The Office of Institutional Research is pleased to present the **Boston College Fact Book, 2007-2008**, the 35<sup>th</sup> edition of this publication.

This book is intended as a single, readily accessible, consistent source of information about the Boston College community, its resources, and its operations. It is a summary of institutional data gathered from many areas of the University, compiled to capture the 2006-2007 fiscal and academic years, and the fall semester of the 2007-2008 academic year. Where appropriate, multiple years of data are provided for historical perspective. While not all-encompassing, the Fact Book does provide pertinent facts and figures valuable to administrators, faculty, staff, and students alike.

Sincere appreciation is extended to all contributors who offered their time and expertise to maintain the greatest possible accuracy and standardization of the data. We are indebted to Institutional Research staff members Carol Pepin, Daniel Riehs, and Margaret Ryan for their assistance and input.

A concerted effort is put forth to make this publication an increasingly more useful reference, at the same time enhancing your understanding of the scope and progress of the University. We welcome your comments and suggestions toward these goals.

This fact book, as well as those from previous years, is available in its entirety at <http://www.bc.edu/factbook>.

## THE MISSION OF BOSTON COLLEGE

---

Strengthened by more than a century and a quarter of dedication to academic excellence, Boston College commits itself to the highest standards of teaching and research in undergraduate, graduate, and professional programs and to the pursuit of a just society through its own accomplishments, the work of its faculty and staff, and the achievements of its graduates. It seeks both to advance its place among the nation's finest universities and to bring to the company of its distinguished peers and to contemporary society the richness of the Catholic intellectual ideal of a mutually illuminating relationship between religious faith and free intellectual inquiry.

Boston College draws inspiration for its academic and societal mission from its distinctive religious tradition. As a Catholic and Jesuit university, it is rooted in a world view that encounters God in all creation and through all human activity, especially in the search for truth in every discipline, in the desire to learn, and in the call to live justly together. In this spirit, the University regards the contribution of different religious traditions and value systems as essential to the fullness of its intellectual life and to the continuous development of its distinctive intellectual heritage.

Boston College pursues this distinctive mission by serving society in three ways:

- by fostering the rigorous intellectual development and the religious, ethical, and personal formation of its undergraduate, graduate, and professional students in order to prepare them for citizenship, service, and leadership in a global society;
- by producing nationally and internationally significant research that advances insight and understanding, thereby both enriching culture and addressing important societal needs; and
- by committing itself to advance the dialogue between religious belief and other formative elements of culture through the intellectual inquiry, teaching and learning, and the community life that form the University.

Boston College fulfills this mission with a deep concern for all members of its community, with a recognition of the important contribution a diverse student body, faculty, and staff can offer, with a firm commitment to academic freedom, and with a determination to exercise careful stewardship of its resources in pursuit of its academic goals.

## A BRIEF HISTORY OF BOSTON COLLEGE

Boston College was founded by the Society of Jesus in 1863, and is one of twenty-eight Jesuit colleges and universities in the United States. With three teachers and twenty-two students, the school opened its doors on September 5, 1864. At the outset and for more than seven decades of its first century, the College remained an exclusively liberal arts institution with emphasis on the Greek and Latin classics, English and modern languages, and with more attention to philosophy than to the physical or social sciences. Religion, of course, had its place in the classroom as well as in the nonacademic life of the College.

Originally located on Harrison Avenue in the South End of Boston, where it shared quarters with the Boston College High School, the College outgrew its urban setting toward the end of its first fifty years. A new location was selected in Chestnut Hill, then almost rural, and four parcels of land were acquired in 1907. A design competition for the development of the campus was won by the firm of Maginnis and Walsh, and ground was broken on June 19, 1909, for the construction of Gasson Hall. It is located on the site of the Lawrence farmhouse, in the center of the original tract of land purchased by Father Gasson, and is built largely of stone taken from the surrounding property.

Later purchases doubled the size of the property, with the addition of the upper campus in 1941, and the lower campus with the acquisition of the Lawrence Basin and adjoining land in 1949. In 1974, Boston College acquired Newton College of the Sacred Heart, a mile-and-a-half from the main campus. With fifteen buildings standing on forty acres, it is now the site of the Boston College Law School and residence halls housing almost 900 freshmen.

Though incorporated as a university since its beginning, it was not until its second half-century that Boston College began to fill out the dimensions of its charter. The Summer Session was inaugurated in 1924; the Graduate School of Arts and Sciences in 1925; the Law School, 1929; the Evening College, 1929; the Graduate School of Social Work, 1936; the College of Business Administration, 1938. The latter, along with its Graduate School established in 1957, is now known as the Wallace E. Carroll School of Management. The Schools of Nursing and Education were founded in 1947 and 1952, respectively and are now known as the William F. Connell School of Nursing and the Carolyn A. and Peter S. Lynch School of Education.

The Graduate School of Arts and Sciences began programs at the doctoral level in 1952. Now, courses leading to the doctorate are offered by twelve Arts and Sciences departments. The Schools of Education and Nursing, the Carroll Graduate School of Management, and the Graduate School of Social Work also offer doctoral programs.

In 1927, Boston College conferred one earned bachelor's degree and fifteen Master's degrees on women through the Extension Division, the precursor of the Graduate School of Arts and Sciences, the Evening College, and the Summer Session. By 1970, all undergraduate programs had become coeducational. Today, women students comprise more than half of the University's enrollment.

In 1996, the Evening College became the College of Advancing Studies, offering a Master's degree as well as the bachelor's degree; in 2002, the College was renamed the Woods College of Advancing Studies. In July 1996, the University's longest presidency, 24 years, came to an end when Father J. Donald Monan became chancellor and was succeeded in the presidency by Father William P. Leahy.

During the decade of the nineties, the University completed several major construction projects, including the expansion and renovation of Higgins Hall, the updating of residence halls on the upper campus and Newton campus, and the construction of a new office building for faculty and administration on lower campus. These projects provided on-campus housing for more than 80% of the college undergraduates.

In recent years, major advances have also occurred in student selectivity. Between 1996 and 2006, freshman applications increased from 16,501 to 26,584, and the average SAT scores of entering freshmen increased from 1,248 to 1,325. During this same period, the dollar amount of sponsored project awards received by the University more than doubled. Since 1996, the University's endowment has grown from \$590 million to approximately \$1.5 billion, the result of successful investment strategies and effective fund-raising campaigns.

A milestone in the history of the University took place on June 29, 2004, when Boston College acquired 43 acres of land and five buildings in Brighton previously owned by the Archdiocese of Boston. In November 2004, St. Stephen's Priory in Dover, encompassing 78.5 acres of land, was purchased by Boston College from the Dominican Fathers. BC later signed an agreement with the Archdiocese for the purchase of an additional 18 acres of land on the Brighton campus. After two years of preparation, on December 5, 2007, BC unveiled its 10-year, \$1.6 billion expansion plan, including the addition of up to 100 new faculty members, a recreation complex, more than 600 beds for undergraduates, a fine arts district, and new athletic fields and facilities. The university will also create a new School of Theology and Ministry, bringing the Weston Jesuit School of Theology onto the BC campus.

## THE JESUIT COMMUNITY AT BOSTON COLLEGE

With 103 members, the Jesuit Community at Boston College is one of the larger communities in the Society of Jesus. Fifty-four Jesuits serve in the University as members of the administration, faculty, or staff, working either full-time or part-time. A number of Jesuits in the community also offer Ignatian retreats and spiritual direction to faculty, staff, and students. There are 23 Jesuits from more than 17 different countries around the world who are studying for graduate degrees at the University or who are here as visiting scholars.

The main community residence is St. Mary's Hall, but there are also five smaller communities around the perimeter of the campus. Seven Jesuits live in the student residence halls and Jesuits who staff St. Ignatius Parish are also part of the Boston College Jesuit Community. For further details, including a list of courses taught by Jesuits at Boston College, see the Jesuit Community Web page at <http://fmwww.bc.edu/SJ/>.

## DIGITAL LIBRARY SERVICES

### Quest: The Library Information System

Quest, the Libraries' web-based integrated system, provides convenient access to the Libraries' collections, digital resources, and services from [www.bc.edu/quest](http://www.bc.edu/quest). It offers a variety of methods for finding books, periodicals, media resources, government documents, microforms, newspapers, and electronic materials. Quest can easily be searched from any web browser, regardless of platform or location, 24 hours a day, seven days a week. Users can recall books checked out or request rush processing for a new book right from their desktop. Users can also initiate and track requests for document delivery and interlibrary loan transactions, and may renew materials that are currently charged to them. The web interface and expanded cataloging capabilities allow unprecedented access to thousands of web-accessible scholarly resources, to full text journals, and to digital collections of photographs and other material.

### Digital Resources

The Boston College Libraries offer access to a rich collection of electronic databases. The more than 300 databases include full text access to thousands of books and journals directly from the researcher's desktop. See the list of Online Databases on the Libraries' home page, [www.bc.edu/libraries](http://www.bc.edu/libraries), to get a sense of the range of resources. The list is arranged alphabetically and by subject. Databases range in coverage from very general to very specific and cover a wide range of research areas in the humanities, social sciences, sciences, health sciences, business law, and public affairs. Some must be used on-site.

An expanding number of links to electronic journals may also be found by selecting Electronic Journals from the Libraries' home page. The libraries have also introduced technologies that provide links between the databases and e-journal collections, <http://www.bc.edu/libraries/resources/databases/s-sfxfaq/>. Most databases available through the Boston College Libraries are restricted to the Boston College community. Your BC username and password are needed to access these databases from off campus.

The Libraries also support digital collections of special and rare materials such as the Thomas P. O'Neill, Jr. Photographs, the Liturgy and Life Artifacts collection, and the Boston Gas Company Photographs via the John J. Burns Library Rare Books and Special Collections web page:

<http://www.bc.edu/libraries/centers/burns/resources/digitalcoll/>

Librarians offer classes in how to search databases effectively, by arrangement with professors, and also provide reference assistance at several service points and individual research consultations by appointment. See the list of Subject Specialists to make an appointment for advanced assistance in your discipline:

<http://www.bc.edu/libraries/services/ref-instruc/s-subjectspec/> and a list of subject guides to help you begin your research:

<http://www.bc.edu/libraries/research/guides/>.

### A Digital Institutional Repository for Boston College

The eScholarship@BC Digital Repository is a central online system whose goal is to preserve the University's scholarly output. The repository manages submission, access, distribution, and preservation of scholarly information in digital formats. The repository maximizes research visibility, influence, and benefit by encouraging Boston College authors to archive and distribute online both unpublished work and peer-reviewed publications in an open-access environment. eScholarship@BC includes scholarly peer-reviewed electronic journals, archived peer-reviewed articles, conference proceedings, working

papers, dissertations and theses, conference webcasts, and like scholarship.

### United States Government Publications

O'Neill Library at Boston College is a member of the Federal Depository Libraries system. As a member of the depository system, O'Neill Library receives government documents in print, microfiche, and electronic formats and makes them available to the general public, as well as to Boston College students, staff and faculty. Patrons can locate government documents in Quest, the library catalog, and via specialized indexes.

Many government publications are also available via the Internet.

Further information may be found at

<http://www.bc.edu/libraries/centers/govdocs/>. Questions about the O'Neill collection and the availability of government documents should be directed to the Reference staff in O'Neill Library.

### Media Center

The Media Center on the second floor of the O'Neill Library houses information in many non-print formats: videocassettes, DVDs, laser discs, compact discs, audiocassettes, LPs, and CD-ROMs. Patrons within the Center, in individual carrels, may use all media. Faculty may conduct classes using media in O'Neill Room 211. There is a Preview Room where faculty and/or students may meet in small groups for discussing or previewing media materials used in coursework. Please contact the Media Center in advance to reserve rooms or media materials. A portion of the collection is restricted to BC faculty loan only. Two-day loan of non-restricted videos and DVDs is permitted to members of the BC community.

### Interlibrary Loan

An Interlibrary Loan Service is offered to students, faculty, administrators, and staff to obtain research materials not available in the Boston College Libraries. Books, journal articles, microfilm, theses, and government documents may be borrowed from other libraries. Except for unusual items, the waiting period is from one to three weeks; some materials arrive within a day or two. Requests are made by using forms in the *Your BC Interlibrary Loan Account* function of Quest or the *Find It* option that appears in many online databases.

### Boston Library Consortium

The Boston College Libraries are part of the Boston Library Consortium, a group of area libraries which includes Brandeis University, Boston University, Brown University, Massachusetts Institute of Technology, Northeastern University, Tufts University, University of Massachusetts System, University of New Hampshire, Wellesley College, Williams College, as well as the State Library of Massachusetts, the Boston Public Library, and the Marine Biological Laboratory at Woods Hole. Faculty and students may apply for a Consortium borrower's card at the Reference Department in O'Neill Library in order to borrow directly from the member libraries. Ask at the O'Neill Reference Desk for more information about the Consortium.

### Association of Research Libraries

ARL is a nonprofit organization of 123 research libraries at comprehensive, research-extensive institutions in the U.S. and Canada that share similar research missions, aspirations, and achievements. It is an important and distinctive association because of its membership and the nature of the institutions represented. ARL member libraries make up a large portion of the academic and research library marketplace, spending more than one billion dollars every year on library materials. Boston College was invited to become a member of ARL in 2000.

## JOHN J. BURNS LIBRARY OF RARE BOOKS AND SPECIAL COLLECTIONS

The University's special collections, including the University's Archives, are housed in the Honorable John J. Burns Library, located in the Bapst Library Building, north entrance. These distinguished and varied collections speak eloquently of the University's commitment to the preservation and dissemination of human knowledge. The Burns Library is home to more than 200,000 volumes, some 15,000,000 manuscripts, and important collections of architectural records, maps, art works, photographs, films, prints, artifacts, and ephemera. These materials are housed in the climate-controlled, secure environment of Burns either because of their rarity or because of their importance as part of a special collection. While treated with special care, these resources are available for use at Burns to all qualified students, faculty, and researchers. Indeed, their use is strongly encouraged and visitors to Burns are always welcome, either simply to browse or to make use of the collections.

Though its collections cover virtually the entire spectrum of human knowledge, the Burns Library has achieved international recognition in several specific areas of research, most notably: Irish studies; British Catholic authors; Jesuitana; Fine Print; Catholic liturgy and life in America, 1925-1975; Boston history; the Caribbean, especially Jamaica; Balkan studies; Nursing; and Congressional archives. It has also won acclaim for significant holdings on American detective fiction, Thomas Merton, Japanese prints, Colonial and early Republic Protestantism, and banking. To learn more about specific holdings in Burns, please see [www.bc.edu/burns](http://www.bc.edu/burns).

The John J Burns Library is open Monday through Friday, 9:00 a.m. - 5:00 p.m. The Library is closed on all University holidays. Visitors are always welcome and are encouraged to view the permanent exhibition areas of the Library. Guided tours are also available upon request. Patrons using the collections must do so in the Burns Reading Room where specialized reference and copy services are provided. Burns sponsors an active exhibits and lecture series program.

## THE LANGUAGE LABORATORY

The Boston College Language Laboratory, serving all the language departments, students of English as a foreign language, and the Boston College community at large, is located in Lyons 313. In addition to its 32 listening/recording stations and teacher console, the facility includes 20 workstations (16 Macs, 4 Dells), 4 Mac wireless laptops, 2 laser printers, a Web server, a materials development workstation, 2 TV/video/DVD viewing rooms, 2 individual carrels for

TV/videocassette/DVD viewing, a CD listening station, and portable audio and video equipment. The Lab's media collection and print materials directly support and/or supplement the curriculum requirements in international language, literature, and music.

The Lab's collection is designed to assist users in the acquisition and maintenance of aural comprehension, oral and written proficiency, and cultural awareness. Prominent among the Lab's offerings that directly address these goals are international news broadcasts and other television programming available through the Boston College cable television network and made accessible to lab users via EagleNET connections and/or via videotaped off-air recordings. These live or near-live broadcasts from around the world provide a timely resource for linguistic and cultural information in a wide variety of languages.

Students (undergraduate and graduate), faculty, and BC community members who wish to use the Language Laboratory facility and its collection will find the Laboratory staff available during the day, in the evening, and on weekends to assist them in the operation of equipment and in the selection of appropriate materials for their course-related or personal language needs. Digitized audio programs from the Lab's collection are also available on the Boston College network 24 hours/day, 7 days/week, to students officially enrolled in courses in which these programs have been adopted as curricular material. For more information about the Language Laboratory, visit its Web site at <http://www.bc.edu/langlab>.

## UNIVERSITY ARCHIVES

The University archives, maintained by the John J. Burns Library, are the non-current Boston College records having permanent, historical, legal, fiscal or administrative value. The primary mission of the University Archives is to identify, collect, reserve, arrange, describe and make available records documenting the history of administrative and academic units and the activities of Boston College faculty, staff, and students. The University Archives is arranged in a series of Record Groups and Subgroups reflecting on the University's reporting structure. These Record Groups are listed on the Burns Library website. Aside from the President's Office Records prior to 1969, Boston College office records are closed to researchers without written permission of the originating office. In most cases, Faculty and Alumni Papers are open for research. There are no restrictions on Boston College publications.

## INFORMATION TECHNOLOGY SERVICES

Information Technology Services manages Boston College's computing, communications, and electronic information resources and, working with key constituencies throughout the University, provides the leadership to shape future technology plans and strategies to meet the mission and goals of the University. The highly integrated Boston College campus technology environment provides voice, data, and cable television connections to classrooms, offices, and residence hall rooms. IT staff work to keep up with rapidly changing applications and technology infrastructure, providing faculty, staff, and students with the tools and technologies needed to compete and succeed. As the development of Web-enabled services matures, BC continues to provide new Web-based online services, such as enhanced email services and personal information management options.

## CONNORS FAMILY LEARNING CENTER

The Connors Family Learning Center is a comprehensive, inclusive resource serving all of the University's students and faculty. The mission of the Center is to enhance teaching and learning across the University. One of the CFLC's three professional staff members assists students with learning disabilities, helping to ensure their academic success at Boston College. The Center also sponsors seminars, workshops, and discussions for faculty and graduate teaching fellows on strategies for successful teaching and learning. To address the needs of the great majority of Boston College students, the Center provides tutoring for more than 60 courses, including calculus, statistics, biology, chemistry, nursing, accounting, classical and foreign languages, English as a Second Language, and writing (All CFLC tutors are recommended and approved by their relevant academic departments; most are graduate students, juniors, or seniors.). Tutoring and all other academic support services are free of charge to all Boston College students and instructors. The CFLC, which opened its doors in September 1991, is located on the second floor of O'Neill Library in the Eileen M. and John M. Connors, Jr. Learning Center.

## THE McMULLEN MUSEUM OF ART

The Charles S. and Isabella V. McMullen Museum of Art aims to increase understanding of the visual arts, to encourage inquiry, and to enrich learning through the display of a notable permanent collection and special exhibitions of international importance. The Museum occupies two floors of Devlin Hall. Spacious galleries with movable walls provide flexible exhibition spaces that rival venues in larger museums. The Museum maintains an active special exhibition program, bringing outstanding works from around the world to Chestnut Hill. The Museum organizes public lectures, symposia, workshops, film series, and gallery tours to accompany current exhibitions. Begun in the nineteenth century, the University's permanent collection contains works that span the history of art from Europe, Asia, and the Americas. Outstanding among them are Gothic and Baroque tapestries, Italian paintings of the sixteenth and seventeenth centuries, American landscape paintings of the nineteenth and early twentieth centuries, and Japanese prints. The collection is displayed on a rotating basis in the Museum's galleries. In keeping with the teaching mission of a university museum, accompanying text explains the significance of each work in its historical context and addresses questions from the current scholarship.
