VOYAGE OF DISCOVERY:

Wonders of the Galápagos Islands

Aboard the M.V. SANTA CRUZ

February 24 to March 3, 2012

BCALUMNI ASSOCIATION

Dear Alumni & Friends:

"The natural history of this archipelago is very remarkable ... the greater number of its inhabitants, both vegetable and animal, being found nowhere else." Charles Darwin's keen yet simple observation of the Galápagos Islands lies at the heart of his theory of evolution. Today, with 95 percent of its natural biodiversity still intact, the Galápagos Archipelago is a "living laboratory of evolution," still the home of the exotic birds, animals and plants that inspired Darwin over a century ago and continue to make the islands a nature lover's dream destination today.

Join us for an incredible journey and exceptional travel value aboard the state-of-the-art exploration vessel M.V. SANTA CRUZ. Designed specifically to navigate the Galápagos Islands, it is fully equipped with everything necessary to make your Galápagos experience complete, from a fleet of Zodiacs and a glass-bottom Boston Whaler to complimentary snorkeling gear. Our highly qualified team of certified naturalists leads excursions and shares their knowledge to enhance your understanding and enjoyment of this fascinating and mysterious natural realm.

These 19 islands, each with its own ecosystem, are literally overflowing with life, including species unknown elsewhere in the world, like the flightless cormorant and the marine iguana. With few natural predators on the islands, the abundant wildlife is nearly fearless and accepts human company up-close to an extent found nowhere else! Here, you can almost touch spiny-backed iguanas and snorkel alongside playful seals and tropical penguins.

On mainland Ecuador, visit the colorful Andean market of Otavalo and explore the magnificent colonial churches of Quito. We are also pleased to offer an optional six-night Post-Tour featuring Peru's legendary "lost city" of Machu Picchu, the historic cities of Lima and Cuzco and the breathtaking Sacred Valley.

This special journey of discovery has been a fast sell-out every year and space is limited. I encourage you to make your reservation soon. Early Booking Savings are available only through August 4, 2011.

The enigma of the Galápagos Islands

"The Archipelago is a little world within itself..."
— Charles Darwin, *The Voyage of the Beagle*

It is ironic that this scattered, remote volcanic archipelago, consisting of just 19 islands and 42 islets located 600 miles off the coast of Ecuador, inspired one of the most revolutionary theories in the history of science. Formed millions of years ago by volcanic eruptions, these islands' dramatic landscapes now make a safe, if harsh, home for the quirky finches and primeval iguanas that inspired Charles Darwin's theory of natural selection and evolution, which he presented in *On The Origin of Species* in 1859.

Scientists generally believe that most Galápagos species originally floated to the islands from the mainland or were transported by birds or deposited by whalers and buccaners. Others, like penguins and sea lions, probably arrived by way of the Humboldt Current, a cold stream of ocean water flowing from the southern coast of Chile. This current makes the Galápagos the world's only tropical region to support such species.

Darwin noted that life in the Galápagos Islands comprises mostly "aboriginal creations, found nowhere else," which led him to hypothesize that the islands' species survived by evolving over time independently from their continental cousins. Because natural predators failed to survive—possibly due to the lack of fresh water, which deterred even permanent human settlement until the 20th century—its bevy of birds and animals was able to thrive and adapt in a manner not possible in other habitats. This also explains why Galápagos species never developed a sense of fear and allow the up-close viewing by humans that makes the experience of visiting the islands so thrilling and unique.

U.S./Quito, Ecuador Friday, Day 1

Fly to Quito and transfer to the superior first-class HILTON COLÓN HOTEL, ideally located near one of Quito's lively markets. Surrounded by snow-capped peaks, yet only miles from the equator, the city is known for its magnificent Spanish colonial architecture and colorful street life.

Quito Saturday, Day 2

Quito is a city of startling contrasts where thousands of years of Indian tradition are interwoven with imported Catholicism, the Spanish language and European culture. Quaint family-owned shops and open-air markets are but steps away from gleaming skyscrapers and imposing cathedrals.

built in the ornate Spanish Baroque style favored by the Conquistadors. On the city tour, visit the Museo Nacional del Banco Central's Archaeological and Golden Courts. Continue to the heart of Quito—a UNESCO World Heritage site—and see the Moorish-influenced Catedral Metropolitana and La Compañía de Jesus, renowned for its lavish interiors decorated with an estimated seven tons of gold leaf.

This evening, enjoy a private welcome reception in the hotel.

Quito (Otavalo/Peguche) Sunday, Day 3

Travel through the scenic countryside past dramatic mountains and valleys to the ancient town of Otavalo, acclaimed for its finely woven sheep and alpaca wool. Walk through the main square to see San Luis Church and the bustling fruit and vegetable market. Continue to Otavalo's legendary "silent market," where merchants bargain quietly with customers in a colorful labyrinth of stalls and shops overflowing with beautifully crafted tapestries and clothing.

Stop in the village of Peguche to see artisans engaged in the textile crafts of their ancestors. Enjoy a private lunch in a beautifully restored 17th-century Andean estate.

Quito/Baltra, Galápagos Islands/Santa Cruz Monday, Day 4

Fly to the small Galápagos island of Baltra. Embark the *M.V. SANTA CRUZ* for lunch and your first briefing by the ship's naturalists.

On Bartolomé Island, see the famous Pinnacle Rock and watch reef sharks and skates swimming in the crystal clear water.

Cruise to Santa Cruz Island. Its alluring white beaches, giant prickly pear cactus forests, vibrantly colored flamingos and prehistoric-looking iguanas make it an ideal introduction to the archipelago. Cruise aboard Zodiacs along beautiful mangrove-lined islets and seek out boobies, frigates and pelicans. Make a landing in the surf at Las Bachas beach, and trek to a small lagoon favored by elegant wading birds including black-necked stilts and greater flamingos.

*Please note that the *M.V. SANTA CRUZ*'s specific itinerary and cruise pattern is dependent on weather, sea conditions and Galápagos National Park Service regulations.*

Take photographs of a lifetime in the Galápagos, where wildlife allows humans to approach it up-close, unlike anywhere else on earth!

Look for the unusual mating “dance” of the magnificent frigate birds, one of the Galápagos Islands’ hallmark species.

Santiago **Tuesday, Day 5**

On Santiago Island, stroll along the glistening dark sands of Espumilla Beach, where a wide variety of birds and wildlife peacefully commingle. Walk inland through a mangrove forest, where Pacific green sea turtles are known to nest, to brackish lagoons that attract white-cheeked pintail ducks.

Later, in Puerto Egas at low tide, walk beside the best tide pools in the Galápagos. Look for land iguanas and marine iguanas—the world’s only seagoing iguanas—grazing on algae beds along the rocky shore left by ancient lava flows. Nearby, observe fur seals and sea lions swimming in the turquoise pools of the fur seal grotto.

Rábida/Bartolomé **Wednesday, Day 6**

Make a wet landing on the mesmerizing red sands of Rábida Island. Walk along the beach among sea lions and marine iguanas and see a variety of birds, including mockingbirds, yellow warblers and nine species of Darwin’s legendary finches. Continue inland to the island’s unique saltwater pond to search for its famous bright pink flamingos.

This afternoon, make a dry landing on the tiny isle of Bartolomé and enjoy unsurpassed views of the surrounding lunar-like craters, mangroves and lava formations from the top of Cerro Bartolomé. Particularly impressive is Pinnacle Rock, a jagged tower of honeycombed stone that soars 225 feet into the air. Below, the island’s pristine beaches and sparkling clear water are ideal for swimming and watching the antics of tropical penguins. Also, search out dolphins, manta rays and an abundance of colorful sea creatures from the comfort of a glass-bottom boat.

Genovesa **Thursday, Day 7**

The remote northern island of Genovesa offers some of the best bird-watching in the archipelago and is home to the world’s largest colony of red-footed boobies. Following a dry landing at Prince Phillip’s Steps, trek up to a broad lava flow overlooking the sea. The masked faces of Nazca boobies greet you at the top

of the cliff, while flurries of storm petrels—the smallest of the seabirds—swirl above.

Cruise into Darwin Bay, inhabited by fur seals, hammerhead sharks and swallow-tailed gulls, and make a wet landing for a more leisurely stroll on a coral beach. Among the prickly pear cacti, saltbush and red mangroves, look for magnificent frigates, yellow-crowned night herons and four types of Darwin’s finches.

San Cristóbal/ Guayaquil, Ecuador **Friday, Day 8**

Arrive this morning on the shores of San Cristóbal, the first Galápagos island Darwin landed on in 1835. Transfer to the airport and fly to Guayaquil. Invigorated by trade with the Far East, this city became one of the wealthiest on the continent, a status that made it a favored haven for English and Dutch buccaneers in the 17th and 18th centuries. See the historic markets and shipyards; visit famous Bolivar Park, where playful iguanas scamper through its grounds; and stroll past historical and cultural monuments along the Malecón 2000 promenade overlooking the Guayas River. Check into the deluxe HILTON COLÓN HOTEL and join your traveling companions for a farewell reception.

The graceful Pacific green sea turtle is the only marine turtle to nest regularly on Galápagos beaches.

Guayaquil/U.S. **Saturday, Day 9**

Continue on the Machu Picchu Post-Tour Option or transfer to the airport for your return flight to the U.S.

Machu Picchu and the Sacred Valley Post-Tour Option

Enjoy a once-in-a-lifetime experience featuring Machu Picchu, the “Lost City of the Incas;” the Incan and Colonial traditions of Cuzco; and the lush Sacred Valley.

Located high in the Peruvian Andes, Machu Picchu was obscured from humankind for 400 years until Yale Professor Hiram Bingham literally stumbled upon it in 1911. Nearly a century of extensive research and study still has not revealed the secrets of its purpose, its residents or its abandonment; nevertheless, this UNESCO World Heritage site has been carefully excavated and preserved.

The rushing Urubamba River flows through the beautiful Sacred Valley, where ancient engineering marvels, such as the fortress of Ollantaytambo, stand as lasting testimony to the powerful and far-reaching Inca empire. Here, village craftsmen employ age-old techniques to weave intricate tapestries and sculpt colorful pottery.

In the historic Inca capital of Cuzco, a UNESCO World Heritage site, grand Baroque- and Renaissance-style churches and the Incan stone fortress of Sacsayhuamán provide a fascinating mix of pre-Columbian and Colonial influences.
