## Foreword

The *Boston College Fact Book* is a summary of significant statistics gathered from various sources throughout the University. Once again, we wish to extend sincere thanks and appreciation for the excellent cooperation and assistance received from these many sources.

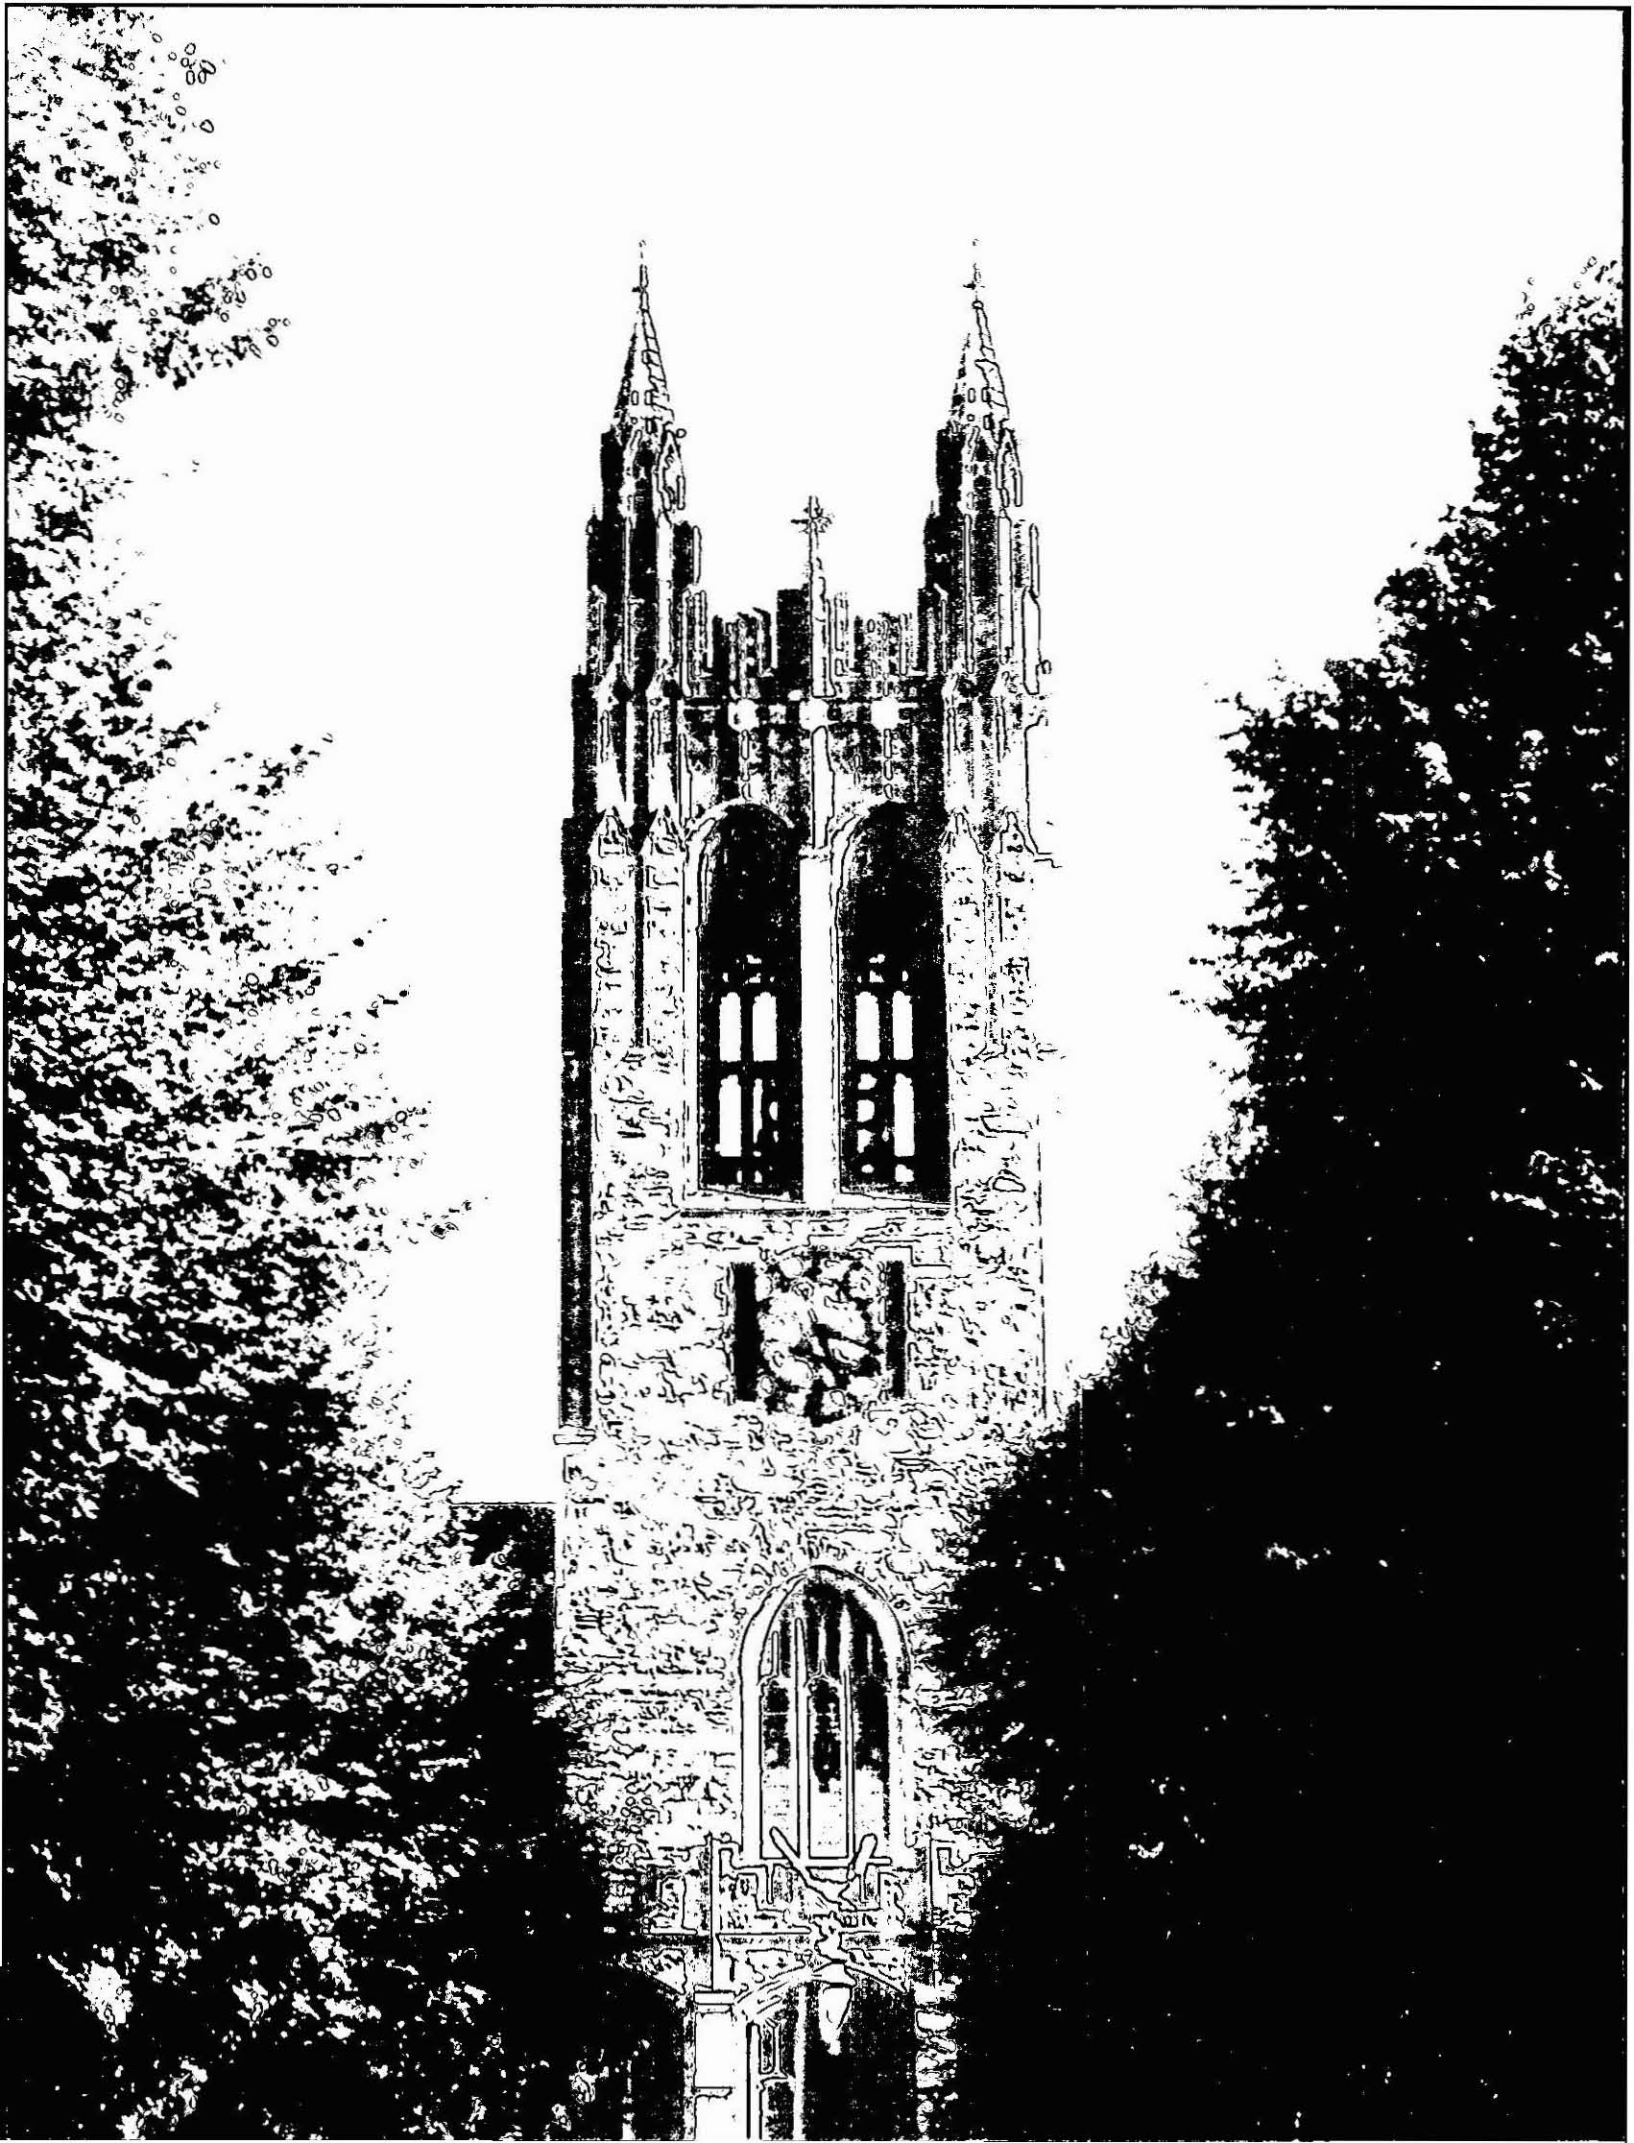

The purpose of the *Fact Book* is to produce a single-source publication and reference document touching upon and integrating all aspects of the institution's people and its operations. We do wish to point out to all users that the information presented herein was compiled at a specific time — July-September, 1989 — to reflect the Academic Year 1988-1989, as well as the most current enrollment statistics for 1989-1990.

The majority of the information is extracted from management reports produced on a regular basis by the various source offices. When reviewing the figures presented we advise you to always note the time frame referenced in the individual tables, and to contact responsible offices should you have further questions.

With this 18th edition, we have introduced some changes in content and design. We welcome your comments on the changes and your suggestions for additional information that might be presented or improvements in the way information is presented.

## The University Objective

As a university established by the Society of Jesus, Boston College is devoted to the moral and intellectual education of its students and to the general advancement of human understanding. It is founded on the belief in God the Creator and Redeemer who, by His example and teaching, and by the unique natural faculties He has bestowed upon mankind, provides for the guidance of human life. Its Jesuit faculty, so closely associated with both the religious and humanistic aspects of the University from the beginning, particularly manifests its dedication to this comprehensive quest for truth.

It is the purpose of Boston College to cultivate the attitudes and to provide the means essential to achieve:

1. respect for truth as the primary concern of the academic community;
2. freedom of inquiry as indispensable for attaining truth;
3. a faculty of competent scholars and teachers to direct the process of student development;
4. a curriculum that presents the content and the spirit of the liberal arts, in conjunction with academic specialization and professional education;
5. an intellectual reflection on religious experience and a respect for its value within the educational enterprise.

Boston College welcomes to its community all persons, regardless of race, creed, color, sex, age, or handicap who respect its vision and desire to share in fulfilling its purpose.

## A Brief History of Boston College

Boston College was founded by the Society of Jesus in 1863, and is one of twenty-eight Jesuit colleges and universities in the United States. With three teachers and twenty-two students, the school opened its doors on September 5, 1864. As long as it remained a small liberal arts college, the faculty was predominantly Jesuit, but today's full-time faculty is comprised of 30 Jesuits and 537 laymen and women. Part-time faculty positions are held by 19 Jesuits, in addition to 14 Jesuit members of the university administration.

Originally located on Harrison Avenue in the South End of Boston, where it shared quarters with the Boston College High School, the College outgrew its urban setting toward

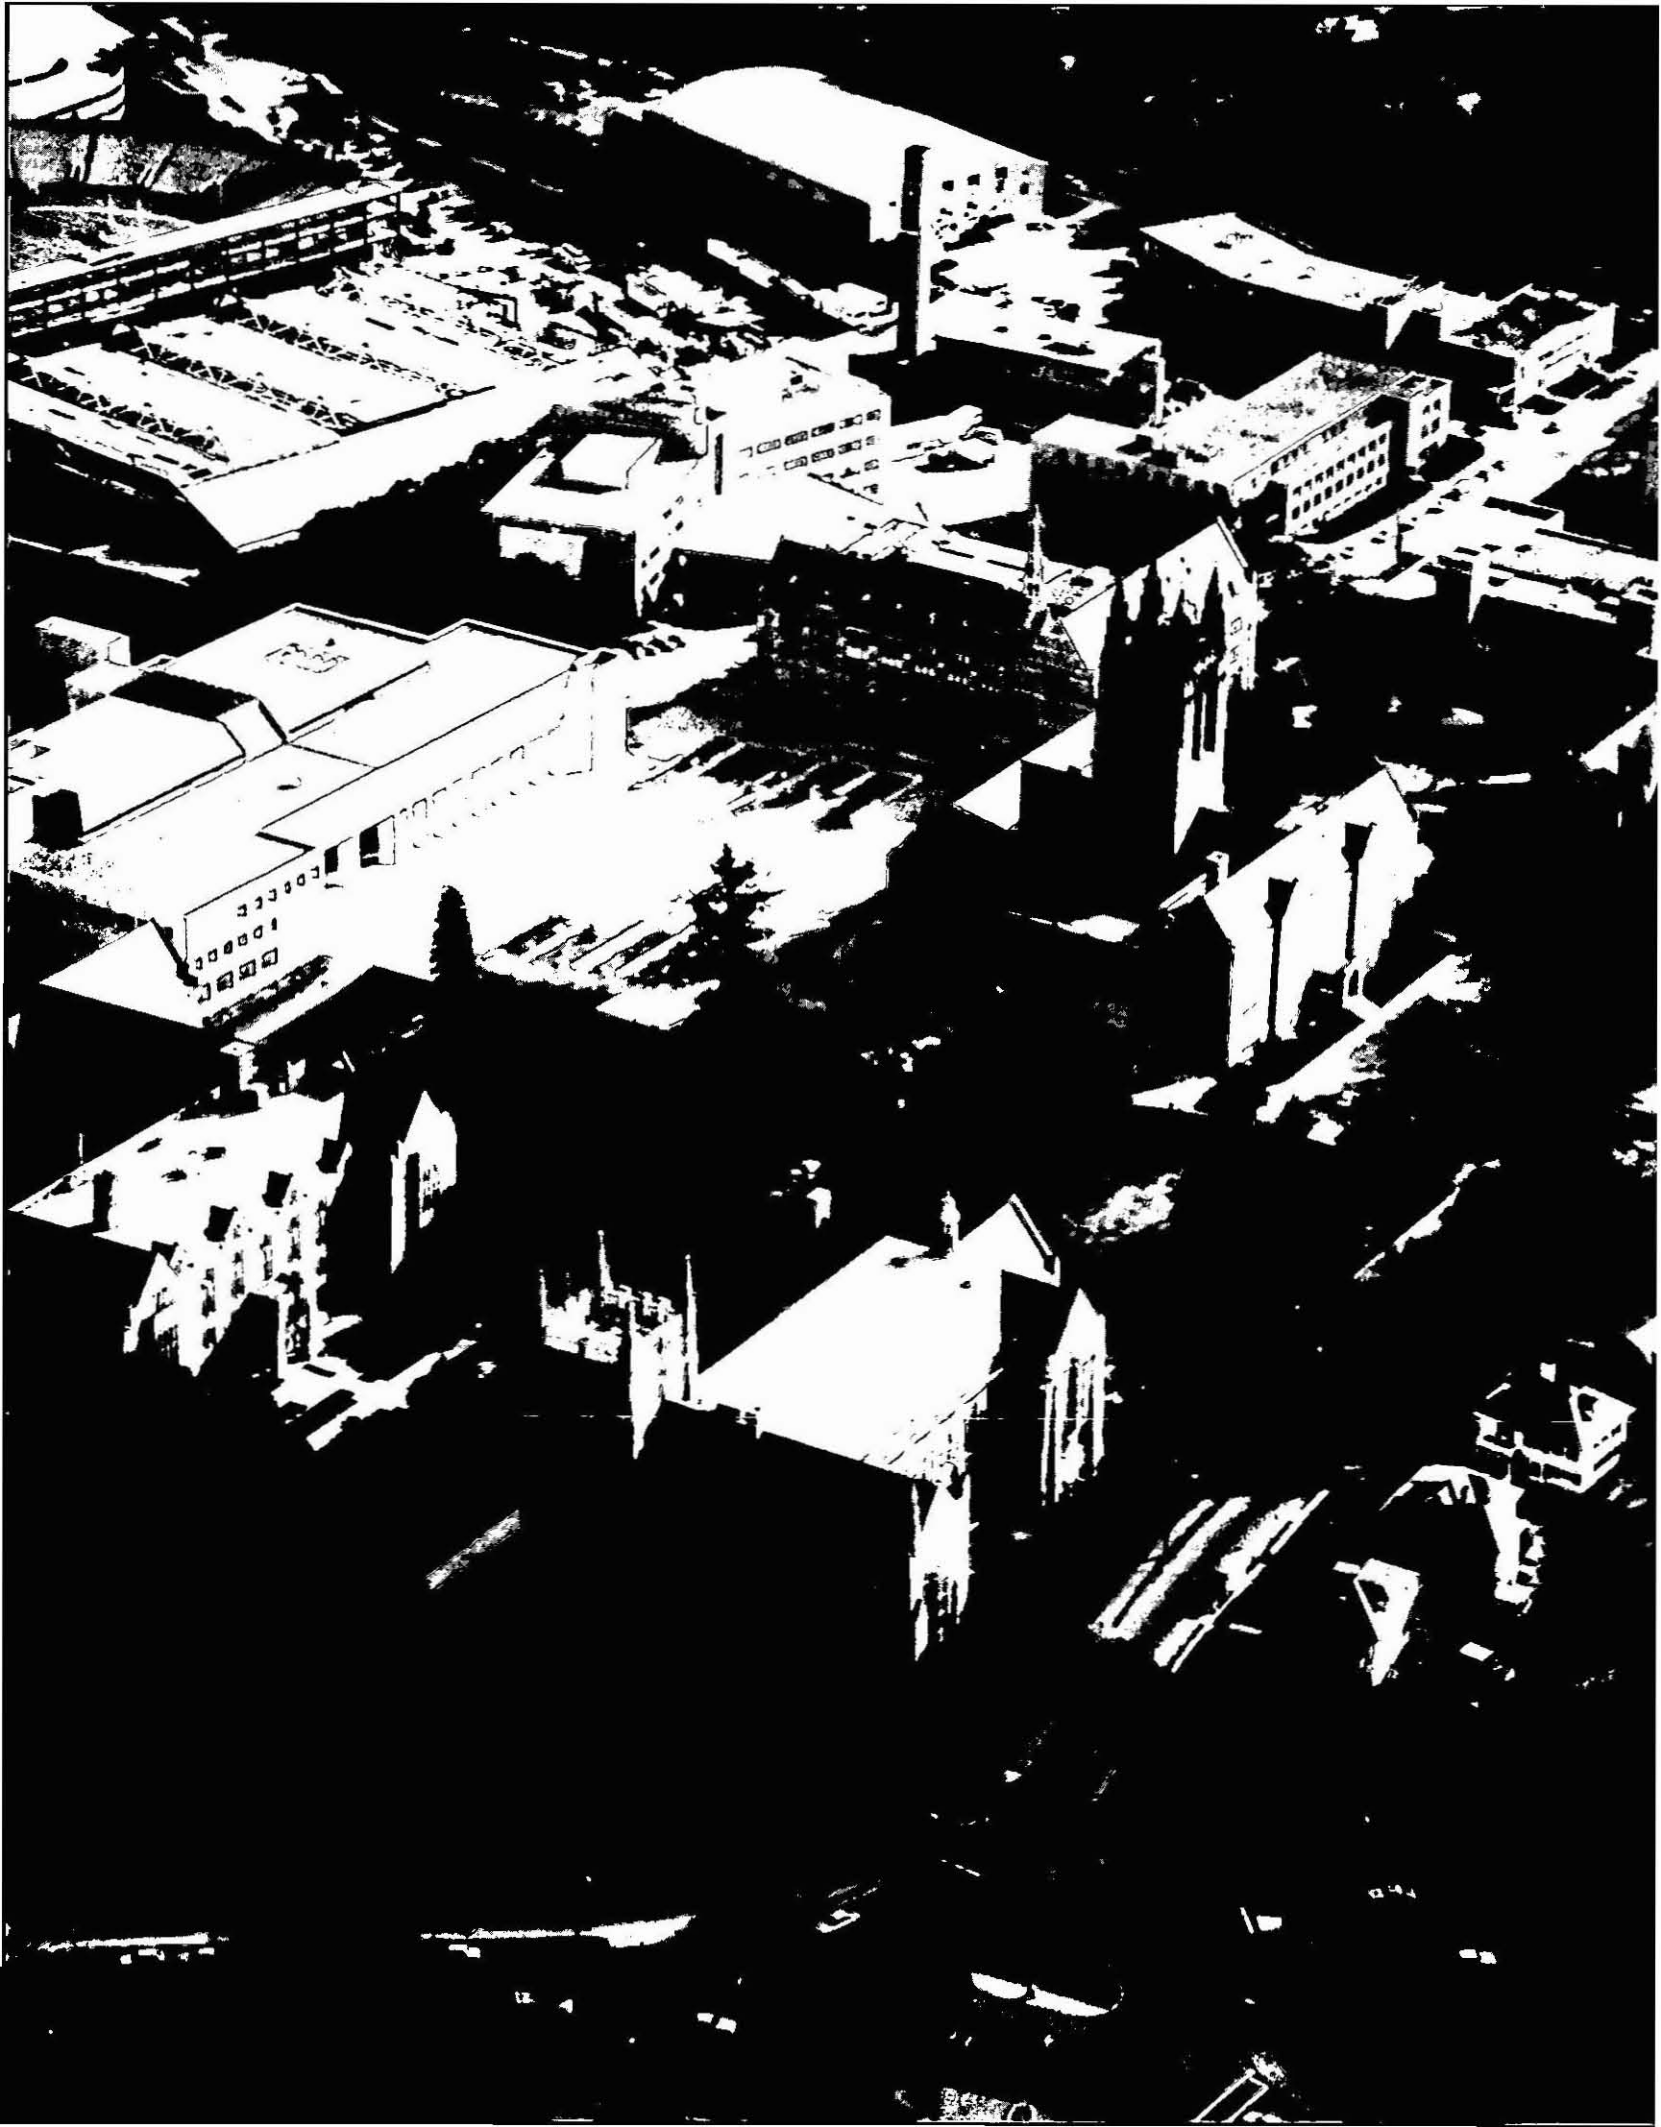

the end of its first fifty years. A new location was selected in Chestnut Hill, then almost rural, and four parcels of land were acquired in 1907. A design competition for the development of the campus was won by the firm of Maginnis and Walsh, and ground was broken on June 19, 1909, for the construction of Gasson Hall. It is located on the site of the Lawrence farmhouse, in the center of the original tract of land purchased by Father Gasson, and is built largely of stone taken from a quarry which occupied part of the sites of Devlin, Higgins, and Cushing Halls. Because of its historic value, Gasson was completely restored in 1976 in order to preserve its familiar Gothic spires for future generations of students and alumni.

Later purchases doubled the size of the property, with the addition of the upper campus in 1941, and the lower campus with the purchase of the Lawrence Basin and adjoining land in 1949. In 1974 Boston College acquired Newton College of the Sacred Heart, a mile-and-a-half from the main campus. With fifteen buildings standing on forty acres, it is now the site of the Boston College Law School, as well as several academic departments, and dormitories housing over 800 students, primarily freshmen.

Though incorporated as a University since its beginning, it was not until its second half-century that Boston College began to fill out the dimensions of its University charter. The Summer Session was inaugurated in 1924; the Graduate School of Arts and Sciences in 1925; the Law School, 1929; the Evening College, 1929; the Graduate School of Social Work, 1936; the College of Business Administration, 1938. The latter, along with its Graduate School established in 1957, is now known as The Wallace E. Carroll School of Management. The Schools of Nursing and Education were founded in 1947 and 1952, respectively. Weston Observatory, founded in 1928, was accepted as a Department of Boston College in 1947, offering courses in geophysics and geology.

In 1927 Boston College conferred one earned bachelor's degree and fifteen master's degrees on women through the Extension Division, the precursor of the Graduate School of Arts and Sciences, the Evening College, and the Summer Session. By 1970 all undergraduate programs had become coeducational. Today women students comprise more than half of the University's enrollment, and are well over 40 percent of a total alumni body of approximately 96,000.

Now the fourth largest private university in New England, with full- and part-time enrollment of over 14,000, Boston College consists of eleven schools, colleges, and institutes offering thirteen degree programs and one certification program.

<sup>1</sup>This statistic includes regular university scholarships and grants (through the operating budget), faculty kin tuition remission, minority scholarships, athletic grants, Jesuit Reduction, Alumni Association Scholarships, and endowed monies for scholarships.

<sup>2</sup>State scholarship funds to students from Massachusetts, Vermont, Connecticut, New Jersey, Pennsylvania, Rhode Island, Maryland, Maine, New Hampshire; Gilbert Grants, Herter Scholarships, and Commonwealth Scholar Awards.

<sup>3</sup>Pell Grant eligibility is determined directly by the Federal Government.

<sup>4</sup>These loan funds (formerly called "National Direct Student Loans") are obtained by Federal Government contributions, Boston College contributions, and collections of previous loans awarded.

<sup>5</sup>This is a duplicated total since some students receive more than one type of aid.

Note: In an effort to minimize statistical detail, the above data does not include Boston College graduate student assistance (approximately \$4.5 million in 1988-89) administered by the various schools and departments. Also excluded are the Nursing Loan Program (\$138,303 in 1988-89), a variety of government fellowships or scholarships from fraternal organizations and clubs (\$1,491,479 in 1988-89), and Higher Education Loans processed by the Financial Aid Office and disbursed by banks (\$15,930,384 in 1988-89), all of which are open to both undergraduate and graduate students. (In addition, the University processed parental loans totaling \$4,440,211 from banks and the Massachusetts Education Loan Authority.)

## Special Library Services

### Computer Search Service

The Boston College Libraries offer a full range of automated search capabilities. Several hundred databases may be accessed on-line for the retrieval of bibliographic information, text, and statistical information. A researcher may plan the search strategy with a reference librarian and have the librarian perform the search, or the researcher may choose from among a smaller number of databases and, after training, perform the search himself/herself during evening and weekend hours for a lesser fee.

Also available for searching, at no cost, are several databases on CD-ROM, some of which have been networked in a state-of-the-art installation to permit multiple users to share databases. New databases are added regularly. Instruction is available on a regular basis from the Reference Department.

The Law School Library has on-line access to LEXIS and WESTLAW as well as other databases. Access to some of these files may be limited by contract to members of the Law School community.

The Boston College Libraries facilitate access to many computerized databases in business, economics, and the social sciences on magnetic tape. The tapes are purchased by the Libraries and are housed in the computing facility.

Contact the Reference Department for more information, and to arrange for demonstrations, workshops, or presentations to classes or departments.

### Automated Catalog

The Boston College Libraries have an automated on-line catalog which provides access to over half-a-million bibliographical records. The catalog may be searched by author, title, subject, call-number, or keyword in subject headings and titles from terminals in the Libraries and other locations on campus.

### Interlibrary Loan

The Interlibrary Loan Service is offered to students, faculty, administrators, and staff to facilitate obtaining materials not available in the Boston College Libraries. Books, photocopies of journal articles, microfilm, theses, and government documents may be borrowed from other libraries. Except for unusual items, the waiting period is from one to four weeks; for anyone willing to use the material at the holding library, a computerized system at

the reference desk will provide locations. Request forms and further information are available from the Interlibrary Loan staff in each library.

### Boston Library Consortium

The library is a member of the Boston Library Consortium, a group of area libraries which includes Brandeis, Boston University, Tufts, Wellesley, Northeastern, MIT, Massachusetts State Library, Boston Public Library, and the University of Massachusetts System. Faculty and graduate students may apply for a Consortium borrower's card at the Reference Department in the O'Neill Library. The Consortium maintains a central office at the Boston Public Library. Further information may be found in the User Guide and the Consortium Handbook, available in all libraries.

### United States Government Publications

In 1964, Boston College was designated as one of the Federal Depository Libraries for this congressional district. This status entitles the O'Neill Library to receive, on a selective basis, United States government publications at no cost with the stipulation that they be made available to the general public. Most of the material circulates in the same manner as books. Inquiries related to the use of government documents should be directed to the Government Documents Department on the first floor of the O'Neill Library.

### Media Department

The Media Department on the second floor of the O'Neill Library houses information in many formats — videocassettes, videodiscs, 16mm films, phonodiscs, audiocassettes, compact discs, sound filmstrips, and slides. All materials may be used by patrons in individual carrels or, when accompanied by a faculty member, in meeting rooms. Loans are restricted to BC faculty members, administrators, and librarians. The Department collects nonprint materials in all subject areas within the University's teaching and research interests.

### New England Library Information Network/OCLC

Through membership in the New England Library Information Network (NELINET), our users have on-line access to publishing, cataloging, and interlibrary loan location information from the data bank of OCLC, Inc. which contains over 18 million bibliographic records from the Library of Congress and from 4,000 other libraries in North America.

The University Archives contain the office records and documents of the various University offices, academic and otherwise, copies of all University publications, including student publications, movie footage of Boston College football, some audiovisual materials, and tape recordings of the University Lecture Series and other significant events. A significant collection of photographs documents the pictorial history of Boston College. Alumni, faculty, and Jesuit records are also preserved. In addition, the Archives are the repository for the documents of Newton College of the Sacred Heart (1946-1975); The Jesuit Education Association (1934-1970); the Catholic International Education Office (1952-1976); and the documents of the Jesuit Community of Boston College (1863- ).
