paid by the student by the required due dates.

## **Academic Integrity Policies**

### **Academic Integrity (Undergraduate)**

#### **Policy and Procedures**

The pursuit of knowledge can proceed only when scholars take responsibility and receive credit for their own work. Recognition of individual contributions to knowledge and of the intellectual property of others builds trust within the University and encourages the sharing of ideas that is essential to scholarship. Similarly, the educational process requires that individuals present their own ideas and insights for evaluation, critique, and eventual reformulation. Presentation of others' work as one's own is not only intellectual dishonesty, but it also undermines the educational process.

#### **Standards**

Academic integrity is violated by any dishonest act which is committed in an academic context including, but not restricted to, the following:

**Cheating** is the fraudulent or dishonest presentation of work. Cheating includes but is not limited to:

- the use or attempted use of unauthorized aids in examinations or other academic exercises submitted for evaluation;
- fabrication, falsification, or misrepresentation of data, results, sources for papers or reports, or in clinical practice, as in reporting experiments, measurements, statistical analyses, tests, or other studies never performed; manipulating or altering data or other manifestations of research to achieve a desired result; selective reporting, including the deliberate suppression of conflicting or unwanted data;
- falsification of papers, official records, or reports;
- copying from another student's work;
- actions that destroy or alter the work of another student;
- unauthorized cooperation in completing assignments or during an examination;
- the use of purchased essays or term papers, or of purchased preparatory research for such papers;
- submission of the same written work in more than one course without prior written approval from the instructors involved;
- dishonesty in requests for make-up exams, for extensions of deadlines for submitting papers, and in any other matter relating to a course.

**Plagiarism** is the act of taking the words, ideas, data, illustrations, or statements of another person or source, and presenting them as one's own. Each student is responsible for learning and using proper methods of paraphrasing and footnoting, quotation, and other forms of citation, to ensure that the original author, speaker, illustrator, or source of the material used is clearly acknowledged.

**Other breaches of academic integrity include:**

- the misrepresentation of one's own or another's identity for academic purposes;
- the misrepresentation of material facts or circumstances in relation to examinations, papers, or other evaluative activities;
- the sale of papers, essays, or research for fraudulent use;
- the alteration or falsification of official University records;
- the unauthorized use of University academic facilities or equipment, including computer accounts and files;
- the unauthorized recording, sale, purchase, or use of academic lectures, academic computer software, or other instructional materials;
- the expropriation or abuse of ideas and preliminary data obtained during the process of editorial or peer review of work submitted to journals, or in proposals for funding by agency panels or by internal University committees;
- the expropriation and/or inappropriate dissemination of personally-identifying human subject data;
- the unauthorized removal, mutilation, or deliberate concealment of materials in University libraries, media, or academic resource centers.

**Collusion** is defined as assistance or an attempt to assist another student in an act of academic dishonesty. Collusion is distinct from collaborative learning, which may be a valuable component of students' scholarly development. Acceptable levels of collaboration vary in different courses, and students are expected to consult with their instructor if they are uncertain whether their cooperative activities are acceptable.

### **Promoting Academic Integrity: Roles of Community Members**

#### **Student Roles in Maintaining Academic Integrity**

Students have a responsibility to maintain high standards of academic integrity in their own work and thereby to maintain the integrity of their degree. It is their responsibility to be familiar with, and understand, the University policy on academic integrity.

Students who become aware of a violation of academic integrity by a fellow student should respond in one of the following ways:

- Students may discuss their concerns with the student whom they suspect of a violation. Direct contact by another student may be the best means of resolving the problem. Repeated demonstration of student concern for academic integrity will, in the long run, build a peer-regulated community.
- If the incident is a major violation or part of a repeated pattern of violations, students should bring their concerns to the attention of the instructor or to the appropriate department chairperson or associate dean. Suspected violations by students reported to members of the faculty or to an associate dean will be handled according to the procedures set forth below.

Students who have serious concern that a faculty member is not living up to his or her responsibility to safeguard and promote academic integrity should speak with the faculty member directly, or should bring their concern to the attention of the department chairperson or associate dean.

### **Faculty Roles in Fostering Academic Integrity**

Faculty members should provide students with a positive environment for learning and intellectual growth and, by their words and actions, promote conditions that foster academic integrity.

Faculty should be concerned about the impact of their behavior on students. Students are sensitive to messages communicated in informal discussions and in casual faculty remarks about personal decisions and value judgments. Students are perhaps most sensitive to how responsibly faculty members fulfill their obligations to them in the careful preparation of classes, in the serious evaluation of student achievement, and in their genuine interest in and availability to students.

Faculty should promote academic integrity in the following specific ways:

- At the beginning of each course, instructors should discuss academic integrity in order to promote an ongoing dialogue about academic integrity and to set the tone and establish guidelines for academic integrity within the context of the course, e.g., the extent to which collaborative work is appropriate. Where relevant, instructors should discuss why, when, and how students must cite sources in their written work.
- Instructors should provide students with a written syllabus that states course requirements and, when available, examination dates and times.
- Instructors are encouraged to prepare new examinations and assignments where appropriate each semester in order to ensure that no student obtains an unfair advantage over his or her classmates by reviewing exams or assignments from prior semesters. If previous examinations are available to some students, faculty members should insure that all students in the course have similar access. Course examinations should be designed to minimize the possibility of cheating, and course paper assignments should be designed to minimize the possibility of plagiarism.
- Proctors should be present at all examinations, including the final examination, and should provide students with an environment that encourages honesty and prevents dishonesty.
- Faculty should be careful to respect students' intellectual property and the confidentiality of student academic information.
- Assignment of grades, which is the sole responsibility of the instructor, should be awarded in a manner fair to all students.

### **Academic Deans**

Academic deans have overall responsibility for academic integrity within their schools. In particular, deans' responsibilities include the following:

- promoting an environment where academic integrity is a priority for both students and faculty,
- ensuring that students who are honest are not placed at an unfair disadvantage, and
- establishing procedures to adjudicate charges of academic dishonesty and to protect the rights of all parties.

### **Procedures**

In each school a Committee on Academic Integrity with both faculty and student members is to be constituted annually.

When a faculty member determines that a student's work violates the standards of academic integrity, the faculty member is encouraged to discuss the matter with the student, but in any case the faculty member should notify the student of the substance of the violation and the action that the faculty member proposes to take. If the faculty member decides to impose a grading penalty, a letter of notification describing the incident and the proposed grading penalty is to be sent to the associate dean of the school or college in which the course is taught. On receipt of such a notification, the associate dean will notify the student of the allegation and the evidence. The student's class dean will also be notified, if the course is outside of the student's home school or college. The student will be given an opportunity to respond to the allegation in writing. While a case is pending, the student may not withdraw from or change status in the course.

Each reported violation of the standards of academic integrity will be reviewed by the Committee on Academic Integrity of the school or college of the course. This will ensure that in cases involving students from more than one school, or students in joint or dual degree programs, the process and penalty will be consistent.

A board chosen by the chairperson of the Committee on Academic Integrity from the full Committee will be assigned to each case, with one of the faculty members as chairperson of the review board. The associate dean to whom the case has been reported will serve as a non-voting administrative resource. For cases that are reported in summer courses, the associate dean of the school in which the course is taught will decide the case.

The associate dean will convey to the faculty member and the student the board's findings as to responsibility and recommended sanctions. The associate dean will compile a complete file of each case. After notifying the student's class dean of the final resolution of the case, the file will be kept confidential in the Dean's office. Files on students found not responsible will be destroyed.

Penalties for students found responsible for violations will depend upon the seriousness and circumstances of the violation, the degree of premeditation involved, and the student's previous record of violations. The committee may simply affirm the faculty member's penalty and issue the student a "warning," which will be kept in a confidential file in the student's Dean's Office until the student graduates and will not be reportable to professional schools or outside agencies; or it may recommend a different grading penalty and/or impose additional administrative penalties. Such penalties may include university probation, suspension, or expulsion, all of which become part of a student's academic record and are reportable to graduate/professional schools and outside agencies.

Appeal of the board's decision may be made by written request to the Dean of the school or college of the course not later than ten days following notice of the board's decision. The decision of the Dean will be final.

## **Academic Integrity (Graduate)**

### **Policy and Procedures**

The pursuit of knowledge can proceed only when scholars take responsibility and receive credit for their work. Recognition of individual contributions to knowledge and of the intellectual property of others builds trust within the University and encourages the sharing of ideas that is essential to scholarship. Similarly, the educational process requires that individuals present their own ideas and insights for evaluation, critique, and eventual reformulation. Presentation of others' work as one's own is not only intellectual dishonesty, but it also undermines the educational process. Cases of falsification, fabrication, and plagiarism that occur in the course of research are also subject to Boston College's research misconduct policy, which can be found at [bc.edu/bc-web/research/sites/vice-provost-for-research/integrity-and-compliance/research-misconduct.html](http://bc.edu/bc-web/research/sites/vice-provost-for-research/integrity-and-compliance/research-misconduct.html).

### **Standards**

Academic integrity is violated by any dishonest act which is committed in an academic context including, but not restricted to the following:

**Cheating** is the fraudulent or dishonest presentation of work. Cheating includes but is not limited to:

- the use or attempted use of unauthorized aids in examinations or other academic exercises submitted for evaluation;
- fabrication, falsification, or misrepresentation of data, results, sources for papers or reports, or in clinical practice, as in reporting experiments, measurements, statistical analyses, tests, or other studies never performed; manipulating or altering data or other manifestations of research to achieve a desired result; selective reporting, including the deliberate suppression of conflicting or unwanted data;
- falsification of papers, official records, or reports;
- copying from another student's work;
- actions that destroy or alter the work of another student;
- unauthorized cooperation in completing assignments or during an examination;
- the use of purchased essays or term papers, or of purchased preparatory research for such papers;
- submission of the same written work in more than one course without prior written approval from the instructors involved;
- dishonesty in requests for make-up exams, for extensions of deadlines for submitting papers, and in any other matter relating to a course.

**Plagiarism** is the act of taking the words, ideas, data, illustrations, or statements of another person or source, and presenting them as one's own. Each student is responsible for learning and using proper methods of paraphrasing and footnoting, quotation, and other forms of citation, to ensure that the original author, speaker, illustrator, or source of the material used is clearly acknowledged.

**Other breaches of academic integrity include:**

- the misrepresentation of one's own or another's identity for academic purposes;
- the misrepresentation of material facts or circumstances in relation to examinations, papers, or other evaluative activities;
- the sale of papers, essays, or research for fraudulent use;
- the alteration or falsification of official University records;
- the unauthorized use of University academic facilities or equipment, including computer accounts and files;
- the unauthorized recording, sale, purchase, or use of academic lectures, academic computer software, or other instructional materials;
- the expropriation or abuse of ideas and preliminary data obtained during the process of editorial or peer review of work submitted to journals, or in proposals for funding by agency panels or by internal University committees;
- the expropriation and/or inappropriate dissemination of personally-identifying human subject data;
- the unauthorized removal, mutilation, or deliberate concealment of materials in University libraries, media, or academic resource centers.

**Collusion** is defined as assistance or an attempt to assist another student in an act of academic dishonesty. Collusion is distinct from collaborative learning, which may be a valuable component of students' scholarly development. Acceptable levels of collaboration vary in different courses, and students are expected to consult with their instructor if they are uncertain whether their cooperative activities are acceptable.

**Promoting Academic Integrity: Roles of Community Members**

**Student Roles in Maintaining Academic Integrity**

Students have a responsibility to maintain high standards of academic integrity in their own work, and thereby to maintain the integrity of their degree. It is their responsibility to be familiar with, and understand, the University policy on academic integrity.

Students who become aware of a violation of academic integrity by a fellow student should respond in one of the following ways:

- Students may discuss their concerns with the student whom they suspect of a violation. Direct contact by another student may be the best means of resolving the problem. Repeated demonstration of student concern for academic integrity will in the long run build a peer-regulated community.
- If the incident is a major violation or part of a repeated pattern of violations, students should bring their concerns to the attention of the instructor or to the appropriate department chairperson or Associate Dean. Suspected violations by students reported to members of the faculty or to an Associate Dean will be handled according to the procedures set forth below.

Students who have serious concern that a faculty member is not living up to his or her responsibility to safeguard and promote academic integrity should speak with the faculty member directly, or should bring their concern to the attention of the department chairperson or Associate Dean.

**Faculty Roles in Fostering Academic Integrity**

Faculty members should provide students with a positive environment for learning and intellectual growth and, by their words and actions, promote conditions that foster academic integrity.

Faculty should be concerned about the impact of their behavior on students. Students are sensitive to messages communicated in informal discussions and in casual faculty remarks about personal decisions and value judgments. Students are perhaps most sensitive to how responsibly faculty members fulfill their obligations to them in the careful preparation of classes, in the serious evaluation of student achievement, and in their genuine interest in and availability to students.

Faculty should promote academic integrity in the following specific ways:

- At the beginning of each course, instructors should discuss academic integrity in order to promote an ongoing dialogue about academic integrity and to set the tone and establish guidelines for academic integrity within the context of the course, e.g., the extent to which collaborative work is appropriate. Where relevant, instructors should discuss why, when, and how students must cite sources in their written work.
- Instructors should provide students with a written syllabus that states course requirements and, when available, examination dates and times.
- Instructors are encouraged to prepare new examinations and assignments where appropriate each semester in order to ensure that no student obtains an unfair advantage over his or her classmates by reviewing exams or assignments from prior semesters. If previous examinations are available to some students, faculty members should insure that all students in the course have similar access. Course examinations should be designed to minimize the possibility of cheating, and course paper assignments should be designed to minimize the possibility of plagiarism.
- Proctors should be present at all examinations, including the final examination, and should provide students with an environment that encourages honesty and prevents dishonesty.
- Faculty should be careful to respect students' intellectual property and the confidentiality of student academic information.
- Assignment of grades, which is the sole responsibility of the instructor, should be awarded in a manner fair to all students.

## Academic Deans

Academic deans have overall responsibility for academic integrity within their schools. In particular, deans' responsibilities include the following:

- promoting an environment where academic integrity is a priority for both students and faculty,
- ensuring that students who are honest are not placed at an unfair disadvantage, and
- establishing procedures to adjudicate charges of academic dishonesty and to protect the rights of all parties.

## Procedures

Graduate and professional students should refer to their department or school for procedures for adjudicating alleged violations of academic integrity. Penalties for students found responsible for violations may depend upon the seriousness and circumstances of the violation, the degree of premeditation involved, and/or the student's previous record of violations. Appeal of decision may be made to the representative of the department or school whose decision will be final.

# Undergraduate Academic Regulations

## Undergraduate Admission

### Admission Information

Founded by the Society of Jesus in 1863, Boston College is dedicated to intellectual excellence and to its Jesuit, Catholic heritage. Boston College recognizes the essential contribution a diverse community of students, faculty, and staff makes to the advancement of its goals and ideals in an atmosphere of respect for one another and for the University's mission and heritage. Accordingly, Boston College commits itself to maintaining a welcoming environment for all people and extends its welcome in particular to those who may be vulnerable to discrimination on the basis of their race, ethnic or national origin, religion, color, age, gender, marital or parental status, veteran status, disabilities, or sexual orientation.

Boston College seeks to maintain an undergraduate student body that represents a broad variety of abilities, backgrounds, and interests. Therefore, in selecting students, the Committee on Admission looks for demonstrated evidence of academic ability, intellectual curiosity, strength of character, motivation, energy, and promise for personal growth and development. Requests for financial aid do not affect decisions on admission. The [Undergraduate Admission website](#) provides further details on the application requirements and deadlines.

## Admission from Secondary School

While specific courses are not required, the Office of Undergraduate Admission recommends that students pursue a strong college preparatory program that includes four units of English, mathematics, social studies, and foreign language, as well as four units of a natural science. Such a program provides a solid foundation for high quality college work, as well as a stronger application in a highly selective admission process.

## Standardized Testing

- The SAT or
- The American College Test (ACT)

*\*For applicants to BC's classes of 2025 and 2026, submission of SAT or ACT standardized test scores is optional. International students who speak English as a second language must still prove English language proficiency.*

All submitted standardized test results are used in the admission process. Applicants are required to take all standardized tests no later than the October administration date of their senior year for Early Decision and by December of their senior year for Regular Decision.

The Committee on Admission will select the best combination of individual section scores when evaluating an application. International students for whom English is not their primary native language are required to submit scores from the Test of English as a Foreign Language (TOEFL), the International English Language Testing System (IELTS), or the Duolingo English Test (DET). Students who score 650 or above in the SAT EBRW or 29 or better on the ACT English section may have this requirement waived.

## Application Procedures

### Regular Freshman Admission

Students applying to Boston College should submit the Common Application, the Boston College Writing Supplement and an \$80 application fee no later than January 1. Both the Common Application and Boston College Writing Supplement are available on the Common Application website. Candidates are notified of action taken on their applications no later than April 1.

### Early Decision

**Early Decision I and II are binding programs for candidates who view Boston College as their unequivocal top choice institution. If admitted to Boston College through Early Decision, candidates must immediately withdraw applications to other institutions and enroll at Boston College. Students are required to submit an Enrollment Confirmation Fee to Boston College within ten days of receiving their admission offer.**

Competitive Early Decision candidates present academic credentials, extracurricular engagement, and personal qualities that fit the profile of currently enrolled Boston College students. Because Early Decision attracts a small, but competitive pool of candidates, the acceptance rate will be higher at Early Decision. Completed Early Decision I applications and the Common Application Early Decision Agreement form must be submitted no later than November 1 for consideration. Candidates will learn of the Admission Committee's decision by December 15. Early Decision II applications are due by January 1 and candidates will learn of the Admission Committee's decision by February 15.

### Applying to an Undergraduate Division

All applicants must designate to which of the four undergraduate divisions they are making their application: Morrissey College of Arts and Sciences, Carroll School of Management, Lynch School of Education and Human Development, or Connell School of Nursing. Students are only considered for admission to the division to which they applied. Students may not change divisions following admission, but may be eligible to apply for an internal transfer to a new division after: one semester for those seeking a transfer to Morrissey or Lynch and two semesters to Connell or Carroll. Transferring internally is not guaranteed and selectivity varies by division; interested students should complete the Internal Transfer Form found on the [Academic Forms](#) page.

## International Student Admission

International students are expected to submit the same credentials (transcripts, recommendations, standardized tests, etc.) as domestic applicants. All documents should be submitted in English. If the credentials must be translated, the original must be submitted along with the translation. All international students whose native language is not English are required to take the Test of English as a Foreign Language (TOEFL) exam, the International English Language Testing System (IELTS), or the DuoLingo English Test (DET). Minimum scores of 100 on the TOEFL iBT, 7.5 on the IELTS, or 125 on the DET are recommended. Students applying from British systems must be enrolled in an A Level program to be considered.

## Transfer Admission

Transfer admission applications are available to students who have successfully **completed** three or more transferable courses (9 credits minimally) at a regionally accredited college or university. Transfer students must have a minimum cumulative grade point average of 3.0 to be considered for admission. Competitive applicants typically have a 3.5 to 3.7 cumulative grade point average. Students are encouraged to finish one full year of studies before seeking admission-in-transfer. Because a record of college achievement would not be available at the time of consideration, **first semester freshmen may not apply for admission to the term beginning in January.**

All candidates for transfer admission should submit the Transfer Common Application and all other required forms along with the \$80 application fee. All portions of the Transfer Application can be found on the transfer website at [bc.edu/transfer](http://bc.edu/transfer).

NOTE: A College Report must be submitted for every undergraduate institution attended full-time by the applicant. Additional copies of this form may be obtained from the Common Application website.

All supporting documents must be sent directly to the Boston College Undergraduate Processing Center, PO Box 67485, Chestnut Hill, MA 02467 by the sending institution. **Transcripts issued to students and photocopies will not be accepted.** The deadline for submitting applications is March 15 for the fall and November 1 for the spring. Fall candidates will be notified of action taken on their applications no later than May 20. Spring candidates will be notified no later than December 15.

Please consult the transfer admission website for additional information about transfer policies.

## Transfer of Credit

Boston College transfer credit policies are established by the Deans and Faculty of each undergraduate division. Course evaluations are completed by the Office of Transfer Admission. Any questions regarding the evaluation of courses, either before or after enrollment, should be directed to the Office of Transfer Admission.

At Boston College, transfer credit is established on a course-by-course basis. Transferable courses must have been completed at regionally accredited colleges or universities and must be similar in content, depth, and breadth to courses taught at Boston College. In addition, a minimum grade of C- must have been earned. Boston College students must complete the following number of credit hours for graduation: Morrissey College of Arts and Sciences—120, Carroll School of Management—120, Lynch School of Education and Human Development—120, and Connell School of Nursing—117. A maximum of 60 credit hours will be allowed in transfer. The unit of credit at Boston College is the semester hour. Most courses earn 3 semester hours of credit. Lab sciences usually earn 4 semester hours of credit.

No credit will be granted for internships, field experiences, practica, or independent study.

Applicants seeking to have online courses accepted in transfer by Boston College should submit a syllabus for each course, including information about contact hours and exam requirements.

Grade point averages do not transfer with students. A new grade point average begins with the commencement of a student's career at the University and reflects only work completed as a full-time undergraduate at Boston College.

For transfer students, courses taken during the summer prior to enrollment at Boston College should be approved in advance by the Office of Transfer Admission to avoid difficulty in the transfer of credits. For all incoming freshmen and currently enrolled students, all summer courses must be approved in advance by the appropriate deans.

**College credit courses taken in high school with high school teachers and other high school students cannot be used for credit. These courses may be assigned advanced placement units only if a corresponding College Board AP exam is taken and a qualifying score is earned.**

### **Date of Graduation**

All undergraduate students are expected to spend four years enrolled as full-time students in order to earn a bachelor's degree.

Students generally may not accelerate the date of graduation stated in the acceptance letter, with the following exception: students who enter Boston College after three or four semesters at a school where the normal credit requirements are less than those at Boston College and who experience a loss of one semester in their status as a result. If students have attended only one school prior to Boston College and the loss of status is due solely to differences between academic systems, students will be allowed to make up their status and graduate with their class.

A transfer student's date of graduation is determined by the number of credits accepted in transfer and the number of Boston College semesters these satisfy. The normal academic load for undergraduates is five 3- or 4-credit courses per semester. Thus, students are expected to have completed 30 credits at the end of one year, 45 at the end of a year and a half, and 60 credits at the end of two years. In determining a transfer student's date of graduation, leeway of 6 credits is allowed without loss of status. For example, students completing 24–30 credits are accepted as first-semester sophomores.

### **Residency Requirement**

The requirements for the bachelor's degree generally include a minimum of eight semesters of full-time enrollment, at least four semesters of which must be at Boston College.

Transfer students may need more than eight semesters in total in order to complete all the university's degree requirements. As long as transfer students abide by all relevant University academic regulations, including at least four semesters at Boston College, they may seek to regain their original graduation-year status through course overloads and summer courses. In such cases, transfer students will not incur additional tuition charges for course overloads. Transfer students who seek to regain their original graduation date should consult with their associate dean to confirm that they are eligible to do so.

### **Special Students**

Only those persons who wish to be enrolled as full-time day students are admitted by the Office of Undergraduate Admission. All other students wishing to attend Boston College on a part-time basis, for either day or evening classes, should contact the Dean of the James A. Woods, S.J., College of Advancing Studies, St. Mary's Hall South, Ground Floor, Boston College, Chestnut Hill, MA 02467.

### **Advanced Placement Units**

There are a number of ways to earn advanced placement units at Boston College including qualifying scores on College Board Advanced Placement (AP) exams, International Baccalaureate exams, British A Level exams, French Baccalaureate exams, as well as results from the German Abitur, and the Swiss Maturité and Italian Maturità. Official results from all testing should be sent to the Office of Transfer Admission for evaluation. Qualifying scores will be assigned advanced placement units as detailed at [bc.edu/advancedplacement](http://bc.edu/advancedplacement).

### **College Courses Taken During High School**

Advanced placement units can be earned for college courses taken during high school. For more information, visit [bc.edu/advancedplacement](http://bc.edu/advancedplacement).

### **Language Proficiency Requirements**

Refer to the Language Proficiency Requirements section below.

## **Introductory Note on Academic Regulations**

Academic Regulations are effective from September of the current academic year (2021–2022) except where a different date is explicitly stated. If there have been changes in the Academic Regulations and degree requirements since a student readmitted after sustained leave was last enrolled, the Academic Regulations in effect at the time of the student's readmission to full-time study will apply, unless the Academic Dean specifies otherwise in writing at the time of readmission.

## **Academic Grievances**

Any student who believes he or she has been treated unfairly in academic matters should consult with the chairperson of the undergraduate or graduate department or his or her Academic Dean to discuss the situation and to obtain information about relevant grievance procedures.

## **Academic Record**

A record of each student's academic work is prepared and maintained permanently by the Office of Student Services. While cumulative averages for academic majors are made available to undergraduate students who are currently enrolled, these averages are not maintained as part of a student's academic record. The student's semester averages and final overall cumulative average appear on the academic record. Student academic records are sealed at the time the degree is conferred. After this date changes may not be made, with the exception of errors or omissions.

## **Attendance**

Students are expected to attend classes regularly, take tests, and submit papers and other work at the times specified by the professor on the course syllabus. Students who are absent repeatedly from class or practica will be evaluated by faculty responsible for the course to ascertain their ability to achieve the course objectives and to continue in the course.

Professors may include, as part of the semester's grades, marks for the quality and quantity of the student's participation in class.

Professors will announce, reasonably well in advance, tests and examinations based on material covered in class lectures and discussions, as well as other assigned material. A student who is absent from class on the day of a previously announced examination, including the final examination, is not entitled, as a matter of right, to make up what was missed. The professor involved is free to decide whether a make-up will be allowed.

A student who is absent from class is responsible for obtaining knowledge of what happened in class, especially information about announced tests, papers, or other assignments.

In cases of prolonged absence the student or a family member should communicate with the student's Academic Dean as soon as the prospect of extended absence becomes clear. The academic arrangements for the student's return to classes should be made with the Academic Dean's Office as soon as the student's health and other circumstances permit.

## **Absences for Religious Reasons**

Any student who is unable, because of his or her religious beliefs, to attend classes or to participate in any examination, study, or work requirement on a particular day shall be excused from any such examination, or study or work requirement, and shall be provided with an opportunity to make up such examination, or study or work requirement, that may have been missed because of such absence on any particular day. However, students should notify professors at the end of the first class meeting or at least two weeks in advance of any such planned observances, and such makeup examination or work shall not create an unreasonable burden upon the University. No fees will be charged and no adverse or prejudicial effects shall result to any student who is absent for religious reasons.

## **Audits**

Undergraduate students may not audit a course with the exception of undergraduates in the Woods College of Advancing Studies.

## Core Curriculum—Undergraduate University Core Requirements

The following course requirements comprise the Core Curriculum and are required for all students at Boston College in order to graduate. All Core courses must be 3 credits or more and cannot be taken pass/fail.

- 1 course in the Arts—Art, Art History, Film, Music, Theatre
- 1 course in Cultural Diversity—Unlike other Core requirements, Cultural Diversity may be fulfilled by a course above the Core level. It may simultaneously fulfill another requirement of the Core, a major, or minor.
  - A number of Difference, Justice, and the Common Good in the United States and Engaging Difference and Justice courses satisfy the Cultural Diversity requirement, and can be found here: [bc.edu/core](http://bc.edu/core). Lynch students will take APSY1031. The CSON curriculum satisfies the Cultural Diversity requirement.
- 2 courses in History—one course pre-1800 (History I) and one post-1800 (History II)
- 1 course in Literature—Classical Studies, English, Romance Languages and Literatures, Eastern, German and Slavic Studies.
- 1 course in Mathematics—For CSOM students, one semester of Calculus (MATH1100 or higher) is required, and beginning with the class of 2022, CSOM students may take any course approved for Mathematics Core credit. For CSON students, MATH1180 Principles of Statistics for Health Sciences is the required Mathematics Core course.
- 2 courses in Natural Sciences—Biology, Chemistry, Earth and Environmental Sciences, Physics, Environmental Studies.
- 2 courses in Philosophy—one of each: Philosophy I and Philosophy II.
- 2 courses in Social Sciences— Sociology, Political Science, Psychology, Psychology in Education (APSY1030 and APSY1031 are required for Lynch students), or, Economics (beginning with the Class of 2023, ECON1101 is required for all CSOM students)
- 2 courses in Theology—one of each: Sacred Texts and Traditions and Christian Theology
- 1 course in Writing

Students are encouraged to use the Core to explore their interests, broaden their intellectual horizons, and discover more about themselves. Core courses are identified on the Course Information and Scheduling page (at [bc.edu/myservices](http://bc.edu/myservices)) as well as on the Core website ([bc.edu/core](http://bc.edu/core)). For more information on the University Core Curriculum please visit [bc.edu/core](http://bc.edu/core).

### University Core Curriculum at Boston College

As a Jesuit, Catholic University, Boston College shares a 450-year old tradition of concern for the integration of the intellectual, moral, and religious development of its students. The centerpiece of Jesuit education has always been a common curriculum that emphasizes the study of the defining works of the humanities, natural sciences, and social sciences.

Our ongoing efforts to renew the University Core Curriculum aim to ensure that engagement with the Core, “broadens the intellectual horizons of students; introduces them to the best of contemporary pedagogy, research, and teaching; promotes their integration of knowledge, beliefs, and actions, and prepares them for lives of freedom, integrity, leadership, and service” (*The Vision Animating the Boston College Core Curriculum*, 2014). Guided by this vision, students completing the University Core Curriculum will:

- Demonstrate the critical, mathematical, informational, analytic, expressive, and creative skills that are essential tools of the educated person well-prepared for a meaningful life and vocation;
- Understand the major ideas and methods of inquiry of the scholarly disciplines that comprise the university and be able to use those methods of inquiry as beginning practitioners to address complex contemporary problems;
- Be able to identify and articulate the strengths and limitations of the disciplines and the relationship of the disciplines to one another, and demonstrate an understanding of the breadth and diversity of human knowledge as well as its openness to integration in more comprehensive wholes;
- Be conversant with, and able to discuss intelligently, enduring questions and issues that are fundamental to human inquiry and that have shaped the traditions from which the university has emerged;
- Demonstrate the ability to apply more than one disciplinary perspective to the same enduring question or complex contemporary problem;
- Be familiar with the scholarly exploration of religious faith and understand how faith and reason are related in the search for truth;
- Demonstrate the ability to examine their values and experiences and integrate what they learn with the principles that guide their lives; and,
- Be prepared, and disposed, to use their talents and education as engaged global citizens and responsible leaders in service of the common good.

For more information on University Core Curriculum at Boston College, please visit [bc.edu/core](https://bc.edu/core).

## **Cross Registration**

### **Woods College of Advancing Studies**

All full-time undergraduate students are limited to one Woods College of Advancing Studies (WCAS) course each semester. Freshmen may not enroll in any WCAS course.

WCAS courses can be used to fulfill elective requirements. Students must check with the appropriate department if they want to inquire about using about the possibility of using a Woods College of Advancing Studies course to fulfill a Core or major requirement. Any exception to this policy must be made with the appropriate department and Academic Dean's approval.

### **Boston Theological Interreligious Consortium**

The Boston Theological Interreligious Consortium (BTI), a consortium of theology faculty primarily in the Boston-Newton-Cambridge area, has as its constituent members the following institutions:

- Boston College Theology Department
- Boston College School of Theology and Ministry
- Boston University School of Theology
- Gordon-Conwell Theological Seminary
- Hartford Seminary
- Harvard Divinity School
- Hebrew College
- Holy Cross Greek Orthodox School of Theology
- St. John's Seminary and Theological Institute

This consortium offers complete cross-registration in several hundred courses, the use of library facilities in the nine schools, joint seminars and programs, and faculty exchange programs.

Theology majors and students in the School of Theology and Ministry who want to cross register through the Boston Theological Interreligious Consortium should pick up a cross registration petition in Lyons Hall and return it with an authorization by the appropriate date. Students are expected to consult with their advisor or department chairperson before cross registering.

### **The Consortium**

Under a program of cross registration, sophomores, juniors, and seniors may take one elective course during each fall and spring semester at Boston University, Brandeis University, Northeastern University, Pine Manor College, Regis College, or Tufts University if a similar course is not available at Boston College. Cross registration forms are available in the Office of Student Services, Lyons Hall.

## **Dean's List**

The Dean's List recognizes the achievement of undergraduates semester by semester. Students will be classified into two groups: First Honors (3.700–4.000) and Second Honors (3.500–3.699).

In order to be eligible for the Dean's List, students must earn at least 12 or more credits in courses evaluated with a letter grade, excluding the P (pass) grade, and receive a passing grade in all courses. Students who have withdrawn from or failed a course and students who have received an incomplete grade (see Grading section) will not be eligible for the Dean's List.

## Degree Audit

A degree audit is a computer-generated analysis that enables an undergraduate (except for Woods College of Advancing Studies) or law student and his or her advisor to assess the student's academic progress and unfulfilled requirements. Students in the Woods College of Advancing Studies can meet with an advisor to review their progress at any time.

The degree audit is a valuable tool for academic planning because it matches the courses that the student has taken with the requirements of his or her degree program or anticipated program. Students receive degree audits each semester prior to registration and have access to actual and simulated degree audits at [bc.edu/myervices](http://bc.edu/myervices) ("Degree Audit"). Students are responsible for completing all the requirements listed on the degree audit prior to graduation.

## Degree with Honors

Academic honors printed in the Commencement program are based on averages at the end of the second semester senior year.

Starting with the class of 2021, the cumulative average for degrees with honors will be as follows:

- *summa cum laude* (with the highest honors)—3.9–4.0
- *magna cum laude* (with high honors)—3.8–3.899
- *cum laude* (with honors)—3.667–3.799

Prior to the class of 2021: The *summa cum laude* was awarded to the top 4.5 percent of the graduating class, *magna cum laude* to the next 9.5 percent, and *cum laude* to the next 15 percent.

Academic honors are not calculated for graduate students except for law. Law students' Latin honors are calculated as follows: Summa Cum Laude is awarded to the top 2% of the class. Magna Cum Laude is awarded to the top 10% of the class. Cum Laude is awarded to students graduating in the upper third of the class. Honors will be noted on the student's diploma.

## Enrollment Status

### Undergraduate Full-Time Enrollment Status

To be considered full-time, students must be registered for courses totaling at least 12 credits per semester. At least 9 of the credits must be in courses of 3 credits or more. Ordinarily, students should average 15 credits per semester with a target of completing 30 credits per academic year.

Woods College of Advancing Studies students must be enrolled in 12 credits to be considered full-time.

### Undergraduate Part-Time Enrollment Status

Visiting or special students may enroll in one, two, or three courses each semester through the Woods College of Advancing Studies. Additional courses require the Dean's approval.

## External Courses

After admission to Boston College, the only courses that a student may apply towards a degree will be those offered at Boston College in a regular course of study during the academic year. Any exceptions to this rule must be approved in writing by the Academic Dean before the courses are begun. Exceptions may be granted by the Academic Dean for official cross-registration programs, external summer study abroad and certain special study programs at other universities.

A student must earn a grade of C- or better to receive credit for any course taken at another university. In some instances, the Academic Dean may stipulate a higher grade. After the course has been completed, the student should request that the registrar at the host university forward an official transcript to the Office of Student Services at Boston College.

## Final Examinations

The final examination schedule for most courses is set before classes begin. It is available to the public, and students are responsible for consulting it. A student who misses a final examination is not entitled, as a matter of right, to a make-up examination except for serious illness and/or family emergency. No student should make travel arrangements to return home which are at odds with his or her examination schedule. Students who schedule a departure without regard to their schedules risk failure in their final examinations.

Courses with multiple sections may have common departmental final examinations at a date and time determined by the Office of Student Services. Students with three final examinations scheduled for the same day are entitled to take a make-up exam at a later date during exam week. If one of the three exams is a common departmental exam, this is the exam that is taken at the later date.

In the Graduate School of the Morrissey College of Arts and Sciences, seminars and teacher-training courses may or may not have a semester examination at the discretion of the instructor.

No exams or final assignments are to be scheduled during the Study Days designated on the Academic Calendar.

## Language Proficiency Requirements

All students in the Morrissey College of Arts and Sciences must demonstrate intermediate-level proficiency in a foreign or classical language in order to graduate from Boston College. The Carroll School of Management, the Connell School of Nursing, and the Lynch School of Education and Human Development do not have a language requirement.

The AP test scores below demonstrate intermediate-level proficiency at Boston College.

Subject Test	AP Score
Chinese	4
French	3
German	4
Italian	3
Japanese	4
Korean	N/A
Latin	4

Modern Hebrew	N/A
Spanish	3

### Other Exams and Exam Score Minimums

- British A levels: Languages other than English A/B/C levels
- International Baccalaureate: Higher level foreign or modern classical language 6 or 7
- General Certificate of Education: German A level
- DELE exams (Diplomas de Español como Lengua Extranjera): B1 or higher level
- Successful completion of one of Boston College's language tests (for languages other than French, German, Italian, and Spanish)
- Successful demonstration of native proficiency by documentation or testing by one of Boston College's language departments

Testing is not available for all languages.

Fulfillment of the proficiency requirement by the examinations listed above does not confer course credit.

### Course Work Meeting Language Proficiency Requirement

- Successful completion of the second semester of an intermediate-level Boston College modern or classical language course
- Successful completion of one Boston College modern or classical language course beyond the intermediate level

Students may not take foreign language courses on a pass/fail basis until they have completed the university's language proficiency requirement. Language courses will count as Morrissey College of Arts and Sciences electives. Students with documented learning disabilities may be exempt from the language proficiency requirement and should consult with the Associate Dean.

### Grading

The grading system consists of 12 categories, as follows: A, A-, B+, B, B-, C+, C, C-, D+, D, D-, and F. A is excellent; B is good; C is satisfactory; D is passing but unsatisfactory; F is failure.

Students who withdraw from a course after the drop/add period will receive a grade of W. The grade of W is not included in the calculation of the grade point average.

Students in the Connell School of Nursing must achieve a grade of C- or higher in designated nursing courses, or they will be required to retake the course.

With the approval of the Academic Dean of their school or college, students may be permitted to take courses for enrichment. Courses approved for enrichment only, may, with the approval of the relevant department, go toward fulfilling a Core, major, or minor requirement. However, grades for courses taken for enrichment are not computed into the cumulative average and are not counted toward the total course or credit requirement for graduation.

A student's cumulative average is based on grades in courses taken in the full-time program at Boston College, plus other courses specifically approved for credit towards the degree by the Academic Dean. If a student fails a course, the course is not credited toward the degree, but the failing grade remains on the student's transcript and a 0.0 is calculated into the student's cumulative average. A failed course may be retaken for credit, with the new grade added to the GPA, but the original failure remains on the transcript and continues to be counted in the GPA. If a student retakes a failed course and fails it again, the course is again entered on the transcript and the grade is counted in the GPA. If a student retakes a course in which she or he has already received a passing grade, the repeated course is again entered on the transcript and the grade is calculated in the cumulative GPA, but the course is not credited toward the degree.

Grades will be posted at [bc.edu/myserVICES](http://bc.edu/myserVICES) ("Current Courses and Grades") at the close of each semester. Any student who believes there is a grade discrepancy on a semester grade should resolve the discrepancy with their professor within the first six weeks of the following semester.

## Grading Scale

In computing averages, the following numerical equivalents for the twelve (12) letter grades are used:

- A 4.00
- A- 3.67
- B+ 3.33
- B 3.00
- B- 2.67
- C+ 2.33
- C 2.00
- C- 1.67
- D+ 1.33
- D 1.00
- D- .67
- F .00
- P No effect on GPA
- U No effect on GPA

## Student Work and Assessment

The grading of student work serves as the primary means of individual evaluation; additionally, student work generally may be used to assess course, program, and the related, learning outcomes in support of continuous improvement.

## Incomplete and Deferred Grades

All required work in any course must be completed by the date set for the course examination. A student who has not completed the research or written work for a course taken in the fall or spring semester or is absent from the course examination in either semester, may, with adequate reason and at the discretion of the instructor, receive a temporary grade of Incomplete (I). All such I grades will automatically be changed to F on March 1 for the fall, August 1 for the spring, and October 1 for the summer.

After that time, generally no further grade change will be allowed.

A faculty member may only assign a grade of J for a 2-semester course when the grade in the first semester is dependent on the grade issued at the end of the semester. The J grade has no GPA value. Instructors should assign a grade for each semester at the end of the second semester. Such courses may include an Internship, Dissertation Direction, or Student Teaching.

## Pass/Fail

Sophomores, juniors, and seniors may elect to designate a course as pass/fail during the first seven class-days of the semester. Only electives can be taken pass/fail. Courses being used to fulfill major, minor, Core, or corequisites **cannot** be taken pass/fail.

Second-semester freshmen who have been approved by their Academic Dean for an overload of a sixth course of 3 credits or more may take that course on a pass/fail basis, in which case the course may not be used to fulfill a major, minor, Core requirement, or corequisites.

No more than one course of 3 or more credits may be taken pass/fail in any semester. No student may take more than six pass/fail courses of 3 or more credits for credit toward a degree.

Courses in the Carroll School of Management may not be taken on a pass/fail basis. Departments may designate some courses as not available in general for pass/fail enrollment.

Students may not take foreign language courses on a pass/fail basis until they have completed the University's language proficiency requirement. Any foreign language course being used to fulfill a major, minor, Core, or corequirement cannot be taken pass/fail.

A student enrolled in a course on a pass/fail basis who earns a grade of D- or higher will receive a grade of Pass for the course.

### **Pass/Fail Option for 1-Credit Courses in the Major**

At the discretion of the school or department, some 1-credit courses that are required for a major or minor may be offered on a pass/fail basis only (e.g., practica, performance).

### **Grade Change**

Grade changes should be made only for exceptional reasons. For all students, the grades submitted by faculty at the end of each semester are considered final unless the faculty member has granted the student an Incomplete to provide time to finish his or her course work. Such Incompletes should only be granted for serious reasons, e.g., illness, and only when the student has been able to complete most of the course work but is missing a specific assignment, e.g., a final paper, an examination, etc. Incompletes are not to be granted to allow the student to complete a major portion of the course work after the end of the semester.

### **Graduation**

Students are expected to satisfactorily complete eight semesters of full-time study (excluding summer terms) in order to earn the bachelor's degree. The University awards degrees in May, August, and December of each year, although commencement ceremonies are held only in May. A diploma will not be dated before all work is completed. Students who graduate in December may participate in commencement exercises the following May. In order to ensure timely clearance, all students who plan to graduate should confirm their diploma names online at [bc.edu/myservices](https://bc.edu/myservices) ("Diploma Name Information - View/Update") by the following dates:

- March 15 for May graduation
- July 15 for August graduation
- November 15 for December graduation

With permission from the student's Academic Dean, there are two ways the time to degree can be shortened (accelerated): (1) by qualifying for Advanced Standing or (2) by completing all requirements in less than 8 full-time semesters. Details of these two paths are given below.

#### **Advanced Standing**

*Beginning with the Class of 2024:* Students who earn a minimum of 30 Advanced Placement units may be eligible for Advanced Standing and complete their undergraduate studies after six semesters of full-time study. Ordinarily, Advanced Standing is for one full year only. Students interested in this option should be in touch with their Academic Dean no sooner than the completion of their first semester at BC. No decisions on Advanced Standing will be made prior to this time. Students seeking Advanced Standing must be able to complete all degree requirements by the proposed graduation date and be approved for Advanced Standing by the Academic Dean before the start of the third year of undergraduate study. No more than 30 Advanced Placement units may be credited toward the degree.

For further details, visit [bc.edu/advancedplacement](https://bc.edu/advancedplacement).

#### **Acceleration**

After being in residence for at least three semesters, and no later than the end of the drop/add period in the seventh semester, full-time undergraduate students may apply to their Academic Dean to accelerate their degree program by one semester. The following conditions apply:

- Summer courses intended for acceleration must be taken at Boston College.
- Any credits over 15 in a semester used for acceleration are charged the per credit rate for the semester they are taken. Financial aid will not cover these additional charges.

- Students transferring into Boston College with first-semester sophomore status or above are not eligible to accelerate their program of study.
- Students who have elected to take Advanced Standing are not eligible to accelerate their graduation further.

## Internal Transfers

Matriculated students wishing to transfer from one undergraduate college to another within Boston College should contact the Academic Dean's Office of the school to which admission is sought. Students may be eligible to apply for an internal transfer to a new division after: one semester for those seeking a transfer to Morrissey or Lynch, two semesters to Connell, and three semesters to Carroll. Transferring internally is not guaranteed and selectivity varies by division; interested students should complete the Internal Transfer Form found on the [Academic Forms](#) page. WCAS students interested in transferring into Morrissey, Lynch, CSON, or CSOM must apply to do so through the Office of Undergraduate Admission.

## Leave of Absence

A student in good standing who desires to interrupt the usual progress of an academic program may petition for a leave of absence. The process begins in the appropriate Academic Dean's Office and will be extended for no more than one year, although petition for renewal is possible. Students on leave of absence may not take courses to advance their status at Boston College without obtaining prior approval from the appropriate Academic Dean's Office. Students may not participate in extracurricular activities while on a leave of absence. Normally, students returning from a leave of absence may not regain their original graduation year.

To assure re-enrollment for a particular semester following a personal leave of absence, students must notify their appropriate Academic Dean's Office no later than four weeks in advance of the start of the next semester.

## Medical Leave of Absence

If a student is unable to complete the coursework or other course of study for a semester due to medical reasons, the student may request a medical leave of absence. Medical leave, whether requested for mental health or physical health reasons, must be supported by appropriate documentation from a licensed care provider and be approved by the student's Academic Dean.

The University reserves the right to impose conditions on readmission from a medical leave, which may include: length of time on leave; the submission of documentation from the student's health care provider; the student's consent for the provider to discuss the student's condition with University clinicians, and/or an independent evaluation of the student's condition by University clinicians; and/or making use of University or outside professional services.

The conditions will be specified at the time of leave, and students will be asked to acknowledge their acceptance of them.

Students seeking to return from a medical leave should contact the appropriate Academic Dean's Office. All documentation pertaining to returning from a medical leave of absence must be submitted no later than August 1 for the fall semester or December 15 for the spring semester. However, students seeking to return to a practicum, clinical or field education placement must contact the appropriate Academic Dean expressing the intent to seek readmission at least a full semester before the desired return.

Students on Boston College's medical insurance policy may be eligible to continue their health insurance the semester in which they take a medical leave of absence and the following semester. Students should consult with Student Services and can learn more about this policy at: [bc.edu/medinsurance](http://bc.edu/medinsurance). Students granted a medical leave may be entitled to a semester's tuition credit to be provided upon readmission, and should consult their school's policy regarding the tuition credit and their financial aid advisor.

## Military Leave Policy

Boston College supports the participation of our students in all branches of the United States Military, both active duty and reserve, and recognizes that military obligations for such students may occasionally conflict with academic responsibilities. In such cases students who are in good academic standing and are called to duty for more than 30 days may take a leave of absence for up to three years and be guaranteed readmission to the same academic program and status they held at the start of the leave. The expected graduation date will be adjusted

appropriately by the dean upon readmission. The student may qualify for a full tuition credit to be applied upon return from the leave, but will still be responsible for any board and room fees incurred.

The process for initiating the Leave is the same as that for a Medical Leave of Absence and will require official documentation of the student's service obligation.

Students desiring to return after three years should apply for readmission through the Dean's Office in their desired program to determine if programs or program requirements have changed.

For students whose military obligation will require fewer than 30 days away from classes, it may be possible to complete some or all of the registered coursework required to complete a successful semester. In such cases, students may be able to maintain their original graduation dates but would need to consult with the Dean's Office and individual faculty instructors to determine if this is possible. If it is not possible to complete sufficient coursework for the semester, students may apply for a military leave of absence with the process outlined above.

For graduate and professional students, the same process and conditions would apply. But such students receiving Boston College financial aid in the form of teaching or research stipends or tuition remission should consult the Director of Graduate Studies in their respective programs about potential funding issues before taking a leave as financial aid budgets are set annually by program and availability of funds may vary from year to year.

## **Majors, Minors, and Concentrations**

### **Majors**

A major is a systematic concentration of at least 30 credits taken in a given academic discipline that enables a student to acquire a more specialized knowledge of the discipline, its history, its methodologies and research tools, its subfields, and the areas of concern in which the discipline is presently involved. This is done by means of a hierarchical sequence of courses or appropriate distribution requirements. In order to earn a major, students must have at least 27 credits in the major program that are not used to fulfill requirements for another major or minor.

### **Minors**

#### **Morrissey College of Arts and Sciences**

Some departments offer a departmental minor for students who wish to complement their major with intensive study in another area. A departmental minor consists of at least 18 credits. These must include one introductory level course and at least one upper-level course or seminar. *In order to earn a departmental minor, students must have at least 15 credits in the minor program that are not used to fulfill requirements for another major or minor.* Students carrying a double major are advised not to minor.

For a complete list of minors visit the [Majors and Minors](#) page.

Interdisciplinary minors in the Morrissey College of Arts and Sciences must consist of at least 18 credits and must include either a required introductory course or a concluding seminar or project. (Note: Some programs require both.) *In order to earn an interdisciplinary minor, students must have at least 15 credits in the minor program that are not used to fulfill requirements for another major or minor or a Core requirement.* The list and description of the interdisciplinary minors is available in the Morrissey College of Arts and Sciences section of this Catalog. Students choose courses for the minor in consultation with the director of the department's minor program.

#### **Lynch School of Education and Human Development**

Lynch School majors may minor in Special Education. Some Lynch School Elementary and Secondary Education majors are eligible to minor in Middle School Mathematics Teaching.

Further information on these minors is available in the Lynch School of Education and Human Development section of the University Catalog.

## **Connell School of Nursing**

CSON students may pursue a Hispanic Studies minor, a Psychology minor, or a Medical Humanities, Health, and Culture minor specifically for Nursing students by contacting the Academic Dean, Undergraduate Nursing Program. Six courses (18 credits) are required to complete the minor. Full details are available on the [CSON website](#).

## **Carroll School of Management**

Students in the Carroll School of Management may select any minor offered by the Morrissey College of Arts and Sciences.

For a complete list of minors visit the [Majors and Minors](#) page.

## **Concentrations**

### **Carroll School of Management (CSOM)**

Concentrations, or areas of specialization, are required for students earning degrees from Carroll School of Management and are available to Carroll School of Management students only. Most concentrations require four courses beyond the Core. However, some require five. Students must complete a concentration in one of the following areas: Accounting, Accounting and Information Systems, Accounting for Finance and Consulting, Business Analytics, Economics, Entrepreneurship, Finance, General Management, Information Systems, Management and Leadership, Managing for Social Impact and the Public Good, Marketing, or Operations Management. Students declare a concentration second semester sophomore year or during the junior year.

## **Overloads**

The standard semester course load for undergraduates is five 3-credit courses and a maximum of 20 credits, including labs and other 1- or 2-credit courses. Students are eligible to overload if they have earned at least a 3.0 overall cumulative GPA or a 3.0 GPA in the semester immediately prior to the one for which the overload is sought, in which case they may register online for a sixth course of 3 credits or more and a maximum of 24 credits, including labs and other 1- and 2-credit courses, during the first seven class-days of the semester.

Students are not permitted to take a sixth course of 3 credits or more during their first semester at Boston College. Second-semester freshmen who wish to overload with a sixth course of 3 credits or more must obtain permission from their Academic Dean.

Students with an overall cumulative GPA between 2.0 and 3.0 may, under exceptional circumstances, be allowed by their Academic Dean to enroll in a sixth course.

Students in a Woods College of Advancing Studies degree program may take a maximum course load of three courses per semester. Authorization for one additional course will be given only if the student has completed three courses in the previous semester, each with a grade of B- or better. Additional courses require authorization. Courses taken without reference to this regulation do not advance a student's Woods College degree program.

## **Readmission**

Students who desire readmission must initiate the process in the Office of the appropriate Academic Dean of their school or college. Applications for readmission should be made at least four weeks before the start of the semester in which the student seeks to resume study. The appropriate Academic Dean will then make the decision about readmission, after careful consideration of the best interests of both the student and the University.

In instances where a sustained period of time (more than one year) has elapsed since a student was last enrolled, the appropriate Academic Dean in consultation with the appropriate representative of the student's department or program will identify the academic requirements, if any, that must be completed after readmission and before awarding the degree. Factors that will determine these requirements include, but are not limited to: the currency of the student's knowledge in the student's proposed academic major(s); the pertinence of courses completed at Boston College to current degree and licensure requirements; any academic work completed elsewhere that is relevant to degree and licensure requirements; and the length of the student's absence.

If there have been changes in the Academic Regulations and degree requirements since a student readmitted after sustained leave was last enrolled, the Academic Regulations in effect at the time of the student's readmission to full-time study will apply, unless the Academic Dean specifies otherwise in writing at the time of readmission.

## **Satisfactory Academic Progress**

The requirements for Satisfactory Academic Progress are specified in the academic regulations for each school.

## **Study Abroad—Office of International Programs**

Boston College international programs are open to BC undergraduate students who meet the requirements for study abroad as outlined by their Academic Dean. In order to be eligible for admission, students must be in good academic standing with a GPA of 3.0 or higher and have a clean disciplinary record. Final approval is at the discretion of the OIP, deans, and Student Affairs. Many programs have additional requirements and a selective application process; students should consult with the OIP for specific admission requirements. Boston College approves an equal number of students for study abroad in the fall and spring semesters and not all applicants can be approved for their preferred term; students are to plan accordingly.

Students remain subject to the academic policies of their home department as well as the host institution. They are expected to register for a full course load as defined by BC and the host university in order to earn a full semester's worth of credit. Grades earned abroad on BC programs are converted into the BC grading scale and are factored into GPA calculations; credits are awarded based on the OIP course and credit requirement guidelines. For non-BC programs, students may transfer credit back to BC, as long as they earn the equivalent of a C- or higher. Grades on non-BC programs are not calculated into the BC GPA, though they do appear on the student's BC transcript as transfer credits.

Courses taken abroad which meet BC academic standards automatically count as general elective credit towards graduation. Students wishing to fulfill major, minor, or Core requirements abroad on both BC and non-BC programs may do so with the approval of the appropriate department(s). The OIP maintains a list of abroad courses considered pre-approved for major, minor, and Core requirements; for non-pre-approved courses, students must submit a completed BC Degree Audit Course Substitution and Waiver form to the Office of Student Services. Students are highly encouraged to seek such substitution approvals before taking courses abroad. For Cultural Diversity Core credit, paperwork is not required; instead, students must fill out an [online request form here](#).

A student's enrollment in a program of study abroad approved for credit by the home institution may be considered enrollment at the home institution for the purpose of applying for assistance under the Title IV, HEOA programs.

## **Summer Courses**

As of summer 2018, summer courses taken at Boston College count for academic credit and all grades earned are factored into students' GPA as regular BC courses. Courses may satisfy Core or major/minor requirements as specified by the department, and will count toward the 120 credits required for the degree.

### **BC Summer Courses Abroad**

BC summer courses taken abroad through the Office of International Programs (OIP) are factored into students' GPA as regular BC courses, and count for academic credit.

### **Summer Courses at Other Institutions**

Summer courses taken at another university—local, national, international—, must be pre-approved from the Academic Dean using the Course Approval Form. Students will also need departmental approval if they want the summer course to fulfill a Core, language, major, or minor requirement. These summer courses may count for academic degree credit and grades will factor into the GPA if students have credit deficiencies. Students will receive enrichment credit if there is no prior credit deficiency. Enrichment credit means that the course may satisfy Core or major requirements with department permission, but will not count toward the 120 credits required for the degree. Courses, grades,

and credits will be listed on the transcript but will not be calculated into the GPA. With the approval of the Academic Dean, students who incur deficiencies may use enrichment courses in previous summers to make up for deficiencies incurred subsequently.

## Transcripts

All current students submit requests for academic transcripts at [bc.edu/myservices](https://bc.edu/myservices) ("Transcript Request and Status"). Alumni should visit [bc.edu/transcript](https://bc.edu/transcript) for direction on the transcript request process. Students and alumni will be directed to the National Student Clearinghouse transcript fulfillment website as our vendor for transcripts. For more information visit [bc.edu/transcript](https://bc.edu/transcript).

Requests are usually processed within 48 to 72 hours of receipt.

## Transcript/Diploma Holds

Diplomas will not be issued, nor transcript requests honored, for any student with an outstanding financial obligation to the University. The same policy applies to any student who does not complete the required loan exit interview.

## Transfer of Credit

The unit of credit at Boston College is the semester hour. Most courses earn 3 semester hours of credit. Lab sciences usually earn 4 semester hours of credit. Courses in transfer with credit values ranging from 1–4 semester hours of credit will be considered on a course by course basis. A maximum of 30 credit hours for a first semester sophomore, 45 for a second semester sophomore and 60 semester hours of credit for an incoming junior will be allowed in transfer.

No transfer credit will be granted for internships, field experiences, practica, or independent study.

Grade point averages do not transfer with students. A new grade point average begins with the commencement of a student's career at the University and reflects only work completed as a full-time undergraduate at Boston College. A new grade point average also begins when students transfer from the Woods College of Advancing Studies to one of the full-time undergraduate schools or when a full-time undergraduate transfers to the Woods College of Advancing Studies.

Courses taken at other institutions during the summer prior to enrollment at Boston College must be approved in advance by the Office of Transfer Admission. Courses taken through the Boston College Summer Session during the summer prior to enrollment must be approved by the appropriate Academic Dean.

## University Communication Policies and Student Responsibilities

Official communications of the University with its currently-enrolled students, including notices of academic and administrative matters and communications from faculty and administrative staff, may be sent via postal service, campus mail, or e-mail. To assure that these communications arrive in a timely manner, all enrolled students have the following responsibilities:

**Postal service and Campus mail:** For purposes of written communication, the student's local and permanent addresses on record at Student Services will be regarded as the student's official local and permanent residences. All students have a responsibility to provide both local and permanent mailing addresses, and to enter corrections at [bc.edu/myservices](https://bc.edu/myservices) ("Update Your Address/Phone/Emergency Contact Information") if the addresses are not accurate in university records. Students should review their address record for accuracy at the beginning of each semester, and again soon after submitting any corrections.

Students who are studying abroad have a responsibility to provide their local international address via a link on the Office of International Programs website.

**E-mail:** The University recognizes and uses electronic mail as an appropriate medium for official communication. The University provides all enrolled students with Boston College e-mail addresses, as well as access to e-mail services from computer stations at various locations on campus. All students are expected to access their e-mail accounts regularly, to check for official University communications, and to respond as necessary to such communications.

All student responses to official e-mail communications from the University must contain the student's Boston College e-mail address in the "From:" and "Reply To:" lines, and should originate from the student's Boston College e-mail address, to assure that the response can be recognized as a message from a member of the University community.

Students may forward their e-mail messages from their Boston College e-mail address to non-university e-mail systems, if they wish. In such cases, however, students shall be solely responsible for all consequences arising from such forwarding arrangements, including any failure by the non-university system to deliver or retain official University communications. Students should send test messages to and from their University e-mail account on a regular basis, to confirm that their e-mail service is functioning reliably.

## University Degree Requirements

The requirements for the bachelor's degree in the undergraduate day colleges are the completion with a satisfactory cumulative average (at least 1.5 in the Carroll School of Management and at least 1.667 in all other schools) and credit requirements which are distributed as follows:

- Morrissey College of Arts and Sciences students must accumulate at least 120 credits with 96 of the required 120 credits in departments of the Morrissey College of Arts and Sciences. Additional courses may be chosen from the offerings of the professional schools. Students in the Morrissey College of Arts and Sciences complete the Core curriculum, a major of at least 30 credits, and the language proficiency requirement distributed over eight semesters of full-time academic work.
- Carroll School of Management students complete 120 credits for graduation. All Lynch School of Education and Human Development majors complete 120 credits distributed over eight semesters of full-time academic work.
- Connell School of Nursing students complete at least 117 credits distributed over eight semesters of full-time academic work.

## Withdrawal from a Course

Undergraduates may drop or add a course(s) online **during the first seven class-days of the semester**. Undergraduates only may drop a course until October 1, in the fall and February 15, in the spring semesters in their Academic Dean's office. Students may not drop below 12 credits in a semester.

After the extended drop period, undergraduates who withdraw from a course will have a "W" recorded in the grade column of their academic record. A grade of W has no effect on the GPA. A student may re-take a course for which a W has been recorded, in which case both the W and the subsequent grade are entered on the academic record.

To withdraw from a course all students must go to the [Academic Forms](#) page of the [Student Services](#) website, submit the online form that will then be routed, to the Office of the Academic Dean for their school for review. Students will not be permitted to withdraw from courses after the published deadline. Students who are still registered at this point will receive a final grade for the semester.

## Withdrawal from Boston College

Students who wish to withdraw from Boston College in good standing are required to submit an online Withdrawal Form, found on the [Academic Forms](#) page of the [Student Services](#) website, which will be routed to the appropriate Academic Dean's Office for processing. In the case of students who are dismissed for academic or disciplinary reasons, the Academic Dean will process the withdrawal.

## University (Senior) Awards and Honors

### Morrissey College of Arts and Sciences

#### *Frank J. Bailey, Sr. Award*

An award, the gift of the Bailey family, in memory of their father Frank J. Bailey, given to the graduating senior with a distinguished academic record in the field of Middle Eastern and Islamic Studies.

*John Bapst, S.J., Philosophy Award*

An award in honor of John Bapst, S.J., given to the student whose overall performance in philosophy courses has been outstanding.

*J. Robert Barth, S.J., Award for Excellence in the Arts*

An award in honor of the Dean of the Morrissey College of Arts and Sciences (1988–1999), who established and nurtured departments and programs in the arts. This award is presented annually to a senior who has made outstanding contributions to Boston College in the fine or performing arts.

*Andres Bello Award in Spanish*

An award offered by Dr. Paul William Garber and Dr. Philip C. Garber, Consuls of Chile in Boston, given to a senior who has excelled in Spanish.

*George F. and Jean W. Bemis Award*

An award in memory of George Fisher Bemis (1899–1971) and Jean Wilmot Bemis (1903–1987) of Milton, MA, a devoted couple quietly of service to others and with whom it was a delight to work. The award seeks to single out a member of the senior class distinguished for service to others.

*Albert A. Bennett Award*

In honor of Albert A. Bennett (1888–1971), an accomplished mathematician, distinguished teacher, and a Visiting Professor of Mathematics at Boston College from 1962–1971. This award is given to a member of the senior class, who demonstrates a high level of mathematical achievement and who, in their undergraduate years, has shown interest in or a desire for a career in teaching.

*Wendy Berson Language Award*

An award, the gift of Mrs. Solomon Berson in memory of her daughter, Wendy Berson, given to the senior who demonstrates excellence in the area of Romance Languages in general and, specifically, the ability to speak one or more languages with great expertise.

*Laetitia M. Blain Award for Excellence in Musical Performance*

An award named in honor of Laetitia M. Blain, Musician-In-Residence at Boston College (1975–2000). This award is given annually to a senior who has contributed to the musical life on campus in a significant and outstanding way.

*Alice E. Bourneuf Award*

In honor of Alice E. Bourneuf, Professor of Economics at Boston College (1959–1977), this award is given to an outstanding senior in Economics based on achievement in both major and non-major courses, strength of curriculum, quality of written and creative work, and attitude toward the study of Economics.

*Francis A. Brick Award*

An award, the gift of Mrs. Francis A. Brick, in memory of her husband, Francis A. Brick, LL.D. 1896, given to the student who has been outstanding in character, loyalty, leadership, and scholarship during their four years at Boston College.

*The Dr. Donald S. Brown Award*

The Donald S. Brown Award was established in honor of the former director of the Office of AHANA Student Programs from 1978–2005. This award honors a senior who throughout their undergraduate career has made extraordinary contributions to the Boston College community in ways that have benefited AHANA students in the areas of leadership, service and academic development.

### *Donald S. Carlisle Award*

An award established by the Department of Political Science in memory of Donald S. Carlisle, Professor of Political Science at Boston College (1968–1997), given each year to a graduating senior for outstanding achievement in political science.

### *Normand Cartier Award*

The Normand Cartier Award is given to a senior who is a member of the Lambda Psi Chapter of the Pi Delta Phi National French Honors Society and has demonstrated leadership in promoting French and francophone literature and culture in the Boston College community.

### *Brendan Connolly, S.J., Award*

An award in honor of Brendan Connolly, S.J. (1913–1974), Director of Libraries at Boston College (1959–1974), a witty and deeply loyal man who loved books and respected learning. This award is made to a member of the senior class who is distinguished for the same characteristics.

### *Matthew Copithorne Scholarship*

An award given to a graduate, exhibiting qualities of character, industry, and intelligence, and plans to do graduate study at Harvard or MIT.

### *Cardinal Cushing Award*

An award donated by Francis Cardinal Spellman, in honor of Richard Cardinal Cushing, given annually to an undergraduate student for the best writing in fiction published in a Boston College undergraduate publication.

### *Joseph G. and Margaret M. Dever Fellowship*

Founded by Robert Muse, Esq. '42, in honor of his classmate, Joseph Dever, the cash grant is given to a graduating senior who shows promise of a career in writing.

### *John D. Donovan Award*

An award named in honor of John D. Donovan (Boston College, A.B. 1939; M.A. 1941; Harvard, Ph.D. 1951), Professor of Sociology (1952–1988). The Department of Sociology presents this award to the undergraduate student who submits the best paper written for a course in sociology during the previous year.

### *Patrick Durcan Award*

An award, the gift of Mrs. J. Greer, in memory of her brother, Rev. Patrick Durcan, given to the student whose overall performance in history courses has been outstanding.

### *Figurito Family Award for Scholarly Achievement in Italian*

An award presented in honor of Joseph Figurito, Professor of French and Italian at Boston College for over half the twentieth century, to a senior for scholarly achievement in Italian.

### *Edward H. Finnegan, S.J., Award*

An award in memory of Rev. Edward H. Finnegan, S.J., given to the student who has best exemplified in their four years at Boston College the spirit of the College motto, "Ever to Excel."

### *Mary A. and Katherine G. Finneran Commencement Award*

An award, the gift of Misses Elizabeth and Theresa Finneran, given to the student who has achieved outstanding success in studies, while also devoting time and talents to other activities for the enrichment of the College and student life.

*William A. Gamson Award*

An award established by the Department of Sociology in honor of William A. Gamson, given each year to a graduating senior for outstanding academic achievement in sociology.

*Thomas I. Gasson, S.J., Award*

An award in honor of Thomas I. Gasson, S. J., President of Boston College (1907–1914), given to the graduating senior with a distinguished academic record over a four-year period.

*General Excellence Award*

A gift of the Philomatheia Club, given to the student who has achieved general excellence in all branches of studies during their entire four years at Boston College.

*Giffuni Prize*

An award sponsored by the Giffuni Family Fund in honor of Vincent Giffuni (BC '65), given to a senior who has written an outstanding thesis in economics.

*The George J. Goldsmith Award*

An award given in memory of longtime Physics Department faculty member George J. Goldsmith, who is remembered for both his scholarship and his selfless dedication to the students of Boston College, this award is given annually to a graduating physics major in recognition of excellence in academic achievement and research.

*John L. Heineman Award*

This award was established by the History Department in honor of the late John L. Heineman, a challenging and inspirational colleague (1963–2003), a Renaissance man, and a master teacher. It is given each year to a graduating senior in recognition of exceptional historical scholarship.

*Janet Wilson James Essay Prize*

An award in memory of Professor Janet Wilson James, historian and feminist scholar, given to a senior distinguished for scholarship in women's studies.

*The David A. Karp Award*

An award in honor of David A. Karp, Professor of Sociology from 1971–2012. While leading the Sociology Honors Program, he inspired generations of students to strive for insightful sociological listening and beautiful writing that is the hallmark of his work.

*William A. Kean Memorial Award*

An award, the gift of James M. Kean in memory of his brother, William A. Kean '35, given to that member of the graduating class deemed the outstanding English major.

*Bishop Kelleher Award*

An award donated by Francis Cardinal Spellman in honor of The Most Reverend Louis F. Kelleher, given to an undergraduate student for the best writing in poetry published in a Boston College undergraduate publication.

*William J. Kenealy, S.J., Award*

An award in memory of the late William J. Kenealy, S.J., Dean of the Boston College Law School (1939–1956), whose life was distinguished by a passion for social justice. This award is given to the graduating senior who has been distinguished in both academic work and social concern.

*T. Frank Kennedy, S.J., Award for Excellence in the Academic Study of Music*

An award given in honor of the co-founder, long-term chair, and guiding spirit of the Music Department to an outstanding senior who has shown consistent excellence in the academic study of Music.

*Joseph M. Larkin, S.J., Award*

An award presented annually to the senior member of the Boston College Dramatics Society who has most clearly exhibited the qualities of dedication and integrity exemplified by the life and career of Rev. Joseph M. Larkin, S.J.

*John Henry Lawton Award*

An award presented in memory of John Henry Lawton, to the member of the senior class who has shown outstanding scholarship in the Department of Communication.

*Allison R. Macomber, Jr., Award in the Fine Arts*

Two awards established and supported primarily by gifts from the Horbach Fund for outstanding work in the Fine Arts in honor of Allison R. Macomber, Jr., Artist-in-Residence at Boston College, 1963–1979, whose presence and teaching opened the eyes not only of his students but of the entire community to the greatness and wonders of art.

*J. Paul Marcoux Award*

An award in honor of J. Paul Marcoux, Professor of Theater at Boston College (1964–1994), presented annually to a senior Theater major for excellence and growth, both academically and artistically, over their four years at Boston College.

*Richard and Marianne Martin Award*

In memory of Richard and Marianne Martin for their dedication to the ideals of art, and for their unstinting devotion to the goals and values of Boston College. Two awards are given by the Boston College Friends of Art; one to an outstanding scholar in art history, the other to a student who excels in studio art.

*Denis A. McCarthy Award*

The Denis A. McCarthy Award is given to an undergraduate for outstanding work in creative writing.

*John McCarthy, S.J., Award*

An award established in memory of Rev. John McCarthy, S.J., a most beloved scholar, faculty member, and Dean in the Morrissey College of Arts and Sciences, for those whose Scholar of the College projects are deemed most distinguished in the Humanities, the Social Sciences, the Natural Sciences and in History.

*Gail A. McGrath Award*

An award presented in memory of Dr. Gail A. McGrath, a beloved professor of Communication at Boston College (1966–1997), to a member of the senior class pursuing a graduate degree in Communication.

*Albert McGuinn, S.J., Award*

This award is in memory of the late Albert McGuinn, S.J., long-time Chairman of the Chemistry Department at Boston College, and presented to the senior candidate for the Bachelor of Science degree. The recipient has most successfully combined proficiency in a major field of study with achievements, either academic, extracurricular, or a combination of both, in the social sciences or humanities.

*Henry J. McMahon Award*

In memory of Henry J. McMahon, faculty member and Associate Dean at Boston College (1946–1984). This award is given annually to the graduating senior of the Morrissey College of Arts and Sciences who has been accepted at a law school and who has been distinguished by scholarship, loyalty, and service to the College.

*The John J. Neuhauser Award in Computer Science*

An award given to the senior in the Morrissey College of Arts and Sciences who has demonstrated outstanding achievement in computer science.

*John F. Norton Award*

An award in honor of John F. Norton '22, Boston College professor (1926–1965), given to the student who best personifies the tradition of humanistic scholarship.

*Cardinal O'Connell Theology Award*

An award, the gift of the late William Cardinal O'Connell, given to the student whose overall performance in theology courses has been outstanding.

*The Thomas H. O'Connor Award*

An award established by the History Department in honor of the late Thomas H. O'Connor, who taught in the department from 1950–1999, and who also served as Boston College University Historian. It is given each year to a graduating senior in recognition of outstanding achievement in the study of American history.

*Princess Grace of Monaco Award*

An award offered by Dr. Helene Day, Consul of Monaco, and Dr. Paul William Garber and Dr. Philip C. Garber, Consuls of Chile in Boston, given to a senior who has excelled in French.

*E. Paul Robsham Distinguished Service Award*

An award given annually by the Theater Department to the graduating senior, who though seldom sharing the spotlight, has worked with exceptional professionalism, dedication, creativity and enthusiasm behind the scenes to bring the benefits of the theater to the Boston College community.

*Paul J. Sally, Jr., Award*

A cash award, in honor of Paul J. Sally, Jr., '54, '56, Professor of Mathematics at the University of Chicago, a highly esteemed mathematician well known for his many contributions to mathematical endeavors at all levels. This award is bestowed on senior mathematics majors who demonstrate excellence in mathematics coursework of a particularly demanding nature.

*Secondary Education Minor Award*

This award is conferred on a student in the Morrissey College of Arts and Sciences who has completed the Secondary Education Program within the Lynch School of Education and Human Development and has achieved distinguished success as a student teacher.

### *Harry W. Smith Award*

An award, the gift of the Smith Family, in memory of Harry W. Smith, a leader in corporate and community philanthropic work, to honor a member of the senior class who has used personal talents to an exceptional degree in the service of others.

### *Dr. Joseph R. Stanton, M.D., '42 Award*

This award is a gift from Stanton Medical Associates in memory of Joseph Stanton, M.D. '42. The award is intended for a graduating senior who has been accepted by a medical school and who has been outstanding in character, loyalty, leadership, and scholarship at Boston College.

### *Dr. Joseph S. Stanton Memorial Award*

An award, the gift of Doctors Richard Stanton '38 and Joseph R. Stanton '42 in memory of their father, Joseph Stanton who was also a doctor. The award is given to the student who has been accepted to a medical school and who has been outstanding in character, loyalty, leadership, and scholarship at Boston College.

### *Tully Theology Award*

An award given in memory of the late Dennis H. Tully, given to the student who has written the best paper on a theological subject.

### *Max Wainer Award*

An award, the gift of Anneliese K. Wainer, Ph.D., '72, in honor of her husband, Max Wainer, given annually to the senior who is deemed the outstanding student in Classics.

## **Lynch School of Education and Human Development**

### *Charles F. Donovan, S.J., Award*

Presented to a member of the senior class in honor of Father Donovan, founding Dean of the School. The recipient exhibits superior leadership, academic, and innovative qualities, and demonstrates excellence in professional and personal commitment, with a genuine concern for the needs and values of others.

### *General Excellence Award*

Presented to a senior who has at the same time manifested outstanding achievement in all courses of study during four academic years and qualifies for teaching licensure.

### *Saint Edmund Champion Award*

Presented for excellence in an academic major.

### *Reverend Edward H. Finnegan, S.J., Nominee Award*

Presented to the Lynch School nominee for the top undergraduate prize given to the graduating senior who best exemplifies the qualities of excellence, humility, and service to others and who best epitomizes the University's motto, "Ever to Excel."

### *Dr. Marie M. Gearan Award*

Presented in honor of Professor Gearan, a member of the original faculty and first Director of Student Teaching, to a member of the senior class for outstanding academic achievement, campus leadership, and distinguished success as a student teacher.

*Saint Richard Gwyn Award*

Presented to a member of the senior class for outstanding promise as a secondary teacher.

*Reverend Henry P. Wennerberg, S.J., Award*

Presented in honor of Father Wennerberg, first spiritual counselor in the School, to a member of the senior class who is outstanding for participation and leadership in school and campus activities.

*John J. Cardinal Wright Award*

Presented in honor of Cardinal Wright to that senior who has shown expert use of creativity and imagination in the area of motivation, and at the same time is dedicated to high educational ideals.

*John A. Schmitt Award*

Presented to a member of the senior class who, as Professor Schmitt did, has consistently demonstrated compassion for fellow human beings, integrity in dealings with others, diligence in his or her profession, and courage in the pursuit of what he or she believes to be right.

*Mr. and Mrs. Vincent P. Roberts Award*

Presented to a member of the senior class who is distinguished for loyalty to the ideals and purposes of the Lynch School.

*James F. Moynihan, S.J., Award*

Presented in honor of Father Moynihan, first chair of the Psychology Department and Professor of Psychology in Education for many years, to a student in the Applied Psychology and Human Development Program, who has shown superior scholarship, contributed creatively to the well-being of others, and has manifested dedication and commitment to the enhancement of the human development process.

*Patricia M. Coyle Award*

Given to the graduating senior in Elementary Education who is a clear thinker in the field, able to translate the theories of child development and learning into the practice of teaching young children with enthusiasm and love, and a person who is a thoughtful, reflective teacher, perceptive and sensitive to the needs of children.

*Karen E. Noonan Award*

Given to the graduating senior in Elementary Education who has the qualities of a "natural" teacher of young children; a person who can communicate warmth and a sense of excitement for learning; a person who loves the exhilaration of working with challenging students, and making each child in the classroom feel important and unique.

*Cynthia J. Sullivan '79 Memorial Achievement Award*

Presented to members of the junior class who have achieved outstanding academic achievement; demonstrated qualities of loyalty, generosity of self, and integrity; and show an appreciation for the arts.

*Cynthia J. Sullivan Award Winner*

Presented to last year's winner of the Cynthia J. Sullivan Memorial Achievement Award, this stipend is intended to fund graduate study or post-graduate travel.

*Reverend John Christopher Sullivan, S.J., Award*

Presented in honor of Father Sullivan, first Associate Dean in the School of Education, to a member of the senior class who, as Father Sullivan did, exhibits cheerfulness, creativity, enthusiasm, and high energy; who demonstrates respect for individuals and is supportive of others; who

shares with them the gift of personal care, regard, individual attention, warmth, and respectful sense of humor; and whose personality and actions reflect an appreciation of the dignity and value of every individual.

*Bernard A. Stotsky/Professor John Eichorn Prize*

Awarded to a student who has demonstrated excellence in the area of special education at the undergraduate level and does a practicum or pre-practicum at the Campus School as part of an academic program of study in the Lynch School.

*Gretchen A. Bussard Award*

Presented to a member of the junior class in the Applied Psychology and Human Development Program who has used what he or she has learned in the classroom to improve the lives of others.

*Albert A. Bennett Award*

Presented by the Morrissey College of Arts and Sciences, in honor of Professor Bennett (1888–1971), visiting professor of mathematics at Boston College 1962–1971, to a member of the graduating class who demonstrates a high level of mathematical achievement and who has shown interest in or a desire for a career in teaching.

*Secondary Education Award*

Given to the student in the Morrissey College of Arts and Sciences who has completed the Secondary Education Program and has achieved distinguished success as a student teacher.

*Lynch School Awards*

Presented to graduating seniors for academic excellence and outstanding performance in a variety of areas.

**Carroll School of Management**

*Thomas I. Gasson, S.J., Award*

Founded by Boston College for general excellence in all courses of study during the four years in the Carroll School of Management.

*The Edward H. Finnegan, S.J. Memorial Award Nominee*

The top commencement honor which recognizes a senior who best exemplifies the University's motto: "Ever to Excel."

*The James Gips Outstanding Student in Information Systems Award*

Awarded to the student who has demonstrated outstanding achievement in the field of Information Systems.

*The John B. Atkinson Award*

Founded by John B. Atkinson for excellence in all courses studied in the field of Operations Management.

*George Aragon Outstanding Student Award*

For an outstanding senior concentrating in Finance. The selection is made by the faculty committee of the Finance Department.

*The Edgar F. Huse Memorial Award*

An award presented annually by the faculty for excellence in Management and Leadership.

*The Hutchinson Memorial Award*

Presented by the Boston chapter of the American Marketing Association to a Marketing student.

*The Raymond F. Keyes Service Award*

Awarded to a senior concentrating in Marketing who has demonstrated a desire to provide service to the nonprofit community.

*Charles W. Lyons, S.J., Award*

Founded by Boston College for excellence in all courses studied in the field of Accounting.

*The Patrick A. O'Connell Finance Award*

Founded by Patrick A. O'Connell for excellence in all courses studied in the field of Finance.

*The Patrick A. O'Connell Marketing Award*

Founded by Patrick A. O'Connell for excellence in all courses studied in the field of Marketing.

*The Eric Allen Serra Award*

Established in 1993 by the friends of Eric Allen Serra and awarded to a graduating senior who is actively involved in the BC community and best represents the attributes for which Eric is remembered by his friends.

*The James E. Shaw Memorial Award*

An award given to a senior in the Carroll School of Management who has been accepted to a recognized Law School. The student demonstrates a strong personal interest in the welfare of fellow students.

*The Rev. Stephen Shea, S.J., Award*

Awarded to the senior who has attained the highest average in all courses in Philosophy during four years in the Carroll School of Management.

*The James D. Sullivan, S.J., Award*

Awarded to a senior outstanding in character and achievement.

*The Matthew J. Toomey Award*

Founded by Mr. Knowles J. Toomey to honor the outstanding student in the Carroll School of Management Honors Program.

*Outstanding Student in Business Analytics Award*

Awarded to the senior who demonstrates excellence in all courses studied in the Business Analytics discipline.

*Dean's Letter of Commendation*

Awarded to a senior who is recognized for exemplary accomplishment in the Carroll School community.

## **Connell School of Nursing**

### *Alumni Award*

Established by the alumni to honor a nursing student for general excellence in both the classroom and in the wider Boston College community.

### *Marie S. Andrews Clinical Performance Award*

Established by the faculty to honor the student who has demonstrated, through performance across the clinical education portion of the curriculum, sensitivity to the needs of patients, respect for dignity and “wholeness” of the patient, and outstanding ability to deliver quality nursing care.

### *Cathy Jean Malek Award*

Established by the faculty to honor the student who is a role model for his or her fellow classmates and underclassmen with consistent professionalism and integrity.

### *William F. Connell Award Undergraduate Nominee*

Established by the faculty to honor one graduating student who best demonstrates the attributes of leadership, loyalty, service, achievement, humility, and goodwill.

### *Edward H. Finnegan, S.J., Award Nominee*

Established by the faculty to honor the student, who through excellence, humility, and service to others, exemplifies the Boston College motto of “Ever to Excel.” The faculty of the four undergraduate schools at Boston College each nominates a candidate and the winner is announced at the University Commencement. The award winner will accept the degree for the class at the University Commencement.

### *Reverend Edward J. Gorman, S.J., Leadership Award*

Given to the student who, in the judgment of classmates, best exemplifies leadership and who has contributed to the William F. Connell School of Nursing through dedication, service, and sincerity.

### *Susan E. Donelan Inclusive Community Award*

Given to the student who, in the judgment of classmates has promoted a spirit of cultural awareness, inclusivity, and support to foster the success of his or her graduating class.

### *Jean A. O’Neil Achievement Award*

Established by the faculty to honor the graduating senior who has shown the greatest academic growth over the course of their four years of study in the baccalaureate nursing program.

### *Maureen A. Eldredge Leadership and Volunteer Service Award*

Established by the faculty to honor the graduate who embodies the Jesuit ideals of being “men and women in service to others” through demonstrated leadership and substantial commitment to others in volunteer service.

# Graduate Academic Regulations

University-wide academic regulations that pertain to all graduate and professional students are presented below. Students are expected to become familiar with the regulations that are specific to their school.

To learn about each school's academic regulations, please refer to the following sites:

## **Graduate School of the Morrissey College of Arts and Sciences**

[bc.edu/bc-web/schools/mcas/graduate/current-graduate-students/policies-and-procedures.html](https://bc.edu/bc-web/schools/mcas/graduate/current-graduate-students/policies-and-procedures.html)

## **Lynch School of Education and Human Development, Graduate Programs**

*Master's Students:* [bc.edu/content/bc-web/schools/lynch-school/sites/audience-pages/current-students/policies-and-procedures#tab-masters](https://bc.edu/content/bc-web/schools/lynch-school/sites/audience-pages/current-students/policies-and-procedures#tab-masters)

*Doctoral Students:* [bc.edu/content/bc-web/schools/lynch-school/sites/audience-pages/current-students/policies-and-procedures#tab-doctoral](https://bc.edu/content/bc-web/schools/lynch-school/sites/audience-pages/current-students/policies-and-procedures#tab-doctoral)

## **Carroll School of Management, Graduate Programs**

[bc.edu/bc-web/schools/carroll-school/audience-pages/current-students.html#graduate](https://bc.edu/bc-web/schools/carroll-school/audience-pages/current-students.html#graduate)

## **Connell School of Nursing, Graduate Programs**

*Master's Students:* [bc.edu/bc-web/schools/cson/sites/students.html#master\\_s](https://bc.edu/bc-web/schools/cson/sites/students.html#master_s)

*Doctoral Students:* [bc.edu/bc-web/schools/cson/sites/students.html#ph\\_d](https://bc.edu/bc-web/schools/cson/sites/students.html#ph_d)

## **Boston College School of Social Work**

[bc.edu/schools/gssw/academics/academic-policies.html](https://bc.edu/schools/gssw/academics/academic-policies.html)

## **Boston College Law School**

[bc.edu/content/dam/bc1/schools/law/top-bar/current-students/Academics/documents-forms/academic\\_policies\\_and\\_procedures.pdf](https://bc.edu/content/dam/bc1/schools/law/top-bar/current-students/Academics/documents-forms/academic_policies_and_procedures.pdf)

## **School of Theology and Ministry**

[bc.edu/content/bc-web/schools/stm/sites/audience-pages/current-students/AcademicPolicies.html](https://bc.edu/content/bc-web/schools/stm/sites/audience-pages/current-students/AcademicPolicies.html)

## **Woods College of Advancing Studies**

[bc.edu/bc-web/schools/wcas/sites/information-for/current-students/academic-policies.html](https://bc.edu/bc-web/schools/wcas/sites/information-for/current-students/academic-policies.html)

Academic Regulations are effective from September of the current academic year (2021–2022) except where a different date is explicitly stated. If there have been changes in the Academic Regulations and degree requirements since a student readmitted after sustained leave was last enrolled, the Academic Regulations in effect at the time of the student's readmission to full-time study will apply, unless the Associate Dean specifies otherwise in writing at the time of readmission.

## **Academic Grievances**

Any graduate or professional student who believes he or she has been treated unfairly in academic matters should consult with the faculty member or administrator designated by their school to discuss the situation and to obtain information about relevant grievance policies and procedures.

## **Academic Record**

A record of each graduate or professional student's academic work is prepared and maintained permanently by the Office of Student Services. Student academic records are sealed at the time the degree is conferred. After this date changes may not be made, with the exception of errors or omissions.

## **Attendance**

Graduate and professional students are expected to meet course requirements in classes, internships, and practica as specified in the syllabus or document prepared explicitly for the academic experience. A student who is absent repeatedly from these academic experiences will be evaluated by the responsible faculty member and/or designated supervisor(s) to ascertain the student's ability to continue in the course and to achieve course objectives.

Professors may include, as part of the semester's grades, marks for the quality and quantity of the student's participation in the course.

Professors will announce, reasonably well in advance, tests, examinations and other forms of assessment based on the material covered in the course, as well as other assigned material. A student who is absent from a course is responsible for obtaining knowledge of what happened in the course, especially information about announced tests, papers, or other assignments.

A student who is absent from a course on the day of a previously announced examination, including the final examination, is not entitled, as a matter of right, to make up what was missed. The professor involved is free to decide whether a makeup will be allowed.

In cases of prolonged absence the student or his or her representative should communicate with the student's graduate Associate Dean as soon as the prospect of extended absence becomes clear. The academic arrangements for the student's return to the course should be made with the Graduate Associate Dean's Office as soon as the student's health and other circumstances permit.

## **Absences for Religious Reasons**

Any graduate or professional student who is unable, because of his or her religious beliefs, to attend classes, internships, or practica, or to participate in any examination, study, or work requirement on a particular day shall be excused from any such examination, or study or work requirement, and shall be provided with an opportunity to makeup such examination, study or work requirement that may have been missed because of such absence on any particular day. However, students should notify professors and supervisors at the end of the first course meeting or at least two weeks in advance of any such planned observances, and such makeup examination or work shall not create an unreasonable burden upon the University. No fees will be charged and no adverse or prejudicial effects shall result to any student who is absent for religious reasons.

## **Audits**

Graduate and professional students should consult their school or department for specific policies regarding audits.

## **Comprehensive Examination or Qualifying Papers: Doctoral**

Graduate and professional students should consult their school or department for specific policies regarding comprehensive examinations or qualifying papers for doctoral students.

## **Comprehensive Examination: Master's Students**

Graduate and professional students should consult their school or department for specific policies regarding comprehensive examinations for master's students.

## **Continuation: Doctoral Candidacy**

Graduate and professional students who have completed all required coursework and who have successfully completed the comprehensive examination or the oral defense of a publishable paper are admitted to doctoral candidacy. Doctoral candidates are required to register and pay for Doctoral Continuation (9999) during each semester of their candidacy or its equivalent.

Please refer to your school's regulation for additional information on doctoral candidacy.

## **Cross Registration**

### **Boston Theological Interreligious Consortium**

The Boston Theological Interreligious Consortium (BTI), a consortium of theology faculty primarily in the Boston-Newton-Cambridge area, has as its constituent members the following institutions. Graduate and professional students should consult their school or department for specific policies regarding cross-registration in the BTI.

- Boston College Theology Department
- Boston College School of Theology and Ministry
- Boston University School of Theology
- Gordon-Conwell Theological Seminary
- Hartford Seminary
- Harvard Divinity School
- Hebrew College
- Holy Cross Greek Orthodox School of Theology
- St. John's Seminary and Theological Institute

### **The Consortium**

Boston College is part of a consortium that includes Boston University, Brandeis University, Hebrew College, Hellenic College, Pine Manor College, Regis College, Northeastern, and Tufts University. Eligible students are allowed to take courses at any of these institutions if the same courses are not offered at Boston College at any time during the academic year. Cross registration materials are available from the Office of Student Services. Graduate and professional students should consult their school or department for specific policies regarding cross-registration in this consortium.

### **Consortium for Graduate Studies in Gender, Culture, Women, and Sexuality**

Eligible graduate and professional students enrolled in degree programs during the academic year may apply to participate in the Consortium for Graduate Studies in Gender, Culture, Women, and Sexuality, an inter-institutional enterprise established to advance the field of women's studies and enlarge the scope of graduate education through new models of team teaching and interdisciplinary study. Faculty and students are drawn from nine member schools: Boston College, Boston University, Brandeis University, Harvard University, MIT, Northeastern, Simmons, Tufts, and UMass Boston. Graduate and professional students should consult their school or department for specific policies regarding cross-registration in this consortium. Eligible students need to obtain permission from their department or school. Registration forms will be mailed from the Consortium to accepted students.

## **Enrollment Status**

### **Full-Time Enrollment Status**

Graduate and professional students should consult their school or department for specific policies regarding full-time enrollment status.

## Final Examinations

For graduate level courses that have final examinations, professors may use the University's final examination schedule, which is public and set before classes begin, or they may set the day and time of their final examination in the syllabus or document prepared explicitly for the academic experience. All students are responsible for knowing when their final examinations will take place and for taking examinations at the scheduled time. Students who miss a final examination are not entitled, as a matter of right, to a makeup examination except for serious illness and/or family emergency. Students who are not able to take a final examination during its scheduled time should contact the person designated by the department or school, preferably prior to the examination date, to inform them of their situation and to make alternative arrangements if granted permission to do so.

## Foreign Language Requirement

Graduate and professional students should consult their school or department for specific policies regarding foreign language requirements.

## Grading

In each graduate course, in which a graduate or professional student is registered for graduate credit, the student will receive one of the following grades at the end of the semester: A, A-, B+, B, B-, C, F, W, J, U, P, or I. The high passing grade of A is awarded for superior work. The passing grade of B is awarded for work that clearly is satisfactory at the graduate level. The low passing grade of C is awarded for work that is minimally acceptable at the graduate level. The failing grade of F is awarded for work that is unsatisfactory.

A pass/fail option is available for a limited number of courses. A U grade is recorded for ungraded courses such as doctoral continuation.

Please refer to your school's regulation for additional information on grading.

## Grading Scale

In computing averages, the following numerical equivalents are used. The entire grading scale is not used by all schools.

- A 4.00
- A- 3.67
- B+ 3.33
- B 3.00
- B- 2.67
- C+ 2.33
- C 2.00
- C- 1.67
- D+ 1.33
- D 1.00
- D- .67
- F .00
- P No effect on GPA
- U No effect on GPA

## Grade Changes

Grade changes should be made only for exceptional reasons. The grades submitted by faculty at the end of each semester are considered final unless the faculty member has granted the student an Incomplete. Incompletes may be granted to provide a student time to finish his or her course work after the date set for the course examination or in the course syllabus. Incompletes should only be granted for serious reasons, e.g., illness, and only when the student has been able to complete most of the course work but is missing a specific assignment, e.g., a final paper, an examination, etc. Incompletes are not to be granted to allow the student to complete a major portion of the course work after the end of the semester.

All I grades will automatically be changed to F on March 1 for the fall, August 1 for the spring, and October 1 for the summer except for students in the Boston College School of Social Work and the Boston College Law School.

Graduate and professional students should consult their school or department for more information on grade changes.

### **Student Work and Assessment**

The grading of student work serves as the primary means of individual evaluation; additionally, student work generally may be used to assess course, program, and the related, learning outcomes in support of continuous improvement.

### **Pass/Fail Electives**

Graduate and professional students should consult their school or department for specific policies regarding pass/fail electives.

### **Good Standing**

Grades, satisfactory performance in internships and practica, and timely completion of degree requirements determine a student's good standing in his or her program. Students should be informed in a timely manner if their good standing is in jeopardy and the conditions needed to maintain or establish good standing.

Graduate and professional students should consult their school or department for specific policies regarding academic good standing.

### **Graduation**

The University awards degrees in May, August, and December of each year. Commencement ceremonies are held only in May. Students who have completed all requirements for the degree before a specific graduation date are eligible to receive the degree as of the university's next official graduation date. A diploma will not be dated before all work is completed. Students who graduate in December or August may participate in commencement exercises the following May.

In order to ensure timely clearance, all students who plan to graduate should confirm their diploma names online at [bc.edu/my-services](https://bc.edu/my-services) according to the deadline listed on the diploma name/address link.

### **Leave of Absence**

#### **Voluntary Leave of Absence**

Graduate students who do not register for course work, Thesis or Dissertation Direction, or Interim Study in any given semester must request a leave of absence for that semester. Leaves of absence are not usually granted for more than two semesters at a time, and are rarely granted for students on Doctoral Continuation. Students may apply for a personal or medical leave of absence. As described below, appropriate documentation is required for a medical leave of absence.

Students may submit a personal or medical leave of absence request online using a form found on the Student Services Academic Forms page. Once submitted it will be routed to the appropriate school's Associate Dean's for review.

Leave time for either a personal or medical leave of absence will normally be considered a portion of the total time limit for the degree unless the contrary is decided upon initially between the student and the Associate Dean.

#### **Personal Leave of Absence**

Students on an approved personal leave of absence should contact the Associate Dean's Office at least six weeks prior to the semester in which they expect to re-enroll. The appropriate Associate Dean will make the decision on the readmission request.

## Medical Leave of Absence

If a student is unable to complete the coursework or other course of study for a semester due to medical reasons, the student may request a medical leave of absence. Medical leave, whether requested for mental health or physical health reasons, must be supported by appropriate documentation from a licensed care provider and be approved by the student's Associate Dean.

The University reserves the right to impose conditions on readmission from a medical leave, which may include: length of time on leave; the submission of documentation from the student's health care provider; the student's consent for the provider to discuss the student's condition with University clinicians, and/or an independent evaluation of the student's condition by University clinicians; and/or making use of University or outside professional services.

The conditions will be specified at the time of leave, and students will be asked to acknowledge their acceptance of them.

Students seeking to return from leave should contact the appropriate Academic Dean prior to seeking readmission no later than four weeks prior to the desired admission date. However, students seeking to return to a practicum, clinical or field education placement must contact the appropriate Academic Dean expressing the intent to seek readmission at least a full semester before the desired return.

Students on Boston College's medical insurance policy may be eligible to continue their health insurance the semester in which they take a medical leave of absence and the following semester. Students should consult with Student Services and can learn more about this policy at: [bc.edu/medinsurance](http://bc.edu/medinsurance). Students granted a medical leave may be entitled to a semester's tuition credit to be provided upon readmission, and should consult their school's policy regarding the tuition credit.

## Involuntary Leave of Absence

Students may be separated from the University for academic reasons (please refer to specific school or department policies for more information) or for reasons of health, safety, or when a student's continuance at Boston College poses significant risk to the student or others. For additional information, visit the [Division of Student Affairs](#) website.

## Readmission

Graduate and professional students seeking readmission to the University should consult with the policies and procedures specified by their department or school. The decision to re-admit a student will be based on a consideration of the best interests of both the student and the University.

## Summer Courses

In graduate programs, summer courses may be an integral part of the curriculum. Graduate and professional students should consult with their schools or departments for specific policies regarding summer courses.

## Time-to-Degree

Graduate and professional students should consult their school or department for specific policies regarding time-to-degree.

## Transcripts

All current graduate and professional students submit requests for academic transcripts at [bc.edu/myervices](http://bc.edu/myervices). Alumni should visit [bc.edu/transcript](http://bc.edu/transcript) for directions on the transcript request process. Students and alumni will be directed to the National Student Clearinghouse transcript fulfillment website as our vendor for transcripts. For more information, visit [bc.edu/transcript](http://bc.edu/transcript).

## Transcript/Diploma Holds

The University will not issue diplomas or release transcripts for any graduate or professional student with an outstanding financial obligation to the University, which includes failure to complete a mandatory loan exit interview.

## Transfer of Credit

Graduate and professional students should consult their school or department for specific policies regarding transfer of credit.

## University Communication Policies and Student Responsibilities

Official communications of the University with its currently enrolled graduate and professional students, including notices of academic and administrative matters and communications from faculty and administrative staff, may be sent via postal service, campus mail, or e-mail. To assure that these communications arrive in a timely manner, all enrolled students have the following responsibilities:

**Postal service and Campus mail:** For purposes of written communication, the student's local and permanent addresses on record at the Office of Student Services will be regarded as the student's official local and permanent residences. All students have a responsibility to provide both local and permanent mailing addresses and to enter corrections at [bc.edu/myservices](http://bc.edu/myservices) if the addresses are not accurate in University records. Students should review their address record for accuracy at the beginning of each semester and again soon after submitting any corrections.

**E-mail:** The University recognizes and uses electronic mail as an appropriate medium for official communication. The University provides all enrolled students with e-mail accounts as well as access to e-mail services from computer stations at various locations on campus. All students are expected to access their e-mail accounts regularly, to check for official University communications, and to respond as necessary to such communications.

Students may forward their e-mail messages from their University e-mail accounts to non-university e-mail systems. In such cases, students shall be solely responsible for all consequences arising from such forwarding arrangements, including any failure by the non-university system to deliver or retain official University communications. Students should send test messages to and from their University e-mail account on a regular basis, to confirm that their e-mail service is functioning reliably.

All student responses to official e-mail communications from the University must contain the student's University e-mail address in the "From:" and "Reply To:" lines and should originate from the student's University e-mail account, to assure that the response can be recognized as a message from a member of the University community.

## Withdrawal from a Course

Graduate and professional students who withdraw from a course after the drop/add period (after the first seven class-days of the semester) will have a "W" recorded in the grade column of their academic record. To withdraw from a course all students must go to the [Academic Forms](#) page of the [Student Services](#) website, submit the online form that will then be routed to the Office of the Academic Dean for their school for review. Students will not be permitted to withdraw from courses after the published deadline. Students who are still registered at this point will receive a final grade for the semester.

## Withdrawal from Boston College

Graduate and professional students who wish to withdraw from Boston College in good standing are required to submit an online Withdrawal Form, found on the [Academic Forms](#) page of the [Student Services](#) website, which will be routed to the appropriate Academic Dean's Office for review and processing. In the case of students who are dismissed for academic or disciplinary reasons, the Academic Dean will process the withdrawal.

## University Awards and Honors

Please refer to your school or department website for information about awards and honors.

## Distance Education Policies and Procedures

Boston College offers a variety of distance education opportunities, designed to offer students a flexible, online alternative to traditional on-campus programs and courses.

In support of Boston College's distance education initiatives, BC is an approved member of the [National Council for State Authorization Reciprocity Agreements](#), or SARA.

As described by SARA, the network provides a voluntary, regional approach to state oversight of postsecondary distance education. When states join SARA, they agree to follow uniform processes for approving their eligible institutions' participation. These policies help protect students and provide benefits to both states and institutions carrying out distance education in multiple states.

### Accreditation

Boston College is accredited by the [New England Commission of Higher Education](#) (NECHE) and has been accredited by NECHE since 1935.

NECHE is recognized by the U.S. Secretary of Education as a reliable authority on the quality of education and adheres to the standards of the Council for Higher Education Accreditation. As part of NECHE guidelines, member institutions undergo a peer review process every ten years which involves the preparation of a comprehensive self-study. Boston College's most recent full review for accreditation occurred in March 2017.

Inquiries regarding Boston College's accreditation status should be directed to the Office of the Provost and Dean of Faculties, Boston College, 270 Hammond Street, Chestnut Hill, MA 02467 (617-552-3260); individuals may also contact the New England Commission of Higher Education, 3 Burlington Woods Drive, Suite 100, Burlington, MA 01803 (781-425-7785).

Additional accreditation-related information may be found at Boston College's [Accreditation Information](#) site.

### Authorization

Boston College has been approved to participate in the National Council for State Authorization Reciprocity Agreements (SARA), which permits the university to offer distance education programming in [49 SARA member states, the District of Columbia, the U.S. Virgin Islands, and Puerto Rico](#). Note that courses and programs incorporating a "supervised field experience" (sometimes also referred to as an "out-of-state learning placement") are also covered by the provisions of SARA if under the oversight of a supervisor, mentor, faculty member,

or other qualified professional, located in the host state, who has a direct or indirect reporting responsibility to the institution where the student is enrolled. Examples include practica, student teaching, or internships.

### Non-SARA States

California does not participate in SARA; however, the [California Bureau for Private Postsecondary Education](#) does not regulate non-public higher education institutions that are degree granting, non-profit, and accredited, and so Boston College may offer distance education programming to students in California.

## APPROVED INSTITUTION

### Coverage and Limitations of SARA

As described by [NC-SARA](#), SARA only applies to postsecondary distance education activities conducted across state lines; it does not apply to distance education activity inside the SARA-participating institution's home state or to on-ground campuses. SARA does not affect the applicability of general purpose state laws; similarly, SARA has no effect on state licensing or certification requirements which often require additional approval from the applicable state board.

### Distance Education Programs Leading to Professional Licensure

Boston College is authorized, pursuant to SARA, to enroll students in online programs in the SARA states and territories.

Boston College makes every effort to ensure information about educational requirements for licensure or certification information is current; however, state requirements often change. Separate from educational requirements, state licensure boards may require applicants to complete professional examinations, background checks, years of professional experience, jurisprudence exams, etc. If you are planning to pursue professional licensure or certification in a state other than Massachusetts, it is strongly recommended that you:

- contact the appropriate licensing entity in that state to seek information and guidance regarding licensure or certification requirements before beginning an academic program
- check with departmental personnel in your specific program if you have questions about whether an online program meets licensure requirements in a specific state
- review additional information on state requirements for all programs that lead to licensure which can be accessed at Boston College's central repository of [Notices and Disclosures](#)

Again, SARA does not provide reciprocity for state professional licensing requirements. Academic programs and individual graduates must meet standards set by a state's licensure requirements in order for a graduate to be eligible for a license.

Please see [the table for license eligibility by state](#). [Contact information](#) by state is sourced from NC-SARA and is updated twice per year.

### Resources for Distance Education Students

Distance education students at Boston College have access to a wide range of student and academic services, for example:

- [Agora, Institutional Portal](#)
- [Boston College Bookstore](#)
- [Boston College Libraries](#)

- [Student Services](#)
- [University Catalog](#)

## International Students

International students are advised to understand and be apprised of the rules, regulations, and requirements related to distance education in their country of residence, particularly:

- If the country will recognize an online certificate or degree;
- Whether the program meets licensure or certification requirements in the country; and
- If the country charges any additional taxes, withholdings, or fees associated with online distance education programs.

International students are encouraged to research the policies pertaining to degree recognition in their home country, or anticipated country of residence, and to contact the program-specific administrator at Boston College for additional information prior to enrolling in a Boston College distance education program.

## Veterans

Boston College is approved by the [National Association of State Approving Agencies](#), advocates for quality education and training programs for our nation's veterans.

## Complaint Procedures for Students Enrolled in Distance Education Programming

Boston College makes available a variety of means to resolve distance education-related issues. A student enrolled in distance education must first attempt to resolve their complaint with their individual department/program or dean's office. In those instances for when a complaint cannot be resolved at the individual department/program or dean's office level, the student may contact the Office of Student Services for additional direction and/or questions.

## Boston College Contact

Jessica Greene  
Waul House 308, 140 Commonwealth Avenue  
Chestnut Hill, MA 02467  
(617) 552-0163, [jessica.greene.2@bc.edu](mailto:jessica.greene.2@bc.edu)

When a distance education-related complaint cannot be resolved at the department/program or dean's office level, the following pathways to resolution apply:

### For Massachusetts Residents and Online Students Located in Non-SARA Member States or Territories

You may file a consumer complaint with the Massachusetts Attorney General's Office (AGO) by using the [consumer complaint form](#). The AGO consumer complaint form should be used by students who are located in:

- Massachusetts
- Non-SARA Member States or Territories (e.g., California, Guam)

### For Online Students Located in SARA Member States or Territories

You may file a complaint with the Massachusetts Department of Higher Education (DHE) by using the DHE's [SARA complaint form](#). Please note that for SARA complaints, students are explicitly required to exhaust Boston College's available complaint procedures before filing a SARA complaint with the DHE.

The DHE complaint form should be used by students who are located in [SARA member states and territories](#). This includes all students who are located in SARA member states and territories for the purposes of completing out-of-state learning placements, such as internships, practica, clinical experiences, etc. in SARA member states and territories outside Massachusetts. The SARA complaint process is as follows:

1. Students must first attempt to resolve their complaint using internal administrative procedures offered by the SARA institution.
2. After all administrative remedies have been exhausted with the MA-SARA institution, the student may submit a SARA Complaint to the DHE via the [SARA complaint form](#).
3. The DHE shall send a copy of the complaint to the institution that is the subject of the complaint;
4. Within 30 days of the date that the DHE sends a copy of the complaint to the institution, the institution must provide a written response to the student and the DHE.

For more information, please refer to the DHE's [Complaint Policy and Process](#).

## Student Mobility

A requirement of SARA membership, and as directed by current United States Department of Education regulations as presented in the 2019 Higher Education Authorization, institutions must record in which state a student is located while enrolled in a distance education or correspondence course and apply the method to determine location consistently and to all students. (State Authorization 600.9(c)(1)(i)).

SARA and federal regulations consider a student's location to be the **state, territory, or district where the student is located while receiving the instruction; it does not refer to the student's official state of residence**. For prospective students, Boston College's admissions systems reflect the local address as submitted by the student on the student's application, and this information serves as the source for "student location." In the event that this information is not populated, home address information serves as the source for "student location." For enrolled students, Boston College's student information system (UIS) reflects the local address as recorded at the time of the student's initial enrollment, and this information serves as the source for "student location." In the event that this information is not populated, home address information serves as the source for "student location."

Changing one's location prior to enrollment (i.e., during the application process) or while enrolled does not adversely impact a student's academic standing although students should be mindful that, if interested or enrolled in a program leading to professional licensure, a new state of location may have licensure regulations that are not met by Boston College's curriculum. Students should review disclosures on professional licensure and confer with their academic advisor and/or their academic program's department personnel in the event of a location change outside of Massachusetts.

In addition to recording location information related to academic programming, location is also recorded when students participate in learning placements outside of the classroom such as clinical experiences and internships. This information is typically tracked by program departments.

Applicants may update their location information through the application system appropriate to their program or may contact their program's Office of Admission. Enrolled students may update their location information at any time via Boston College's institutional portal, [Agora](#).

In Agora, under the "Account and Personal Info" section, click Address/Phone/Emergency Contact and follow the on-screen instructions. Support for Agora may be found at: [bc.edu/content/bc-web/offices/its/support/account-network-access/agora.html](https://bc.edu/content/bc-web/offices/its/support/account-network-access/agora.html).

## Student Verification for Distance Education Courses

Boston College employs a multi-pronged student identity verification system to help ensure that the identity of students who are admitted and enroll in distance education courses or programs are the same students who participate in and complete those courses or programs for academic credit.

At the time of application, all candidates must affirm that the contents of their submission are valid and reflect their own educational, professional, and related credentials, experiences, and accomplishments.

At the time of matriculation, University students enrolled in on-the-ground and hybrid courses/programs are issued a photo identification card (the “Eagle-One Card”) through the Office of Student Services that serves as the official ID card of Boston College. Proof of identification such as a driver's license or passport must be presented in order to be issued an Eagle-One Card. Students must keep this card available at all times and cards must be presented to authorized University officials upon request; falsifying, altering, or misusing one’s own or another’s Eagle-One Card in any way is strictly prohibited and illegal.

Faculty-student engagement is a fundamental dimension of a program’s curriculum, and thus, regardless of a course’s mode of delivery, the frequent and meaningful interaction between an instructor and student serves as an effective method of student identity assurance. Additionally, course experiences and assignments that encourage student-to-student interaction are also employed, principally to enhance learning, but also to serve as another means by which to verify the identity of students (peers and classmates).

An additional means of assuring student identity are the verification tools available to instructors via Boston College’s learning management system, Canvas. As students access course materials and discussion groups via Canvas, virtual communication technologies that integrate with Canvas, such as discussion boards, facilitate an instructor’s knowledge of a student’s writing style, ability, and tone, thereby helping to spotlight deviations. Identity verification is also supplemented via video conferencing by allowing instructors to confirm a student’s identity via the comparison of the video image with the student’s Eagle-One card image. Noteworthy is that, if necessary, IP addresses used to access Canvas can be investigated (for example, if it is suspected that an individual is attempting to present themselves as the student officially enrolled in the course); other analytics, such as page views and log-in dates/times are also available for review.

Also available to instructors, and specific to online courses, are two additional tools, Respondus and Proctorio.

Respondus is typically used when an instructor’s goal is to “lock down” the online testing environment within Canvas by securing students’ browsers; students are unable to copy, print, access other applications, or visit other websites during an online exam.

Proctorio serves as the most comprehensive live, remote proctoring tool available to Boston College instructors; it monitors audio and video and provides a full secure browser, thereby preventing web usage and the related during an exam.

Boston College’s Center for Teaching Excellence and Center for Digital Innovation in Learning offer support and training for these tools; there is no cost to instructors or students for the use of any of these resources.

## Special Programs

Boston College offers a number of special programs, including the following:

### Capstone Seminar Program

The Capstone Seminar Program helps students to “cap off” their Boston College experience by a review of their education and a preview of their major life commitments after college. Capstone offers several integrative seminars each semester exclusively for seniors in all schools. The Capstone seminars explore the struggle to discern your own calling in life as you integrate the four crucial areas of work, relationships, society, and spirituality. Capstone seminars are taught by two dozen faculty from 20 different departments and all four colleges—Morrissey College of Arts and Sciences, Carroll School of Management, Lynch School of Education and Human Development, and Connell School of Nursing. Seminars are limited to 15 to 19 students. All courses are listed between UNCP5500 and UNCP5599 in the *Boston College Catalog*. Many Capstone Seminars are also cross-listed in the home department of the professor and can be taken for elective credit by majors or minors in that department. Department regulations vary. You may take only one Capstone course during your academic career. Capstones cannot be taken as Pass/Fail. If a course requires permission, contact the instructor directly. For other information, contact the Program Director, Fr. James Weiss at [james.weiss@bc.edu](mailto:james.weiss@bc.edu) or see the University Courses section of this Catalog. You may also reference the Capstone Program website with full course descriptions and syllabi at [bc.edu/capstone](http://bc.edu/capstone).

### Faculty and Staff Children Exchange Program (FACHEX)

FACHEX is an undergraduate tuition remission program for children of full-time faculty, administrators, and staff at participating Jesuit colleges and universities. The program for BC employees is administered through the Benefits Office in cooperation with the Office of Enrollment Management.

For Boston College employees, five consecutive years of full-time employment are required for establishing eligibility for the program. Employees must complete the FACHEX Certification Form available on the Boston College [FACHEX website](#) and return it to the Benefits Office for processing before December 1. Only the Benefits Office can certify an employee child as FACHEX eligible in the FACHEX Database, and this form contains the required information for entry. Employees should review the FACHEX website for information regarding rules of the program. In addition, if an employee's child is interested in applying to any institutions participating in FACHEX, they should be aware of any applicable admission deadlines or requirements at those schools. Contact information for the FACHEX Coordinator at each participating institution can be found on the FACHEX website. BC does not maintain admissions policies of other schools in the program and cannot advise on their behalf.

FACHEX awards tend to be extremely limited in number and are highly competitive in terms of academic selectivity. As a result, there are no guarantees to the children of any given faculty, administrators, or staff that they will be able to utilize the FACHEX benefit at the institution of their choice. Also, many participating schools only consider incoming freshman applicants for FACHEX, so transfer students or upperclassmen may not be eligible.

Employees at other participating institutions should ask their respective Benefits Offices for information on requirements for FACHEX eligibility. Parents and students should then visit the Boston College [FACHEX website](#) to view the necessary procedures and conditions for FACHEX applicants.

## **Gabelli Presidential Scholars Program**

The Gabelli Presidential Scholars Program is an undergraduate academic merit program that annually awards full-tuition scholarships and fully-funded, GPSP-sponsored summer programs to 15 incoming freshmen students. Early Decision and Regular Decision applicants who submit their BC applications by the November 1 priority scholarship deadline will be considered. There is no separate application for this scholarship. Students are selected on the basis of superior academic achievement and promise, leadership potential, and a demonstrated commitment to service to society. The Program offers these extraordinary individuals the richest academic experience available at Boston College, one that encourages the pursuit of excellence both within and beyond the University walls. Presidential Scholars receive a full-tuition merit scholarship.

In addition to enrollment in one of the University's several departmental honors programs, during the academic year Scholars meet weekly to discuss their area of concentrations (science and pre-med, humanities, political science and international studies, and management, economics and finance), to share experiences and find greater wisdom in applying for study grants, language programs, internships, and fellowships, and to partake in the cultural life of Boston at the theater or the symphony. To complement the emphasis on ideas and ideals they encounter in their classes, and in their summer programs, Presidential Scholars also give presentations to their fellow scholars about a variety of their experiences including study abroad, Advanced Study Grants, internships, and thesis writing. These presentations serve as additional avenues of inspiration to younger scholars, offering them a glimpse of the opportunities that are open to them throughout their college careers. In addition, these presentations offer the upperclassmen scholars the opportunity to develop and refine their public speaking skills.

During the spring semester freshman Presidential Scholars travel to a country in Europe, while the sophomore Scholars travel to a country in Latin America. These trips are intended to be the starting point in the Scholars' journey of becoming "global citizens." In their freshman year, they spend a week in a non-English speaking European country, so as to realize skills that meet the challenge of linguistic differences. In their sophomore year, they have an immersion experience of the social and economic challenges for our neighbors to the South.

In the summers, Scholars are challenged to test and apply what they have learned at Boston College to the world beyond the campus by participating in experiential learning programs focusing on service learning (after the first year), independent international study and travel (after the second year), and professional internship (after the third year).

Through this carefully balanced combination of academic rigor and co-curricular opportunities and challenges, the Gabelli Presidential Scholars Program seeks to develop exceptional scholars and leaders for the Boston College community and far beyond.

## Office of International Programs (OIP)

International programs are an integral part of the undergraduate experience at BC. Each year approximately 1,200 students—or nearly 50% of a given graduating class—spend a semester, summer, or academic year studying, interning, conducting research, and/or volunteering abroad. BC collaborates with a variety of partner universities worldwide to administer programs in about 30 countries. To apply for semester/academic year programs abroad, students are required to have a 3.0 GPA and be in good academic and disciplinary standing. Additional non-BC approved programs are listed on the OIP website. The OIP also offers around 30 short-term, faculty-led summer programs and internships that are open to both BC and non-BC students and have no minimum GPA requirement. Students should begin planning to go abroad as early as their freshman year. Information on the OIP website, Study Abroad 101 group meetings, and individual meetings with OIP advisors help students choose the best program for their academic needs.

For more information, please visit [bc.edu/international](http://bc.edu/international). The OIP is located in Hovey House (258 Hammond Street, 617-552-3827).

### Academic Year Programs\*

\*Note: “BC in –” programs denote those options where there is a resident director or on-the ground support staff in addition to services offered by the host institution. Services range from full-time coordinators to more limited support.

#### Argentina

*BC in Buenos Aires: Pontificia Universidad Católica Argentina (UCA)*

Semester or full-year program at this excellent private institution located in downtown Buenos Aires. Offerings include arts and music, economics and business, law and political science, humanities, and communication.

*BC in Buenos Aires: Universidad Torcuato Di Tella*

Semester or full-year program in Buenos Aires at one of Argentina's most prestigious private universities. Offerings include business, economics, political science, international studies, journalism, and history.

#### Australia

*Australian Catholic University*

Semester or year program at Australia's premier Catholic university. Open only to CSON students, who study on ACU's Melbourne campus.

*Monash University*

One of the Australian Group of Eight schools (most distinguished research institutions). Semester or full-year program in a suburb of Melbourne. Offers courses across all disciplines.

*Notre Dame University*

Semester or full-year program at a small Jesuit university in Fremantle, Western Australia, with a wide range of courses across all subjects, particularly in the arts and humanities. Optional Australian studies course with field trips.

*University of Melbourne*

One of the Group of Eight schools located in the heart of the city. Semester or full-year program. Exceptional in most subject areas.

*University of New South Wales*

Semester or full-year program at one of the Group of Eight schools located in Sydney, with broad offerings across all disciplines. Internship opportunities and an optional pre-semester program to study the environment at the Great Barrier Reef.

### *University of Queensland*

Group of Eight school located in Brisbane. Semester or full-year program with a broad curriculum. Exceptional in all subject areas, especially biology, marine studies, psychology, business, and economics. Research opportunities for students.

### *University of Western Australia*

Group of Eight school located in Perth. Semester or full-year program with a broad, excellent curriculum. Strong in all subject areas—particularly sciences, environmental sciences, social sciences, business, education, and music.

### *University of Sydney*

Group of Eight school located in Sydney. Semester or full-year program with a broad curriculum. The majority of students enroll in arts and social sciences, business, science, engineering, information technologies, or health sciences.

## **Austria**

### *Vienna University of Economics and Business (WU)*

Semester or full-year program at one of Europe's top business schools, with courses taught in English for CSOM or Economics students. No prior German language required.

## **Brazil**

### *BC in Rio de Janeiro: Pontifícia Universidade Católica do Rio de Janeiro (PUC-Rio)*

Semester or full-year program with courses in all disciplines. For students with elementary, intermediate, and advanced Portuguese as well as advanced Spanish skills. Offers an English-language track in Brazilian and Latin American culture with a mandatory Portuguese course.

## **Chile**

### *Pontificia Universidad Católica de Chile (PUC)*

Semester or full-year program in Santiago at Chile's premier Catholic university. Courses include humanities, social sciences, economics, education, business, and law.

### *Universidad Alberto Hurtado (UAH)*

Semester or full-year program at a small, prestigious Jesuit institution in Santiago. Good for social sciences, humanities, philosophy, business, literature, and pre-law.

## **China**

### *Chinese University of Hong Kong*

Semester or full-year program in a college system setting, with a wide range of courses taught in English. CUHK offers classes in business administration, education, engineering, the natural and social sciences, as well as a summer academic research opportunity (SURP).

### *Hong Kong University of Science and Technology*

Semester or full-year direct enrollment program with a strong focus on business/management for CSOM students only. On-campus housing. Courses taught primarily in English.

## *University of Hong Kong*

Semester or full-year program suitable for most students, especially those concentrating in the humanities and sciences. Courses taught primarily in English.

### **Croatia**

#### *BC in Croatia: War, Peace, and Reconciliation*

Semester program based at the European Center for the Study of War and Peace. Students take five courses and choose between an internship, independent research or language course, with the potential to earn major/minor elective credit toward International Studies, Philosophy, Theology, History, Faith, Peace and Justice.

### **Czech Republic**

#### *Charles University: East and Central European Studies*

Semester or full-year program set in Prague. Founded in 1348, Charles is one of the oldest universities in Europe and the premier university in the Czech Republic. Students take courses in English.

### **Denmark**

#### *Copenhagen Business School*

Semester or full-year program with courses taught in English for CSOM or economics students.

#### *Copenhagen University*

Semester or full-year program with courses taught in English in the humanities, social sciences, law, health science, natural science, and theology.

### **Ecuador**

#### *BC in Quito: Universidad San Francisco de Quito (USFQ)*

Semester or full-year program with course offerings across the disciplines. Science and Community health course available for CSON and pre-med students. Students participate in service work as part of the mandatory resident director course.

### **Egypt**

#### *American University in Cairo*

Semester or full-year program in Cairo, with courses taught in English. BC students are strongly encouraged to enroll in language classes through the Department of Arabic Language Instruction.

### **England**

#### *BC in London: King's College London, University of London*

Semester or full-year program in London with course offerings across the disciplines including a pre-medical course track.

#### *BC in London: London School of Economics (LSE)*

Full-year program only in social sciences, including economics, finance, political science, and sociology.

*BC in London: Queen Mary, University of London*

Semester or full-year program in London's vibrant and diverse East End, with courses across the disciplines.

*BC in London: Royal Holloway, University of London*

Semester or full-year program with a suburban, parkland campus, and a wide range of course offerings for MCAS and CSOM students.

*BC in London: School of Oriental and African Studies (SOAS), University of London*

Semester or full-year program in central London with specialist studies of Africa, Asia, and the Near and Middle East, including history, languages, politics, religion, and sociology.

*BC in London: University College London, University of London*

Semester or full-year program for MCAS students at the University of London's top-ranked college in central London.

*University of Bristol*

Semester or full-year program located in Bristol, England, with courses across the disciplines.

*Durham University*

Full-year program offering courses across many disciplines including English, history, philosophy, theology, economics, and the sciences.

*Lancaster University*

Semester or full-year program with courses across the disciplines, including courses in the sciences for pre-medical students and in management for CSOM students.

*University of Liverpool*

Semester or full-year program with courses across the disciplines, including humanities, sciences, and management.

*University of Oxford, Mansfield College*

Full-year program only. Suitable for students in MCAS interested in small, independent study.

**France**

*BC in Paris: Université de Paris*

Semester or full-year program based at the University of Paris. BC students attend the University of Paris IV (Sorbonne) or the University of Paris IX (Dauphine). Offers a wide range of disciplines. Courses are taught in French, with a small number taught in English at the University of Paris IX (Dauphine).

*BC in Paris: L'Institut de Langue et de Culture Française (ILCF)*

A French language institute connected to L'Institut Catholique de Paris (ICP). French-taught semester program offers courses in French language, phonetics, grammar, and conversation. English-taught courses in other subjects are available.

*BC in Paris: L'Institut Catholique de Paris (ICP)*

Semester or full-year program offering French-taught courses in humanities, education, theology, and philosophy.

### *BC in Paris: L'Ecole Supérieure de Commerce (ESCP)*

Semester program based at the oldest business school in France. Students take courses in international business, finance, economics, and marketing. Courses taught in French and/or English.

### *BC in Paris: L'Institut d'Etudes Politiques de Paris (Sciences Po)*

Semester or full-year program offering courses in business, history, communications, law, journalism, political science, international relations, economics, and European studies. Courses taught in French and English.

## **Germany**

### *Eichstätt Catholic University*

Spring semester or full-year program at a small university located near Munich, with course offerings in arts and sciences, business, and education. Intensive pre-semester language program in Munich. Offers beginning and advanced track programs.

### *Frankfurt School of Business and Management*

Semester or full-year program offering courses in business and law. Courses are taught in English. Excellent opportunity for business and economics majors in Frankfurt. Students are required to take a German language course.

## **Greece**

### *American College of Greece (ACG)*

Semester or full-year direct enrollment program in Athens. Course offerings from a wide range of curricula taught in English with highlights in business, communication, and psychology. University housing, activities, service, and internship opportunities.

## **Ireland**

### *BC in Cork: University College Cork*

Semester or full-year program offering a broad selection of courses in a wide range of disciplines including business, arts, and sciences. Fall semester students take a university early start program, while spring semester students take a mandatory Irish Studies course taught by the BC resident director.

### *BC in Dublin: National University of Ireland Maynooth*

Semester or full-year program in a small campus environment outside of Dublin. Mandatory Irish Studies course taught by the BC resident director.

### *BC in Dublin: Trinity College Dublin*

Semester or full-year program at one of Europe's oldest and most prestigious institutions located in the center of Dublin. Wide range of courses across all disciplines. Mandatory Irish Studies course taught by the BC resident director. Some courses are approved for CSON students.

### *BC in Dublin: University College Dublin (UCD)*

Semester or full-year program with offerings across the disciplines, including Arts and Commerce. Students in the Arts and Sciences faculties select two departments in which to take their courses. Commerce students take most classes within the Quinn School of Business. Mandatory Irish Studies course taught by the BC resident director.

*BC in Galway: National University of Ireland, Galway*

Semester or full-year program with course offerings across the disciplines. Mandatory Irish Studies class taught by BC resident director.

**Italy**

*BC in Parma: University of Parma*

Semester or full-year program at the University of Parma, with a wide range of disciplines offered. Courses taught in Italian.

*BC in Parma: L'Istituto Dante Alighieri, Parma*

Semester or full-year program at the Istituto Dante Alighieri, offering a range of courses taught in English.

*Bocconi University, Milan*

Semester or full-year program based at one of the leading business schools in Europe. Courses taught in English and Italian.

*Università Cattolica del Sacro Cuore (UCSC)*

Semester or full-year program located at the Università Cattolica del Sacro Cuore ("Cattolica") in Milan. The largest Catholic university in the world, courses are offered in both English and Italian. Students are required to take an intensive pre-semester Italian language course.

*Venice International University*

Semester or full-year program located at Venice International University, an international higher education and research center co-run by 18 consortium members from around the world. Based on San Servolo Island, a few minutes from St. Mark's Square in the heart of Venice. Students take courses taught in English in the social sciences and international studies.

**Japan**

*Sophia University*

Spring semester or full-year program at a Jesuit sister university, with course offerings in English covering a wide range of disciplines. University housing in Tokyo.

*Waseda University*

Spring semester or full-year program with course offerings in English. University housing and homestay options in Tokyo.

**Lebanon**

*American University of Beirut*

Semester or full-year program with wide ranging course offerings in English in the culturally vibrant scene of Beirut and the Levant. Excellent opportunity for Islamic Studies and Arabic language students. On-campus housing.

**Mexico**

*Universidad Iberoamericana: Mexico City*

Semester or full-year program for students in most disciplines at this private, Jesuit institution famed for research and social engagement. Courses are taught in Spanish.

## **Morocco**

*Al Akhawayn University*

Semester or full-year program in Ifrane, with course offerings in English. Excellent opportunity for business students and those looking to study in francophone North Africa. Recommended for Islamic Studies and intensive Arabic language.

## **Nepal**

*BC in Kathmandu: Center for Buddhist Studies at RYI*

Semester or full-year program offers an in-depth study of Buddhist philosophy. Highly recommended for students interested in comparative religion, theology, and philosophy. Courses in Tibetan or colloquial Nepali language offered. Homestays with local families.

## **The Netherlands**

*Amsterdam University College*

Semester or full year program with courses offered in English. Classes are available in the humanities, natural sciences, and social sciences.

*University College Utrecht*

Semester or full year program with courses offered in English. Classes are available in the humanities, natural sciences, and social sciences.

*University of Amsterdam*

Semester or full-year program with English courses available in the humanities and social sciences.

## **New Zealand**

*University of Otago*

Semester or full-year program at one of New Zealand's top-ranked universities. Exceptional course offerings across the disciplines, especially environmental sciences, business, theology, arts, and humanities.

## **Norway**

*University of Bergen*

Semester or full-year program with wide ranging curriculum in English with strengths in natural and marine sciences.

## **The Philippines**

*Ateneo de Manila University*

Semester or full-year program at a leading Jesuit university, with wide ranging curriculum in English. Good opportunity for CSOM students, as well as those interested in service.

## **Poland**

*Jagiellonian University: Center for European Studies.*

Semester or full-year program in politics, sociology, Polish language, literature, and culture at the University's Center for European Studies.

## **Portugal**

*NOVA School of Business and Economics*

Semester or full-year program at the NOVA School of Business and Economics (Nova SBE), which is located just outside of Lisbon in Carcavelos. NOVA is strictly a business and economics school and does not offer courses outside of these fields. Classes are taught in English.

## **Scotland**

*BC in Glasgow: University of Glasgow*

Semester or full-year program offering courses across all disciplines including economics, business, the sciences, and pre-med.

## **Singapore**

*National University of Singapore (NUS)*

Semester or full-year program at leading research university. Wide variety of courses instructed in English.

## **South Africa**

*BC in Makhanda: Rhodes University*

Semester or full-year program in Makhanda (formerly Grahamstown) with courses across the disciplines. Supervised service-learning placements through the BC program.

*BC in Cape Town: University of Cape Town*

Semester or full-year program in Cape Town with courses across the disciplines. Recommended for students majoring in the sciences, business, and humanities. Volunteer opportunities available.

## **South Korea**

*Seoul National University*

Semester or full-year program at a leading research university with a range of courses offered in English. Opportunities to study Korean language.

*Sogang University*

Semester or full-year program at a Jesuit university in Seoul, with a range of courses offered in English. Opportunity for intensive language study. On-campus housing.

## **Spain**

*BC in Barcelona: Business and Culture*

Spring-only program at the Universitat Pompeu Fabra (UPF), designed specifically for CSOM major/minor students. Students take a mandatory core course, focusing on the neighborhoods of Barcelona, and a mixture of additional courses in business, the social sciences, and humanities.

*BC in Barcelona: ESADE*

Semester program in Barcelona offering courses in business and law. English-taught curriculum.

### *BC in Barcelona: Universitat Pompeu Fabra (UPF)*

Semester or full-year program in Barcelona offering courses in Spanish in many disciplines, except the sciences.

### *BC in Granada: Granada Institute of International Studies (GRIIS)*

Semester or full-year program with courses focusing on Spanish language, culture, history, literature, art history, economics, and politics.

### *BC in Madrid: Carlos III Immersion and English Tracks*

Based at the Universidad Carlos III de Madrid (UC3M), semester or full-year program for students in most disciplines, especially in the social sciences and business. Immersion and English tracks are available, based on students' level of Spanish proficiency.

### *BC in Madrid: Universidad Pontificia Comillas*

Semester or full-year program for students in many disciplines at this private, Jesuit institution. The ICADE campus offers courses in business, economics, and law. The Sociales campus offers courses in social sciences, humanities, and international relations.

### *Universidad de Deusto*

Semester or full-year program in Spain's Basque country on campuses in San Sebastián and Bilbao. San Sebastián offers courses in business, economics, literature, sociology, philosophy, and communications. Bilbao offers courses in most disciplines.

## **United Arab Emirates**

### *American University of Sharjah (AUS)*

Semester or full-year program in a diverse, English-language university in the heart of the UAE with a large international population. Courses available in the arts, humanities, sciences, languages, and management.

## **Summer Programs**

Faculty-led summer programs are open to undergraduate and graduate students with OIP approval. Programs are taught in English, with the exception of language courses. A sampling of programs listed are subject to change on an annual basis:

### **Asia**

#### *Seoul, South Korea*

Contentious History and the Politics of Contemporary Korea: Decolonization, Division, Development, and Democratization (3 credits)

### **Europe**

#### *Aix-En-Provence, France*

Provence: Art, Culture, Cinema, Diversity (3 credits)

#### *Athens, Greece*

Borders and Refugees: The Ethics of Migration (3 credits)

#### *Ballyvaughan, Ireland*

Imagination and Creativity and the Irish Landscape (3 credits)

*Copenhagen, Denmark*

Principles of Public Health: In the Happiest Place (3 credits)

The Ethics of Capitalism: Flourishing in a Commercial Society (3 credits)

*Dublin, Ireland*

Leadership: An Interpersonal and International Perspective (3 credits)

The Neuroscience of Spirituality: Exploring Religion and the Brain (3 credits)

The Business, History, and Politics of Sport (3 credits)

*Madrid, Spain*

Spanish Art History: from Al-Andalus to Picasso (3 credits)

*Paris, France*

Modernism in Paris (3 credits)

*Paris, France and London, England*

Which is Better? An Economic Comparison of Health Care in France, the UK, and the USA (3 credits)

*Parma, Italy*

Food, Power, and Politics (3 credits)

*Prague, Czech Republic*

Toward Deep Subjectivity: Philosophy of the Person II (3 credits)

*Rome, Italy*

Art and Patronage in Renaissance and Baroque Rome and Beyond (3 credits)

Saints and Sinners (3 credits)

*Venice, Italy*

The Imaginary City: Why Writers Love Venice (3 credits)

History of the Italian Mediterranean: Una Faccia, Una Razza (3 credits)

**Latin America**

*Quito, Ecuador*

Global Health Perspectives (3 credits)

## **Middle East**

*Tel Aviv, Israel*

Studying An Innovative Economy: Smart Cities and the Start-Up Culture in Tel Aviv (3 credits)

## **Internships Abroad**

*Dublin, Madrid, Paris, Prague, Shanghai and Singapore*

Eight-week, independent internship program offers students the opportunity to experience the local work culture first-hand. OIP staff work with students to design the best possible internship based on student interests, majors, and previous work experience.

## **Other Opportunities**

### **Overseas Teaching Program**

- Students perform pre-practica or full practica in elementary or secondary student teaching abroad.
- Applied Psychology and Human Development Practica Abroad

Lynch School students can do an Applied Psychology and Human Development Practicum while studying abroad. See the Dean's Office for details.

## **Washington Semester**

BC offers a semester-long internship program in cooperation with American University in Washington, DC. The program combines academic courses with internship placements in legislative, executive, and interest-group offices in the nation's capital. The academic requirements for participation are the same as those for study abroad, and Washington semester programs are administered as approved external programs through the OIP. The program can be combined with a study abroad experience.

## **SEA Education Association Program**

The university offers a semester-long opportunity with SEA Education Association (SEA), an Environmental Studies program, which challenges students intellectually and physically by combining a sailing experience with the study of the deep ocean. The interdisciplinary program tracks are designed for students who wish to gain a comprehensive understanding of the world's oceans, as well as explore a specific ocean-related

theme including a shore component. Students, especially those majoring in the natural sciences, can complete a semester with SEA as an alternative to study abroad or in combination with another semester program. SEA programs are administered as approved external programs through the OIP.

## **Pre-Health Program**

Medical, dental, veterinary, and other health professions schools welcome qualified students from diversified academic backgrounds and from any major from an accredited college or university. Thus, the student planning to pursue a health related career may choose a major field of study in any one of the humanities, natural sciences, or social sciences. Please note that medical and dental schools assume that students major in a field that plays to their strengths, interests, and passion. Below is a brief summary of the program. For detailed information, visit [bc.edu/premed](http://bc.edu/premed).

Health professions graduate schools expect each applicant to be well grounded in the fundamental sciences and to be familiar, through practical experience, with laboratory techniques. For these reasons, most health profession schools require one year of coursework at the college level in the following disciplines:

- General Chemistry with lab
- Organic Chemistry with lab
- Biology with lab

- Physics with lab (either Algebra-based or Calculus-based)
- English

In addition, one year of mathematics is usually strongly recommended. Some medical schools require calculus and/or statistics. About half of the allopathic medical schools require biochemistry. Please check your target graduate professional schools for specific requirements and recommendations. Some health professions graduate schools have additional requirements, such as, microbiology, physiology, and/or animal nutrition (vet), for example.

### Academic Plan

*Four (+) Year Program:* Given the important demand for health-related experiences and service to the poor through meaningful volunteer experiences, students often select to do the 4-year cycle. The majority of pre-health students (76%) at BC, as well as other institutions, are applying to graduate schools in the health professions at the end of their senior year—or later. Students who elect to apply as a senior have the opportunity to pursue other interests and/or opportunities (e.g., study abroad, completing a thesis, minoring in a non-science discipline, volunteer work, or research) thus potentially making them more attractive candidates. The four year option also allows for greater flexibility in preparing and studying for entrance exams (MCAT, DAT, GRE) in order to reflect their best effort. The average age for students beginning graduate school in the health professions is approximately 25; therefore, the number of applicants taking one or more (gap) growth year(s) is increasing.

For a complete overview of the required pre-health curriculum, course numbers, and recommended course sequencing, please visit the B.C. Pre-Health website ([bc.edu/premed](http://bc.edu/premed)).

### Three Year or Four Year Sequencing

*Three Year Program:* Undergraduates who plan to matriculate to health professions graduate school the fall after they graduate will need to complete all required courses (see above) by the end of junior year. Applications are filed the summer before senior year. While simultaneously taking junior year course work, we recommend that students study for and take the Medical College Admissions Test (MCAT) preferably by the end of spring semester (late April/May) of their junior year. Students taking the Dental Admissions Test (DAT) are encouraged to take it in early summer (e.g., May/June). In addition, health professions graduate schools expect a high level of academic performance, significant exposure to the health field, through clinical placements and shadowing as well as other meaningful extra-curricular experiences.

Clearly this is a great deal to accomplish in three years and, for this reason, increasing numbers of students choose the four-year option above. If you follow the three-year program and are a competitive candidate, you would be invited for interviews during the fall/early winter of your senior year. If accepted, you would begin graduate school in August/September following your graduation from BC.

### Advanced Placement

For specific information regarding advanced placement, please visit [bc.edu/premed](http://bc.edu/premed).

### Further Information

If you would like to speak with a staff member call 617-552-4663 or e-mail us at [premed@bc.edu](mailto:premed@bc.edu).

### Pre-Law Advising

Boston College has a dedicated pre-law advisor and offers pre-law advising through the Career Center. The Boston College Career Center and two pre-law student associations, the Bellarmine Law Society and the AHANA Pre-Law Student Association, present panels each year on different aspects of the legal profession and the law school admission process. The pre-law advisor is available to meet individually with students interested in law as a career whenever questions or concerns arise. While no particular major is preferred by law schools, it is suggested that students consider including some of the following courses in their programs of study: logic, mathematics, law, public speaking, English (especially intensive writing courses), history, sociology, and political science. You can indicate your interest in receiving announcements of pre-law panels and activities by officially registering as Pre-Law in the Academic Advising Center or Office of Student Services. Before scheduling a pre-law advising appointment, students should review the [Boston College Pre-Law Advising Handbook](#). For

further information, contact the Career Center at 617-552-3430 and view the Career Center's website for information on applying to law school at: [bc.edu/prelaw](http://bc.edu/prelaw).

## **PULSE Program for Service Learning**

For a description of the PULSE Program, please visit the [PULSE website](#).

## **Reserve Officers' Training Corps**

### **Air Force Reserve Officers' Training Corps**

Through a cross-enrolled program with Boston University, interested Boston College students may participate in the Air Force Reserve Officers' Training Corps program. Scholarships (full and partial) are available to qualified students for four, three, or two years and include tuition (full or partial), books, fees, and a monthly stipend. Freshmen and sophomores can compete for 2- and 3-year scholarships, some of which would cover full tuition, others which cover \$15,000 per academic year. Academic specialties for scholarships include all majors. All training, drills, and classes are held at the BU campus. Service obligations are one year for each scholarship year (active duty), while pilots are obligated for eight years active duty after completion of flight school. To obtain further information, contact the Department of Aerospace Studies, Boston University, 617-353-4705, [afrotc-all-mail@bu.edu](mailto:afrotc-all-mail@bu.edu).

### **Army Reserve Officers' Training Corps**

The U.S. Army offers Reserve Officers' Training Corps (ROTC) at Boston College as an extension school in cooperation with Northeastern University. Combined, Boston College and Northeastern University make up the Liberty Battalion. Boston College students attend classes and training on the Chestnut Hill campus. Upon graduation and successful completion of all pre-commissioning requirements, Cadets receive a commission as a Second Lieutenant in the U.S. Army and serve on active duty, U.S. Army Reserves, or National Guard in a variety of fields. Qualified graduates may also be selected to attend professional schools, such as medical or law school.

Scholarships may be available for qualified high school students admitted to Boston College and college students currently attending BC. In addition, scholarships may be available to Boston College Nurses through the ROTC program. All scholarships include full tuition and mandatory fees, a monthly stipend, and money for books. Boston College also awards additional incentives for Army ROTC scholarship Cadets.

For more information including an application, contact the Liberty Battalion Enrollment and Scholarship Officer at 617-373-2376 or visit the [BC Army ROTC website](#) and [rotc.northeastern.edu/](http://rotc.northeastern.edu/)

### **Marine Corps Platoon Leaders' Class (PLC)**

Available in connection with the Marine Officers Selection Office, Boston, the PLC Program is open to qualified freshmen, sophomores, and juniors. No formal classes or training takes place during the academic year. Students/candidates attend Officer Candidate School (Quantico, VA) training either in two 6-week sessions (male freshmen/sophomores) or one 10-week session (male and female juniors/seniors). Pay and expenses are received during training. No commitment to the USMC is incurred after OCS until a degree is awarded and a Second Lieutenant's commission issued. Service obligations are then three and a half years active duty or longer for aviation positions. Students/candidates may drop from the program at any time prior to commissioning. For more information, contact the Marine Officer Selection Office, Boston, at 888-753-8762.

### **Navy Reserve Officers' Training Corps**

Qualified BC students may cross enroll in Navy Reserve Officers' Training Corps (and the Marine Corps Option) at Boston University. There are 3- and 4-year programs with possible scholarships (full tuition, some books/fees expenses, monthly stipend, but no room and board). All classes and drills are held at Boston University. Scholarship students incur an active duty service obligation. For further information, please contact the Department of Naval Sciences, Boston University, 617-358-0471, [buotc@bc.edu](mailto:buotc@bc.edu).

*ROTC courses display on the academic record but do not count towards the required number of credits for graduation or in the G.P.A.*

## **Undergraduate Faculty Research Fellows Program**

Boston College established the Undergraduate Faculty Research Fellows Program (URF) for the purpose of enhancing the academic experience of undergraduates by cultivating their research skills and fostering mentor relationships between undergraduates and faculty. The program provides a grant to faculty to pay for a student's research assistance with a faculty member's research project. It is considered student employment and the student may work up to 20 hours a week during the academic semester, up to 40 hours a week during semester breaks or the summer, depending on faculty need, the funding available, and student availability. Students do not apply directly.

The application for an Undergraduate Research Fellowship must come from the faculty member whose research project the student will assist. Students can inquire directly with faculty to express their interest in being involved in the faculty member's research. Students cannot receive academic credit for work done under an URF.

# Leadership and University Information

## Trustees & Leadership

The University is led by [William P. Leahy, S.J.](#), 25th President of Boston College.

Provost and Dean of Faculties [David Quigley](#) oversees the University's academic life and leads its distinguished faculty.

Boston College's eight schools and colleges are led by academic deans, who report to the provost and direct the academic initiatives related to their schools. University vice presidents oversee Boston College's administrative areas.

## **Boston College Board of Regents**

### **2021-2022**

The Boston College Board of Regents provides counsel and support to the president and the Board of Trustees on strategic priorities and matters essential to the future of the University. Rooted in the ideals of Jesuit higher education and the mission of Boston College, regents explore the value of the University in the world today and imagine the possibility of its impact on the world of tomorrow.

# About BC

## Education with a heart and soul—and the power to transform

Boston College, the first institution of higher education to operate in the city of Boston, is today among the nation's foremost universities, a leader in the liberal arts, scientific inquiry, and student formation.

Grounded in the ideals that inspired our Jesuit founders, Boston College urges students to look inward but always to reach out—to develop their minds and talents to the fullest and use them in service to others.

We ask our students to explore the big questions and challenge them to ask: What difference will I make? How will my knowledge serve the world?

## BC Basics

## Origin

Founded in Boston's South End in 1863.

## Colors

Maroon and gold

## Motto

"Ever to Excel" from Book Six of *The Illiad*

## Mascot

The Eagle

- **Spotlight**

- **BC Global**

- True to our Jesuit, Catholic heritage, Boston College has been committed to international collaboration since our founding in 1863. The Global Engagement Committee will explore new opportunities, challenges, and resources needed for enhancing our international presence.

- [BC Global Website](#)

- [Global Engagement Committee](#)

## Boston College Traditions

- **Convocation**

- **[“Set the World Aflame”](#)**

- Freshman Eagles begin their BC journey with the traditional “first flight”—a lantern-led procession down the Higgins stairs to the Conte Forum for an inspiring guest speaker.

- **Beanpot**

- **[Best of Boston](#)**

- Since 1952, teams from BC, BU, Harvard, and Northeastern have competed for hockey dominance in this legendary two-week tournament.

- **Red Bandana**

- **[Remembering Welles Crowther](#)**

- Every year, the BC community honors the memory of alumnus and 9/11 hero Welles Remy Crowther '99 with a 5k “Red Bandana Race” and a dedicated football and lacrosse game.

- **Arts Festival**

- **[Creativity on Campus](#)**

- Music, theater, dance, poetry—this vibrant community event draws more than 1,000 talented student and faculty performers.

- **ALC Showdown**

- [Let's Dance!](#)

- BC's largest annual student dance competition promotes diversity and cultural awareness through dance.

- **Marathon Monday**

- [A Boston Tradition](#)

- Every Patriot's Day, the BC community cheers on runners in the Boston Marathon, including the BC Campus School team, as they make their way up Commonwealth Avenue.

- **Superfans**

- [Gold Rush](#)

- Superfans wear gold and get loud as they cheer the Eagles to victory.

- **Student Involvement Fair**

- [Find Your Spot](#)

- This annual fair gives incoming students a chance to explore the more than 300 diverse organizations, programs, and offices on campus.

- **Mass of the Holy Spirit**

- [Blessings for a New Year](#)

- A Jesuit tradition dating back to the Middle Ages, the Mass of the Holy Spirit brings the BC community together to mark the opening of the school year.

- **Christmas Tree Lighting**

- [Celebrating the Holidays](#)

- BC kicks off the Christmas season with a tree lighting ceremony featuring festive performances, games, and a chance to take a selfie with Santa.

- **ALS Awareness Game**

- [Fenway Park Takeover](#)

- For one night a year, the BC baseball team plays a home game at Fenway Park to raise money in the fight against ALS.

- **Commencement**

- [Congrats, Grads!](#)

- Graduating students and their families celebrate their academic accomplishments and hear from inspiring speakers at the University Commencement ceremony.

## For Boston

Experience the excitement of America's college town.

# President's Message

## Boston College: Answering Society's Call

On behalf of the entire Boston College family, I am pleased to introduce you to Boston College, and to offer my vision for the University.

The history of Boston College is a narrative of response to society's call. In 1863, that call came from an immigrant community that sought a Jesuit education to foster social mobility. Boston College offered that promise.

Today, the call emanates from a world that has experienced an explosion of knowledge, but not a corresponding growth in understanding; a world that too often lacks trust in its leaders and faith in its institutions. It is a world that has developed wondrous technologies that link continents, but isolate human beings, leaving many men and women weary and dispirited, feeling distant from moral purpose, uncertain about knowledge or the very worth of human endeavor.

Boston College is uniquely capable of answering this call, of speaking to this world. As an institution of higher education, Boston College is committed to the discovery and transmission of knowledge. But reflecting its Jesuit and Catholic heritage, it also seeks to integrate excellence and religious commitment, to both inform and form its students.

Boston College endeavors to educate a new generation of leaders—men and women who will be capable of shaping the future with vision, justice, and charity—with a sense of calling, with concern for all of the human family.

We pursue this challenge because it is a worthy goal for any university, but particularly for Boston College, a university uniquely suited to be a beacon of hope and light for all. I invite you to join us, as a prospective student, parent, or friend.

William P. Leahy, S.J.  
President

# Mission & History

## Where We Began

Boston College was founded in 1863 by the Society of Jesus (the Jesuits) to educate Boston's predominantly Irish, Catholic immigrant community. It opened its doors on September 5, 1864, in a building on Harrison Avenue in Boston's South End, a "small streetcar college" for commuting students.

When it outgrew the limitations of the space, then-president Rev. Thomas I. Gasson, S.J., bought 31 acres of the former Lawrence Farm in Chestnut Hill, Massachusetts, and broke ground in 1909 on a new campus, today fondly known as "the Heights."

BC began as an undergraduate liberal arts college, but as its aspirations grew, it added graduate programs and professional schools fulfilling its charter as a university.

Through the decades, Boston College has become an internationally respected research university and a center of academic excellence.

---

## Where We Are Going

Boston College builds upon its traditions. It seeks to be the national leader in the liberal arts; to fulfill its Jesuit, Catholic mission of faith and service; to continue to develop model programs to support students in their formation; and to seek solutions—as researchers, educators, leaders, and caregivers—that directly address the world's most urgent problems.

---

## Guiding Our Path

Boston College remains committed to leading its students on a comprehensive journey of discovery—one that integrates their intellectual, personal, ethical, and religious formation.

Inspiration for Boston College's academic and societal mission is drawn from the University's distinctive religious and intellectual heritage. As a Jesuit, Catholic University, Boston College is rooted in a world view that calls us to learn, to search for truth, and to live in service to others. To fulfill that mission, we welcome and embrace the contributions of a diverse student body from many faith traditions.

# Advanced Placement

There are a number of ways to earn advanced placement units at Boston College including qualifying scores on College Board Advanced Placement (AP) exams, International Baccalaureate exams, British A Level exams, French Baccalaureate exams, as well as results from the German Abitur, and the Swiss Maturité and Italian Maturità. Official results from all testing should be sent to the Office of Transfer Admission for evaluation. Students seeking Advanced Standing, which is the option to complete their undergraduate studies in six semesters of full-time study, shall be in touch with their Academic Dean no sooner than the completion of their first semester at BC. Qualifying scores will be assigned advanced placement units as outlined in the tabs below.

For current Boston College students:

If your Advanced Placement scores are not reflected on your record on the Agora Portal, please order a new score report from the College Board and have it sent to Boston College. Our code is 3083. Please keep in mind that scores take approximately two weeks to arrive from the College Board. If you have questions about your scores and/or placement, please contact the Office of Undergraduate Admission at [uadmit@bc.edu](mailto:uadmit@bc.edu). Thank you.

## Advanced Placement

Boston College participates in the Advanced Placement program of the College Entrance Examination Board. Applicants interested in advanced placement should make arrangements to take the Advanced Placement Examinations given by the College Board in May of each year.

The following table displays Boston College's Advanced Placement policy. Boston College reserves the right to change this policy, as is determined by campus administrators. In general, a student scoring four or five on the exams will be awarded advanced placement. In some instances, a score of three will make a student eligible for advanced placement. In most cases, students do not earn actual credit, rather, they fulfill corresponding requirements in the University Core Curriculum. You will still be required to take the full 120 credits necessary for graduation unless you have the equivalency of 30 AP credits, in which case you may qualify for advanced standing and would be eligible to graduate from Boston College in 3 years.

Advanced Placement Exam	Exam Score Minimum	Advanced Placement Units	Requirements Fulfilled*
Art History	4	3	Arts Core
Biology	4	6	2 Natural Science Core
Calculus AB (or AB sub score)	4	3	Math Core
Calculus BC	4	6	1 Math Core/1 Math Elective

Chemistry	4	6	2 Natural Science Core
Chinese Language and Culture	4	6	2 Slavic Language Electives and Language Proficiency
Comparative Government and Politics	4	3	1 Social Science Core
Computer Science (A or Principles)	N/A	N/A	Students must consult with the department to determine if any placement within the major is appropriate.
**Economics (Macro)	4	3	1 Social Science Core / no placement for ECON1101
**Economics (Micro)	4	3	1 Social Science Core / no placement for ECON1101
English Language and Composition	4	3	Writing Core
English Literature and Composition	4	3	Literature Core
Environmental Science	4	3	1 Natural Science Core
European History	4	6	History Core I and II
French Language and Culture	3	0	Demonstrates Language Proficiency
French Language and Culture	4	3	1 Romance Language Elective and Language Proficiency
German Language and Culture	4	6	Demonstrates Language Proficiency

Human Geography	N/A	N/A	No BC equivalent
Italian Language and Culture	3	0	Demonstrates Language Proficiency
Italian Language and Culture	4	3	1 Romance Language Elective and Language Proficiency
Japanese Language and Culture	4	6	2 Slavic Language Electives and Language Proficiency
Latin	4	6	2 Classical Language Electives and Language Proficiency
Music Theory	4	3	Arts Core

Physics 2	4	3	1 Natural Science Core
Physics C E+M	4	3	1 Natural Science Core
Physics C Mechanics	4	3	1 Natural Science Core
Psychology	4	3	1 Social Science Core. Please consult with the Psychology department to determine how placement toward major is appropriate.
Research	N/A	N/A	No BC equivalent
Seminar	N/A	N/A	No BC equivalent

Spanish Language and Culture	3	0	Demonstrates Language Proficiency
Spanish Language and Culture	4	3	1 Romance Language Elective and Language Proficiency
Spanish Literature and Culture	3	0	Demonstrates Language Proficiency
Spanish Literature and Culture	4	3	1 Romance Language Elective and Language Proficiency
Statistics	5	3	Fulfills Business Statistics Requirement for CSOM students beginning with Class of 2024
Studio Art	4	3	1 Fine Arts Elective
U.S. Government and Politics	4	3	1 Social Science Core
U.S. History	4	6	Units included when students apply for Advanced Standing . No University Core / department placement earned.
World History	4	6	History Core I and II

\*Students in the Connell School of Nursing fulfill their Natural Science and Mathematics Core Curriculum requirements through coursework taken during their freshman year. Therefore, qualifying exam scores cannot be used to fulfill those requirements for nursing students.

\*\*Beginning with students entering the Spring 2022 term and later, a qualifying score in both Macroeconomics and Microeconomics earns placement for *ECON1101 Principles of Economics*, which fulfills 1 Social Science Core. Students with qualifying scores in both Macroeconomics and Microeconomics would still need to satisfy the second Social Science Core requirement.

## International Baccalaureate

Each score of 6 or 7 on Higher Level exams will earn advanced placement units and will generally satisfy a core requirement. You will still be required to take the full 120 credits necessary for graduation, unless you have the equivalency of 30 credits, in which case you may qualify for advanced standing and would be eligible to graduate from Boston College in 3 years. Please reference the table below for specific exams.

<b>IB Exam</b>	<b>Exam Score</b>	<b>Advanced Placement Units</b>	<b>Requirements Fulfilled*</b>
Dance	N/A	N/A	N/A
Film	6/7	3	1 Arts Core
Music	6/7	3	1 Arts Core
Theatre	6/7	3	1 Arts Core

\* IB elective units cannot be used to fulfill the four arts and sciences electives required for CSOM, but can count toward the 30 units required to be eligible to apply for advanced standing. Electives do not count toward the degree in any other scenario because IB units are generally used for placement only, not credit.

\*\* Students interested in the Computer Science major must consult with the Computer Science Department to determine if these electives can in any way apply to the major.

Sports, Exercise and Health Science IB is not recognized by Boston College.

## SAT Subject Tests

All students in the Morrissey College of Arts and Sciences must demonstrate intermediate-level proficiency in a foreign language in order to graduate from Boston College. The SAT Subject Test scores below demonstrate intermediate-level proficiency at Boston College.

SAT Subject Test	Exam Score Minimum	Requirements Fulfilled
Chinese	700	Demonstrates Language Proficiency
French	550	Demonstrates Language Proficiency
German	600 700*	Demonstrates Language Proficiency (*beginning with the Class of 2025)
Italian	550	Demonstrates Language Proficiency
Japanese	700	Demonstrates Language Proficiency
Korean	700	Demonstrates Language Proficiency
Latin	600	Demonstrates Language Proficiency
Spanish	550	Demonstrates Language Proficiency

-----------------	-------	---	-------------

\* There are other A-Level courses offered that do not apply to a degree at Boston College. If the course is not listed here, no advanced placement units can be earned.

## French Baccalaureate

Scores of 14 or higher\* will be considered for a maximum of six credits for each 12th grade Spécialité subject.

A minimum score of 12\* for each 12th grade Spécialité subject will be considered for a maximum of three credits.

Students completing the French Baccalaureate with International Option (OIB) may earn advanced placement units in English and history for corresponding exam scores.

Scores below 10 do not qualify.

Units may be used to fulfill corresponding University Core or major requirements.

\*Advanced Placement is based on the French Baccalaureate exam results and is considered in the context of departmental review. Boston College reserves the right to change this policy, as is determined by campus administrators.

## Italian Maturità

For students who earn an exam score of 70 or higher on the final exam, advanced placement units will be awarded only for subjects in which the written exam was taken (no placement for oral exams) and the average score for the final exam over the last two years is 7 or higher. No advanced placement units can be earned for English.

## German Abitur

Placement will be considered for the four subjects scored in the Abitur final exams. For two subjects listed as the "main subject," scores of 10 or higher will earn 6 advanced placement units in corresponding subject areas. For two additional "basic courses" with scores of 10 or higher, 3 advanced placement units will be earned in the corresponding subject areas. No advanced placement units can be earned for English.

## Swiss Maturité

Advanced placement units can be earned for exam scores of 4 or better. No advanced placement units can be earned for English.

## Advanced Standing — Graduating in 3 Years

Students who earn a total of 30 Advanced Placement units may be eligible for Advanced Standing and have the option to complete their undergraduate studies in three years. Students interested in this option should be in touch with their Dean following completion of their first semester at BC. No decisions on Advanced Standing will be made prior to that time. Students seeking Advanced Standing must be able to complete all degree requirements by the proposed graduation date and be approved for Advanced Standing by the Dean before the start of their third year of undergraduate study.

## College Courses Taken During High School

Advanced placement units can be earned for college courses taken during high school according to the following guidelines:

Students enrolled in courses designated as “college courses” that are taken at the high school with a high school teacher may only earn advanced placement units if corresponding College Board AP exams are taken and qualifying scores are earned. A college transcript alone cannot be used to earn advanced placement units for these courses.

College coursework taken on a college campus with a college professor and with other college students either during the academic year or over the summer may be evaluated for advanced placement units. Only courses that are deemed equal in depth and breadth to coursework taught at Boston College and are being used to supplement high school coursework (and not to fulfill high school requirements) will be considered.

Each 3 or 4 credit course with a grade of B or better will earn 3 advanced placement units. Students will still be required to take the full 120 credits necessary for graduation, unless they have the equivalency of 30 credits, in which case they may qualify for Advanced Standing and would be eligible to graduate from Boston College in 3 years. College transcripts for these courses should be submitted to the Office of Transfer Admission by August 1. Students who enroll at a local college to satisfy high school graduation requirements are not eligible for advanced placement units unless they take the corresponding College Board AP exams and earn qualifying scores.

# Notices & Disclosures

Boston College is committed to providing information in a manner that is accessible to all. If you are in need of a printed copy of the material presented on this web page, please contact the [Office of Student Services](#).

## Higher Education Opportunity Act (HEOA)

Visit the link below to learn more about the Higher Education Opportunity Act (HEOA).

[Higher Education Opportunity Act \(HEOA\) Notices and Disclosures](#)

## Family Educational Rights and Privacy Act (FERPA)

The Executive Director of Student Services and the Vice President for Student Affairs are responsible for notifying students annually of their rights under FERPA. The annual notice is to appear in the *Boston College Bulletin* and in the *Boston College Student Guide*.

All non-directory information is considered confidential and will not be released to outside inquiries without the express written consent of the student.

### Student Rights Under FERPA

Boston College maintains a large number of records regarding its students in the administration of its educational programs, as well as its housing, athletics, and extracurricular programs. The University also maintains employment and financial records for its own use and to comply with state and federal regulations. Boston College is committed to protecting the privacy interests of its students and to maintaining the confidentiality of student records in accordance with the Family Educational Rights and Privacy Act of 1974 (FERPA).

These rights are as follows:

- The right to inspect and review the student's education record within 45 days of the day the University receives a request for access.

Any student who wishes to inspect and review information contained in an education record maintained by any office of the University may, with proper identification, request access to the record from the office responsible for maintaining that record. Unless the circumstances require the existence of a formal request, an oral request may be honored.

Whenever an office responsible for maintaining education records is unable to respond, the student may submit to the Office of Student Services, dean, academic department head, or other appropriate official a written request that identifies the record he or she wishes to inspect. The University official shall provide access within 45 days after the University receives the request, and shall notify the student of the time and place the record may be inspected. If the record is not maintained by the University official to whom the request is submitted, that official is to advise the student of the correct official to whom the request is to be addressed.

- The right to request the amendment of the student's education record if the student believes that information contained in his or her record is inaccurate, misleading or in violation of his or her rights of privacy.

Any student who believes that information contained in his or her education record is inaccurate, misleading, or in violation of his or her rights of privacy is to write to the University official responsible for the record, clearly identifying the part of the record he or she wants changed, and specifying why the record should be amended.

If the University concludes that the record should not be amended as requested, the University will notify the student, advise the student of his or her right to a hearing and provide information about the hearing process.

- The right to consent to the disclosure of personally identifiable information contained in the student's education record, except to the extent permitted under FERPA. One exception that permits disclosure without consent is disclosure to University officials with legitimate educational interests, which may include employees in administrative, supervisory, academic or research, or support staff position (including law enforcement unit personnel and health staff); members of the Board of Trustees; and students serving on an official committees, such as a disciplinary or grievance committees, or assisting another University officials in performing their tasks. University officials may also be contractors, consultants, volunteers or other outside parties to whom the University has outsourced institutional services or functions that would ordinarily be performed by University employees. The University may disclose education records without consent to officials of other educational institutions that have requested the records and in which a student seeks or intends to enroll or is already enrolled so long as the disclosure is for purposes related to the student's enrollment or transfer.
- The right to file a complaint with the U.S. Department of Education concerning alleged failures by the University to comply with the requirements of FERPA. Written complaints may be directed to the Family Policy Compliance Office, U.S. Department of Education, 400 Maryland Avenue, SW, Washington, D.C., 20202-4605.

Please note that as part of the Solomon Amendment, Boston College is required by law to provide branches of the military access to certain student directory information which normally would be denied to them under the Family Educational Rights and Privacy Act (FERPA).

[FERPA Release Form](#)

## Student Loan Code of Conduct for Employees

All Boston College employees whose job responsibilities include matters related to student financial aid are expected to maintain exemplary standards of professional conduct and must adhere to this Code of Conduct in compliance with Federal regulations. The Executive Director of Student Services shall notify these employees annually of their obligations under this Code.

Boston College:

- Prohibits all revenue-sharing arrangements with lenders. The University will not promote or recommend any lender in exchange for a fee or other material benefit from that lender.
- Does not request or accept offers of funds for private loans, including opportunity pool loans.
- Certifies loans from any lender selected by a borrower without undue delay, and will not direct a first-time borrower's loan to a particular lender.
- Ensures that the process through which the student signs a Master Promissory Note preserves the student's right to select the lender of his or her choice.
- Does not arrange for alternate loan programs that disadvantage students or parents not enrolled in the program or receiving such loan terms.
- Prohibits the request or acceptance of staffing assistance from lenders.
- Prohibits employees or agents of a lender from identifying themselves, either directly or by implication, as an employee of Boston College to students, parents or any persons seeking information from Boston College.
- Bases the selection of lenders for a preferred lender list solely on the best interests of the students and parents.
- Fully discloses the selection process for a preferred lender.
- Provides borrowers with consumer information about the loan products offered by the lenders on a preferred lender list, including any agreements lenders have to sell their loans to other entities.
- Informs students and parents that they are not required to use any of the lenders on a preferred lender list and can select any lender of their choice.

**Every Boston College employee involved in any aspect of the loan process (this includes, but is not limited to, the Financial Aid staff, both on the main campus and at the Law School, and the Enrollment Management staff) must avoid any situations that create a potential conflict of interest between the employee's personal or outside interests and his or her role and responsibilities as an employee of Boston College, and must disclose to his or her supervisor any potential conflict as it arises.**

**Specifically, staff members must not:**

- Solicit or accept gifts with more than a de minimis value from any business entity involved in any aspect of student financial aid, including, without limitation, cash payments, stocks, club memberships, favors, discounts, lodging, meals, entertainment, and services. This prohibition extends to a staff member's family (includes staff member's and spouse's: parent or stepparent; sibling or step-sibling; child or stepchild; and grandchild or step-grandchild, as well as a child's spouse and a sibling's spouse).
- Undertake any activity, whether compensated or not, outside of Boston College that has the potential to create a conflict of interest with the staff member's duties as a financial aid professional employed by Boston College, including accepting any fee, payment, or other financial benefit as compensation for any type of employment, consulting or other arrangement with a lender, guarantor, or servicer.
- Receive any compensation for serving on an advisory board, commission, or group established by a lender, guarantor, or group of lenders or guarantors. A staff member wishing to serve on an advisory board must seek prior approval from his or her supervisor, and may be reimbursed only for reasonable expenses while serving on an approved advisory board.

Staff members should understand and adhere to all institutional policies and any local, state and federal requirements that are applicable to their conduct or job performance. Any staff member who has a question whether a particular situation or activity creates a conflict of interest or violates any law or policy should immediately notify their supervisor prior to commencing such activity, or at the earliest time when such a question arises. Supervisors shall contact the Office of the General Counsel upon receipt of any inquiries.

## Confidentiality of Student Records

Certain personally identifiable information from a student's education record, designated by Boston College as directory information, may be released without the student's prior consent. This information includes name; term, home, local, and electronic mail addresses; telephone listing; date and place of birth; photograph; major field of study; enrollment status; grade level; participation in officially recognized activities and sports; weight and height of members of athletic teams; dates of attendance; school/college of enrollment; anticipated date of graduation; degrees and awards received; the most recent previous educational agency or institution attended; and other similar information.

A student can prevent the release of all directory information including verification of enrollment, and may suppress selected directory information either to the Boston College community or to the general public. In order to do this, students must visit [www.bc.edu/myservices](http://www.bc.edu/myservices) to suppress the release of all or selected directory information. Suppression is available by selecting Privacy Preferences. Student directory information will not be blocked from faculty and staff conducting official University business.

All non-directory information is considered confidential and will not be released to outside inquiries without the express written consent of the student unless an exception under FERPA permits the disclosure. For more information, access Boston College's [Student Educational Records](#) policy.

## Disclosures to Parents of Students

When a student reaches the age of 18, or attends a postsecondary institution regardless of age, FERPA rights transfer to the student. Guidelines for the disclosure of information to parents are as follows:

- Parents may obtain directory information at the discretion of the institution.
- Parents may obtain nondirectory information (e.g., grades, GPA) at the discretion of the institution and after it is determined that the student is legally dependent on either parent.
- Parents may also obtain nondirectory information if they have a signed consent from the student.

## Notice of Nondiscrimination

Visit the link below to view the Notice of Nondiscrimination.

[Notice of Nondiscrimination](#)

# University Communication Policies and Student Responsibilities

Official communications of the University with its currently enrolled students, including notices of academic and administrative matters and communications from faculty and administrative staff, may be sent via postal service, campus mail, or e-mail. To assure that these communications arrive in a timely manner, all enrolled students have the following responsibilities:

## Postal Service and Campus Mail

For purposes of written communication, the student's local and permanent addresses on record at Student Services will be regarded as the student's official local and permanent residences. All students have a responsibility to provide both local and permanent mailing addresses, and to enter corrections at [www.bc.edu/myservices](http://www.bc.edu/myservices) if the addresses are not accurate in University records. Students should review their address record for accuracy at the beginning of each semester, and again soon after submitting any corrections.

Students who are studying abroad have a responsibility to provide their local international address with the Office of International Programs.

## E-mail

The University recognizes and uses electronic mail as an appropriate medium for official communication. The University provides all enrolled students with Boston College e-mail addresses, as well as access to e-mail services from computer stations at various locations on campus. All students are expected to access their e-mail accounts regularly, to check for official University communications, and to respond as necessary to such communications.

All student responses to official e-mail communications from the University must contain the student's Boston College e-mail address in the "From:" and "Reply To:" lines, and should originate from the student's Boston College e-mail address, to assure that the response can be recognized as a message from a member of the University community.

Students may forward their e-mail messages from their Boston College e-mail address to non-university e-mail systems, if they wish. In such cases, however, students shall be solely responsible for all consequences arising from such forwarding arrangements, including any failure by the non-university system to deliver or retain official University communications. Students should send test messages to and from their University e-mail account on a regular basis, to confirm that their e-mail service is functioning reliably.

## Voter Registration Information

Boston College believes that every student has a responsibility to be an engaged community member. To that end, we have partnered with TurboVote to provide you with the information and materials you need to vote in every election from local to presidential.

TurboVote gives you the tools to help you register to vote online. You may learn more about this service at [bc.turbovote.org](http://bc.turbovote.org).

# Medical Insurance

The student health insurance plan for the 2021–2022 policy year, effective August 7, 2021, is through UnitedHealthcare. The plan design is similar to last year’s insurance plan. For more details about coverage, please refer to the Summary of Benefits and Coverage or contact UnitedHealth Care at 866-948-8472 or <http://customerservice@uhcsr.com/>. The network of providers can be found at [UHC Options PPO - Harvard Pilgrim Joint Venture](#).

[UnitedHealthcare Benefits Information](#)

[UnitedHealthcare Summary of Benefits and Coverage](#)

## 2021–2022 Medical Insurance Information Enrollment (2021–2022)

All students listed below are automatically enrolled in and billed for the student health insurance plan:

- Students enrolled in a degree program, regardless of credit hours
- Students who are not citizens or permanent residents of the U.S.
- Non-degree students enrolled at least 75% of full-time. Students are responsible for monitoring their eligibility status. (For graduate students in the schools of Morrissey College of Arts and Sciences, Lynch School of Education and Human Development, Carroll School of Management, Connell Graduate School of Nursing, School of Social Work, School of Theology and Ministry, and Woods College of Advancing Studies, 75% of full-time is 7 credits or more. For undergraduates in the Woods College of Advancing Studies, 75% of full-time is 9 credits or more.)

Graduate students: Registration for classes triggers your insurance enrollment, and it takes 5–7 business days for your insurance to show as active in the carrier’s system. While the fall semester coverage begins on August 7 regardless of when you register, you should keep this timeframe in mind if you have health care providers who will need to verify your coverage with the insurance company. You should register for classes by mid-July if you need your insurance to show as active in the insurance system on August 7.

Post-doctorate students are eligible to enroll on a voluntary basis.

### Dependent Enrollment

Insured students have the option of enrolling their **eligible dependents** (a spouse or a child under the age of 26). The enrollment form is available under the Forms tab. Dependents must be enrolled for the same time period as the student. For example, a student enrolled beginning in the fall semester cannot purchase dependent coverage starting in the spring unless there is a qualifying event; see the enrollment form for further details. Dependents enrolled for the fall must be re-enrolled for the spring, and you are responsible for enrolling and re-enrolling your eligible dependents each semester. The deadline to enroll dependents is September 24, 2021 for the fall semester and January 28, 2022 for students newly enrolling for the spring. Enrollment forms received after that date will not be accepted.

Note to students: You need to be enrolled in the insurance plan in order to enroll dependents. To make the dependent enrollment process as smooth as possible, you should register for classes as early as you are able.

## Premium Amounts

	First Semester (8/7/21–1/13/22)	Second Semester (1/14/22–8/6/22)
Student	\$1,550	\$1,985
Spouse	\$1,550	\$1,985
One child	\$1,550	\$1,985
Two or more children	\$3,100	\$3,970

## Insurance Plan Benefits

### UnitedHealthcare Coverage

The plan offers comprehensive benefits that include hospital room and board, inpatient and outpatient surgical procedures, lab work, x-rays, chemotherapy, radiation, inpatient and outpatient mental health, physician office and consultant visits, ambulance, and prescription drugs.

Refer to the [benefits information](#) (PDF) and the information available at [UnitedHealthcare](#) for complete details about coverage, limitations and exclusions.

### Referrals from University Health Services

A referral is not required with the UnitedHealthcare Plan, but there are many benefits to first seeking care or advice from Boston College's University Health Services. Visit [University Health Services'](#) website for more information.

### Coverage off Campus

If you paid the premium for the entire year, you will be covered from August 7, 2021 through August 6, 2022. UnitedHealthcare provides the same benefits for students while they are on campus or on semester breaks, summer vacation, or study or travel abroad.

While studying or traveling abroad, keep your identification card with you and take a copy of the brochure for reference. When outside the United States, you will likely be asked to pay for your medical care first and then will need to seek reimbursement. Covered expenses will be reimbursed on a non-network basis. When you submit claims for reimbursement, you may need to have the itemized bill(s) translated into English and include additional information. UHC Global can be reached toll free from within the United States at 800-527-0218 or collect from outside of the United States at 410-543-6330, or email at [assistance@UHCGlobal.com](mailto:assistance@UHCGlobal.com).

## Leave of Absence

If a student who is enrolled in the student insurance plan takes a medical leave of absence effective mid-semester, they will continue to be covered for the remainder of that semester. Coverage may also be extended for the following semester with approval from Boston College. Enrollment is not automatic. Please contact the Office of Student Services for information about enrollment and dates of eligibility.

## Enrollment After Waiving the Student Health Insurance Plan

Students who initially waive participation in the Student Blue Plan and subsequently wish to enroll prior to the waiver deadline may rescind waivers by deleting the prior waiver on the [www.bc.edu/myservices](http://www.bc.edu/myservices) or by completing the Rescind Waiver form, available on the Forms tab. After the waiver deadline, a student may enroll in the student plan only on the basis of a **qualifying event**. Qualifying events include marriage, birth of a child, or loss of coverage from an existing policy. Students who qualify may submit a Petition to Add form, available under the Forms tab.

## Graduating Students

Coverage for graduating students ends on January 13, 2022 (for fall graduates) or August 6, 2022 (for spring and summer graduates). There is not an option to extend the student plan. You can contact UnitedHealthcare about enrolling directly, or explore your options through your state Health Connector. The site for the MA State Health Connector is <https://www.mahealthconnector.org/>.

## Waivers (2021–2022)

The medical insurance coverage periods are August 7, 2021 to January 13, 2022 for the fall and January 14, 2022 to August 6, 2022 for the spring. Waivers received by September 24, 2021 are for the entire academic year, and those received by January 28, 2022 are for the spring. By waiving the BC Student Health Insurance Plan, a student is waiving coverage for the full coverage period.

Waiver forms can be found on the Forms tab.

## Domestic Students Waiver Requirements (U.S. Citizens and Permanent Residents)

Students who are enrolled in a health plan that is comparable to the student plan may waive the BC coverage through [www.bc.edu/myservices](http://www.bc.edu/myservices) if they are at least 18 years old. Students under the age of 18 cannot file an electronic waiver. You and your parent or guardian must **sign and submit a waiver form** before the deadline.

To provide proof of comparable coverage, a student will need to have information about his or her current health insurance plan readily available. By waiving the BC coverage, a student is confirming the following:

- The student is covered by the indicated medical insurance policy and will maintain coverage for the full 2021–2022 academic year.
- The student has compared their policy to the BC student plan and certifies that their plan provides benefits that are at least comparable to the plan: [UnitedHealthcare Benefits Information](#).
- The student's plan provides reasonable comprehensive coverage of health services, including primary care, emergency services, surgical services, hospitalization benefits, ambulatory patient services, and mental health services, along with coverage for lab work, diagnostic x-rays, physical therapy, chiropractic care, and prescription coverage, and that these services are reasonably accessible in the area where the student is attending school. A plan that provides coverage through a closed network of providers, not reasonably accessible to the student in the area where they attend school, for all but emergency services, does not qualify for a waiver.
- The student's plan is **not an out-of-state Medicaid plan**, or one of the following MA Medicaid Plans: Children's Medical Security Program, MassHealth Limited and Health Safety Net. These plans do not qualify for a waiver. MassHealth plans other than those listed here are acceptable for a waiver.
- No claims have been submitted for payment under the UnitedHealthcare student plan for the 2021–2022 enrollment periods.
- The student assumes full responsibility for any medical expenses incurred during the insurance enrollment periods and neither Boston College nor the insurance company will be held responsible for any expenses incurred.
- Students travelling outside of the United States certify that their insurance plan provides reasonable and comprehensive coverage in the location where they are studying. If the student visits the United States during the 2021–2022 academic year, they will purchase a U.S.-based qualifying medical plan (as described above) for the period of their stay in the U.S.

Incomplete waivers will not be processed. Waivers must be completed every year. **All waivers must be submitted by September 24, 2021 for the entire academic year or by January 28, 2022 for the spring semester only.** Students who do not complete a waiver prior to the deadline will automatically be enrolled in and charged the student-only premium for the UnitedHealthcare student plan. Once the waiver is submitted, the charge will be removed from the student account within forty-eight hours; students and authorized payers can verify the adjustment by

logging in to [www.bc.edu/myservices](http://www.bc.edu/myservices) ("My Bill") and viewing Current Activity on the View & Pay Accounts tab. **Students are responsible for verifying that their waiver was submitted correctly.**

Providing insurance information to other offices on campus (e.g., Athletics, Health Services) does not fulfill the waiver requirement. If a student does not complete a waiver with the Office of Student Services, either through [www.bc.edu/myservices](http://www.bc.edu/myservices) or on paper, prior to the deadline, he or she will automatically be enrolled in and charged for the student insurance plan.

Students who missed the deadline, but have extenuating circumstances, may submit a Petition to Waive After Published Deadline form, available on the Forms tab.

Students are eligible for the insurance plans offered through the Health Connector but should review these plans carefully, because they may have high deductibles.

## **International Students Waiver Requirements (Students who are Not U.S. Citizens or Permanent Residents)**

In order to ensure international students are covered by a plan that provides coverage which meets or exceeds the Student Health Insurance Plan, **international students are not eligible to waive BC's Student Health Insurance Plan.** If you are insured through (1) your own or a parent/guardian/spouse's health insurance plan offered through a U.S. employer or (2) a government sponsored program, (for example Government of Kuwait/UAE or Government of Saudi Arabia), you may be eligible for a waiver. MA Medicaid Plans: Children's Medical Security Program, MassHealth Limited, and Health Safety Net do not qualify for a waiver.

International insurance plans, socialized or standard medical policies (including Canadian policies), travel insurance plans, short-term medical plans, or plans not fully compliant with the Affordable Care Act are not acceptable and will not be considered. Your insurance must be effective on or before August 7, 2021 (for fall and annual waivers) or January 14, 2022 (for spring waivers) to qualify for a waiver. For example, a policy beginning on September 1, 2021 would not qualify for a fall or annual waiver.

The waiver form can be found on the Forms tab.

## **ID Cards (2021–2022)**

You can access your ID card information on the UnitedHealthcare site when the policy is active on August 7.

If you are unable to access your ID card, check the date of the insurance charge on your bill. If you have recently registered, allow 5–7 business days for your ID card to be viewable. **Graduate students:** Your insurance enrollment is activated by your registration for classes, so if you do not have an insurance charge on your BC student account, you need to register for classes.

To obtain your HP/UHCSR health insurance ID card:

1. Go to [www.uhcsr.com/BC](http://www.uhcsr.com/BC) and click "Create Account" at the bottom of the page.
2. Enter your first and last name, date of birth, and your Eagle ID.
3. Create your username and password, and click Next to activate your My Account.
4. Log in using the username and password you just created.
5. Verify your identity using your BC email address. Remember that your email address can be either `firstname.lastname@bc.edu` or `username@bc.edu`, so try the other version if the first does not work. You'll be sent a code to enter to complete your verification.

# 2021–2022 Forms

## Contacts and Questions (2021–2022)

### Claims and Claim Payments

UnitedHealthcare  
866-948-8472  
<http://customerservice@uhcsr.com/>

### Preferred Providers

The Preferred Provider network for the UnitedHealthcare plan is UHC - Harvard Pilgrim Joint Venture. Use their Find Care service here: [UHC Options PPO - Harvard Pilgrim Joint Venture](#).

### Gallagher Student Health & Special Risk

500 Victory Road, Quincy, MA 02171  
800-394-4026  
[GallagherStudent.com/BC](http://GallagherStudent.com/BC)

### Discount Plans

**EyeMed Vision Care Discount Plan:** You are automatically enrolled in the EyeMed discount plan if you are enrolled in the student medical insurance plan. Note that this is a discount program, not a vision insurance plan. Please visit the [Gallagher Student website](#) or contact Gallagher at 800-394-4026 for more information.

**Basix Dental Savings Program:** You are automatically enrolled in the Basix discount plan if you are enrolled in the student medical insurance plan. Note that this is a discount program, not a dental insurance plan. Please see below for optional dental insurance enrollment. Visit [Gallagher Student website](#) or contact Gallagher at 800-394-4026 for more information about the Basix Plan.

**Optional Dental and Vision Plans:** Students can voluntarily enroll in Dental and Vision insurance plans through Gallagher Student Health & Special Risk. This coverage is NOT included with your student medical insurance plan; coverage is optional and purchased separately. You do not need to be enrolled in the BC medical insurance plan to enroll in this coverage. For more information, visit <https://www.gallagherstudent.com/products/voluntary-dental-insurance/>.

# Tuition & Fees

All fees are proposed and subject to change.

The University reserves the right to correct typographical errors or to adjust the Tuition and Fees schedule at any time it deems necessary. The Trustees of Boston College reserve the right to change the tuition rates and to make additional charges within the University whenever such action is deemed necessary.

Boston College is committed to providing information in a manner that is accessible to all. If you are in need of a printed copy of the material presented on this web page, please contact the [Office of Student Services](#).

## Tuition and Fees

### Tuition Rates

#### 2021–2022 Academic Year

Program	Cost Per Semester	Cost Per Credit
Undergraduate	\$30,265	\$2,018 Extra Courses Only
Woods College of Advancing Studies—Undergraduate		\$548
Woods College of Advancing Studies—Graduate Administrative Studies or Leadership and Administration		\$980
Woods College of Advancing Studies—Graduate Applied Economics		\$1,248
Woods College of Advancing Studies—Graduate Cybersecurity Policy and Governance		\$1,248

School of Theology and Ministry—Summer		\$1,196

Undergraduate Summer	\$926
----------------------	-------

Graduate students who are allowed to audit a course with permission pay half of the tuition cost for the course plus fees. Audit fees are non-refundable. Students switching from credit to audit do not receive a refund of the difference.

## Residence Hall Rates

### 2021–2022 Academic Year

Residence Hall	Per Semester Rate
66 Commonwealth Avenue (double/triple)	\$4,890
2150 Commonwealth Avenue	\$6,530
Greycliff, Newton, Upper Campus	\$4,890
Ignacio and Rubenstein (4-person)	\$6,160
Ignacio and Rubenstein (6-person)	\$6,160
Modular Apartments	\$6,160
Vanderslice, Stayer Hall, and 90 Campanella Way	\$5,510
Vouté and Gabelli Townhouses, 2000 Commonwealth Avenue	\$6,530
Vouté and Gabelli Apartments	\$6,160
Walsh (8-person)	\$5,245
<b>Residential Meal Plan</b>	\$2,911

\*Students living in residence halls with kitchen facilities are not charged for the mandatory board plan. Flex dining plans are available. For more information, visit the [Dining Services](#) website.

## University Fees

### 2021–2022 Academic Year

#### General University Fees

Fee	Amount	Frequency
Undergraduate Application Fee (not refundable)	\$80	Once
Enrollment Confirmation Fee*	\$500	Once
Medical Insurance Fall Semester (U.S. citizens and permanent residents) <i>Coverage: 8/7/21–1/13/22</i>	\$1,550	Once Per Fall Semester
Medical Insurance Fall Semester (International students^) <i>Coverage: 8/7/21–1/13/22</i>	\$1,550	Once Per Fall Semester
Medical Insurance Spring Semester (U.S. citizens and permanent residents) <i>Coverage: 1/14/22–8/6/22</i>	\$1,985	Once Per Spring Semester
Medical Insurance Spring Semester (International students*) <i>Coverage: 1/14/22–8/6/22</i>	\$1,985	Once Per Spring Semester
Freshman Orientation Fee	200	Per Year
Identification Card Initial Fee	\$45	Per Card
Identification Card Replacement Fee	\$30	Per Card

Campus Health Fee (Infirmary)	\$550	Per Year
Lab/Course Fees (see Laboratory/Course Fees tab above)	\$55–\$365	Per Course/Per Semester
Transcript Fees (all fees paid directly to National Student Loan Clearinghouse)	Electronic copy: \$5 Paper copy sent via USPS: \$7 (additional fees apply for express shipping)	Per Transcript
Law School Association Fee	\$210	Per Year
Nursing Exam Fee (NCLEX Assessment Test)	\$70	Senior Year
Late Payment Fee (All Students)	\$150	Per Semester

\*This fee will be applied towards students' tuition in the second semester of their senior year. Students forfeit this fee if they withdraw prior to completing their degree.

^The policy for international students includes coverage for medical evacuation and repatriation.

#### Registration Fees

Fee	Amount	Frequency
Woods College of Advancing Studies	\$25	Per Semester
Summer Session	\$45	Per Semester

#### Late Registration Fees

Fee	Amount	Frequency
Graduate Students	\$150	Per Semester

Woods College of Advancing Studies	\$30	Per Semester
Summer Session (excluding GSMCAS and Lynch School Graduate Programs)	\$50	Per Semester

#### Returned Check Fines

Fee	Amount	Frequency
First three checks	\$25	Per Check
Additional checks	\$40	Per Check
Any check in excess of \$2,000	\$65	Per Check

#### Student Activity Fees

Fee	Amount	Frequency
Undergraduate	\$626	Per Year
Graduate (GSMCAS, STM, Lynch School, CGSON, BCSSW) fewer than 7 credits	\$37	Per Semester
Graduate (GSMCAS, STM, Lynch School, CGSON, BCSSW) 7 or more credits	\$53	Per Semester
Graduate (CGSOM) less than 7 credits	\$37	Per Semester
Graduate (CGSOM) 7 or more credits	\$63	Per Semester

Tuition does not include the cost of lab fees, textbooks, or other required materials for specific courses. In general, full-time graduate and undergraduate students should anticipate costs for textbooks and course supplies of \$1,300–\$2,200 for the academic year. Textbook costs for specific courses can be found on the website for the Boston College Bookstore.

The University reserves the right to correct typographical errors or to adjust the Tuition and Fees schedule at any time it deems necessary.

The Trustees of Boston College reserve the right to change the tuition rates and to make additional charges within the University whenever such action is deemed necessary.

## **Collection Cost and Fees**

Matriculated students at Boston College are individually, personally, and primarily responsible to the University for paying all tuition and other fees associated with enrollment and room and board. This obligation also applies to any additional tuition and fees resulting from adjustments to course schedules. Students remain responsible in accordance with University policy for tuition and fees for classes for which they register, including any classes for which they have been withdrawn, been dropped, failed, or failed to attend. Students must formally withdraw from any/all classes that they do not attend in a particular semester. Students will not be relieved of their responsibility to pay tuition unless they withdraw from classes in accordance with the withdrawal timelines and procedures published by the Office of Student Services in the University Catalog.

All billing statements are sent electronically. Information on how to access student bills and related account information is available on the Office of Student Services website, including at [www.bc.edu/mybill](http://www.bc.edu/mybill). Students are responsible for reviewing their billing statements, making payments by the due date stated in the billing statement, and notifying the University's Office of Student Services in a timely manner of any errors or discrepancies. A student may authorize parents, guardians or others to view their statements and pay on their behalf, but each student shall remain individually, personally and primarily responsible for the payment of all amounts charged to their accounts. There may be a \$150 late payment fee assessed to unresolved accounts by the due date. Students will also be charged a fee of \$25.00 for a returned check or returned electronic payment (\$65 for any returned item over \$2,000).

In the event a student's account becomes delinquent or fails to comply with a payment plan approved by Boston College, then Boston College may withdraw the student, place holds on the student's transcript and diploma, and deny access to University services, including registration, dining, residence hall selection, library, travel abroad and recreation services.

In the event a student's account becomes delinquent or if the student fails to comply with a payment plan approved by Boston College to bring the delinquent account current, Boston College may refer the student's delinquent account to a collection agency, attorney or other third party that provides collection-related services. In addition to the student's responsibility for paying any amounts due on the account prior to referral for collection-related services, the student shall be responsible for (a) paying any and all collection-related fees, which may be based on a percentage of a student's delinquent account balance, provided that such percentage does not exceed 40%, and (b) paying any and all costs incurred in connection with the efforts to collect on the student's delinquent account, including without limitation court costs and reasonable attorneys' fees. The University, or its agents, may also report a student's account delinquency to one or more of the national credit bureaus.

## **Notice of Consent to Collection Communications**

By registering for a course at Boston College, a student authorizes Boston College and its agents and contractors to contact the student at any current or future phone number(s), email address(es) and wireless device(s) regarding the student's account and/or any payments owed to Boston College. Students also authorize Boston College and its agents and contractors to use automated telephone dialing equipment, artificial or prerecorded voice or text messages, and personal calls and emails, in their efforts to contact me. Students also consent to Boston College, or its affiliates, agents, and service providers, to recording telephone calls regarding the student's account in assurance of quality and/or other reasons.

# Tuition Refund Schedule: Fall and Spring

## Withdrawals and Refunds

Fees are not refundable.

Tuition is cancelled subject to the following conditions:

- Notice of withdrawal must be made in writing to the dean of the student's school.
- The date of receipt of written notice of withdrawal by the Dean's Office determines the amount of tuition cancelled.

The cancellation schedule that follows will apply to students withdrawing voluntarily, as well as to students who are dismissed from the University for academic or disciplinary reasons. A student who drops, withdraws or fails to attend some or all of the classes for which the student registers will be responsible for paying all or a portion of tuition and fees in accordance with the refund schedules below. A student's failure to attend class does not absolve the student of his or her financial responsibility as described herein.

## Undergraduate Refund Schedule

### 2021–2022 Academic Year

Undergraduate students withdrawing by the following dates will receive the tuition refund indicated below.

#### First Semester

- by Aug. 27, 2021: 100% of tuition charged is cancelled
- by Sept. 10, 2021: 80% of tuition charged is cancelled
- by Sept. 17, 2021: 60% of tuition charged is cancelled
- by Sept. 24, 2021: 40% of tuition charged is cancelled
- by Oct. 1, 2021: 20% of tuition charged is cancelled

#### Second Semester

- by Jan. 14, 2022: 100% of tuition charged is cancelled
- by Jan. 28, 2022: 80% of tuition charged is cancelled
- by Feb. 4, 2022: 60% of tuition charged is cancelled
- by Feb. 11, 2022: 40% of tuition charged is cancelled
- by Feb. 18, 2022: 20% of tuition charged is cancelled

No cancellations are made after the fifth week of classes.

## Graduate and Woods College of Advancing Studies Refund Schedule

### 2021–2022 Academic Year

Graduate students withdrawing by the following dates will receive the tuition refund indicated below.

#### First Semester

- by Sept. 8, 2021: 100% of tuition charged is canceled
- by Sept. 10, 2021: 80% of tuition charged is canceled
- by Sept. 17, 2021: 60% of tuition charged is canceled
- by Sept. 24, 2021: 40% of tuition charged is canceled
- by Oct. 1, 2021: 20% of tuition charged is canceled

## Second Semester

- by Jan. 26, 2022: 100% of tuition charged is canceled
- by Jan. 28 2022: 80% of tuition charged is canceled
- by Feb. 4, 2022: 60% of tuition charged is canceled
- by Feb. 11, 2022: 40% of tuition charged is canceled
- by Feb. 18, 2022: 20% of tuition charged is canceled

No cancellations are made after the fifth week of classes. Federal Nursing Loans for graduates follow this refund schedule.

Woods College Students enrolled in 7-week courses in the Master's in Healthcare Administration, Master's in Applied Economics, and Graduate Certificate in Data Analytics programs may receive a 100% refund if withdrawn prior to the second class meeting. No refund will be given to students in these programs if withdrawn after the second class meeting.

## Law School Refund Schedule 2021–2022 Academic Year

Law School students are subject to the refund schedule outlined below.

### First Semester

- by Aug. 27, 2021: 100% of tuition charged is canceled
- by Sept. 10, 2021: 80% of tuition charged is canceled
- by Sept. 17, 2021: 60% of tuition charged is canceled
- by Sept. 24, 2021: 40% of tuition charged is canceled
- by Oct. 1, 2021: 20% of tuition charged is canceled

### Second Semester

- by Jan. 14, 2022: 100% of tuition charged is canceled
- by Jan. 28, 2022: 80% of tuition charged is canceled
- by Feb. 4, 2022: 60% of tuition charged is canceled
- by Feb. 11, 2022: 40% of tuition charged is canceled
- by Feb. 18, 2022: 20% of tuition charged is canceled

## Tuition Insurance Plan

Boston College is pleased to offer students a way to help protect their substantial financial investment in a college education. The Tuition Insurance Plan is an optional private insurance plan offered through A.W.G. Dewar, Inc. that assures subscribers who withdraw for illness or accident a refund throughout the semester, even if Boston College's own refund policy has expired.

For costs, benefit levels, further information, or an application form, please contact John Strain at Dewar, 4 Batterymarch Park, Suite 320, Quincy, MA 02169-7468, 617-774-1555.

## Federal Regulations Governing Refunds

If a student does not wish to leave any resulting credit balance on his or her account for subsequent use, he or she should request a refund at [www.bc.edu/myservices](http://www.bc.edu/myservices) ("Request Student Account Refund"). If a student has a credit balance as a result of Federal Aid and he or she does not request a refund, the University will, within two weeks, send the credit balance to his/her local address.

Federal regulations establish procedural guidelines applicable to the treatment of refunds whenever the student has been the recipient of financial assistance through any program authorized under Title IV of the Higher Education Act of 1965. These guidelines pertain to the Federal Pell Grant, the Federal Supplemental Educational Opportunity Grant, the Federal College Work-Study, and the Federal Stafford and

PLUS Loan. In such cases, the regulations require that a portion of any refund be returned according to federal guidelines. Further, if a student withdraws, the institution must determine if any cash disbursement of Title IV funds, made directly to the student by the institution for non-instructional purposes, is an overpayment that must be repaid to the Title IV program. University policy developed to comply with the regulations at Boston College will be available upon request from the Office of Student Services.

## **Tuition Refund Schedule: Summer**

Once a class officially begins, you have until the add/drop deadline for your specific summer term to drop the course using the Course Drop form found on the [Academic Forms](#) page and receive 100% refund. After the add/drop deadline, there is no cancellation of tuition for withdrawing from a course.

To view the add/drop deadline for your term, visit the [Summer Registration](#) page.

# Transcript Requests

The National Student Clearinghouse (NSCH) is the authorized vendor for delivery of official Boston College transcripts. Transcripts can be ordered to be sent electronically or on paper via regular or express mail. Electronic and paper transcript requests will be processed in 1–3 business days. Historical transcripts (those prior to 2001) may take several additional days for processing. Requests for Federal Express shipping will only expedite the shipping after the processing period.

There is a \$5 charge per electronic transcript and a \$7 charge per paper transcript (all fees are paid directly to National Student Loan Clearinghouse). Additional fees are required for express mail service. Details including payment options are on the Clearinghouse transcript ordering website.

**Current students** should request official transcripts via the transcript request link in the [Agora Portal](#). **Alumni** requesting official transcripts should log into the [National Student Clearinghouse](#) transcript ordering site to submit a request. Unofficial transcripts are only available as hard copy documents. They may only be requested and picked up in person by the record-holder with a valid BC or government ID in the Office of Student Services. Unofficial transcripts cannot be sent by Boston College electronically to the record-holder or any third-party. Please contact the Office Student Services with any additional questions.

- Students must know their Eagle ID number when requesting transcripts via NSCH. If you do not know your Eagle ID number please contact the Office of Student Services at 617-552-3300 or 800-294-0294 for assistance prior to logging into the NSCH site to make your request.
- Students who were enrolled at BC prior to the use of Eagle IDs should contact the Office of Student Services at 617-552-3300 or 800-294-0294 to receive their unique identification number.
- International students should review additional information in the accordion below regarding the social security number (SSN) requirement.
- Transcript requests will not be honored for any student with an outstanding financial obligation to the University. The same policy applies to any student who does not complete the required loan exit interview.

## Additional Instructions for International Students

In addition to Eagle ID number, a student's social security number (SSN) is required as a secondary security measure when requesting transcripts via the NSCH. For international students without SSNs, the Office of Student Services recommends using 999-99-9999 in the SSN field. This is a completely valid option for international students without SSNs looking to proceed with the request of a transcript.

## Apostilles or Authentication of Documents

Some foreign governments and agencies require that diplomas, transcripts, or enrollment verifications be certified with an apostille. An apostille is a document issued by the Massachusetts' Secretary of the Commonwealth that verifies the authenticity of the signature on the document; the capacity in which the person signing the document acted; and the identity of any stamp or seal affixed to the document. The apostille is a specific form of authentication for countries that participate in the Hague Convention of 1961. The Secretary of the Commonwealth's office is the only agency in Massachusetts that is authorized to issue an apostille or certification for a notarized document going to a foreign country. Massachusetts does not certify out-of-state documents. They must be certified by the state of origin. Additional information can be found at <http://www.sec.state.ma.us/pre/precom/comidx.htm>.

Complete the [Apostille Request Form](#). Boston College will notarize the documents as selected and return them to the requestor for further processing for the Apostille.

## July

**31**  
Sat Last date for all students who plan to graduate in August 2021 to verify their diploma names online

---

Associate Professor

**Mary Walsh, Ph.D.**

Professor

**Jon Wargo, Ph.D.**

Assistant Professor

**Stanton Wortham, Ph.D.**

Inaugural Charles F. Donovan, S.J., Dean

**Hans de Wit, Ph.D.**

Emeritus Professor of the Practice;  
Distinguished Fellow, Center for  
International Higher Education

## Morrissey College of Arts and Sciences

### African and African Diaspora Studies

#### Core Faculty

**Amey Victoria Adkins-Jones**

Assistant Professor

**M. Shawn Copeland**

Professor Emerita

**Allison Curseen**

Assistant Professor

**Kyrah Malika Daniels**

Assistant Professor, Art History

**Rhonda Frederick**

Associate Professor

**C. Shawn McGuffey**

Associate Professor

**Martin Summers**

Professor

### Affiliated Faculty

#### English Department

**Angela Ards**

Associate Professor

**Carlo Rotella**

Professor

**Kalpana Seshadri**

Professor

**Min Hyoung Song**

Professor

#### History Department

**Priya Lal**

Associate Professor

**Deborah Levenson-Estrada**

Professor Emerita

**Karen K. Miller**

Associate Professor of the Practice of  
History

#### Music Department

**Timothy R. Mangin**

Assistant Professor

#### Philosophy Department

**Jorge L. A. Garcia**

Professor

#### Political Science Department

**Lauren Honig**

Assistant Professor

**Jennie Purnell**

Associate Professor

#### Sociology Department

**Zine Magubane**

Professor

## **Theology Department**

**Andrew L. Prevot**

Associate Professor

## **AADS Part-time Faculty**

**Juan Concepcion**

**Shannon Jacob**

**Akua Sarr**

## **AADS Teaching Fellow**

**Michelle McElwaine**

## **Art, Art History, and Film**

### **Art History**

**Sultan Sooud Al Qassemi**

Visiting Instructor

**Asher Anderson**

Part-time Faculty, Art History

**Pamela Berger**

Professor, Art History and Film

**Aurelia Campbell**

Associate Professor, Art History

**Kenneth Craig**

Associate Professor, Art History

**Kyrah Malika Daniels**

Assistant Professor, Art History

**Emine Fetvaci**

Norma Jean Calderwood University  
Professor in Islamic and Asian Art

**Stephanie Leone**

Professor, Art History

**Kevin Lotery**

Assistant Professor, Art History

**Yoko Mari Hara**

Part-Time Faculty, Art History

**Nancy Netzer**

Professor, Art History

**Richard Newman**

Visiting Professor, Art History

**Timothy Orwig**

Part-time Faculty, Art History

**Oliver Wunsch**

Assistant Professor, Art History

### **Film Studies**

**Pamela Berger**

Professor, Art History and Film

**Kris Brewer**

Part-time Faculty, Film

**Gautam Chopra**

Part-time Faculty, Film

**Mary Conroy**

Part-time Faculty, Film

**Georgie Friedman**

Part-time Faculty, Film and Studio Art

**Robert Heim**

Part-time Faculty, Film

**Joseph LaRocca**

Part-time Faculty, Film

**Carter Long**

Part-time Faculty, Film

**John Michalczyk**

Professor and Director, Film Studies  
Program

**Michael Rossi**

Part-time Faculty, Film

**Jonathan Sage**

Part-time Faculty, Film

### **Studio Arts**

**Lelia Amalfitano**

Part-time Faculty, Studio Art

**Hartmut Austen**

Assistant Professor, Studio Art

**Karl Baden**

Associate Professor of the Practice,  
Studio Art

**Jane Cassidy**

Assistant Professor, Studio Art

**Sammy Chong, S.J.**

Assistant Professor of the Practice,  
Studio Art

**Mark Cooper**

Professor of the Practice, Studio Art

**Georgie Friedman**

Part-time Faculty, Film and Studio Art

**Sheila Gallagher**

Associate Professor, Studio Art

**Candice Ivy**

Part-time Faculty, Studio Art

**Khalid Kodi**

Part-time Faculty, Studio Art

**Greer Muldowney**

Assistant Professor of the Practice of  
Photography

**Brian Reeves**

Part-time Faculty, Studio Art

**Mary Sherman**

Part-time Faculty, Studio Art

**Stephanie Stigliano**

Part-time Faculty, Studio Arts

**Debra Weisberg**

Part-time Faculty, Studio Art

### **Retired Faculty**

**Mary Armstrong**

Part-time Faculty, Studio Art

**Sheila Blair**

Norma Jean Calderwood University  
Professor of Islamic and Asian Art

**Richard Blake S.J.**

Professor, Film - Retired

**Jonathan Bloom**

Norma Jean Calderwood University  
Professor of Islamic and Asian Art

**Alston Conley**

Associate Professor of the Practice,  
Studio Art

**John Hoover**

Part-time Faculty, Film - Retired

**Jeffery Howe**

Professor Emeritus, Art History

**Charles Meyer**

Adjunct Associate Professor, Studio Art - Retired

**Michael Mulhern**

Associate Professor, Studio Art - Retired

**Katherine Nahum**

Adjunct Associate Professor, Art History - Retired

**John Steczynski**

Professor, Studio Art - Retired

**Andrew Tavarelli**

Professor of the Practice, Studio Art - Retired

**Josephine von Henneberg**

Professor Emeritus, Art History

## Biology

### Faculty

**Emrah Altindis**

Assistant Professor

**Anthony T. Annunziato**

Professor

**David Burgess**

Professor

**Thomas Chiles**

Professor and Deluca Chair of Biology

**Peter Clote**

Professor

**Jeffrey DaCosta**

Assistant Professor of the Practice

**Lynn DiBenedetto**

Visiting Assistant Professor

**Kathy Dunn**

Associate Professor, Associate Chair

**Rebecca Dunn**

Assistant Professor of the Practice

**Ismael Ben Fofana**

Assistant Professor of the Practice

**Eric S. Folker**

Associate Professor

**Marc-Jan Gubbels**

Professor

**Laura E. Hake**

Associate Professor

**Charles Hoffman**

Professor & Graduate Program Director

**Welkin Johnson**

Professor & Department Chair

**Christopher Kenaley**

Associate Professor of the Practice

**Daniel A. Kirschner**

Professor

**Philip J. Landrigan**

Professor

**Vicki Losick**

Assistant Professor

**Sarah McMenamin**

Assistant Professor

**Michelle Meyer**

Professor of Biology

**Babak Momeni**

Assistant Professor

**Heather Olins**

Assistant Professor of the Practice

**Thomas N. Seyfried**

Professor

**Danielle Taghian**

Associate Professor of the Practice

**Douglas Warner**

Director of Laboratories

**Kenneth C. Williams**

Professor

**Tim van Opijnen**

Associate Professor

## Research Faculty

**Klemens Engelberg**

Research Assistant Faculty

**Andrea Kirmaier**

Technical Director of the BCML

**James Whitney**

Research Associate Professor

## Part-Time Faculty

**Timothy Connolly**

Part Time Faculty

**Jeremy Eberhard**

Part Time Faculty

**Bret Judson**

Imaging Facility Manager

**Mara Laslo**

Part Time Faculty

**Arne Nystuen**

Part Time Faculty

**Joshua Z. Rappoport**

Part Time Faculty

**Hilary Scheintaub**

Part Time Faculty

## Visiting Scholars

**Kurt Straif**

Visiting Scholar

**Gherman Wiederschain**

Visiting Scholar, Seyfried Lab

## Emeritus/Retired Faculty

**Daniel A. Kirschner**

Professor Emeritus

**Junona Moroianu**

Associate Professor

**Clare M. O'Connor**

Associate Professor Emeritus

# Chemistry

## Teaching Faculty

### Daniel Fox

Associate Professor of the Practice

### Fredrik Haeffner

Assistant Professor of the Practice

### Kenneth R. Metz

Adjunct Professor; Director of Advanced Chemistry Laboratories

### Lynne A. O'Connell

Adjunct Associate Professor of Chemistry; Director of Introductory Chemistry Laboratories; Chair, Undergraduate Chemistry Studies

## Research Faculty

### Lucas Bao, Ph.D.

Assistant Professor of Chemistry

### Jeffery A. Byers, Ph.D.

Associate Professor

### Abhishek Chatterjee, Ph.D.

Associate Professor of Chemistry

### Jianmin Gao, Ph.D.

Professor of Chemistry

### Amir H. Hoveyda, Ph.D.

Professor of Chemistry; Patricia and Joseph T. '49 Vanderslice Millennium Chair

### Shih-Yuan Liu, Ph.D.

Professor of Chemistry

### Udayan Mohanty, Ph.D.

Professor of Chemistry

### James P. Morken, Ph.D.

Professor of Chemistry; Louise and Jim Vanderslice and Family Chair

### Jia Niu, Ph.D.

Assistant Professor of Chemistry

### Marc L. Snapper, Ph.D.

Professor of Chemistry

### Matthias Waegele, Ph.D.

Associate Professor of Chemistry

### Dunwei Wang, Ph.D.

Professor of Chemistry and Chairperson; Margaret A. and Thomas A. '53 Vanderslice Chair in Chemistry

### Masayuki Wasa, Ph.D.

Assistant Professor of Chemistry

### Eranthie Weerapana, Ph.D.

Professor of Chemistry

### X. Peter Zhang, Ph.D.

Professor of Chemistry

### Huiqing (Jane) Zhou, Ph.D.

Assistant Professor of Chemistry

## Emeritus & Retired

### William H. Armstrong

Associate Professor of Chemistry

### E. Joseph Billo

Professor of Chemistry, Retired

### Michael J. Clarke

Professor of Chemistry, Retired

### Paul Davidovits

Professor of Chemistry

### Evan R. Kantrowitz

Professor of Chemistry, Emeritus

### T. Ross Kelly

Professor of Chemistry, Emeritus; Margaret A. & Thomas A. Vanderslice Chair

### David L. McFadden

Professor of Chemistry; Co-Chair, Undergraduate Chemistry Studies

### Larry W. McLaughlin

Professor of Chemistry, Retired

### Mary F. Roberts

Professor of Chemistry, Emeritus

### Dennis J. Sardella

Professor of Chemistry, Retired

### Lawrence T. Scott

Professor of Chemistry, Emeritus; Louise and Jim Vanderslice and Family Chair

# Classical Studies

## Faculty

### Kendra Eshleman

Associate Professor

### Gail Hoffman

Associate Professor and Chair

### Christopher Polt

Assistant Professor

### Maria Kakavas

Visiting Assistant Professor

### Mark Thatcher

Assistant Professor of the Practice

### Hanne Eisenfeld

Assistant Professor

### Tom Sapsford

Assistant Professor

## Lecturers

### Elizabeth Sutherland

Lecturer

## Retired and Research Faculty

### Charles F. Ahern

Associate Professor (retired)

### Dia Philippides

Professor Emerita

## Associated Faculty

### M.J. Connolly

Associate Professor; Coordinator, Faculty Microcomputer Resource Center

### Kenneth Craig

Associate Professor, Art History

### Mary Crane

Thomas F. Rattigan Professor

### John Darr

Associate Professor

### Yonder Gillihan

Associate Professor

**Gary Michael Gurtler, S.J.**

Professor

**Arthur R. Madigan, S.J.**

Professor

**PHEME PERKINS**

Joseph Professor of Catholic Spirituality

**Margaret Schatkin**

Associate Professor

**David Vanderhoof**

Associate Professor

## Communication

### Full-Time

**Ann Marie Barry**

Associate Professor

**Marcus Breen**

Assistant Professor of the Practice,  
Director of the Media Lab

**Lisa Cuklanz**

Professor

**Ashley Duggan**

Associate Professor

**Ali Erol**

Assistant Professor of the Practice

**Donald Fishman**

Associate Professor and Assistant Chair

**Lindsay Hogan**

Assistant Professor of the Practice

**Brett Ingram**

Assistant Professor of the Practice

**S Mo Jones-Jang**

Assistant Professor

**Ernesto Livon-Grosman**

Professor; Director, Latin American  
Studies

**Renée Pastel**

Assistant Professor

**Kristin Peterson**

Assistant Professor

**Rita Rosenthal**

Associate Professor of the Practice and  
Public Speaking Coordinator

**Michael Serazio**

Associate Professor

**Matt Sienkiewicz**

Associate Professor; Chairperson of the  
Communication Department

**Anthony Tran**

Assistant Professor

**Celeste Wells**

Associate Professor of the Practice

### Part-Time

**Christine Caswell**

Senior Internship Seminar, Public  
Speaking, Broadcast and Digital  
Communication

**Rich Howley**

Studio Television Production, Digital  
Media Field Production

**John Katsulas**

Director of Debate

**Paul Reynolds**

Studio Television Production, Digital  
Media Field Production

**Judy Schwartz**

Fundamentals of Audio I

**Anne Sears**

Media Theory, Television Criticism

### Affiliated and Emeritus

**Kyoung-yim Kim**

Research Assistant Professor

### Emeritus Faculty

**Marilyn Malteski**

Professor Emerita

**Dorman Picklesimer, Jr.**

Professor Emeritus

## Computer Science

### Core Faculty

**Sergio Alvarez**

Associate Professor

**Amittai Aviram**

Visiting Associate Professor

**José Bento**

Associate Professor

**Anjum Biswas**

Lecturer

**Naomi Bolotin**

Associate Professor of the Practice

**William Griffith**

Associate Professor of the Practice

**Nam Wook Kim**

Assistant Professor

**Carl McTague**

Visiting Assistant Professor

**Robert Muller**

Associate Professor

**Emily Prud'hommeaux**

Gianinno Family Sesquicentennial  
Assistant Professor

**Maira Samary**

Visiting Assistant Professor

**Howard Straubing**

Chairperson and Professor

**Hsin-Hao Su**

Assistant Professor

**Joseph Tassarotti**

Assistant Professor

**Jean-Baptiste Tristan**

Associate Professor

**Lewis Tseng**

Assistant Professor

**Rafael Ubal**

Visiting Associate Professor

**Ilya Volkovich**  
Assistant Professor

**Donglai Wei**  
Assistant Professor

**Charles Wiseman**  
Visiting Professor of the Practice

## Related Faculty

**Peter Clote**  
Professor

**Edward Sciore**  
Part-time Lecturer; Associate Professor  
(retired)

## Earth and Environmental Sciences

### Full-Time Faculty

**Ethan Baxter**  
Professor

**Mark D. Behn**  
Associate Professor

**John E. Ebel**  
Professor

**Tara Pisani Gareau**  
Associate Professor of the Practice,  
Director of the Environmental Studies  
Program

**Alan L. Kafka**  
Associate Professor

**Seth C. Kruckenberg**  
Associate Professor

**Hilary Palevsky**  
Assistant Professor

**Jeremy Shakun**  
Associate Professor

**Noah P. Snyder**  
Professor

**Xingchen (Tony) Wang**  
Assistant Professor

## Adjunct Faculty and Visiting Assistant Professors

**Richard Becker**  
Visiting Assistant Professor, Earth and  
Environmental Sciences

**Nicole Gross-Camp**  
Visiting Assistant Professor,  
Environmental Studies Program

## Part-Time Faculty and Lecturers

**Mathias Collins**  
Part Time Faculty

**Ken Galli**  
Departmental Lab Manager and Lecturer

**Thomas Kuchar**  
Research Astronomer, Institute for  
Scientific Research

**Paul Strother**  
Research Professor

## Emeritus and Retired Faculty

**George D. Brown, Jr.**  
Retired Professor

**J. Christopher "Chris" Hepburn**  
Professor Emeritus

**Gail C. Kineke**  
Professor Emerita

**James W. Skehan S.J.**  
Retired Professor

## Eastern, Slavic, and German Studies

### Faculty

**Nick Block**  
Assistant Professor of the Practice,  
German Studies

**Daniel Bowles**  
Associate Professor, German Studies

**William "Chris" Burwick**  
Visiting Assistant Professor, German  
Studies

**Sing-Chen Lydia Chiang 蔣興珍**  
Associate Professor, Asian Studies

**Atef Ghobrial**  
Associate Professor of the Practice,  
Arabic

**Seung Hee Jeon**  
Visiting Assistant Professor, Korean

**Tony H. Lin**  
Visiting Assistant Professor of Russian  
and Slavic Studies; Coordinator,  
Russian/Slavic Studies

**Fang Lu**  
Associate Professor of the Practice,  
Chinese

**Augustina Owusu**  
Visiting Assistant Professor, Linguistics

**Michael Resler**  
Professor of German Studies

**Franck Salameh**  
Professor of Near Eastern Studies;  
Department Chair

**Maxim D. Shrayer (МАКСИМ Д. ШРАЕР)**  
Professor of Russian, English, and Jewish  
Studies; Director, East European Studies  
Minor

**Margaret Thomas**  
Professor, Linguistics

### Lecturers

**Samira Al Recha Kuttab**  
Lecturer, Arabic

**Barakatullo Ashurov**  
Lecturer, Persian

**Mayss Bajbouj**  
Lecturer, Arabic

**Miranda Chen-Cristoforo**  
Lecturer, Chinese

**Jun Ono Cheung**  
Lecturer, Japanese

**Mariela Dakova**  
Lecturer, Slavic Studies and Bulgarian

**Ikram Easton**  
Lecturer, Arabic

**Rima Farah**  
Lecturer, Hebrew

**Claire Foley**  
Lecturer, Linguistics

**Barbara S. Gawlick**  
Lecturer, Polish

**Geraldine A. Grimm**  
Lecturer, German Studies

**Jaehee Ju**  
Lecturer, Korean

**Rie Kamimura**  
Lecturer, Japanese

**Leon Kogan**  
Lecturer, Russian

**Te Lai**  
Lecturer, Chinese

**Ursula Mangoubi**  
Lecturer, German Studies

**Asako Miyaki Ashley**  
Lecturer, Japanese

**Abdelkrim Mouhib**  
Lecturer, Arabic

**Kyung-Jin Rhee**  
Lecturer, Korean

**Ruth Sondermann**  
Lecturer, German Studies

**Hsinwei Su**  
Lecturer, Chinese

**Ritsuko Sullivan**  
Lecturer, Japanese

**Sassan Tabatabai**  
Lecturer, Persian

**Andreas Triantafyllou**  
Lecturer, Greek

**Curt Woolhiser**  
Lecturer, Russian

**Xiaoqing Yu**  
Lecturer, Chinese

## **Former Faculty**

**Gert Bruhn**  
Assistant Professor

**M.J. Connolly**  
Professor Emeritus of Linguistics

**Christoph Eykman**  
Professor Emeritus of German Studies

**Rachel Freudenburg**  
Associate Professor, German Studies

**Hanni Myers**  
Lecturer, German Studies

**Cynthia Simmons**  
Professor Emerita of Slavic Studies

**Choong Nam Yoon**  
Lecturer, Korean

**Hyang Sook Yoon**  
Lecturer, Korean

## **Economics**

### **Full Time Faculty**

**James E. Anderson**  
William B. Neenan, S.J. Millennium  
Professor

**Susanto Basu**  
Professor; Director of Graduate Studies

**Christopher F. Baum**  
Professor of Economics and Social Work;  
Chair of the Economics Department

**Ryan Chahrour**  
Associate Professor

**Paul L. Cichello**  
Associate Professor of the Practice

**Lucas Coffman**  
Assistant Professor

**Donald Cox**  
Professor

**Mehmet Ekmekci**  
Professor

**Can Erbil**  
Professor of the Practice

**Hanno Foerster**  
Assistant Professor

**Michael Grubb**  
Associate Professor

**Pablo Guerron**  
Professor

**Peter Ireland**  
Murray and Monti Professor

**Shakeeb Khan**  
Professor

**Hideo Konishi**  
Professor

**Danial Lashkari**  
White Family Assistant Professor

**Mariana Laverde**  
Assistant Professor

**Tzuo-Hann Law**  
Assistant Professor

**Arthur Lewbel**  
Barbara A. and Patrick E. Roche  
Professor of Economics

**C. Christopher Maxwell**  
Professor of the Practice

**Julie Holland Mortimer**  
Professor

**Robert Murphy**  
Associate Professor; Assistant Chair of  
the Economics Department

**Charles Murry**  
Wieler Family Assistant Professor

**Jaromir Nosal**  
Assistant Professor

**Theodore Papageorgiou**  
Felter Family Assistant Professor

**Joseph Quinn**

Professor

**Tracy L. Regan**

Professor of the Practice, Director of Undergraduate Studies

**Matthew Rutledge**

Associate Professor of the Practice

**Chandini Sankaran**

Associate Professor of the Practice

**Geoffrey Sanzenbacher**

Associate Professor of the Practice

**Fabio Schiantarelli**

Professor

**Uzi Segal**

Professor

**Richard L. Sweeney**

Assistant Professor

**Tayfun Sönmez**

Professor

**Robert Ulbricht**

Assistant Professor

**Rosen Valchev**

Assistant Professor

**Zhijie Xiao**

Professor

**M. Bumin Yenmez**

Professor

**M. Utku Ünver**

Professor

## Teaching Faculty

**Anatoly Arlashin**

Instructor

**Brian Bethune**

Part time professor

**Ilaria D'Angelis**

Instructor

**Haydar Evren**

Instructor

**Mark Kazarosian**

Part time professor

**Hossein Kazemi**

Part time professor

**Xiaoying Lan**

Instructor

**Christopher McHugh**

Part time professor

**Ngoc Nguyen**

Instructor

**Gokce Olcum**

Part time professor

**Alexandra Opanasets**

Instructor

**Vera Sharunova**

Instructor

**Dimitri Simeonov**

Instructor

**Aleksandar Tomic**

Associate Dean, Strategy, Innovation, & Technology

**Bruce Watson**

Part time professor

## Affiliated and Emeriti Faculty

**David Belsley**

Professor Emeritus

**Frank Gollop**

Professor Emeritus

**Marvin Kraus**

Professor Emeritus

**Francis M. McLaughlin**

Associate Professor Emeritus

**Alicia H. Munnell**

Professor, Peter F. Drucker Chair in Management Sciences, Finance, Carroll School of Management

**Harold Petersen**

Associate Professor Emeritus

**Richard W. Tresch**

Professor Emeritus

## Engineering

**Maria Isabel Carnasciali**

Engineering Fellow

**Glenn R. Gaudette**

John W. Kozarich '71 Chair of the Department of Engineering

**Siddharta Govindasamy**

Professor

**Avneet Hira**

Assistant Professor

**Jonathan Krones**

Assistant Professor of the Practice

**Bryan Ranger**

Assistant Professor

**Jenna Tonn**

Assistant Professor of the Practice, Director of Undergraduate Studies

## English

### Full Time Faculty

**Allison Adair**

Associate Professor of the Practice

**Lynne Anderson**

Director, Program for English Language Learners

**Angela Ards**

Associate Professor

**Amy Boesky**

Professor; Department Chair

**Christopher Boucher**

Associate Professor of the Practice

**Mary Crane**

Thomas F. Rattigan Professor

**Andy Crow**

Assistant Professor

**Allison Curseen**

Assistant Professor

**Marla Derosa**

Assistant to the Chair

**Clare Dunsford**

Visiting Associate Professor

**Rhonda Frederick**

Associate Professor

**Elizabeth Graver**

Professor

**Lori Harrison-Kahan**

Associate Professor of the Practice

**Dayton Haskin**

Professor

**Marjorie Howes**

Associate Professor, English and Irish Studies

**Aeron Hunt**

Associate Professor

**Thomas Kaplan-Maxfield**

Associate Professor of the Practice
